April 3, 1990

REMARKS BY THE PRESIDENT
AT TREE PLANTING CEREMONY

Washington and Alabama Street Park
Indianapolis, Indiana

12:07 P.M. EST

THE PRESIDENT: Well, thank you all very much. And Senator Lugar and Senator Coats; the Governor of the state, Governor Evan Bayh; Mayor Hudnut; Director Strong; and distinguished guests and all of you -- ladies and gentlemen, freezing out there on this spring day. I'm just delighted to be here, "back home in Indiana" again -- (applause) -- and as the banner says, to plant "Trees for Tomorrow" that will benefit our nation and its kids.

Not far from here is the hometown of a great former Indiana Senator who, in my view, has been an even greater Vice President. A man I trust, a Hoosier I rely on -- Dan Quayle. He is serving our nation very well, thank you. (Applause.)

And speaking of another friend, I'm sorry Bobby Knight isn't here. It wouldn't heart him to be around a kinder, gentler event like planting trees, but nevertheless -- (laughter) -- please give him my very best.

I'm glad to see all of you here in a city which, unlike some, can see the forest for the trees. And which intends this year to plant, as your Mayor just said -- my old friend, Bill Hudnut -- 30,000. Trees are in a larger sense the sanctuaries of mankind. Renewing and refreshing. And many of you have grown up reading the great Hoosier poet, James Whitcomb Riley, who often observed that the individual could enrich the tapestry of life.

Well, so it is with trees. They renew and restore the natural magic of our world. Think of how trees enhance our atmosphere -- Bill touched on it -- providing oxygen and absorbing carbon dioxide. And how they enhance the environment. For their beauty is breathtaking, and their bounty, breathgiving.

Ten weeks ago, I announced a new program to help preserve the wonderful legacy of our trees and, indeed, to help us conserve all natural resources. It's called "America the Beautiful." It will help plant the seeds of environmental stewardship. Not only by planting trees -- but through other steps, as well.

"America the Beautiful" calls for expanded land acquisition for our national parks, wildlife refuges, forests, and public lands. And funds to maintain and restore them. Our program is similar to your "Clean and Green Month" -- it seeks clean water, clean land, clean air. In that spirit, let me note that later today the Senate will consider our clean air legislation, the first rewrite of the Clean Air Act in over a decade. I am proud of this proposal to cut smog, acid rain, and toxic pollution -- to make America cleaner and safer. Tonight marks an historic vote. So I urge the Senate to act not merely for this generation, but for all generations to come.

Trees, of course, can help ensure clean air. Consider: one recent study showed that trees, much more than water, consume the carbon dioxide that is building up in our atmosphere. Research also

MORE

shows that trees can lower peak energy demand in urban areas by 20 to 40 percent. And that three well-placed trees around a home can reduce its air conditioning needs by 10 to 50 percent.

The record's clear: we need trees economically and environmentally. We also need them to lift our minds and our hearts. Trees are something we all can plant -- for while they can be fragile or sturdy, they are always precious. And the record shows that Indianapolis is not falling down on the job of planting trees. And neither will our administration.

That's why a key part of "America the Beautiful" is a national tree planting and forest improvement program to be administered by our Department of the Agriculture. This program involves both rural areas as well as urban tree planting programs in great cities like Indianapolis. And to fund it I have asked Congress for \$175 million for Fiscal Year '91 to plant one billion trees a year.

Two weeks ago, I also asked Congress to approve another step to protect the environment. We call it the National Tree Trust Act of 1990. It will foster the partnership between the public and private sector to plant trees all across America. Under this plan, we will designate a nonprofit foundation to receive a one-time federal grant to promote community tree planting and cultivation projects. It will also solicit contributions from private sources; sound a nationwide call for each American to protect the environment. And most of all, plant the trees that clean our air, prevent erosion, and purify our water.

In the same spirit of our Thousand Points of Light, the National Tree Trust Act will help toward a goal of creating Ten Billion Trees of Life. And it will complement local programs to help conservation enrich America's quality of life. Programs like your "Trees for Tomorrow."

Talk about cooperation -- "Trees for Tomorrow" links individuals, private groups, and your Department of Parks and Recreation. And results -- in April alone 3,000 trees will be donated. This urban forestry program will help volunteers show new volunteers not only how and where to plant trees, but also how to care for them, why we need them, and how they will help our precious environment.

You know, two weeks ago I told an audience that I'd been planting so many trees all over the country that I might have to open a branch office. (Laughter.) I knew it -- I knew it would be -- I tried it once before and it got the same groan. (Laughter.) This one is going out of the speech from now and evermore. (Laughter.) I can't think of a better spot than here in Indianapolis. Just as trees grow, with roots and branches becoming stronger and deeper by the year, your effort on behalf of trees can reach far into the future.

I began by talking about two exports -- Dan Quayle and basketball. Let me close by referring to an event -- and then a movie close to Vice President Quayle's heart.

First, the event. Three years ago, after being reelected by a landslide, he was saluted on his 40th birthday in a way each of you will appreciate. Students planted 40 trees in his honor -- one at I.U. Law School, 15 at his college alma mater, 24 at his high school. Those trees reaffirm the beauty of Indiana. They embody the kindness of you, his friends.

Second, the movie. It's called Hoosiers. You've seen it -- probably memorized it. It was filmed here in three nearby towns. Yes, it's about basketball. But it also portrays -- unforgettably -- the beauty of Indiana. The next time you see it, look for two things: kids and trees. They're everywhere in the film, and they make the movie very special, even magical. And so it is from Evansville in the south to the Michigan state line. Trees -- many

planted by kids -- enhancing the splendor of Indiana's cathedral of the outdoors.

So let's help these youngsters plant more trees -- and nurture them -- in this state and in all 50 states. Let's plant the "Trees for Tomorrow" that will bless the children of tomorrow -- the generations who will inherit our Earth. Trees are an inheritance passed from one generation to another, and they symbolize the continuity of mankind.

Not far from here there's a special young man who has created a special legacy of his own, and he is in our prayers today. His name is Ryan White. And he's been fighting a courageous battle against a deadly disease -- and also against ignorance and fear. Ryan has helped us understand the truth about AIDS, and he's shown all of us the strength and the bravery of the human heart. So today, as together we plant this beautiful American Elm, this symbol of new life, this first tree of your magnificent campaign, let it be Ryan's tree.

God bless that young man. God bless his family.
(Applause.) And God bless the United States of America. Thank you all very, very much. (Applause.)

I. SUMMARY

On Tuesday, April 3, at 11:50 a.m., you will address about 10,000 people as you help inaugurate Indianapolis' "Trees for Tomorrow" campaign. Mayor Hudnut will introduce you. Governor Evan Bayh, Senators Dan Coats and Dick Lugar, and Art Strong, director of the Department Parks and Recreation will also accompany you on the dais.

II. DISCUSSION

The attached remarks (10 minutes, speechcards) highlight your "America the Beautiful" program, and encourage tree planting around the country. The text also praises Indianapolis' tree planting program, "Trees for Tomorrow."

PRESIDENTIAL REMARKS: TREE PLANTING EVENT
INDIANAPOLIS, INDIANA
TUESDAY, APRIL 3, 1990
11:50 A.M.

Senator Lugar, Senator Coats, Governor Bayh, Mayor Hudnut,
Director Strong, distinguished guests, ladies and gentlemen. It
is indeed great to be "back home again in Indiana." And as the
banner says, to plant "Trees for Tomorrow" that will benefit our
Nation and its kids. //

((Not far from here is the home town of a great former
Indiana Senator who has been an even greater Vice-President. A
man I trust. A Hoosier I rely upon. Dan Quayle. // *He is serving
our nation well.* //
~~((Let me say how proud I am of the job Dan has done as a
member of our team. He's served our Administration well. And
more important, he's served the Nation well.)) //~~

Today, the Vice-President is back in Washington. // As you
can see, he let me play hookie. // Nor, sadly, could Bobby
Knight be with us. He's out recruiting what Dan assures me is
yet another national champion. // *I'm sorry Bobby Knight
is not here. He's out recruiting what Dan
assures me is
yet another
national
champion.*
Even so, I am glad to see all of you here in a city which,
unlike some, can always see the forest for the trees. // And ~~NE~~ *NE*
which intends this year to plant thirty thousand trees. Trees
that are in a larger sense the sanctuaries of mankind. Renewing
and refreshing. // And that represent the continuity of

mankind. An inheritance passed from one generation to another.

Many of you may have grown up reading the great Hoosier poet, James Whitcomb Riley, ^{who often wrote} ~~And I recall how he once said, "Life is a cycle larger than any individual."~~ ~~that the individual could enrich the tapestry of life.~~ ~~And I recall how he once said, "Life is a cycle larger than any individual."~~ // Well, so it is with

trees. They renew and restore the natural magic of our world.

// Think of how trees enhance our atmosphere. Providing oxygen and absorbing carbon dioxide. // And how they enhance our environment. For their beauty is breathtaking. And their bounty is breathgiving. //

Ten weeks ago, I announced a new program to help preserve the wonderful legacy of our trees // indeed, to help us conserve all natural resources. // It's called "America the Beautiful." // It will help plant the seeds of environmental stewardship. Not only by planting trees -- but through other steps, as well. //

"America the Beautiful" calls for expanded land acquisition for our national parks, wildlife refuges, forests, and public lands. And funds to maintain and restore them. Our program is similar to your "Clean and Green Month" -- it seeks clean water, clean land, clean air. // In that spirit, let me note that later today the Senate will consider our clean air legislation the first rewrite of the Clean Air Act in over a decade. I am proud of this proposal to cut smog, acid rain, and toxic pollution -- to make America cleaner and safer. // Tonight marks an historic vote. **TREE PLANTING EVENT \ INDIANAPOLIS, INDIANA
TUESDAY, APRIL 3, 1990 \ 11:50 A.M.**

**SENATOR LUGAR, SENATOR COATS, GOVERNOR BAYH, MAYOR
HUDNUT, DIRECTOR STRONG, DISTINGUISHED GUESTS, LADIES
AND GENTLEMEN. IT IS INDEED GREAT TO BE "BACK HOME
AGAIN IN INDIANA." AND AS THE BANNER SAYS, TO PLANT
"TREES FOR TOMORROW" THAT WILL BENEFIT OUR NATION AND
ITS KIDS. //**

- 2 -

**((NOT FAR FROM HERE IS THE HOME TOWN OF A GREAT
FORMER INDIANA SENATOR WHO HAS BEEN AN EVEN GREATER
VICE-PRESIDENT. A MAN I TRUST. A HOOSIER I RELY UPON.
DAN QUAYLE. // HE IS SERVING OUR NATION WELL.**

I'M SORRY BOBBY KNIGHT IS NOT HERE. HE'S OUT RECRUITING WHAT DAN ASSURES ME IS ANOTHER NATIONAL CHAMPION. I AM GLAD TO SEE ALL OF YOU HERE IN A CITY WHICH, UNLIKE SOME, CAN ALWAYS SEE THE FOREST FOR THE TREES. // AND WHICH INTENDS THIS YEAR TO PLANT THIRTY THOUSAND TREES. TREES THAT ARE IN A LARGER SENSE THE SANCTUARIES OF MANKIND. RENEWING AND REFRESHING. // AND THAT REPRESENT THE CONTINUITY OF MANKIND. AN INHERITANCE PASSED FROM ONE GENERATION TO ANOTHER.

MANY OF YOU MAY HAVE GROWN UP READING THE GREAT HOOSIER POET, JAMES WHITCOMB RILEY, WHO OFTEN OBSERVED THAT THE INDIVIDUAL COULD ENRICH THE TAPISTRY OF LIFE. // WELL, SO IT IS WITH TREES. THEY RENEW AND RESTORE THE NATURAL MAGIC OF OUR WORLD. // THINK OF HOW TREES ENHANCE OUR ATMOSPHERE. PROVIDING OXYGEN AND ABSORBING CARBON DIOXIDE. // AND HOW THEY ENHANCE OUR ENVIRONMENT. FOR THEIR BEAUTY IS BREATHTAKING. AND THEIR BOUNTY IS BREATHGIVING. //

TEN WEEKS AGO, I ANNOUNCED A NEW PROGRAM TO HELP PRESERVE THE WONDERFUL LEGACY OF OUR TREES // INDEED, TO HELP US CONSERVE ALL NATURAL RESOURCES. // IT'S CALLED "AMERICA THE BEAUTIFUL." // IT WILL HELP PLANT THE SEEDS OF ENVIRONMENTAL STEWARDSHIP. NOT ONLY BY PLANTING TREES -- BUT THROUGH OTHER STEPS, AS WELL. //

"AMERICA THE BEAUTIFUL" CALLS FOR EXPANDED LAND ACQUISITION FOR OUR NATIONAL PARKS, WILDLIFE REFUGES, FORESTS, AND PUBLIC LANDS.

AND FUNDS TO MAINTAIN AND RESTORE THEM. OUR PROGRAM IS SIMILAR TO YOUR "CLEAN AND GREEN MONTH" -- IT SEEKS CLEAN WATER, CLEAN LAND, CLEAN AIR. // IN THAT SPIRIT, LET ME NOTE THAT LATER TODAY THE SENATE WILL CONSIDER OUR CLEAN AIR LEGISLATION THE FIRST REWRITE OF THE CLEAN AIR ACT IN OVER A DECADE. I AM PROUD OF THIS PROPOSAL TO CUT SMOG, ACID RAIN, AND TOXIC POLLUTION -- TO MAKE AMERICA CLEANER AND SAFER. // TONIGHT MARKS AN HISTORIC VOTE.

SO I URGE THE SENATE TO ACT NOT MERELY FOR THIS GENERATION BUT ALL THE GENERATIONS TO COME. //

TREES, OF COURSE, CAN HELP ENSURE CLEAN AIR. //
CONSIDER: ONE RECENT STUDY SHOWED THAT TREES -- MUCH MORE THAN WATER -- CONSUME THE CARBON DIOXIDE THAT IS BUILDING UP IN OUR ATMOSPHERE. RESEARCH ALSO SHOWS THAT TREES CAN LOWER PEAK ENERGY DEMAND IN URBAN AREAS BY 20 TO 40 PERCENT.

AND THAT THREE WELL-PLACED TREES AROUND A HOME CAN REDUCE ITS AIR CONDITIONING NEEDS BY 10 TO 50 PERCENT.

THE RECORD'S CLEAR: WE NEED TREES ECONOMICALLY -- AND ENVIRONMENTALLY. WE ALSO NEED THEM TO LIFT OUR MINDS, AND HEARTS. // TREES ARE SOMETHING WE ALL CAN PLANT -- FOR WHILE THEY CAN BE FRAGILE, OR STURDY, THEY ARE ALWAYS PRECIOUS. // AND THE RECORD SHOWS THAT INDIANAPOLIS ISN'T FALLING DOWN ON THE JOB OF PLANTING TREES. AND NEITHER WILL OUR ADMINISTRATION.

THAT'S WHY A KEY PART OF "AMERICA THE BEAUTIFUL" IS A NATIONAL TREE PLANTING AND FOREST IMPROVEMENT PROGRAM, TO BE ADMINISTERED BY THE AGRICULTURE DEPARTMENT. // THIS PROGRAM INVOLVES BOTH RURAL AREAS AS WELL AS URBAN TREE PLANTING PROGRAMS IN CITIES LIKE INDIANAPOLIS. AND TO FUND IT I HAVE ASKED CONGRESS FOR \$175 MILLION FOR FISCAL YEAR '91 TO PLANT ONE BILLION TREES A YEAR.

TWO WEEKS AGO, I ALSO ASKED CONGRESS TO APPROVE ANOTHER STEP TO PROTECT THE ENVIRONMENT. // WE CALL IT THE NATIONAL TREE TRUST ACT OF 1990. IT WILL BE INTRODUCED BY YOUR GREAT SENIOR SENATOR, DICK LUGAR. IT WILL FOSTER THE PARTNERSHIP BETWEEN THE PUBLIC AND PRIVATE SECTORS TO PLANT TREES ACROSS AMERICA. // UNDER THIS PLAN, WE WILL DESIGNATE A PRIVATE NONPROFIT FOUNDATION TO RECEIVE A ONE-TIME FEDERAL GRANT TO PROMOTE COMMUNITY TREE PLANTING AND CULTIVATION PROJECTS. //

IT WILL ALSO SOLICIT CONTRIBUTIONS FROM PRIVATE SOURCES. SOUND A NATIONWIDE CALL FOR EACH AMERICAN TO PROTECT THE ENVIRONMENT. AND MOST OF ALL, PLANT THE TREES THAT CLEAN OUR AIR, PREVENT EROSION, AND PURIFY OUR WATER.

IN THE SAME SPIRIT OF OUR THOUSAND POINTS OF LIGHT, THE NATIONAL TREE TRUST ACT OF 1990 WILL HELP CREATE TEN BILLION TREES OF LIFE. //

AND IT WILL COMPLEMENT LOCAL PROGRAMS TO HELP CONSERVATION ENRICH AMERICA'S QUALITY OF LIFE. PROGRAMS LIKE YOUR "TREES FOR TOMORROW." //

TALK ABOUT COOPERATION: "TREES FOR TOMORROW" LINKS INDIVIDUALS, PRIVATE GROUPS, AND YOUR DEPARTMENT OF PARKS AND RECREATION. AND RESULTS -- IN APRIL ALONE, 3,000 TREES WILL BE DONATED. // THIS URBAN FORESTRY PROGRAM WILL HELP VOLUNTEERS SHOW NEW VOLUNTEERS NOT ONLY HOW AND WHERE TO PLANT TREES.

- 13 -

BUT ALSO HOW TO CARE FOR THEM -- WHY WE NEED THEM -- AND HOW THEY HELP THE ENVIRONMENT. // YOU KNOW, TWO WEEKS AGO I TOLD AN AUDIENCE THAT I'D BEEN PLANTING SO MANY TREES ALL OVER THE COUNTRY -- PLEASE FORGIVE ME -- THAT I MIGHT HAVE TO OPEN A BRANCH OFFICE. // WELL, I CAN'T THINK OF A BETTER SPOT THAN HERE IN INDIANAPOLIS. JUST AS TREES GROW, WITH ROOTS AND BRANCHES BECOMING STRONGER AND DEEPER BY THE YEAR, YOUR EFFORTS ON BEHALF OF TREES CAN REACH FAR INTO THE FUTURE. //

- 14 -

I BEGAN BY TALKING ABOUT TWO GREAT INDIANA EXPORTS -- DAN QUAYLE AND BASKETBALL. LET ME CLOSE BY REFERRING TO AN EVENT --AND THEN A MOVIE -- CLOSE TO THE VICE-PRESIDENT'S HEART. //

FIRST, THE EVENT. THREE YEARS AGO, AFTER BEING RE-ELECTED BY ONE OF THE GREATEST LANDSLIDES IN INDIANA HISTORY, DAN WAS SALUTED ON HIS 40TH BIRTHDAY IN A WAY EACH OF YOU WILL APPRECIATE. KNOW HOW?

STUDENTS PLANTED FORTY TREES IN HIS HONOR -- ONE AT I.U. LAW SCHOOL, 15 AT HIS COLLEGE ALMA MATER, AND 24 AT DAN'S HIGH SCHOOL. THOSE TREES REAFFIRM THE BEAUTY OF INDIANA. THEY EMBODY THE KINDNESS OF YOU, HIS FRIENDS.

SECOND, THE MOVIE. IT'S CALLED HOOSIERS. YOU'VE SEEN IT -- PROBABLY MEMORIZED IT. IT WAS FILMED HERE AND IN THREE NEARBY TOWNS. // YES, IT'S ABOUT BASKETBALL. BUT IT ALSO PORTRAYS --UNFORGETTABLY -- THE BEAUTY OF INDIANA. //

THE NEXT TIME YOU SEE HOOSIERS, LOOK FOR TWO THINGS: KIDS AND TREES. THEY'RE EVERYWHERE IN THE FILM -- THEY MAKE THE MOVIE SPECIAL, EVEN MAGICAL. // AND SO IT IS FROM EVANSVILLE IN THE SOUTH TO THE MICHIGAN STATE LINE. // TREES -- MANY PLANTED BY KIDS -- ENHANCING THE SPLENDOR OF INDIANA'S CATHEDRAL OF THE OUTDOORS.

SO LET'S HELP THESE YOUNGSTERS PLANT MORE TREES -- NURTURE THEM -- IN THIS STATE AND ALL FIFTY STATES. AND SO KNOCK JOHNNY APPLESEED FROM THE GUINNESS BOOK OF RECORDS. //

LET'S PLANT THE "TREES FOR TOMORROW" THAT WILL BLESS
THE CHILDREN OF TOMORROW -- THE GENERATIONS WHO WILL
INHERIT OUR EARTH. //

THANK YOU FOR WHAT YOU'RE DOING. HATS OFF TO THE
CITY OF INDIANAPOLIS. GOD BLESS THE LAND WE SO RICHLY
LOVE -- THE UNITED STATES OF AMERICA. AND NOW, IT IS
MY GREAT PLEASURE TO OFFICIALLY PLANT THE FIRST TREE OF
THIS MAGNIFICENT CAMPAIGN.

PRESIDENTIAL REMARKS: ARBOR DAY EVENT
INDIANAPOLIS, INDIANA
TUESDAY, APRIL 3, 1990

*Senator Lugar, Senator Coats,
Governor Bayh,*

~~^~~ Dan Coats, Mayor Hudnut, Director Strong, distinguished guests, ladies and gentlemen. It is indeed great to be "back home again in Indiana." And as the banner says, to plant "trees for tomorrow" that will benefit our Nation and its kids. //

((Not far from here is the law school of a friend of mine. And in that context, I want to salute a great former Indiana Senator who has been an even greater Vice-President. A man I trust. ^A Hoosier I rely upon. Dan Quayle. //

((Let me say how proud I am of the job Dan has done as a member of our team. He's served our Administration well. And more important, he's served the Nation well.)) //

Today, the Vice-President is back in Washington. // As you can see, he let me play hookie. // Nor, sadly, could Bobby Knight be with us. He's out recruiting what Dan assures me is yet another national champion. //

Even so, I am glad to see all of you here in a city which, unlike some, can always see the forest for the trees. // And which intends this year to plant thirty thousand trees. Trees that are in a larger sense the sanctuaries of mankind. Renewing and refreshing. // And that represent the continuity of mankind. An inheritance passed from one generation to another.

~~Like~~ many of you, ^{may have grown} I grew up reading the great Hoosier poet, James Whitcomb Riley. And I recall how once he said, "Life is a cycle larger than any individual." // Well, so it is with trees. They renew and restore the natural magic of our world. // Think of how trees enhance our atmosphere. Providing oxygen and absorbing carbon dioxide. // And how they enhance our environment. For their beauty is breathtaking. And their bounty is breathgiving. //

Ten weeks ago, I announced a new program to ^{help} preserve both ^{the wonderful legacy of our trees} // indeed, to help us conserve all natural resources. // It's called "America the Beautiful." // It will help plant the seeds of environmental stewardship. Not only by planting trees -- but through other steps, as well. //

"America the Beautiful" calls for expanded land acquisition for our national parks, wildlife refuges, forests, and public lands. And funds to maintain and restore them. Our program is similar to your "Clean and Green Month" -- it seeks clean water, clean land, clean air. // In that spirit, let me note that later today the Senate will consider our clean air legislation - - the first rewrite of the Clean Air Act in over a decade. I am proud of this proposal to cut smog, acid rain, and toxic pollution -- to make America cleaner and safer. // Tonight marks an historic vote. So I urge the Senate to act not merely for this generation but all the generations to come. //

 Trees, of course, can help ensure clean air. // Consider:
 A recent study showed that trees -- much more than water --

consume the carbon dioxide that raises temperatures. Research also shows that trees can lower peak energy demand in urban areas by 20 to 40 percent. And that three well-placed trees around a home can reduce its air conditioning needs by 10 to 50 percent.

The record's clear: We need trees economically -- and environmentally. We also need them to lift our minds, and hearts. // For instance, every time I look at an old tree, I feel affinity: Maybe it's because some of them are a little long in the tooth. // But whatever our age, trees are something we all can plant -- for while they can be fragile, or sturdy, they are always precious. // And the record shows that Indianapolis isn't falling down on the job of planting trees. And neither will our Administration. //

That's why a key part of "America the Beautiful" is a national tree planting and forest improvement program, to be administered by the Agriculture Department. // This program involves both rural areas as well as urban tree planting programs in cities like Indianapolis. And to fund it I have asked Congress for \$175 million ^{for fiscal year 91} to plant one billion trees a year. //

Two weeks ago, I also asked Congress to approve another step to protect the environment. // We call it the National Tree Trust Act of 1990. An initiative that will foster the ^a partnership between the public and private sectors to plant trees across America. // Under this plan, we will designate a private nonprofit Foundation to receive a one-time Federal grant to promote community tree planting and cultivation projects. // It

Huger
ref.

will also solicit contributions from private sources. Sound a nationwide call for each American to protect the environment. And most of all, plant the trees that clean our air, prevent erosion, and purify our water.

~~By acting as one of a Thousand Points of Light~~, the National Tree Trust Act of 1990 will help create Ten Billion Trees of Life. // And it, ~~in turn~~, will complement local programs to help conservation enrich America's quality of life. Programs like your "Trees for Tomorrow." //

Talk about cooperation: "Trees for Tomorrow" links individuals, private groups, and your Department of Parks and Recreation. And results -- in April alone, ~~you're donating~~ ³ 1,000 ^{will be donated.} trees. // This urban forestry program will help volunteers show new volunteers not only how and where to plant trees. But also how to care for them -- why we need them -- and how they help the environment. // You know, two weeks ago I told an audience that I'd been planting so many trees all over the country -- please forgive me -- that I might have to open a branch office. // Well, I can't think of a better spot than here in Indianapolis. Just as trees grow, with roots and branches becoming stronger and deeper by the year, your efforts on behalf of trees can reach far into the future. //

I began by talking about two great Indiana exports -- Dan Quayle and basketball. Let me close by referring to an event -- and then a movie -- close to the Vice-President's heart. //

First, the event. ~~Three~~ ^{Four} years ago, after being re-elected

by one of the greatest landslides in Indiana history, Dan was saluted on his 40th birthday in a way each of you will appreciate. Know how? School-children planted forty trees in his honor -- one at I.U. law school, 15 at his college alma mater, and 24 at Dan's high school. Those trees reaffirm the beauty of Indiana. And I know that to Dan, they embody the kindness of you, his friends.

Second, the movie. It's called Hoosiers. You've seen it - - probably memorized it. It was filmed here and in three nearby towns. // Yes, it's about basketball. But it also portrays -- unforgettably -- the beauty of Indiana. // The next time you see Hoosiers, look for two things: Kids and trees. They're everywhere in the film -- they make the movie special, even magical. // And so it is from Evansville in the south to the Michigan state line. // Trees -- many planted by kids -- enhancing the splendor of Indiana's cathedral of the outdoors.

So let's help these youngsters plant more trees -- nurture them -- in this State and all fifty States. And so knock Johnny Appleseed from the Guinness Book of Records. // Let's plant the "trees for tomorrow" that will bless the children of tomorrow -- the generations who will inherit our earth. //

Thank you for what you're doing. Hats off to the City of Indianapolis. God bless the land we so richly love -- the United States of America. And now, it is my great pleasure to officially plant the first tree of this magnificent campaign.

PRESIDENTIAL REMARKS: ARBOR DAY EVENT
INDIANAPOLIS, INDIANA
TUESDAY, APRIL 3, 1990

Dan Coats, Mayor Hudnut, Director Strong, distinguished
guests, ladies and gentlemen. It is indeed great to be "back
? home again in Indiana." And as the banner says, to plant "trees ✓
for tomorrow" that will benefit our Nation and its kids. //

((Not far from here is the law school of a friend of mine.
And in that context, I want to salute a great former Indiana
Senator who has been an even greater Vice-President. A man I
trust. ^A Hoosier I rely upon. Dan Quayle. // ✓

((Let me say how proud I am of the job Dan has done as a
member of our team. He's served our Administration well. And
more important, he's served the Nation well.)) //

Today, the Vice-President is back in Washington. // As you
can see, he let me play hookie. // Nor, sadly, could Bobby
Knight be with us. He's out recruiting what Dan assures me is
yet another national champion. //

Even so, I am glad to see all of you here in a city which,
unlike some, can always see the forest for the trees. // And
which intends this year to plant thirty thousand trees. Trees
that are in a larger sense the sanctuaries of mankind. Renewing
and refreshing. // And that represent the continuity of
mankind. An inheritance passed from one generation to another.

Like many of you, I grew up reading the great Hoosier poet, James Whitcomb Riley. And I recall how once he said, "Life is a cycle larger than any individual." // Well, so it is with trees. They renew and restore the natural magic of our world. // Think of how trees enhance our atmosphere. Providing oxygen and absorbing carbon dioxide. // And how they enhance our environment. For their beauty is breathtaking. And their bounty is breathgiving. //

Ten weeks ago, I announced a new program to preserve both // indeed, to help us conserve all natural resources. // It's called "America the Beautiful." // It will help plant the seeds of environmental stewardship. Not only by planting trees -- but through other steps, as well. //

"America the Beautiful" calls for expanded land acquisition for our national parks, wildlife refuges, forests, and public lands. And funds to maintain and restore them. Our program is similar to your "Clean and Green Month" -- it seeks clean water, clean land, clean air. // In that spirit, let me note that later today the Senate will consider our clean air legislation -- the first rewrite of the Clean Air Act in over a decade. I am proud of this proposal to cut smog, acid rain, and toxic pollution -- to make America cleaner and safer. // Tonight marks an historic vote. So I urge the Senate to act not merely for this generation but all the generations to come. //

Trees, of course, can help ensure clean air. // Consider: A recent study ~~showed~~ that trees -- ~~much more than water~~ --

indicated

*Please note:
(many conflicting studies at this point -- none are
conclusive.)*

please note: we need to be cautious on this.

more of
may consume the carbon dioxide ³ in the atmosphere than was previously thought. (or which threatens to change our climate in the future.)
~~that raises temperatures.~~ Research shows that trees can lower peak energy demand in urban areas by 20 to 40 percent. And that three well-placed trees around a home can reduce its air conditioning needs by 10 to 50 percent.

The record's clear: We need trees economically -- and environmentally. We also need them to lift our minds, and hearts. // For instance, every time I look at an old tree, I feel affinity: Maybe it's because some of them are a little long in the tooth. // But whatever our age, trees are something we all can plant -- for while they can be fragile, or sturdy, they are always precious. // And the record shows that Indianapolis isn't falling down on the job of planting trees. And neither will our Administration. //

That's why a key part of "America the Beautiful" is a national tree planting and forest improvement program, to be administered by the Agriculture Department. // This program involves both rural areas as well as urban tree planting programs in cities like Indianapolis. And to fund it I have asked Congress for \$175 million to plant one billion trees a year. //

Two weeks ago, I also asked Congress to approve another step to protect the environment. // We call it the National Tree Trust Act of 1990. An initiative that will foster ~~the~~ a partnership between the public and private sectors to plant trees across America. // Under this plan, we will designate a private nonprofit Foundation to receive a one-time Federal grant to promote community tree planting and cultivation projects. // It

will also solicit contributions from private sources. Sound a nationwide call for each American to protect the environment. And most of all, plant the trees that clean our air, prevent erosion, and purify our water.

By acting as ^{a catalyst to create more} ~~one of a~~ Thousand Points of Light, the National Tree Trust Act of 1990 will help create Ten Billion Trees of Life. // And it, in turn, will complement local programs to help conservation enrich America's quality of life. Programs like your "Trees for Tomorrow." //

Talk about cooperation: "Trees for Tomorrow" links individuals, private groups, and your Department of Parks and Recreation. And results -- in April alone, you're donating 1,000 trees. // This urban forestry program ~~will~~ help volunteers show new volunteers not only how and where to plant trees. But also how to care for them -- why we need them -- and how they help the environment. // You know, two weeks ago I told an audience that I'd been planting so many trees all over the country -- please forgive me -- that I might have to open a branch office. // Well, I can't think of a better spot than here in Indianapolis. Just as trees grow, with roots and branches becoming stronger and deeper by the year, your efforts on behalf of trees can reach far into the future. //

I began by talking about two great Indiana exports -- Dan Quayle and basketball. Let me close by referring to an event -- and then a movie -- close to the Vice-President's heart. //

First, the event. Three years ago, after being re-elected

by one of the greatest landslides in Indiana history, Dan was saluted on his 40th birthday in a way each of you will appreciate. Know how? School-children planted forty trees in his honor -- one at I.U. law school, 15 at his college alma mater, and 24 at Dan's high school. Those trees reaffirm the beauty of Indiana. And I know that to Dan, they embody the kindness of you, his friends.

Second, the movie. It's called Hoosiers. You've seen it - *
 - probably memorized it. It was filmed here and in three nearby towns. // Yes, it's about basketball. But it also portrays -- unforgettably -- the beauty of Indiana. // The next time you see Hoosiers, look for two things: Kids and trees. They're everywhere in the film -- they make the movie special, even magical. // And so it is from Evansville in the south to the Michigan state line. // Trees -- many planted by kids -- enhancing the splendor of Indiana's cathedral of the outdoors.

So let's help these youngsters plant more trees -- nurture them -- in this State and all fifty States. And so knock Johnny Appleseed from the Guinness Book of Records. // Let's plant the "trees for tomorrow" that will bless the children of tomorrow -- the generations who will inherit our earth. //

Thank you for what you're doing. Hats off to the City of Indianapolis. God bless the land we so richly love -- the United States of America. And now, it is my great pleasure to officially plant the first tree of this magnificent campaign.

((Let me say how proud I am of the job Dan has done as a member of our team. He's served our Administration well. And more important, he's served the Nation well.)) //

Today, the Vice-President is back in Washington. // As you can see, he let me play hookie. // Nor, sadly, could Bobby Knight be with us. He's out recruiting what Dan assures me is yet another national champion. //

Even so, I am glad to see all of you here in a city which, unlike some, can always see the forest for the trees. // And which intends this year to plant thirty thousand trees. Trees that are in a larger sense the sanctuaries of mankind. Renewing and refreshing. // And that represent the continuity of mankind. An inheritance passed from one generation to another.

Muller
x 3060

A
^

Like many of you, I grew up reading the great Hoosier poet, James Whitcomb Riley. And I recall how once he said, "Life is a cycle larger than any individual." // Well, so it is with trees. They renew and restore the natural magic of our world. // Think of how trees enhance our atmosphere. Providing oxygen and absorbing carbon dioxide. // And how they enhance our environment. For their beauty is breathtaking. And their bounty is breathgiving. //

Ten weeks ago, I announced a new program to preserve both // indeed, to help us conserve all natural resources. // It's called "America the Beautiful." // It will help plant the seeds of environmental stewardship. Not only by planting trees -- but through other steps, as well. //

"America the Beautiful" calls for expanded land acquisition for our national parks, wildlife refuges, forests, and public lands. And funds to maintain and restore them. Our program is similar to your "Clean and Green Month" -- it seeks clean water, clean land, clean air. // In that spirit, let me note that later today the Senate will consider our clean air legislation -- the first rewrite of the Clean Air Act in over a decade. I am proud of this proposal to cut smog, acid rain, and toxic pollution -- to make America cleaner and safer. // Tonight marks an historic vote. So I urge the Senate to act not merely for this generation but all the generations to come. //

Trees, of course, can help ensure clean air. // Consider: A recent study showed that trees -- much more than water --

consume the carbon dioxide that raises temperatures. Research also shows that trees can lower peak energy demand in urban areas by 20 to 40 percent. And that three well-placed trees around a home can reduce its air conditioning needs by 10 to 50 percent.

The record's clear: We need trees economically -- and environmentally. We also need them to lift our minds, and hearts. // For instance, every time I look at an old tree, I feel affinity: Maybe it's because some of them are a little long in the tooth. // But whatever our age, trees are something we all can plant -- for while they can be fragile, or sturdy, they are always precious. // And the record shows that Indianapolis isn't falling down on the job of planting trees. And neither will our Administration. //

That's why a key part of "America the Beautiful" is a national tree planting and forest improvement program, to be administered by the Agriculture Department. // This program involves both rural areas as well as urban tree planting programs in cities like Indianapolis. And to fund it I have asked Congress for \$175 million to plant one billion trees a year. //

Two weeks ago, I also asked Congress to approve another step to protect the environment. // We call it the National Tree Trust Act of 1990. An initiative that will foster the partnership between the public and private sectors to plant trees across America. // Under this plan, we will designate a private nonprofit Foundation to receive a one-time Federal grant to promote community tree planting and cultivation projects. // It

will also solicit contributions from private sources. Sound a nationwide call for each American to protect the environment. And most of all, plant the trees that clean our air, prevent erosion, and purify our water.

By acting as one of a Thousand Points of Light, the National Tree Trust Act of 1990 will help create Ten Billion Trees of Life. // And it, in turn, will complement local programs to help conservation enrich America's quality of life. Programs like your "Trees for Tomorrow." //

Talk about cooperation: "Trees for Tomorrow" links individuals, private groups, and your Department of Parks and Recreation. And results -- in April alone, you're donating 1,000 trees. // This urban forestry program will help volunteers show new volunteers not only how and where to plant trees. But also how to care for them -- why we need them -- and how they help the environment. // You know, two weeks ago I told an audience that I'd been planting so many trees all over the country -- please forgive me -- that I might have to open a branch office. // Well, I can't think of a better spot than here in Indianapolis. Just as trees grow, with roots and branches becoming stronger and deeper by the year, your efforts on behalf of trees can reach far into the future. //

I began by talking about two great Indiana exports -- Dan Quayle and basketball. Let me close by referring to an event -- and then a movie -- close to the Vice-President's heart. //

First, the event. Three years ago, after being re-elected

by one of the greatest landslides in Indiana history, Dan was saluted on his 40th birthday in a way each of you will appreciate. Know how? School-children planted forty trees in his honor -- one at I.U. law school, 15 at his college alma mater, and 24 at Dan's high school. Those trees reaffirm the beauty of Indiana. And I know that to Dan, they embody the kindness of you, his friends.

Second, the movie. It's called Hoosiers. You've seen it - probably memorized it. It was filmed here and in three nearby towns. // Yes, it's about basketball. But it also portrays -- unforgettably -- the beauty of Indiana. // The next time you see Hoosiers, look for two things: Kids and trees. They're everywhere in the film -- they make the movie special, even magical. // And so it is from Evansville in the south to the Michigan state line. // Trees -- many planted by kids -- enhancing the splendor of Indiana's cathedral of the outdoors.

So let's help these youngsters plant more trees -- nurture them -- in this State and all fifty States. And so knock Johnny Appleseed from the Guinness Book of Records. // Let's plant the "trees for tomorrow" that will bless the children of tomorrow -- the generations who will inherit our earth. //

Thank you for what you're doing. Hats off to the City of Indianapolis. God bless the land we so richly love -- the United States of America. And now, it is my great pleasure to officially plant the first tree of this magnificent campaign.

THE WHITE HOUSE

WASHINGTON

March 29, 1990

MEMORANDUM FOR CHRISS WINSTON

FROM: JIM PINKERTON

SUBJECT: Arbor Day Event Draft Remarks

A good draft that captures the right tone on the importance of reforestation, namely by avoiding the temptation to treat the subject too lightly.

pg. 1, para. 2, line 4 Typo: "A Hoosier" instead of "I Hoosier."

2,1,1 "Like many of you, I grew up reading the great Hoosier poet, James Whitcomb Riley."

We do not believe that the President should be put in the position of asserting something about himself that isn't true. Here, the James Whitcomb Riley reference can be introduced by saying, "Many of you may have grown up reading that great Hoosier poet, James Whitcomb Riley."

PRESIDENTIAL REMARKS: ARBOR DAY EVENT
INDIANAPOLIS, INDIANA
TUESDAY, APRIL 3, 1990

Dan Coats, Mayor Hudnut, Director Strong, distinguished guests, ladies and gentlemen. It is indeed great to be "back home again in Indiana." And as the banner says, to plant "trees for tomorrow" that will benefit our Nation and its kids. //

((Not far from here is the law school of a friend of mine. And in that context, I want to salute a great former Indiana Senator who has been an even greater Vice-President. A man I trust. I Hoosier I rely upon. Dan Quayle. //

((Let me say how proud I am of the job Dan has done as a member of our team. He's served our Administration well. And more important, he's served the Nation well.)) //

Today, the Vice-President is back in Washington. // As you can see, he let me play hookie. // Nor, sadly, could Bobby Knight be with us. He's out recruiting what Dan assures me is yet another national champion. //

Even so, I am glad to see all of you here in a city which, unlike some, can always see the forest for the trees. // And which intends this year to plant thirty thousand trees. Trees that are in a larger sense the sanctuaries of mankind. Renewing and refreshing. // And that represent the continuity of mankind. An inheritance passed from one generation to another.

Like many of you, I grew up reading the great Hoosier poet, James Whitcomb Riley. And I recall how once he said, "Life is a cycle larger than any individual." // Well, so it is with trees. They renew and restore the natural magic of our world. // Think of how trees enhance our atmosphere. Providing oxygen and absorbing carbon dioxide. // And how they enhance our environment. For their beauty is breathtaking. And their bounty is breathgiving. //

Ten weeks ago, I announced a new program to preserve both // indeed, to help us conserve all natural resources. // It's called "America the Beautiful." // It will help plant the seeds of environmental stewardship. Not only by planting trees -- but through other steps, as well. //

"America the Beautiful" calls for expanded land acquisition for our national parks, wildlife refuges, forests, and public lands. And funds to maintain and restore them. Our program is similar to your "Clean and Green Month" -- it seeks clean water, clean land, clean air. // In that spirit, let me note that later today the Senate will consider our clean air legislation -- the first rewrite of the Clean Air Act in over a decade. I am proud of this proposal to cut smog, acid rain, and toxic pollution -- to make America cleaner and safer. // Tonight marks an historic vote. So I urge the Senate to act not merely for this generation but all the generations to come. //

Trees, of course, can help ensure clean air. // Consider: A recent study showed that trees -- much more than water --

consume the carbon dioxide that raises temperatures. Research also shows that trees can lower peak energy demand in urban areas by 20 to 40 percent. And that three well-placed trees around a home can reduce its air conditioning needs by 10 to 50 percent.

The record's clear: We need trees economically -- and environmentally. We also need them to lift our minds, and hearts. // For instance, every time I look at an old tree, I feel affinity: Maybe it's because some of them are a little long in the tooth. // But whatever our age, trees are something we all can plant -- for while they can be fragile, or sturdy, they are always precious. // And the record shows that Indianapolis isn't falling down on the job of planting trees. And neither will our Administration. //

That's why a key part of "America the Beautiful" is a national tree planting and forest improvement program, to be administered by the Agriculture Department. // This program involves both rural areas as well as urban tree planting programs in cities like Indianapolis. And to fund it I have asked Congress for \$175 million to plant one billion trees a year. //

Two weeks ago, I also asked Congress to approve another step to protect the environment. // We call it the National Tree Trust Act of 1990. An initiative that will foster the partnership between the public and private sectors to plant trees across America. // Under this plan, we will designate a private nonprofit Foundation to receive a one-time Federal grant to promote community tree planting and cultivation projects. // It

will also solicit contributions from private sources. Sound a nationwide call for each American to protect the environment. And most of all, plant the trees that clean our air, prevent erosion, and purify our water.

By acting as one of a Thousand Points of Light, the National Tree Trust Act of 1990 will help create Ten Billion Trees of Life. // And it, in turn, will complement local programs to help conservation enrich America's quality of life. Programs like your "Trees for Tomorrow." //

Talk about cooperation: "Trees for Tomorrow" links individuals, private groups, and your Department of Parks and Recreation. And results -- in April alone, you're donating 1,000 trees. // This urban forestry program will help volunteers show new volunteers not only how and where to plant trees. But also how to care for them -- why we need them -- and how they help the environment. // You know, two weeks ago I told an audience that I'd been planting so many trees all over the country -- please forgive me -- that I might have to open a branch office. // Well, I can't think of a better spot than here in Indianapolis. Just as trees grow, with roots and branches becoming stronger and deeper by the year, your efforts on behalf of trees can reach far into the future. //

I began by talking about two great Indiana exports -- Dan Quayle and basketball. Let me close by referring to an event -- and then a movie -- close to the Vice-President's heart. //

First, the event. Three years ago, after being re-elected

by one of the greatest landslides in Indiana history, Dan was saluted on his 40th birthday in a way each of you will appreciate. Know how? School-children planted forty trees in his honor -- one at I.U. law school, 15 at his college alma mater, and 24 at Dan's high school. Those trees reaffirm the beauty of Indiana. And I know that to Dan, they embody the kindness of you, his friends.

Second, the movie. It's called Hoosiers. You've seen it - probably memorized it. It was filmed here and in three nearby towns. // Yes, it's about basketball. But it also portrays -- unforgettably -- the beauty of Indiana. // The next time you see Hoosiers, look for two things: Kids and trees. They're everywhere in the film -- they make the movie special, even magical. // And so it is from Evansville in the south to the Michigan state line. // Trees -- many planted by kids -- enhancing the splendor of Indiana's cathedral of the outdoors.

So let's help these youngsters plant more trees -- nurture them -- in this State and all fifty States. And so knock Johnny Appleseed from the Guinness Book of Records. // Let's plant the "trees for tomorrow" that will bless the children of tomorrow -- the generations who will inherit our earth. //

Thank you for what you're doing. Hats off to the City of Indianapolis. God bless the land we so richly love -- the United States of America. And now, it is my great pleasure to officially plant the first tree of this magnificent campaign.

INDY

PRESIDENTIAL REMARKS: ARBOR DAY EVENT
INDIANAPOLIS, INDIANA
TUESDAY, APRIL 3, 1990

Dan Coats, Mayor Hudnut, Director Strong, distinguished guests, ladies and gentlemen. It is indeed great to be "back home again in Indiana." And as the banner says, to plant "trees for tomorrow" that will benefit our Nation and its kids. //

((Not far from here is the law school of a friend of mine. And in that context, I want to salute a great former Indiana Senator who has been an even greater Vice-President. A man I trust. I Hoosier I rely upon. Dan Quayle. //

((Let me say how proud I am of the job Dan has done as a member of our team. He's served our Administration well. And more important, he's served the Nation well.)) //

Today, the Vice-President is back in Washington. // As you can see, he let me play hookie. // Nor, sadly, could Bobby Knight be with us. He's out recruiting what Dan assures me is yet another national champion. //

Even so, I am glad to see all of you here in a city which, unlike some, can always see the forest for the trees. // And which intends this year to plant thirty thousand trees. Trees that are in a larger sense the sanctuaries of mankind. Renewing and refreshing. // And that represent the continuity of mankind. An inheritance passed from one generation to another.

Like many of you, I grew up reading the great Hoosier poet, James Whitcomb Riley. And I recall how once he said, "Life is a cycle larger than any individual." // Well, so it is with trees. They renew and restore the natural magic of our world. // Think of how trees enhance our atmosphere. Providing oxygen and absorbing carbon dioxide. // And how they enhance our environment. For their beauty is breathtaking. And their bounty is breathgiving. //

Ten weeks ago, I announced a new program to preserve both // indeed, to help us conserve all natural resources. // It's called "America the Beautiful." // It will help plant the seeds of environmental stewardship. Not only by planting trees -- but through other steps, as well. //

"America the Beautiful" calls for expanded land acquisition for our national parks, wildlife refuges, forests, and public lands. And funds to maintain and restore them. Our program is similar to your "Clean and Green Month" -- it seeks clean water, clean land, clean air. // In that spirit, let me note that later today the Senate will consider our clean air legislation -- the first rewrite of the Clean Air Act in over a decade. I am proud of this proposal to cut smog, acid rain, and toxic pollution -- to make America cleaner and safer. // Tonight marks an historic vote. So I urge the Senate to act not merely for this generation but all the generations to come. //

Trees, of course, can help ensure clean air. // Consider: A recent study showed that trees -- much more than water --

consume the carbon dioxide that raises temperatures. Research also shows that trees can lower peak energy demand in urban areas by 20 to 40 percent. And that three well-placed trees around a home can reduce its air conditioning needs by 10 to 50 percent.

The record's clear: We need trees economically -- and environmentally. We also need them to lift our minds, and hearts. // For instance, every time I look at an old tree, I feel affinity: Maybe it's because some of them are a little long in the tooth. // But whatever our age, trees are something we all can plant -- for while they can be fragile, or sturdy, they are always precious. // And the record shows that Indianapolis isn't falling down on the job of planting trees. And neither will our Administration. //

That's why a key part of "America the Beautiful" is a national tree planting and forest improvement program, to be administered by the Agriculture Department. // This program involves both rural areas as well as urban tree planting programs in cities like Indianapolis. And to fund it I have asked Congress for \$175 million to plant one billion trees a year. //

Two weeks ago, I also asked Congress to approve another step to protect the environment. // We call it the National Tree Trust Act of 1990. An initiative that will foster the partnership between the public and private sectors to plant trees across America. // Under this plan, we will designate a private nonprofit Foundation to receive a one-time Federal grant to promote community tree planting and cultivation projects. // It

will also solicit contributions from private sources. Sound a nationwide call for each American to protect the environment. And most of all, plant the trees that clean our air, prevent erosion, and purify our water.

By acting as one of a Thousand Points of Light, the National Tree Trust Act of 1990 will help create Ten Billion Trees of Life. // And it, in turn, will complement local programs to help conservation enrich America's quality of life. Programs like your "Trees for Tomorrow." //

Talk about cooperation: "Trees for Tomorrow" links individuals, private groups, and your Department of Parks and Recreation. And results -- in April alone, you're donating 1,000 trees. // This urban forestry program will help volunteers show new volunteers not only how and where to plant trees. But also how to care for them -- why we need them -- and how they help the environment. // You know, two weeks ago I told an audience that I'd been planting so many trees all over the country -- please forgive me -- that I might have to open a branch office. // Well, I can't think of a better spot than here in Indianapolis. Just as trees grow, with roots and branches becoming stronger and deeper by the year, your efforts on behalf of trees can reach far into the future. //

I began by talking about two great Indiana exports -- Dan Quayle and basketball. Let me close by referring to an event -- and then a movie -- close to the Vice-President's heart. //

First, the event. Three years ago, after being re-elected

by one of the greatest landslides in Indiana history, Dan was saluted on his 40th birthday in a way each of you will appreciate. Know how? School-children planted forty trees in his honor -- one at I.U. law school, 15 at his college alma mater, and 24 at Dan's high school. Those trees reaffirm the beauty of Indiana.
