PRESIDENTIAL REMARKS: NEW JERSEY GOP FUNDRAISER
EAST BRUNSWICK RAMADA NEW JERSEY
TUESDAY, SEPTEMBER 24, 1991
6:30 P.M.

[Acknowledgements]

((I'm here today because I know a lot of money's been spent, and that there's been a lot of media attention on both sides ... and I think we all agree the stakes are high. // But hey, enough about Liz Taylor's wedding. //))

I've come here today for the same reason many of you have - - because the Republican Party of New Jersey is attracting people from far and wide. The Republican Party has grass roots appeal. The Republican Party defines the mainstream in this state. And come this fall, the Republican Party will win the State Assembly and State Senate back for New Jersey. ///

New Jersey Democrats should be worried. The New Jersey G.O.P. has the best candidates -- in fact, more women and minorities are running for office as Republicans than as Democrats. Not surprisingly, we face our best chance in 18 years of capturing both Houses. Four more seats in each House will put us over the top. We'll run on the Republican Record -- and that leaves the other Party just plain running. //

Look at last year's elections. In 1990, Republicans won a record number of new local and county offices, and swept both contested legislative races. New Jersey voters sent a message to the Democrats in the U.S. Senate race, and helped us take back an

assembly seat that hadn't gone G.O.P. in 15 years. The switch is on -- to the Republican Party -- because when the fight is fair and on the issues, **Republicans win.** ///

Let me say a few words about the "fairness" issue. The other party talks about "fairness" -- until the time comes to draw those district lines. Democrats have called it "their contribution to modern art" -- we call it **"gerrymandering."** We'll fight for fair representation all the way -- with three of the best in the business on our side -- our State GOP chairman, **Bob Franks** // and our Minority Leader in the Assembly, **Chuck Haytaian** [Heh-TAY-en] // and of course, our Minority Leader in the State Senate **John Dorsey.** // We'll fight for fairness because we Republicans don't need gerrymandering. We've got the issues on our side. That's what wins in fair elections.

Republicans stand for important principles. We stand for free markets and free people ... for a strong national defense and the power of democracy. We believe in measuring success not by **dollars spent and red tape created** -- but by **lives enriched and families strengthened.** We're working to build a better America -- by providing choice in child care, reforming our schools, safeguarding our environment and -- most importantly -- **fueling a strong economic recovery.** //

But in order to achieve excellence at home and competitiveness abroad, we need more men and women of courage and conviction. In the House, in the Senate, and right here in the Statehouse, // **we need more Republicans.** //

Don't you think it's time to bring New Jersey back to the common-sense policies of the Republican Party? // Especially after the last few years I believe New Jerseyans will appreciate that G.O.P. really ^{does} ~~can~~ stand for **Growth, Opportunity and Prosperity.**

Rogich

Our Administration's economic growth agenda **promotes growth and opportunity for all Americans.** Our economic growth package is one that creates the right climate for business to flourish. We want to bring down the tax on capital gains -- so that investors will invest money in new businesses, new ideas and new jobs. We want to bring down the deficit -- by holding the line on Congressional spending. **The federal deficit wasn't caused by people not paying enough taxes, it was caused by Congress spending too much money.** //

Republicans also stand for free and fair trade, because we are determined that America will remain a world leader in the global economy, and because we want to open the world to American products. In the last four years alone, exports from the U.S. have increased 55 percent, more than twice the rate of import growth. Right now, exports have galvanized our economy -- we can build on our strengths to **create more growth, more opportunity and more prosperity for all Americans.**

One more point: Last year, ~~excessive~~ regulations cost the economy at least 185 billion dollars. Well, we're doing something about it. The Vice President's Council on Competitiveness has targeted burdensome regulations. You know

Darman

the ones -- they strangle productivity, defy logic, and don't effectively or efficiently protect the public interest. It's time we cut through this tangle of red tape, and cleared a path for growth.

You don't promote growth by taxing working people into the poorhouse. You don't promote growth by spending beyond your means. And you don't promote growth by binding the economy with bundles of red tape. We want to create jobs and opportunity for all Americans. We want to unleash the power of the American imagination. If you want that -- if you want common sense government -- vote Republican.

Speaking of Common Sense, most people know the famous words of Thomas Paine: "These are the times that try men's souls." But most people don't know that Thomas Paine -- true story -- wrote those words while in New Jersey, during a revolution fought over taxation. These times, too, try mens' souls -- and just like last time, the right side will win this revolution. //

This year the people will send a message to the tax-and-spend Democrats. This year will make New Jersey history. This year New Jersey will go Republican. ///

The people of this state deserve leadership, // fairness // and common sense. They deserve a Republican State Assembly and a Republican State Senate. //

Keep up the good fight. Thank you so much for having me here today. God bless each and every one of you.

#

Thank you, Tom Kean, and Debbie, for welcoming me to New Jersey. I want to thank Gov. Mike Castle for making the trip up from Delaware. ((After what's been happening in this state over the past two years, you'd be fortunate to have either one of them as your governor.)) \\\

I'm glad to have Nick Brady with me here tonight. He's doing an outstanding job in Washington. \\\ And I want salute the Republican team up here: State Chairman Bob Franks, Senate Minority Leader John Dorsey and House Minority Leader Chuck Haytaian [Heh-TYE-en], along with my old friend Bo Sullivan. And with the Republican Congressional delegation behind me, New Jersey is well represented in Congress.

Don't you think it's time to bring New Jersey back to the common-sense policies of the Republican Party? // Especially after the last few years I believe New Jerseyans will appreciate that G.O.P. really can stand for Growth, Opportunity and Prosperity.

Our Administration's economic growth agenda promotes growth and opportunity for all Americans. Our economic growth package is one that creates the right climate for business to flourish. We want to bring down the tax on capital gains -- so that investors will invest money in new businesses, new ideas and new jobs. We want to bring down the deficit -- by holding the line on Congressional spending. The federal deficit wasn't caused by people not paying enough taxes, it was caused by Congress spending too much money. //

Republicans also stand for free and fair trade, because we are determined that America will remain a world leader in the global economy, and because we want to open the world to American products. In the last four years alone, exports from the U.S. have increased 55 percent, more than twice the rate of import growth. Right now, exports have galvanized our economy -- we can build on our strengths to create more growth, more opportunity and more prosperity for all Americans.

One more point: Last year, excessive regulations cost the economy at least 185 billion dollars. Well, we're doing something about it. The Vice President's Council on Competitiveness has targeted burdensome regulations. You know

4

the ones -- they strangle productivity, defy logic, and don't effectively or efficiently protect the public interest. It's time we cut through this tangle of red tape, and cleared a path for growth.

You don't promote growth by taxing working people into the poorhouse. You don't promote growth by spending beyond your means. And you don't promote growth by binding the economy with bundles of red tape. We want to create jobs and opportunity for all Americans. We want to unleash the power of the American imagination. If you want that -- if you want common sense government -- vote Republican.

Speaking of Common Sense, most people know the famous words of Thomas Paine: "These are the times that try men's souls." But most people don't know that Thomas Paine -- true story -- wrote those words while in New Jersey, during a revolution fought over taxation. These times, too, try mens' souls -- and just like last time, the right side will win this revolution. //

This year the people will send a message to the tax-and-spend Democrats. This year will make New Jersey history. This year New Jersey will go Republican. ///

The people of this state deserve leadership, // fairness // and common sense. They deserve a Republican State Assembly and a Republican State Senate. //

Keep up the good fight. Thank you so much for having me here today. God bless each and every one of you.

((I'm here today because I know a lot of money's been spent, and that there's been a lot of media attention on both sides ... and I think we all agree the stakes are high. // But hey, enough about Liz Taylor's wedding. //))

I've come here today for the same reason many of you have - - because the Republican Party of New Jersey is attracting people from far and wide. The Republican Party has grass roots appeal. The Republican Party defines the mainstream in this state. And come this fall, the Republican Party will win the State Assembly and State Senate back for New Jersey. ///

New Jersey Democrats should be worried. The New Jersey G.O.P. has the best candidates -- in fact, more women and minorities are running for office as Republicans than as Democrats. Not surprisingly, we face our best chance in 18 years of capturing both Houses. Four more seats in each House will put us over the top. We'll run on the Republican Record -- and that leaves the other Party just plain running. //

Look at last year's elections. In 1990, Republicans won a record number of new local and county offices, and swept both contested legislative races. New Jersey voters sent a message to the Democrats in the U.S. Senate race, and helped us take back an

assembly seat that hadn't gone G.O.P. in 15 years. The switch is on -- to the Republican Party -- because when the fight is fair and on the issues, **Republicans win.** ///

Let me say a few words about the "fairness" issue. The other party talks about "fairness" -- until the time comes to draw those district lines. Democrats have called it "their contribution to modern art" -- **we call it "gerrymandering."** We'll fight for fair representation all the way -- with three of the best in the business on our side -- our State GOP chairman, **Bob Franks** // and our Minority Leader in the Assembly, **Chuck Haytaian** [Heh-TAY-en] // and of course, our Minority Leader in the State Senate **John Dorsey.** // We'll fight for fairness because we Republicans don't need gerrymandering. We've got the issues on our side. That's what wins in fair elections.

Republicans stand for important principles. We stand for free markets and free people ... for a strong national defense and the power of democracy. We believe in measuring success not by **dollars spent and red tape created** -- but by **lives enriched and families strengthened.** We're working to build a better America -- by providing choice in child care, reforming our schools, safeguarding our environment and -- most importantly -- **fueling a strong economic recovery.** //

I've come here today for the same reason many of you have -
- because the Republican Party of New Jersey is attracting people
from far and wide ... the Republican Party has the grass roots
appeal that voters respond to ... and it is the Republican Party
that defines the mainstream in this state. And because, come
this fall, it is the **Republican Party that will win the State
Assembly and State Senate back for New Jersey. ///**

The Democrats are running scared. Because they know that
this year, the New Jersey G.O.P. has the best candidates -- in
fact, more women and minorities are running for office as
Republicans than as Democrats. As a result, we face our best
chance in 18 years of capturing control of both Houses. All 120
seats in the legislature are at stake this fall, and a net gain
of four seats in each House will put us over the top. **No wonder
the other party is scared -- they know they're up against the
Republican Record.**

Take a look at last year's elections -- in 1990, the Republicans won a record number of new local and county offices, and swept both contested legislative races last November. We saw how the voters sent a message to the Democrats in the Senate ^{U.S.} race, and how an assembly seat was won in a district that has not elected a Republican to the assembly in 15 years. The switch is on -- to the Republican Party -- because when the fight is fair and on the issues, **Republicans win.** ///

Let me say a few words about the "fairness" issue. The other party talks about "fairness" -- until the time comes to draw those district lines. Democrats have called it "their contribution to modern art" -- **we call it "gerrymandering."** And we'll fight for fair representation all the way -- with three of the best in the business on our side -- our State GOP chairman, **Bob Franks** // and our Minority Leader in the Assembly, **Chuck Haytaian** [pronunciation?] // and of course, our Minority Leader in the State Senate **John Dorsey**. // We'll fight for fairness because we Republicans don't need gerrymandering, because we can put the Democrats out of business on the issues **every time.**

You see, the voters know that **the Republican party is on the right side of the issues.** We're the party that stands for free markets and free people ... for a strong national defense and the power of democracy. We're the party that believes in measuring success not by **dollars spent** and **red tape created** -- but by **lives enriched** and **families strengthened.** We're working to build a better America -- by allowing choice in child care, reforming our

education system, safeguarding our environment and -- most importantly -- **keeping our economy going strong.** //

But in order to achieve excellence at home and competitiveness abroad, we need more men and women of courage and conviction. In the House, in the Senate, and in the Statehouse, **// we need more Republicans.** //

We don't need fiscal gimmicks -- we need leadership. Working people don't need any more of the tax-and-spend liberal nightmare. And I don't think I have say it to this crowd: the people of New Jersey don't need another record tax increase of \$3 billion. **/// What the people of New Jersey do need is this: less spending and more Republicans in the State Assembly.** **///**

((I'm reminded of a story nearly a thousand years old, about the people of a medieval town who began a tax revolt against their leaders. They gained attention when one of the women rode through town naked on her horse ... And while I haven't seen **Lady Godiva** around New Jersey lately **/// I've heard that since the Democrats raised taxes here, people are losing their shirts.))**

I read that the Democrats said that once the voters saw the "benefits" of their record-breaking tax increase, they'd appreciate it. Well, the voters are seeing the so-called "benefits" alright -- businesses dying, homes foreclosed, families moving away. **They're seeing Election Day coming, too, and believe me, the voters are seeing red.**

And there's one more thing the voters are seeing -- the common-sense policies of the Republican Party. They understand what G.O.P. stands for: **Growth, Opportunity and Prosperity.**

Our Administration's economic growth agenda is two-pronged: First, we want to **promote growth and opportunity for all Americans.** We've introduced an economic growth package to the Congress, one that creates the right climate for business to flourish. We want to bring down the tax on capital gains -- so that investors will risk money on new businesses, new ideas and new jobs. We want to bring down the deficit -- by holding the line on Congressional spending. **The federal deficit wasn't caused by people not paying enough taxes, it was caused by Congress spending too much money. //**

Republicans also stand for free and fair trade, not only because we want to remain a world leader in the global economy, but because we want to open the world to American products. We all know the benefits of free trade: in the last four years, exports from the U.S. have increased 55 percent, more than twice the rate of import growth. Right now, our economic recovery is export-led -- and we want to continue free trade policies to **create growth, opportunity and prosperity for all Americans.**

That's where the second prong of our strategy comes in: in addition to promoting growth, we must cut the red-tape and regulations that are threatening American businesses. Last year, regulations cost the economy at least \$185 billion. We're doing something about it -- the Vice President's Council on

Competitiveness has targeted burdensome regulations, ones which are **strangling productivity and defying logic.**

Our growth package will enable us to better deal with the rapid and welcome change in the world. We want to promote growth. We want to create jobs and opportunity for all Americans. And we want to unleash the power of the American imagination. **That's what is drawing voters to the Republican Party: common-sense policies that are good for America.**

Speaking of Common Sense, most people know the famous words of Thomas Paine: "These are the times that try men's souls." But most people don't know that Thomas Paine -- true story -- wrote those words while in New Jersey, during a revolution fought over taxation. These times, too, try mens' souls -- and just like last time, **the right side is going to win this revolution. //**

This is the year when the people will send a message to the tax-and-spend Democrats. **This** is the year that will make New Jersey history. **This** is the year that New Jersey will go **Republican. ///**

The people of this state deserve better -- they deserve leadership, **// fairness // and common sense.** They deserve a **Republican State Assembly and a Republican State Senate. //**

Keep up the good fight. Thank you so much for having me here today. God bless each and every one of you.

Let me say a few words about the "fairness" issue. The other party talks about "fairness" -- until the time comes to draw those district lines. Democrats have called it "their contribution to modern art" -- we call it "gerrymandering." And we'll fight for fair representation all the way -- with three of the best in the business on our side -- our State GOP chairman, **Bob Franks** // and our Minority Leader in the Assembly, **Chuck Haytaian** [pronunciation?] // and of course, our Minority Leader in the State Senate **John Dorsey**. // We'll fight for fairness because we Republicans don't need gerrymandering, because we can put the Democrats out of business on the issues **every time.**

You see, the voters know that ~~the Republican party is on the right side of the issues.~~ We're the party that stands for free markets and free people ... for a strong national defense and the power of democracy. We're the party that believes in measuring success not by **dollars spent** and **red tape created** -- but by **lives enriched** and **families strengthened**. We're working to build a better America -- by allowing choice in child care, reforming our

^{schools,} education system, ^{mention crime,} safeguarding our environment and -- most importantly -- ^{find the econ recov were looking for} keeping our economy going strong. //

it's not right now

But in order to achieve excellence at home and competitiveness abroad, we need more men and women of courage and conviction. In the House, in the Senate, ^{-- might have} and in the Statehouse, // we need more Republicans. //

We don't need ^{taxes} fiscal ~~gimmicks~~ -- we need ^{leadership} leadership.
 We don't need fiscal gimmicks -- We need a government that will live within its means.
 Working people don't need any more of the tax-and-spend liberal nightmare. And I ~~don't think I have say it to this crowd:~~ the people of New Jersey don't need another record ~~tax increase of \$3 billion.~~ ^{3 billion dollar tax increase!}
 What the people of New Jersey do need is this: ^{Trenton.}
 less spending and more Republicans in the State Assembly. ///

((I'm reminded of a story nearly a thousand years old, about the people of a medieval town who began a tax revolt against their leaders. They gained attention when one of the women rode through town naked on her horse ... And while I haven't seen **Lady Godiva** around New Jersey lately /// I've heard that since the Democrats raised taxes here, people are **losing their shirts**))

I read that ^{Some} the Democrats ^{say} said that once the voters ^{see} saw the "benefits" of their record-breaking tax increase, they'd appreciate it. Well, the voters are seeing the so-called "benefits" alright -- ^{dying} businesses ^{foreclosures} dying, homes foreclosed, families moving away. ^{Do the people see} They're seeing Election Day coming, too, and believe me, the voters are seeing red.

~~Voters are coming home to~~ Well, let's welcome New Jersey back
And there's one more thing the voters are seeing -- the

common-sense policies of the Republican Party. ^{New Jerseyans} They understand

what G.O.P. stands for: ² **Growth, Opportunity and Prosperity.**

Our Administration's economic growth agenda ^{has two prongs:} is ~~two-pronged~~:

^{First} ~~First~~, We want to **promote growth and opportunity for all**

Americans. (We've introduced an economic growth package to the Congress,) one that creates the right climate for business to flourish. We want to bring down the tax on capital gains -- so that investors will risk money on new businesses, new ideas and new jobs. We want to bring down the deficit -- by holding the line on Congressional spending. **The federal deficit wasn't caused by people not paying enough taxes, it was caused by Congress spending too much money. //**

Republicans also stand for free and fair trade, ~~not only~~ because we want to remain a world leader in the global economy, ^{and} ~~but~~ because we want to open the world to American products. We ~~all know the benefits of free trade:~~ ^{JE} in the last four years, ^{done} exports from the U.S. have increased 55 percent, more than twice the rate of import growth. Right now, (our economic recovery) is export-led -- and we want to continue free trade policies to **create growth, opportunity and prosperity for all Americans.**

That's where the second prong of our strategy comes in: ~~in addition to promoting growth~~, we must cut the red-tape and regulations that are threatening American businesses. Last year, ^{excessive?} regulations cost the economy at least \$185 billion. We're doing something about it -- the Vice President's Council on

[?] ^{the} **(Tangle of red tape)?**

^{shorten} [?] ^{3 sentences}

Competitiveness has targeted burdensome regulations, ones which ~~are strangling productivity and defying logic.~~ *(we've got to cut through the bureaucracy clear a path for growth)*

* Our growth package will enable us to ~~better~~ deal with the rapid and welcome change in the world. We want to promote growth. We want to create jobs and opportunity for all

Americans. ~~And we want to unleash the power of the American imagination.~~ *We want if you want that — vote Republican. if you want Common Sense* That's what is drawing voters to the Republican Party: common-sense policies that are good for America.

Speaking of Common Sense, most people know the famous words of Thomas Paine: "These are the times that try men's souls." But most people don't know that Thomas Paine -- true story -- wrote those words while in New Jersey, during a revolution fought over taxation. These times, too, try men's souls -- and just like last time, ~~the right side is going to win this revolution.~~ *will* //

~~This is the year when~~ the people ~~will~~ *will* send a message to the tax-and-spend Democrats. ~~This is the year that~~ will make New Jersey history. ~~This is the year that~~ New Jersey will go Republican. ///

they deserve The people of this state deserve ~~better~~ *a break from high taxes and low government* ~~they deserve~~ leadership, // fairness // and common sense. They deserve a Republican State Assembly and a Republican State Senate. *they deserve a break from the gover* ///

Keep up the good fight. Thank you so much for having me here today. God bless each and every one of you.

*You don't promote growth by taxing working people into the poorhouse.
You don't promote growth by spending beyond your means.
And you don't promote growth by ~~strapping~~ binding the economy with bundles of red tape.*

**PRESIDENTIAL REMARKS: NEW JERSEY GOP FUNDRAISER
EAST BRUNSWICK RAMADA
TUESDAY, SEPTEMBER 24, 1991
6:30 P.M.**

[Acknowledgements]

((I'm here today because I know a lot of money's been spent, and that there's been a lot of media attention on both sides ... and I think we all agree the stakes are high. // But hey, enough about Liz Taylor's wedding. //))

I've come here today for the same reason many of you have -
- because the Republican Party of New Jersey is attracting people from far and wide. The Republican Party has grass roots appeal. The Republican Party defines the mainstream in this state. And come this fall, the Republican Party will win the State Assembly and State Senate back for New Jersey. ///

New Jersey Democrats should be worried. The New Jersey G.O.P. has the best ^{and most diverse} candidates -- in fact, more women and minorities are running for office as Republicans than as Democrats. Not surprisingly, we face our best chance in 18 years of capturing both Houses. Four more seats in each House will put us over the top. We'll run on the Republican Record -- and that leaves the other Party just plain running. //

Look at last year's elections. In 1990, Republicans won a record number of new local and county offices, and swept both contested legislative races. New Jersey voters sent a message to the Democrats in the U.S. Senate race, and helped us take back an

assembly seat that hadn't gone G.O.P. in 15 years. The switch is on -- to the Republican Party -- because when the fight is fair and on the issues, **Republicans win.** ///

Let me say a few words about the "fairness" issue. The other party talks about "fairness" -- until the time comes to draw those district lines. Democrats have called it "their contribution to modern art" -- we call it **"gerrymandering."** We'll fight for fair representation all the way -- with three of the best in the business on our side -- our State GOP chairman, **Bob Franks** // and our Minority Leader in the Assembly, **Chuck Haytaian** [Heh-TAY-en] // and of course, our Minority Leader in the State Senate **John Dorsey.** // We'll fight for fairness because we Republicans don't need gerrymandering. We've got the issues on our side. That's what wins in fair elections.

Republicans stand for important principles. We stand for free markets and free people ... for a strong national defense and the power of democracy. We believe in measuring success not by **dollars spent and red tape created** -- but by **lives enriched and families strengthened.** We're working to build a better America -- by providing choice in child care, reforming our schools, safeguarding our environment and -- most importantly -- **fueling a strong economic recovery.** //

But in order to achieve excellence at home and competitiveness abroad, we need more men and women of courage and conviction. In the House, in the Senate, and right here in the Statehouse, // **we need more Republicans.** //

Don't you think it's time to bring New Jersey back to the common-sense policies of the Republican Party? // Especially after the last few years I believe New Jerseyans will appreciate that G.O.P. really can stand for **Growth, Opportunity and Prosperity.**

Our Administration's economic growth agenda **promotes growth and opportunity for all Americans.** Our economic growth package is one that creates the right climate for business to flourish. We want to bring down the tax on capital gains -- so that investors will invest money in new businesses, new ideas and new jobs. We want to bring down the deficit -- by holding the line on Congressional spending. **The federal deficit wasn't caused by people not paying enough taxes, it was caused by Congress spending too much money. //**

Republicans also stand for free and fair trade, because we are determined that America will remain a world leader in the global economy, and because we want to open the world to American products. In the last four years alone, exports from the U.S. have increased 55 percent, more than twice the rate of import growth. Right now, exports have galvanized our economy -- we can build on our strengths to **create more growth, more opportunity and more prosperity for all Americans.**

One more point: Last year, excessive regulations cost the economy at least 185 billion dollars. Well, we're doing something about it. The Vice President's Council on Competitiveness has targeted burdensome regulations. You know

the ones -- they strangle productivity, defy logic, and don't effectively or efficiently protect the public interest. It's time we cut through this tangle of red tape, and cleared a path for growth.

You don't promote growth by taxing working people into the poorhouse. You don't promote growth by spending beyond your means. And you don't promote growth by binding the economy with bundles of red tape. We want to create jobs and opportunity for all Americans. We want to unleash the power of the American imagination. If you want that -- if you want common sense government -- vote Republican.

Speaking of Common Sense, most people know the famous words of Thomas Paine: "These are the times that try men's souls." But most people don't know that Thomas Paine -- true story -- wrote those words while in New Jersey, during a revolution fought over taxation. These times, too, try mens' souls -- and just like last time, the right side will win this revolution. //

This year the people will send a message to the tax-and-spend Democrats. This year will make New Jersey history. This year New Jersey will go Republican. ///

The people of this state deserve leadership, // fairness // and common sense. They deserve a Republican State Assembly and a Republican State Senate. //

Keep up the good fight. Thank you so much for having me here today. God bless each and every one of you.
