          CHRISS WINSTON *cw*

FROM: BARRIE TRON *BT*  
       PAUL LUTHRINGER *DLL*

SUBJECT: SCRIPTS FOR THE VIDEOTAPING SESSION ON  
          WEDNESDAY, FEBRUARY 13, 1991

I. SUMMARY

Attached for your consideration and review are draft scripts for your taping session on February 13th. You are scheduled to tape five segments.

II. DISCUSSION

At 10:45 a.m. on Wednesday, February 13, 1991, you are scheduled to tape six video messages for the following events:

- 1) the United States Holocaust Memorial Museum;
- 2) the Scenic Byways '91 Conference;
- 3) the International Society of Fire Service Instructors;
- 4) the Horatio Alger Association;
- 5) the Automotive Service Industry Association.

These messages have no time limitations.

Draft One  
February 12, 1991  
Title: Fire

PROPOSED SCRIPT FOR THE 1991 FIRE  
DEPARTMENT INSTRUCTORS CONFERENCE

It's a pleasure to join you today in Cincinnati -- home of the baseball world champion Reds -- as you gather for the 1991 Fire Department Instructors' Conference. And a special hello to Congressman Curt Weldon, who, with the help of Senator John McCain has made the Congressional Fire Services Caucus, the largest caucus on Capitol Hill.

In virtually every community, fire service professionals are called to duty at any hour -- day or night -- and each time you respond to a call, you risk your life to save another. Many of you are volunteers, whose communities can give you little or no pay. Yet, all of you perform your duties with dedication and commitment -- making our homes safer and our communities better.

Whether it's participating in training exercises, sitting in a classroom or rescuing a child from a burning house, Americans everywhere have come to rely on their fire departments. You help people recognize the catastrophic potential of fire, and you show us what others can do to protect themselves from fire-related harm or injury. In short, you are truly some of this Nation's finest.

Barbara joins me in sending our best for a productive conference. Thank you for all you do to make America safe, and may God bless you all.

HOLOCAUST

**PRESIDENTIAL VIDEO: HOLOCAUST MEMORIAL PRESENTATION**

There are no words to describe the Holocaust. No way to express its inhumanity. Or compensate for its horror.

There is only one thing we can do -- we can remember. We must remember. Because remembering is a redemption and a reminder of our duty to the somber phrase "never again."

Americans of all creeds, across this nation, have joined together to create and endow a legacy to the human spirit -- the United States Holocaust Memorial Museum.

The Museum will be more than our nation's official memorial to those who suffered. It will also be a constant reminder of the forces that must guide us as individuals and as nations.

Here, we will learn that each of us bears responsibility for our actions -- and for our failure to act. Here, we will learn that we must intervene when we see evil arise. Here, we will learn more about the moral compass by which we navigate our lives -- and by which countries will navigate the futures.

By illustrating what happens when people fail to live by these precepts, this great Museum will be important not only in reminding us of the past -- but it will also help to shape our nation's future and the world's. For here we will renew our determination to fight all enemies of the human spirit. We will realize that man created the horror of the Holocaust. And man can keep it from happening again.

The charge and example of the extraordinary Elie Wiesel

should inspire us all. He wrote: "I decided to devote my life to telling the story [of the Holocaust] because I felt that having survived I owe something to the dead ... and anyone who does not remember betrays them again."

We will not betray them. We will remember them forever.

And we will ensure that the inhumanity of the holocaust does not happen again.

God bless your work and God bless America.

February 8, 1991 2 p.m.  
SCENIC

**PROPOSED VIDEO MESSAGE: SCENIC BYWAYS CONFERENCE**

I'm delighted to be part of this salute to the Scenic Byways movement. It's a real winner -- bringing together interests in recreation, \ tourism, \ conservation, \ transportation \ and economic development, to encourage Americans to explore the true heart of this beautiful country.

For when families explore this land of wonders, they discover something very special -- the adventure of learning together about the natural magnificence and expansive spirit of our land. \\ After all, scenic byways are the roads that Americans love -- from the peacefulness of the Blue Ridge Parkway in the East to the drama of California's Highway One ... from the rich history of the South's Natchez Trace to the splendor of the Going-to-the-Sun Highway in Montana's Glacier National Park. \\

We must preserve these national treasures. It's tremendously encouraging that across our nation today -- federal, state, local and private partners are working together. They're taking steps to identify, to protect, and to enhance our scenic roads. \\

In my State of the Union address I talked about our proposed highway reauthorization bill, which includes a special planning program for scenic byways. These provisions -- along with the work of local groups and initiatives by federal agencies such as the Forest Service and the Bureau of Land Management -- will ensure that the 1990s will be a decade of scenic byways enhancement. \\

I'm proud of these efforts, and I'll continue to support them. For I know that together we can bring to the Scenic Byways system the same vision which brought us the world's best National Parks, \ the best National Wildlife Refuge system, \ and the best National Forest system.\\

Our goal must be the creation of a National Scenic Byways program to really help Americans see for themselves our Great Outdoors. \\

Then the American people will always remember the special natural wonder of America the Beautiful.

DRAFT 5  
HORATIO

PROPOSED PRESIDENTIAL VIDEO FOR THE  
HORATIO ALGER ASSOCIATION AWARDS

Good evening and congratulations to this year's award winners of the Horatio Alger Association of Distinguished Americans.

Tonight, you honor ten outstanding individuals -- true leaders in their respective fields of business, medicine, entertainment, education, the arts, and government.

Your association's long tradition of honoring modern-day heroes of our free-enterprise system -- individuals who have overcome personal hardship and adversity to be successful -- is the foundation on which America is built. If the other outstanding award winners tonight will indulge me, I'd like to make a special mention of General Colin Powell, Chairman of the Joint Chiefs of Staff -- a man whose leadership and judgment I depend on everyday. He and the other men and women of America's Armed Forces are proving they'll do what it takes to keep freedom's light alive.

And let me compliment your Association's leaders -- John W. Rollins, W.W. "Foots" Clements, Charles R. Scott, and Harry A. Merlo -- on this occasion. Your efforts to award over \$265,000 in scholarship money this year to your National Scholars, 53 promising young men and women from all walks of life, is truly remarkable.

Forty-four years ago your organization began to show the world that America was still the land of opportunity; that hard work, perseverance, honor and courage would always be rewarded in this great land.

For the future, I'm sure that all of you will work harder than ever to preserve our precious freedoms -- freedoms that give us these wonderful opportunities.

Barbara joins me in sending our best wishes for a memorable evening. Thank you and God bless you all.

PROPOSED VIDEO MESSAGE  
THE AUTOMOTIVE SERVICE INDUSTRY ASSOCIATION CONVENTION

Good evening to everyone attending the 35th annual convention of the Automotive Service Industry Association. I know Chicago welcomes you, and I'm sure John Nerlinger [NER-LEENG-GER] and A-S-I-A's able staff have put together an informative program.

Your industry is justly proud of its record of achievement in making sure the goods, services, and people of this country are transported in safe and efficient vehicles.

America's lasting love affair with the automobile is a reminder of our roots as a nation of people on the move, a reminder of our love for individual choice and individual freedom. It speaks of the open road and wide-open spaces, of a people whose only limits are in the reaches of the imagination.

Earlier this month, I issued my second formal budget as President, a blueprint for the year ahead. And not long ago, I stood in the U.S. Capitol -- stood before the American people -- and reported to you on the State of the Union.

At the heart of my address was a confidence that America today is second to none -- and a commitment, to keep America second-to-none in the years ahead.

Our people and our economy are strong. And so is our resolve. They are being tested as dramatic new changes in the world produce dramatic new challenges in the world market. We have moved to meet these challenges. But make no mistake: The

U.S. economy is the largest, strongest, most productive economy on Earth. And in the years ahead, the work of your hands -- your manufacturing plants, distribution centers, stores and service bays -- will be critical to maintaining the growth of your industry -- and our economy.

In closing, let me salute John Nerlinger's outstanding record of leadership. John, after 43 years of service to the automotive industry, you will be missed.

Thank you for including me in today's program. Barbara joins me in wishing each of you the very best for a successful convention. God bless those doing "the hard work of freedom" in the Gulf. And God bless the United States of America.

# # #

## DRAFT SCRIPT

**The President:** It gives me great pleasure to salute those Americans who <sup>have supported</sup> ~~are supporting~~ the men and women serving in Operation Desert Storm. While they serve our nation half a world away, many of you are serving them right here at home. They have left behind their families, their homes, and in many cases their jobs. All for the sacred cause of freedom and lasting peace.

**Mrs. Bush:** By offering comfort and support to their families, by caring for their homes and preserving their jobs, you are giving them peace of mind while they fight for peace in our world.

**The President:** I have called on every American to be a "Point of Light" - to be of service to someone in need. No lights burn brighter at home these days than those who give of themselves to support our armed forces and their families at this time of need.

**Mrs. Bush:** For those who aren't involved but want to be, there are <sup>many</sup> ~~a number of~~ local organizations <sup>that</sup> would welcome your <sup>help</sup> ~~calls~~. Find out what you can do. Please call the USO, the American Red Cross, the United Way, the National Guard or any local military installation -- and tell them you're ready to help out whatever way you can.

The President: May god bless every American serving now in the  
Gulf -- and ~~everyone here at home who supports the brave men and~~ *their families and friends here at home.*

~~women of Operation Desert Storm.~~

# # #

In April of 1945, then General Dwight Eisenhower visited the slave-labor camp at Ohrdruf, Germany. After the visit to what he termed the "horror camp," he said that he had visited "every nook and cranny" because he felt it his duty "to be in a position from then on to testify about these things in case there ever grew up at home the belief or assumption that the stories of Nazi brutality were just propaganda.

PROPOSED PRESIDENTIAL VIDEO FOR THE  
HORATIO ALGER ASSOCIATION AWARDS

Good evening and congratulations to this year's award winners of the Horatio Alger Association of Distinguished Americans.

Tonight, you honor ten outstanding individuals -- true leaders in their respective fields of business, medicine, entertainment, education, the arts, and government.

Your association's long tradition of honoring modern-day heroes of our free-enterprise system -- individuals who have overcome personal hardship and adversity to be successful -- is the foundation on which America is built. If the other outstanding award winners <sup>tonight</sup> will indulge me, I'd like to make a special mention of General Colin Powell, Chairman of the Joint Chiefs of Staff -- a man whose leadership and judgment I depend ~~upon~~ everyday. He and <sup>the other</sup> America's men and women of <sup>America's</sup> the Armed Forces are proving they'll do what it takes, ~~any hour, anywhere,~~ to keep freedom's <sup>alive.</sup> ~~light~~ <sup>burning.</sup> alive.

And let me compliment your Association's leaders -- John W. Rollins, W.W. "Foots" Clements, Charles R. Scott, and Harry A. Merlo -- on this occasion. Your efforts to award over \$265,000 in scholarship money this year to your National Scholars, 53 promising young men and women from all walks of life, is truly remarkable.

Forty-four years ago your organization began to show the world that America was still the land of opportunity; that hard work, perseverance, honor and courage would always be rewarded in this great land.

~~And~~ for the future, I'm sure that all of you will work harder than ever to preserve our precious freedoms -- freedoms that give us the <sup>se wonderful</sup> many opportunities ~~we enjoy in this country.~~

Barbara joins me in sending our best wishes for a <sup>memorable</sup> wonderful evening. Thank you and God bless you all.

PROPOSED VIDEO MESSAGE  
THE AUTOMOTIVE SERVICE INDUSTRY ASSOCIATION CONVENTION

Good ~~morning~~<sup>evening</sup> to everyone attending the 35th annual convention of the Automotive Service Industry Association. I know Chicago welcomes you, and I'm sure John Nerlinger<sup>□</sup> and A-S-I-A's able staff have put together an informative program.

Your industry is justly proud of its record of achievement in making sure the goods, services, and people of this country are transported in safe and efficient vehicles.

America's lasting love affair with the automobile is a reminder of our roots as a nation of people on the move, a reminder of our love for individual choice and individual freedom. It speaks of the open road and wide-open spaces, of a people whose only limits are in the reaches of the imagination.

Earlier this month, I issued my second formal budget as President, a blueprint for the year ahead. And not long ago, I stood in the U.S. Capitol -- stood before the American people -- and reported to you on the State of the Union.

At the heart of my address was a ~~sense of confidence~~ that America today is second to none -- and ~~a sense of commitment, a plan~~<sup>a</sup> to keep America ~~second to none~~ in the years ahead.

Our people and our economy are strong. And so is our resolve. They are being tested<sup>X</sup> as dramatic new changes in the world produce dramatic new challenges in the world market. We have moved to meet these challenges. But make no mistake: The U.S. economy is the largest, strongest, most productive economy

on Earth. And in the years ahead, the work of your hands -- your manufacturing plants, distribution centers, stores and service bays -- will be critical to maintain the growth of your industry -- and our economy.

In closing, let me salute John Nerlinger's outstanding record of leadership. John, after 43 years of service to the automotive industry, you will be missed.

Thank you for including me in today's program. Barbara joins me in wishing each of you the very best for a successful convention. ~~Thank you.~~ God bless those doing "the hard work of freedom" in the Gulf. And God bless the United States of America.

91 FEB 11 PM 12:56

PROPOSED SCRIPT FOR THE 1991 FIRE  
DEPARTMENT INSTRUCTORS CONFERENCE

It's a pleasure to join you today in Cincinnati -- home of the baseball world champion Reds -- as you gather for the 1991 Fire Department Instructors' Conference. And a special hello to Congressman Curt Weldon, co-chairman of the Congressional Fire Services Caucus, who, with the help of Senator John McCain has made their unit the largest on Capitol Hill.

In virtually every community, fire service professionals like each of you are called to duty at any hour -- day or night -- and each time you respond to a call, <sup>e</sup> you risk your life to save another. ~~And~~ <sup>S M</sup> many of you are volunteers, whose communities can give you little, or no, pay. Yet, all of you perform your duties with the utmost dedication and commitment to make our homes safer and <sup>our</sup> communities better, ~~for all of us.~~

Whether it's participating in training exercises, sitting in a classroom or rescuing a child from a burning house, <sup>Americans</sup> you ~~are~~ <sup>everywhere have come to rely on their F.D.</sup> protect our families, our property and our communities. You ~~are~~ <sup>tragedy</sup> helping people recognize the catastrophic ~~power~~ <sup>you</sup> of fires, and ~~are~~ <sup>show us</sup> teaching what others can do to protect themselves from fire-related harm or injury. In short, you are truly some of <sup>this</sup> our Nation's finest citizens, and ~~shining examples of your motto,~~ "~~Reducing fire loss and fire deaths through education.~~"

Barbara joins me in sending our best for a productive conference. Thank you for all you do to make America safe, and may God bless you all.

HOLOCAUST

**PRESIDENTIAL VIDEO: HOLOCAUST MEMORIAL PRESENTATION**

There are no words to describe the Holocaust. No way to express its inhumanity. Or redeem its horror.

There is only one thing we can do -- we can remember. We must remember. Because forgetting is a violation. But remembering -- is a redemption.

So Americans of all creeds, across this nation, have joined together to create, and endow a legacy to the human spirit -- the United States Holocaust Memorial Museum.

The Museum will be more than our nation's official memorial to those who suffered. It will also be a constant reminder of the forces that must guide us as individuals and as nations.

Here, we will learn that each of us bears responsibility for our actions -- and for our failure to act. Here, we will learn that we must intervene when we see evil arise. Here, we will learn more about the moral commitment lodestone by which we each must navigate our lives -- and by which countries must navigate their destinies. Here, ~~we will learn about the principles of humanity and morality that compel our lives as urgently today as ever before.~~

By illustrating what happens when a people fails to live by these precepts, this great the Museum will be important not only in paying tribute to the past -- but it will help to remembering the world's future, ~~and the world~~. For here we will renew our determination to fight all enemies of the human spirit. We will realize that

man created this ultimate horror. And that only man can keep it from happening again.

The charge and example of the extraordinary Elie Wiesel should inspire us all. He wrote: "I decided to devote my life to telling the story [of the Holocaust] because I felt that having survived, I owe something to the dead ... and anyone who does not remember betrays them again."

We will not betray them. We will remember them forever.

(Hinchliffe/Blymire)  
February 8, 1991 2 p.m.  
SCENIC

**PROPOSED VIDEO MESSAGE: SCENIC BYWAYS CONFERENCE**

I'm delighted to be part of this salute to the Scenic Byways movement. It's a real winner -- bringing together interests in recreation, \ tourism, \ conservation, \ transportation \ and economic development, to encourage Americans to explore the true heart of this beautiful country, ~~we share~~.

For when families explore this land of wonders, they discover something very special -- the adventure of learning together about the natural magnificence and expansive spirit of our land. \ After all, scenic byways are the roads that Americans love -- from the peacefulness of the Blue Ridge Parkway in the East, to the drama of California's Highway <sup>one</sup> ... from the history of the South's Natchez Trace to the splendor of ~~the~~ Going-to-the-Sun Highway in Montana's Glacier National Park. ~~the~~ <sup>OK</sup> ~~the~~ <sup>OK</sup>

We must preserve these national treasures. It's tremendously encouraging that across our nation today -- federal, state, local and private partners are working together. They're taking steps to identify, to protect, and to enhance our scenic roads. \ \ \

In my State of the Union address I talked about our proposed highway reauthorization bill, which includes a special program on scenic byways. These provisions -- along with the work of local groups and initiatives by federal agencies such as the Forest Service and the Bureau of Land Management -- will ensure that the 1990s will be a decade of scenic byways enhancement. \ \ \

I'm proud of these efforts, and I'll continue to support

them. For I know that together we can bring to the Scenic Byways system the same vision which has <sup>brought us</sup> ~~already guaranteed~~ that we have the world's <sup>ok.</sup> best National Park ~~system~~, \ the best National Wildlife Refuge system, \ and the best National Forest system. \\

Our goal must be the creation of a National Scenic Byways program which will help Americans <sup>to really</sup> today and in generations <sup>to</sup> see up close -- and for themselves -- our Great Outdoors. \\

Then the American people will never <sup>Always remember</sup> forget the special natural wonder of America the Beautiful, -- ~~the magnificence which has so indelibly shaped our national character.~~

PROPOSED SCRIPT FOR THE 1991 FIRE  
DEPARTMENT INSTRUCTORS CONFERENCE

It's a pleasure to join you today in Cincinnati -- home of the baseball world champion Reds -- as you gather for the 1991 Fire Department Instructors' Conference. And a special hello to Congressman Curt Weldon, co-chairman of the Congressional Fire Services Caucus, who, with the help of Senator John McCain has made their unit the largest on Capitol Hill.

In virtually every community, fire service professionals like each of you are called to duty at any hour -- day or night and each time you respond to a call, you risk your life to save another. And many of you are volunteers, whose communities can give you little, or no, pay. Yet, all of you perform your duties with the utmost dedication and commitment to make our homes safer and communities better for all of us.

Whether it's participating in training exercises, sitting in a classroom or rescuing a child from a burning house, you are protect<sup>ing</sup> our families, our property and our communities. You are helping people recognize the catastrophic power of fires, and are teaching what others can do to protect themselves from fire-related harm or injury. In short, you are truly some of our Nation's finest citizens and shining examples of your motto, "Reducing fire loss and fire deaths through education."

Barbara joins me in sending our best for a productive conference. Thank you for all you do to make America safe, and may God bless you all.

HOLOCAUST

**PRESIDENTIAL VIDEO: HOLOCAUST MEMORIAL PRESENTATION**

There are no words to describe the Holocaust. No way to express its inhumanity. Or redeem its horror.

There is only one thing we can do -- we can remember. We must remember. Because forgetting is a violation. But remembering -- is a redemption.

So Americans of all creeds, across this nation, have joined together to create, and endow a legacy to the human spirit -- the United States Holocaust Memorial Museum.

The Museum will be more than our nation's official memorial to those who suffered. It will also be a constant reminder of the forces that must guide us as individuals and as nations.

Here, we will learn that each of us bears responsibility for our actions -- and for our failure to act. Here, we will learn that we must intervene when we see evil arise. Here, we will learn more about the moral lodestone by which we each must navigate our lives -- and by which countries must navigate their destinies. Here, we will learn about the principles of humanity and morality that compel our lives as urgently today as ever before.

By illustrating what happens when a people fails to live by these precepts, the Museum will be important not only in paying tribute to the past -- but also in the shaping of our nation's future and the world. For here we will renew our determination to fight all enemies of the human spirit. We will realize that

man created this ultimate horror. And that only man can keep it from happening again.

The charge and example of the extraordinary Elie Wiesel should inspire us all. He wrote: "I decided to devote my life to telling the story [of the Holocaust] because I felt that having survived I owe something to the dead ... and anyone who does not remember betrays them again."

We will not betray them. We will remember them forever.

February 8, 1991 2 p.m.  
SCENIC

**PROPOSED VIDEO MESSAGE: SCENIC BYWAYS CONFERENCE**

I'm delighted to be part of this salute to the Scenic Byways movement. It's a real winner -- bringing together interests in recreation, \ tourism, \ conservation, \ transportation \ and economic development, to encourage Americans to explore the true heart of this beautiful country we share.

For when families explore this land of wonders, they discover something very special -- the adventure of learning together about the natural magnificence and expansive spirit of our land. \\ After all, scenic byways are the roads that Americans love -- from the peacefulness of the Blue Ridge Parkway in the East to the drama of California's Highway 1 ... from the history of the South's Natchez Trace to the splendor of the Going-to-the-Sun Highway in Montana's Glacier National Park. ///

We must preserve these national treasures. It's tremendously encouraging that across our nation today -- federal, state, local and private partners are working together. They're taking steps to identify, to protect, and to enhance our scenic roads. ///

In my State of the Union address I talked about our proposed highway reauthorization bill, which includes a special <sup>planning</sup> program <sup>for</sup> scenic byways. These provisions -- along with the work of local groups and initiatives by federal agencies such as the Forest Service and the Bureau of Land Management -- will ensure that the 1990s will be a decade of scenic byways enhancement. ///

I'm proud of these efforts, and I'll continue to support

Hale  
X3120

them. For I know that together we can bring to the Scenic Byways system the same vision which has already guaranteed that we have the world's best National Park system, \ the best National Wildlife Refuge system, \ and the best National Forest system.\\

Our goal must be the creation of a National Scenic Byways program which will help Americans today and in generations to see up close -- and for themselves -- our Great Outdoors. \\

Then the American people will never forget the special natural wonder of America the Beautiful -- the magnificence which has so indelibly shaped our national character.

HORATIO

PROPOSED PRESIDENTIAL VIDEO FOR THE  
HORATIO ALGER ASSOCIATION AWARDS

Good evening and congratulations to this year's award winners of the Horatio Alger Association of Distinguished Americans.

Tonight, you honor ten outstanding individuals -- true leaders in their respective fields of business, medicine, entertainment, education, the arts, and government.

Your association's long tradition of honoring modern-day heroes of our free-enterprise system -- individuals who have overcome personal hardship and adversity to be successful -- is the foundation on which America is built. If the other outstanding award winners will indulge me, I'd like to make a special mention of General Colin Powell, Chairman of the Joint Chiefs of Staff -- a man whose leadership and judgment I depend upon everyday. He and America's men and women of the Armed Forces are proving they'll do what it takes, any hour, anywhere, to keep freedom's light alive.

And let me compliment your Association's leaders -- John W. Rollins, W.W. "Foots" Clements, Charles R. Scott, and Harry A. Merlo -- on this occasion. Your efforts to award over \$265,000 in scholarship money this year to your National Scholars, 53 promising young men and women from all walks of life, is truly remarkable.

Forty-four years ago your organization began to show the world that America was still the land of opportunity; that hard work, perseverance, honor and courage would always be rewarded in this great land.

And for the future, I'm sure that all of you will work harder than ever to preserve our precious freedoms -- freedoms that give us the many opportunities we enjoy in this country.

Barbara joins me in sending our best wishes for a wonderful evening. Thank you and God bless you all.

PROPOSED VIDEO MESSAGE  
THE AUTOMOTIVE SERVICE INDUSTRY ASSOCIATION CONVENTION

Good morning to everyone attending the 35th annual convention of the Automotive Service Industry Association. I know Chicago welcomes you, and I'm sure John Nerlinger and A-S-I-A's able staff have put together an informative program.

Your industry is justly proud of its record of achievement in making sure the goods, services, and people of this country are transported in safe and efficient vehicles.

America's lasting love affair with the automobile is a reminder of our roots as a nation of people on the move, a reminder of our love for individual choice and individual freedom. It speaks of the open road and wide-open spaces, of a people whose only limits are in the reaches of the imagination.

Earlier this month, I issued my second formal budget as President, a blueprint for the year ahead. And not long ago, I stood in the U.S. Capitol -- stood before the American people -- and reported to you on the State of the Union.

At the heart of my address was a sense of confidence that America today is second to none -- and a sense of commitment, a plan to keep America second to none in the years ahead.

Our people and our economy are strong. And so is our resolve. They are being tested, as dramatic new changes in the world produce dramatic new challenges in the world market. We have moved to meet these challenges. But make no mistake: The U.S. economy is the largest, strongest, most productive economy

on Earth. And in the years ahead, the work of your hands -- your manufacturing plants, distribution centers, stores and service bays -- will be critical to maintain the growth of your industry -- and our economy.

In closing, let me salute John Nerlinger's outstanding record of leadership. John, after 43 years of service to the automotive industry, you will be missed.

Thank you for including me in today's program. Barbara joins me in wishing each of you the very best for a successful convention. Thank you. God bless those doing "the hard work of freedom" in the Gulf. And God bless the United States of America.

HOLOCAUST

**PRESIDENTIAL VIDEO: HOLOCAUST MEMORIAL PRESENTATION**

There are no words to describe the Holocaust. No way to express its inhumanity. Or redeem its horror.

There is only one thing we can do -- we can remember. We must remember. ~~Because forgetting is a violation. But~~ <sup>is a</sup> ~~Remembering~~ -- is a redemption <sup>and an homage.</sup> ~~It also~~ <sup>reminds</sup>

So Americans of all creeds, across this nation, have joined together to create, and endow a legacy to the human spirit -- the United States Holocaust Memorial Museum.

The Museum will be more than our nation's official memorial to those who suffered. It will also be a constant reminder of the forces that must guide us as individuals and as nations.

Here, we will learn that each of us bears responsibility for our actions -- and for our failure to act. Here, we will learn that we must intervene when we see evil arise. Here, we will learn more about the moral lodestone by which we each must navigate our lives -- and by which countries must navigate their destinies. Here, we will learn about the principles of humanity and morality that compel our lives as urgently today as ever before.

By illustrating what happens when a people fails to live by these precepts, the Museum will be important not only in paying tribute to the past -- but also in the shaping of our nation's future and the world. For here we will renew our determination to fight all enemies of the human spirit. We will realize that

*reminds of our duty to guarantee again a new Holocaust.*

*And we will learn again that our fight against evil will not end. We will not allow ourselves to be lulled into a false sense of security. We will not allow ourselves to be lulled into a false sense of security. We will not allow ourselves to be lulled into a false sense of security.*

*Why that twin evils are banished from our country and from the world.*

man created this ultimate horror. And that only man can keep it from happening again.

The charge and example of the extraordinary Elie Wiesel should inspire us all. He wrote: "I decided to devote my life to telling the story [of the Holocaust] because I felt that having survived I owe something to the dead ... and anyone who does not remember betrays them again."

We will not betray them. We will remember them forever.

And we will ensure <sup>that</sup> the horror that was the Holocaust does not happen again. # # # #

HORATIO

PROPOSED PRESIDENTIAL VIDEO FOR THE  
HORATIO ALGER ASSOCIATION AWARDS

Good evening and congratulations to this year's award winners of the Horatio Alger Association of Distinguished Americans.

Tonight, you honor ten outstanding individuals -- true leaders in their respective fields of business, medicine, entertainment, education, the arts, and government.

Your association's long tradition of honoring modern-day heroes of our free-enterprise system -- individuals who have overcome personal hardship and adversity to be successful -- is the foundation on which America is built. If the other outstanding award winners will indulge me, I'd like to make a special mention of General Colin Powell, Chairman of the Joint Chiefs of Staff -- a man whose leadership and judgment I depend upon everyday. He and America's men and women of the Armed Forces are proving they'll do what it takes, any hour, anywhere, to keep freedom's light alive.

And let me compliment your Association's leaders -- John W. Rollins, W.W. "Foots" Clements, Charles R. Scott, and Harry A. Merlo -- on this occasion. Your efforts to award over \$265,000 in scholarship money this year to your National Scholars, 53 promising young men and women from all walks of life, is truly remarkable.

other  
of

aglow

Forty-four years ago your organization began to show the world that America was still the land of opportunity; that hard work, perseverance, honor and courage would always be rewarded in this great land.

And for the future, I'm sure that all of you will work harder than ever to preserve our precious freedoms -- freedoms that give us the many opportunities we enjoy in this country.

Barbara joins me in sending our best wishes for a wonderful evening. Thank you and God bless you all.

PROPOSED VIDEO MESSAGE  
THE AUTOMOTIVE SERVICE INDUSTRY ASSOCIATION CONVENTION

Good morning to everyone attending the 35th annual convention of the Automotive Service Industry Association. I know Chicago welcomes you, and I'm sure John Nerlinger and A-S-I-A's able staff have put together an informative program.

Your industry is justly proud of its record of achievement in making sure the goods, services, and people of this country are transported in safe and efficient vehicles.

America's lasting love affair with the automobile is a reminder of our roots as a nation of people on the move, a reminder of our love for individual choice and individual freedom. It speaks of the open road and wide-open spaces, of a people whose only limits are in the reaches of the imagination.

Earlier this month, I issued my second formal budget as President, a blueprint for the year ahead. And not long ago, I stood in the U.S. Capitol -- stood before the American people -- and reported to you on the State of the Union.

At the heart of my address was a sense of confidence that America today is second to none -- and a sense of commitment, a plan to keep America second to none in the years ahead.

Our people and our economy are strong. And so is our resolve. They are being tested, as dramatic new changes in the world produce dramatic new challenges in the world market. We have moved to meet these challenges. But make no mistake: The U.S. economy is the largest, strongest, most productive economy

*how about  
"first"  
as opposed to  
not second*

on Earth. And in the years ahead, the work of your hands -- your manufacturing plants, distribution centers, stores and service bays -- will be critical to maintain the growth of your industry -- and our economy.

In closing, let me salute John Nerlinger's outstanding record of leadership. John, after 43 years of service to the automotive industry, you will be missed.

Thank you for including me in today's program. Barbara joins me in wishing each of you the very best for a successful convention. Thank you. God bless those doing "the hard work of freedom" in the Gulf. And God bless the United States of America.

PROPOSED SCRIPT FOR THE 1991 FIRE  
DEPARTMENT INSTRUCTORS CONFERENCE

It's a pleasure to join you today in Cincinnati -- home of the baseball world champion Reds -- as you gather for the 1991 Fire Department Instructors' Conference. And a special hello to Congressman Curt Weldon, ~~co-chairman of the Congressional Fire Services Caucus~~, who, with the help of Senator John McCain has made ~~their~~ unit the largest <sup>caucus</sup> on Capitol Hill.

In virtually every community, fire service professionals ~~like each of you~~ are called to duty at any hour -- day or night and each time you respond to a call, you risk your life to save another. And many of you are volunteers, whose communities can give you little ~~x~~ or no ~~x~~ pay. Yet, all of you perform your duties with ~~the utmost~~ dedication and commitment ~~to make~~ <sup>making</sup> our homes safer and <sup>our</sup> communities better for all of us.

Whether it's participating in training exercises, sitting in a classroom or rescuing a child from a burning house, you are protect <sup>ing</sup> our families <sup>and</sup> our property. ~~and our communities~~. You are helping people recognize the catastrophic <sup>potential</sup> power of fire ~~x~~, and are teaching what others can do to protect themselves from fire-related harm or injury. In short, you are truly some of our Nation's finest citizens and shining examples of your motto, "Reducing fire loss and fire deaths through education."

Barbara joins me in sending our best for a productive conference. Thank you for all you do to make America safe, and may God bless you all.

HOLOCAUST

**PRESIDENTIAL VIDEO: HOLOCAUST MEMORIAL PRESENTATION**

There are no words to describe the Holocaust. No way to express its inhumanity. Or redeem its horror.

There is only one thing we can do -- we can remember. We must remember. Because forgetting is a violation. But remembering -- is a redemption.

~~So~~ Americans of all creeds, across this nation, have joined together to create and endow a legacy to the human spirit -- the United States Holocaust Memorial Museum.

The Museum will be more than our nation's official memorial to those who suffered. It will also be a constant reminder of the <sup>principles</sup> ~~forces~~ that must guide us as individuals and as nations.

Here, we will learn that each of us bears responsibility for our actions -- and for our failure to act. Here, we will learn that we must intervene when we see evil arise. Here, we will learn more about the moral <sup>compass</sup> lodestone by which we ~~each must~~ navigate our lives -- and by which countries <sup>will</sup> ~~must~~ navigate their <sup>future</sup> ~~destinies~~. Here, we will learn about the <sup>values</sup> ~~principles~~ of humanity and morality that compel our lives as urgently today as ever before.

By illustrating what happens when a people fails to live by these precepts, the Museum will be important not only in paying tribute to the past -- but also in the shaping of our nation's future and the world. For here we will renew our determination to fight all enemies of the human spirit. We will realize that

*me*  
man created this ultimate horror *of the holocaust.* And that only man can keep it from happening again.

The charge and example of the extraordinary Elie Wiesel should inspire us all. He wrote: "I decided to devote my life to telling the story [of the Holocaust] because I felt that having survived I owe something to the dead ... and anyone who does not remember betrays them again."

We will not betray them. We will remember them forever.

*Ben* God bless  
your work  
& God bless the  
U.S.A.

February 8, 1991 2 p.m.  
SCENIC

**PROPOSED VIDEO MESSAGE: SCENIC BYWAYS CONFERENCE**

I'm delighted to be part of this salute to the Scenic Byways movement. It's a real winner -- bringing together interests in recreation, \ tourism, \ conservation, \ transportation \ and economic development, to encourage Americans to explore the true heart of this beautiful country we share.

For when families explore this land of wonders, they discover something very special -- the adventure of learning together about the natural magnificence and expansive spirit of our land. \\ After all, scenic byways are the roads that Americans love -- from the peacefulness of the Blue Ridge Parkway in the East to the drama of California's Highway 1 ... from the history of the South's Natchez Trace to the splendor of the Going-to-the-Sun Highway in Montana's Glacier National Park. \\

We must preserve these national treasures. It's tremendously encouraging that across our nation today -- federal, state, local and private partners are working together. They're taking steps to identify, to protect, and to enhance our scenic roads. \\

In my State of the Union address I talked about our proposed highway reauthorization bill, which includes a special program on scenic byways. These provisions -- along with the work of local groups and initiatives by federal agencies such as the Forest Service and the Bureau of Land Management -- will ensure that the 1990s will be a decade of scenic byways enhancement. \\

I'm proud of these efforts, and I'll continue to support

them. For I know that together we can bring to the Scenic Byways system the same vision which has already guaranteed that we have the world's best National Park system, \ the best National Wildlife Refuge system, \ and the best National Forest system.\\\

Our goal must be the creation of a National Scenic Byways program which will help Americans today and in generations to see up close -- and for themselves -- our Great Outdoors. \\

Then the American people will never forget the special natural wonder of America the Beautiful -- the magnificence which has so indelibly shaped our national character.
