SAVANNAH Draft Two

32 FEB 27 P 1:27
PRESIDENTIAL REMARKS: SAVANNAH RIVERFRONT APPEARANCE
SAVANNAH, GEORGIA
SUNDAY, MARCH 1, 1992 1 P.M.

Thank you -- what a warm welcome from the Empire State of the South. Wonderful to see some special Georgia friends: Newt [Gingrich], Susan [Weiner], Fred [Cooper], and you Girl Scouts behind me. This is great. It's not often I get to make a speech and buy some Girl Scout cookies at the same time. And what a special welcome -- by these wonderful veterans of Desert Storm.

We're proud to be here in Savannah -- this country's largest urban historic landmark district. And what a beautiful place this Riverfront Plaza is -- there's a great feeling here in this revitalized and restored waterfront. You'll notice I brought along my newest mode of transportation -- "Riverboat One."

As we gather here in this peaceful site, we remember that one year ago this week, the allied nations liberated Kuwait. We fought because it was right. The best and bravest young men and women put their lives on hold because it was right. And we triumphed because it was right.

This is a very special place to commemorate the first anniversary of that historic victory. Your port handled over 200,000 tons of cargo for Desert Storm. Nearly 10,000 sons and daughters of Georgia were called up through the Reserves and the National Guard. Others came from Hunter Army Airfield. Neighboring Ft. Stewart processed 80% of our Desert Storm troops.

~~As a matter of fact, as we hovered on the brink of war last~~

*Found on
tax increase*

~~year I received a letter from a Ft. Stewart soldier stationed in the Gulf. As he and thousands of others waited in the harsh, distant desert, Sgt. Terry Hatfield wrote: "Freedom as we know and enjoy has been taken away from another country and must be restored. Although we are separated from family, friends, loved ones, we will do what must be done ... God bless the USA." That's the spirit that won our victory in Kuwait -- and that's the spirit that will win every victory this nation faces.~~

Today we have our national arsenal aimed at a different challenge: on the economic battlefield. We will win because we have never given in to those who would have us tremble or retreat. Together we will get this economy moving. In my State of the Union address, I proposed short-term and long-term actions to stimulate our economy. This plan will work -- because it will put Americans back to work.

But I need your help. There's much we can do, but Congress has to join us. I gave a comprehensive action package for them to approve by March 20. You need to help convince the Congress that: It's time for them to put aside partisan priorities. It's time to work together for America. Tell them: Americans don't want to lay blame, they don't want to hear bickering, they want to see us stand together -- Americans united behind a sensible plan of action. We can renew this country. We will lift this nation to a better future because we are Americans. We can do anything we set our minds to.

There's one critical part of our economic future I want to

talk to you about: and that's the kind of legacy we want to leave our kids. Look where we are in history -- about to enter the 21st century. It will be an exciting world of high-tech developments and unimagined challenges -- far different from the world we grew up in. But it will also be a tough world, revolving around a fiercely competitive new global marketplace. We've got to be ready. Our kids have got to be educated and energized to meet the challenge. We have to make sure we are prepared not just to compete, but to lead.

Our lives and our future are inextricably linked with the entire world. That is the fact. There are no longer such easy compartments as "foreign affairs" and "domestic policy." When we foster democracy abroad -- when we strengthen our security engagements with our allies and friends -- when we work to open markets and expand trade -- then we make a priceless investment in our own children's future -- their standard of living -- their safety and security -- and their freedoms.

Savannah knows just how important that is. You know the facts. Every billion dollars of exports means 20,000 more American jobs. Right now we see \$422 billion annually in exports, up \$29 billion in one year. Think how many jobs we'll preserve and create as that figure rises. And rise it will: dramatically. The world is buying US products at a record pace - - and I'm not going to let the bankrupt notion of protectionism jeopardize the thousands of Georgia jobs that depend on trade.

Look at this dynamic port. The six million tons and

story of xyz company

billions of dollars in international trade that come through here support 58,000 of those Georgia jobs. Savannah's been a leader in global trade since the world's first steam-powered vessel, the S.S. Savannah, left here to cross the Atlantic. Your new bridge, finally ready through federal and state funding, can accommodate 98% of the world's fleet. Today, dinner is put on your tables by ocean carrier service to every major trade area around this world. The world is at Savannah's doorstep. We've got to keep that job-creating door open -- and I'm confident we will.

And you're also venturing out in return. Georgia's export business is booming: \$12 billion dollars in 1990 for manufactured exports, and over \$1/2 billion in agricultural exports. More and more ships are coming into and going out of this harbor, saluting The Waving Girl.

And that's why I've fought every day of my administration to crack open foreign markets -- so Georgians and all Americans can compete fairly on a level-playing field. We're creating additional opportunities for U.S. exports for companies like Union Camp, Savannah Foods, and Fort Howard Paper. Their people are working hard to compete -- and we're behind them all the way. We will succeed in meeting the growing worldwide challenges because -- as long as the playing field is level -- American workers will outcompete and outproduce anyone, anywhere, anytime.

And we should always remember three rules developed by a daughter of Savannah. Juliette Gordon Low wrote them for her Girl Scouts -- but they apply to us all. They are: "Play fair

. . . play in your place . . . play for your side and not for yourself."

This election year, you will decide our country's future. You can retreat into the Democratic world of protectionism, high taxes, and big government. Or you can move ahead with the Republicans' open markets, low taxes, and deregulation -- all focused on creating and preserving jobs. It's your choice -- it's your future -- it's our future. And I know that working together we will make it brilliant. God bless you all.

year I received a letter from a Ft. Stewart soldier stationed in the Gulf. As he and thousands of others waited in the harsh, distant desert, Sgt. Terry Hatfield wrote: "Freedom as we know and enjoy has been taken away from another country and must be restored. Although we are separated from family, friends, loved ones, we will do what must be done ... God bless the USA." That's the spirit that won our victory in Kuwait -- and that's the spirit that will win every victory this nation faces.

Today we have our national arsenal aimed at a different challenge: on the economic battlefield. We will win because we have never given in to those who would have us tremble or retreat. Together we will get this economy moving. In my State of the Union address, I proposed short-term and long-term actions to stimulate our economy. This plan will work -- because it will put Americans back to work.

But I need your help. There's much we can do, but Congress has to join us. I gave a comprehensive action package for them to approve by March 29. You need to help convince the Congress that: It's time for them to put aside partisan priorities. It's time to work together for America. Tell them: Americans don't want to lay blame, they don't want to hear bickering, they want to see us stand together -- Americans united behind a sensible plan of action. We can renew this country. We will lift this nation to a better future because we are Americans. We can do anything we set our minds to.

There's one critical part of our economic future I want to

talk to you about: and that's the kind of legacy we want to leave our kids. Look where we are in history -- about to enter the 21st century. It will be an exciting world of high-tech developments and unimagined challenges -- far different from the world we grew up in. But it will also be a tough world, revolving around a fiercely competitive new global marketplace. We've got to be ready. Our kids have got to be educated and energized to meet the challenge. We have to make sure we are prepared not just to compete, but to lead.

Our lives and our future are inextricably linked with the entire world. That is the fact. There are no longer such easy compartments as "foreign affairs" and "domestic policy." When we foster democracy abroad -- when we strengthen our security engagements with our allies and friends -- when we work to open markets and expand trade -- then we make a priceless investment in our own children's future -- their standard of living -- their safety and security -- and their freedoms.

Savannah knows just how important that is. You know the facts. [Every billion dollars of exports means 20,000 more American jobs.] Right now we see \$432 billion annually in exports, up \$29 billion in one year. Think how many jobs we'll preserve and create as that figure rises. And rise it will: and I'm not going to let the bankrupt notion of protectionism jeopardize the thousands of Georgia jobs that depend on trade.

Look at this dynamic port. The six million tons and

General Comments:

SAVANNAH Draft Two

PRESIDENTIAL REMARKS: SAVANNAH RIVERFRONT APPEARANCE
SAVANNAH, GEORGIA
SUNDAY, MARCH 1, 1992 1 P.M.

Thank you -- what a warm welcome from the Empire State of the South. Wonderful to see some special Georgia friends: Newt [Gingrich], Susan [Weiner], Fred [Cooper], and you Girl Scouts behind me. ~~This is great. It's not often I get to make a speech and buy some Girl Scout cookies at the same time.~~ And what a special welcome -- by these wonderful veterans of Desert Storm.

We're proud to be here in Savannah -- this country's largest urban historic landmark district. And what a beautiful place this Riverfront Plaza is -- there's a great feeling here in this revitalized and restored waterfront. You'll notice I brought along my newest mode of transportation -- "Riverboat One."

As we gather here in this peaceful site, we remember that one year ago this week, the allied nations liberated Kuwait. We fought because it was right. The best and bravest young men and women put their lives on hold because it was right. And we triumphed because it was right. → This leads right into "Today, we have..."

~~This is a very special place to commemorate the first anniversary of that historic victory. Your port handled over 200,000 tons of cargo for Desert Storm. Nearly 10,000 sons and daughters of Georgia were called up through the Reserves and the National Guard. Others came from Hunter Army Airfield. Neighboring Ft. Stewart processed 80% of our Desert Storm troops. As a matter of fact, as we hovered on the brink of war last~~

Cut for length

year I received a letter from a Ft. Stewart soldier stationed in the Gulf. As he and thousands of others waited in the harsh, distant desert, Sgt. Terry Hatfield wrote: "Freedom as we know and enjoy has been taken away from another country and must be restored. Although we are separated from family, friends, loved ones, we will do what must be done ... God bless the USA." That's the spirit that won our victory in Kuwait -- and that's the spirit that will win every victory this nation faces.

Today we have our national arsenal aimed at a different challenge: on the economic battlefield. We will win because we won't have never given in to those who would have us tremble or retreat. Together we will get this economy moving. In my State of the Union address, I proposed short-term and long-term actions to stimulate our economy. This plan will work -- because it will put Americans back to work.

But I need your help. There's much we can do, but Congress has to join us. I gave a comprehensive action package for them to approve by March 20. You need to help convince the Congress that: It's time for them to put aside partisan priorities. It's time to work together for America. Tell them: Americans don't want to lay blame, they don't want to hear bickering, they want to see us stand together -- Americans united behind a sensible plan of action. We can renew this country. We will lift this nation to a better future because we are Americans. We can do anything we set our minds to.

There's one critical part of our economic future I want to

talk to you about: and that's the kind of legacy we want to leave our kids. Look where we are in history -- about to enter the 21st century. It will be an exciting world of high-tech developments and unimagined challenges -- far different from the world we grew up in. But it will also be a tough world, revolving around a fiercely competitive new global marketplace. We've got to be ready. Our kids have got to be educated and energized to meet the challenge. We have to make sure we are prepared not just to compete, but to lead.

Our lives and our future are inextricably linked with the entire world. That is the fact. There are no longer such easy compartments as "foreign affairs" and "domestic policy." When we foster democracy abroad -- when we strengthen our security engagements with our allies and friends -- when we work to open markets and expand trade -- then we make a priceless investment in our own children's future -- their standard of living -- their safety and security -- and their freedoms.

Savannah knows just how important that is. ~~You know the facts.~~ Every billion dollars of exports means 20,000 more American jobs. Right now we see \$422 billion annually in exports, up \$29 billion in one year. Think how many jobs we'll preserve and create as that figure rises. And rise it will: dramatically. The world is buying US products at a record pace - and I'm not going to let the bankrupt notion of protectionism jeopardize the thousands of Georgia jobs that depend on trade.

in GA or
USA or
world -
where?

Look at this dynamic port. The six million tons and

billions of dollars in international trade that come through here support 58,000 of those Georgia jobs. Savannah's been a leader in global trade since the world's first steam-powered vessel, the S.S. Savannah, left here to cross the Atlantic. Your new bridge, finally ready through federal and state funding, can accommodate 98% of the world's fleet. Today, dinner is put on your tables by ocean carrier service to every major trade area around this world. The world is at Savannah's doorstep. We've got to keep that job-creating door open -- and I'm confident we will.

And you're also venturing out in return. Georgia's export business is booming: \$12 billion dollars in 1990 for manufactured exports, and over \$1/2 billion in agricultural exports. More and more ships are coming into and going out of this harbor, saluting The Waving Girl. *(doesn't she have a real name?)*

And that's why I've fought every day of my administration to crack open foreign markets -- so Georgians and all Americans can compete fairly on a level-playing field. We're creating additional opportunities for U.S. exports for companies like Union Camp, Savannah Foods, and Fort Howard Paper. Their people are working hard to compete -- and we're behind them all the way. We will succeed in meeting the growing worldwide challenges because -- as long as the playing field is level -- American workers will outcompete and outproduce anyone, anywhere, anytime.

~~And we should always remember three rules developed by a daughter of Savannah. Juliette Gordon Low wrote them for her Girl Scouts -- but they apply to us all. They are: "Play fair~~

~~... play in your place ... play for your side and not for yourself."~~

This election year, you will decide our country's future. You can retreat into the Democratic world of protectionism, high taxes, and big government. Or you can move ahead with the Republicans' open markets, low taxes, and deregulation -- all focused on creating and preserving jobs. It's your choice -- it's your future -- it's our future. And I know that working together we will make it brilliant. God bless you all.

#

Maybe an anecdote about some exporting companies in Savannah, ~~to illustrate points, instead of just listing the #s.~~
Personalize it a little more.

SAVANNAH Draft Two

~~PRESIDENTIAL REMARKS~~ ^{27 FEB 27 P 1:27} SAVANNAH RIVERFRONT APPEARANCE
SAVANNAH, GEORGIA
SUNDAY, MARCH 1, 1992 1 P.M.

Thank you -- what a warm welcome from the Empire State of the South. Wonderful to see some special Georgia friends: Newt [Gingrich], Susan [Weiner], Fred [Cooper], and you Girl Scouts behind me. This is great. It's not often I get to make a speech and buy some Girl Scout cookies at the same time. And what a special welcome -- by these wonderful veterans of Desert Storm.

We're proud to be here in Savannah -- this country's largest urban historic landmark district. And what a beautiful place this Riverfront Plaza is -- there's a great feeling here in this revitalized and restored waterfront. You'll notice I brought along my newest mode of transportation -- "Riverboat One."

As we gather here in this peaceful site, we remember that one year ago this week, the allied nations liberated Kuwait. We fought because it was right. The best and bravest young men and women put their lives on hold because it was right. And we triumphed because it was right.

This is a very special place to commemorate the first anniversary of that historic victory. Your port handled over 200,000 tons of cargo for Desert Storm. Nearly 10,000 sons and daughters of Georgia were called up through the Reserves and the National Guard. Others came from Hunter Army Airfield. Neighboring Ft. Stewart processed 80% of our Desert Storm troops.

As a matter of fact, as we hovered on the brink of war last

year I received a letter from a Ft. Stewart soldier stationed in the Gulf. As he and thousands of others waited in the harsh, distant desert, Sgt. Terry Hatfield wrote: "Freedom as we know and enjoy has been taken away from another country and must be restored. Although we are separated from family, friends, loved ones, we will do what must be done ... God bless the USA." That's the spirit that won our victory in Kuwait -- and that's the spirit that will win every victory this nation faces.

Today we have our national arsenal aimed at a different challenge: ~~on the economic battlefield.~~ We will win, because we have never given in to those who would have us tremble or retreat. *fire up the engine of economic growth.* Together we will ~~get this economy moving.~~ In my State of the Union address, I proposed short-term and long-term actions to stimulate our economy. This plan will work -- because it will put Americans back to work.

But I need your help. There's much we can do, but Congress has to join us. I gave a comprehensive action package for them to approve by March 20. You need to help convince the Congress that: It's time for them to put aside partisan priorities. It's time to work together for America. Tell them: Americans don't want to lay blame, they don't want to hear bickering, they want to see us stand together -- Americans united behind a sensible plan of action. We can renew this country. We will lift this nation to a better future because we are Americans. We can do anything we set our minds to.

There's one critical part of our economic future I want to

Creating meaningful employment opportunities for all Americans

on the economic battlefield

talk to you about: and that's the kind of legacy we want to leave our kids. Look where we are in history -- about to enter the 21st century. It will be an exciting world of high-tech developments and unimagined challenges -- far different from the world we grew up in. But it will also be a tough world, revolving around a fiercely competitive new global marketplace. We've got to be ready. Our kids have got to be educated and energized to meet the challenge. We have to make sure we are prepared not just to compete, but to lead.

Our lives and our future are inextricably linked with the entire world. That is the fact. There are no longer such easy compartments as "foreign affairs" and "domestic policy." When we foster democracy abroad -- when we strengthen our security engagements with our allies and friends -- when we work to open markets and expand trade -- then we make a priceless investment in our own children's future -- their standard of living -- their safety and security -- and their freedoms.

Savannah knows just how important that is. You know the facts. Every billion dollars of exports means 20,000 more American jobs. Right now we see \$422 billion annually in exports, up \$29 billion in one year. Think how many jobs we'll preserve and create as that figure rises. And rise it will: dramatically. The world is buying US products at a record pace - and I'm not going to let the bankrupt notion of protectionism jeopardize the thousands of Georgia jobs that depend on trade.

Look at this dynamic port. The six million tons and

billions of dollars in international trade that come through here support 58,000 of those Georgia jobs. Savannah's been a leader in global trade since the world's first steam-powered vessel, the S.S. Savannah, left here to cross the Atlantic. Your new bridge, finally ready through federal and state funding, can accommodate 98% of the world's fleet. Today, dinner is put on your tables by ocean carrier service to every major trade area around this world. The world is at Savannah's doorstep. We've got to keep that job-creating door open -- and I'm confident we will.

And you're also venturing out in return. Georgia's export business is booming: \$12 billion dollars in 1990 for manufactured exports, and over \$1/2 billion in agricultural exports. More and more ships are coming into and going out of this harbor, saluting The Waving Girl.

And that's why I've fought every day of my administration to crack open foreign markets -- so Georgians and all Americans can compete fairly on a level-playing field. We're creating additional opportunities for U.S. exports for companies like Union Camp, Savannah Foods, and Fort Howard Paper. Their people are working hard to compete -- and we're behind them all the way. We will succeed in meeting the growing worldwide challenges because -- as long as the playing field is level -- American workers will outcompete and outproduce anyone, anywhere, anytime.

And we should always remember three rules developed by a daughter of Savannah. Juliette Gordon Low wrote them for her Girl Scouts -- but they apply to us all. They are: "Play fair

. . . play in your place . . . play for your side and not for yourself."

This election year, you will decide our country's future. You can retreat into the Democratic world of protectionism, high taxes, and big government. Or you can move ahead with the Republicans' open markets, low taxes, and deregulation -- all focused on creating and preserving jobs. It's your choice -- it's your future -- it's ^{America's} ~~our~~ future. And I know that working together we will make it brilliant. God bless you all.

 SAVANNAH Draft Two

~~PRESIDENTIAL REMARKS~~ ^{22 FEB 27 P 1:27} SAVANNAH RIVERFRONT APPEARANCE
 SAVANNAH, GEORGIA
 SUNDAY, MARCH 1, 1992 1 P.M.

Thank you -- what a warm welcome from the Empire State of the South. Wonderful to see some special Georgia friends: Newt [Gingrich], Susan [Weiner], Fred [Cooper], and ~~you~~ ^{THE} Girl Scouts behind me. This is great. It's not often I get to make a speech and buy some Girl Scout cookies at the same time. And what a special welcome -- by these ~~wonderful~~ ^{THE} veterans of Desert Storm. ^{STET}

We're proud to be here in Savannah -- this country's largest urban historic landmark district. ^g And what a beautiful place this Riverfront Plaza is -- there's a great feeling here in this revitalized and restored waterfront. You'll notice I brought along my newest mode of transportation -- "Riverboat One."

As we gather here in this peaceful site, we remember that one year ago this week, the allied nations liberated Kuwait. We fought because it was right. The best and bravest young men and women put their lives on hold because it was right. And we triumphed because it was right.

This is a very special place to commemorate the first anniversary of that historic victory. Your port handled over 200,000 tons of cargo for Desert Storm. Nearly 10,000 sons and daughters of Georgia were called up through the Reserves and the National Guard. Others came from Hunter Army Airfield. Neighboring Ft. Stewart processed 80% of our Desert Storm troops.

~~As a matter of fact,~~ ^g as we hovered on the brink of war last

2

year I received a letter from a Ft. Stewart soldier stationed in the Gulf. As he and thousands of others waited in the harsh, distant desert, Sgt. Terry Hatfield wrote: "Freedom as we know and enjoy has been taken away from another country and must be restored. Although we are separated from family, friends, loved ones, we will do what must be done ... God bless the USA."

That's the spirit that won our victory in Kuwait -- and that's the spirit that will win every ~~victory~~ ^{CHALLENGE THAT CONFRONTS OUR NATION.} ~~this nation faces.~~

Today we have our national arsenal aimed at a different challenge: on the economic battlefield. We will win because we have never given in to those who would have us tremble or retreat. Together we will get this economy moving. In my State of the Union address, I proposed short-term and long-term actions to stimulate our economy. This plan will work -- because it will put Americans back to work.

But I need your help. There's much we can do, but Congress has to join us. I ^{PRESENTED} ~~gave~~ a comprehensive ^{SET OF INITIATIVES} ~~action package~~ for them to approve by March 20. You need to help ^{ME} convince the Congress that: It's time for them to put aside partisan priorities. It's time to work together for America. Tell them: Americans don't want to lay blame, they don't want to hear bickering, they want to see us ^{MOVING FORWARD} ~~stand~~ together -- Americans united behind a sensible plan of action. We can renew this country. We will lift this nation to a better future because we are Americans. We can do anything we set our minds to.

There's one critical part of our economic future I want to

3

talk to you about: and that's the kind of legacy we want to leave our kids. Look where we are in history -- about to enter the 21st century. It will be an exciting world of high-tech developments and unimagined challenges -- far different from the world we grew up in. But it will also be a tough world, revolving around a fiercely competitive new global marketplace. We've got to be ready. Our kids ~~have got to~~ ^{MUST} be educated and energized to meet the challenge. We have to make sure we are prepared not just to compete, but to lead.

Our lives and our future are inextricably linked with the entire world. That is the fact. ~~There are no longer such easy~~ ^{IT IS NO LONGER EASY TO} ~~compartmentalize~~ ^{DIFFERENTIATE} as "foreign affairs" and "domestic policy." When we foster democracy abroad -- when we strengthen our security engagements with our allies and friends -- when we work to open markets and expand trade -- ~~then we make a priceless investment~~ ^{then} in our own children's future -- their standard of living -- their safety and security -- and their freedoms.

Savannah knows just how important that is. You know the facts. Every billion dollars of exports means 20,000 more American jobs. ^{WE EXPORT GOODS AND SERVICES WORTH} Right now we ~~see~~ ^Y \$422 billion annually in ~~exports~~ ^{exports}, up \$29 billion in one year. Think how many jobs we'll preserve and create as that figure rises. And rise it will: dramatically. The world is buying US products at a record pace - and I'm not going to let the bankrupt notion of protectionism jeopardize the thousands of Georgia jobs that depend on trade.

Look at this dynamic port. The six million tons and

4

billions of dollars in international trade that come through here support ~~\$8,000~~ ^{JOBS IN} ~~of these Georgia jobs?~~ Savannah's been a leader in global trade since the world's first steam-powered vessel, the S.S. Savannah, left here to cross the Atlantic. Your new bridge, finally ready through federal and state funding, can accommodate 98% of the world's fleet. ~~Today, dinner is put on your tables by ocean carrier services to every major trade area around this world.~~ The world is at Savannah's doorstep. We've got to keep that job-creating door open -- and I'm confident we will.

And you're also venturing out in return. Georgia's export business is booming: \$12 billion dollars in 1990 for manufactured exports, and over \$1/2 billion in agricultural exports. More and more ships are coming into and going out of this harbor, saluting The Waving Girl.

And that's why I've fought every day of my administration to crack open foreign markets -- so Georgians and all Americans can compete fairly on a level-playing field. We're creating additional opportunities for U.S. exports for companies like Union Camp, Savannah Foods, and Fort Howard Paper. Their people are working hard to compete -- and we're behind them all the way. We will succeed in meeting the growing worldwide challenges because -- as long as the playing field is level -- American workers will outcompete and outproduce anyone, anywhere, anytime.

And we should always remember three rules developed by a daughter of Savannah. Juliette Gordon Low wrote them for her Girl Scouts -- but they apply to us all. They are: "play fair

5

. . . play in your place . . . play for your side and not for yourself."

This election year, you will decide our country's future. You can retreat into the Democratic world of protectionism, high taxes, and big government. Or you can move ahead with the Republicans' open markets, low taxes, and deregulation -- all focused on creating and preserving jobs. It's your choice -- it's your future -- it's our future. And I know that working together we will make it brilliant. God bless you all.
