Folder Title:
Remarks on Signing Emergency Supplemental Appropriations Legislation, 6/22/92

Stack:	Row:	Section:	Shelf:	Position:
G	26	18	3	1

Despite the odds, we've had some successes on Capitol Hill. Legislation like the Child Care Act which said parents raise kids, not the Government; the Clean Air Act, linking a strong economy with a clean environment; the Americans with Disabilities Act, guaranteeing the disabled their rightful place in the mainstream. Give these people a chance, and that's what that legislation did. And sometimes my job up there, given the control of the Congress, is to keep bad things from happening. And when it comes to stopping bad legislation with my veto pen, it's Bush 26, the Congress 0. And it's going to stay that way.

I'm proud of our record. We've had to make the tough calls every day and every week. We proposed a better way for America, a new track for America. And like Texas, it is a big idea. And when Congress blocks the way, stuck in the muck of old thinking, we'll keep that heat on, keep pushing for change. One specific on that; the Congress may have a vision problem on that. The Congress may have a vision problem, but don't for a minute think that we're going to give up on the superconducting supercollider. It is forward-looking, and the country needs it, and the world needs it. It's good for Texas, and it's good for the United States of America.

And when the American people send me a Congress with a commitment to change, we'll pass the laws and do the work that the American people deserve. But let me say this: With or without the Congress, we are going to give the American people what they want. And that's not excuses; that is action. This is an age of great change for America. And that's what makes November 3d so important. Change can seem to threaten the most valuable legacies that we hope to leave our children: good jobs, strong families, a Nation at peace. Change breeds uncertainty and skepticism, and I understand that. But, look, we are the United States of America, one Nation under God. And the genius of America is everywhere. It is in a society that places a premium on performance, not glitz; on service, not selfishness. A society that captures what Texas is all about. And let the skeptic say that it can't be done. The optimist will say, let's get to work. And I am ready.

And, yes, we're in the fight of our lives, but it's worth the fight. And we are in it to win.

And I appreciate this sensationally warm Texas welcome. And may God bless you all. And may God bless the United States of America. Thank you very much. Thank you. Thank you all so much.

Note: The President spoke at 4:06 p.m. at the Dallas Convention Center. In his remarks, he referred to Kay Bailey Hutchison, Texas State treasurer; Rick Perry, Texas commissioner of agriculture; Beverly Kaufman, president, Texas Federation of Republican Women; Jim Oberwetter, Bush-Quayle '92 Texas chairman; Barbara Patton, Bush-Quayle '92 Texas cochairman; and Frederick D. McClure, managing director, First Southwest Co., and former Assistant to the President for Legislative Affairs. The President also referred to the Texas A&M University Aggies.

Remarks on Signing Emergency Supplemental Appropriations Legislation

June 22, 1992

Welcome to the Rose Garden. I'm very pleased to welcome all of you on this short notice to the White House. But may I salute our Secretary of Labor, who's been very instrumental in all of this; Senator Seymour; Senator Hatch; Senator Stevens; Congressman Joe McDade. Welcome, all. And all of them, along with some others that weren't able to be with us today, have been extraordinarily helpful in this legislation. May I salute Mayor Schmoke, Bob Neall.

It is a very special privilege to have some young Americans from right here in our Nation's Capital. They're the reason, kids like these are the reason why we produce this legislation. They're the reason we're fighting for far-reaching reforms to offer opportunity for a better future.

The supplemental appropriations bill that I am signing here today provides emergency funding for the nationwide disaster programs of the Federal Emergency Management Agency, FEMA, and for the Small Business

of our lives, but

Administration, SBA. This bill replenishes
the resources of both Agencies for expendi-
tures they're making to help the victims of
this lawless violence in Los Angeles and the
flood in Chicago. These funds are used to
help shelter people that are affected by major
disasters and to offer low-interest loans to
individuals in businesses in the disaster areas.

The bill also will help finance more than
400,000 summer jobs through a program of
the Department of Labor with a special focus
on helping young people in America's largest
urban areas. By providing for \$1.45 billion
in SBA-guaranteed loans, the bill will help
small business across the country literally
create thousands of new jobs.

I turned aside efforts by some in the Con-
gress to spend more for the sake of spending
more when the urgent need is for funda-
mental change to provide hope and oppor-
tunity for people in the inner cities. We've
got to recognize these supplemental funds
are a beginning, only a beginning, and that's
the way it is. It's imperative that we make
a fundamental change, that we put in place
the package of reforms that we call the New
America Plan. There are several points to
that plan:

First, it enhances Government's primary
mission to ensure the personal safety of our
people. Our neighborhoods, our streets must
be free from crime. To strike a blow for our
people's right to live free from fear, I am
asking Congress now to act on my "Weed
and Seed" program to fight urban crime, as
well as enacting a tough new comprehensive
crime bill.

People in our cities need more freedom
and opportunity to achieve, to excel. The sec-
ond part of this plan calls for enterprise zones
to offer incentives for innovation and job cre-
ation in the greatest American tradition. It
is high time we put this great idea into action.
When I was in Los Angeles, support for en-
terprise zones were across the board, across
party label, across age group label. It was an
amazing amount of support. So we've got to
get this put into action.

The third part, our HOPE initiative, will
help turn public housing tenants into home-
owners. There's no overestimating the dig-
nity that that brings.

Fourth, our America 2000 education re-
forms will help extend to parents and kids
right there in the inner cities the same
choices that people in the suburbs already
have.

Fifth, to give people new skills, we propose
to reform job training.

Finally, the long-term well-being of neigh-
borhoods that are now dangerous and de-
pressed demands that we break with the cul-
ture of dependency. My agenda for welfare
reform aims to reward work and learning, to
insist that fathers take responsibility for their
children, and to make families whole.

These are the keys to providing hope for
this new generation. These are the only reli-
able means for making our cities the safe and
prosperous places they ought to be. So again,
I am urging the Congress to put an end to
the delays and to take action on this New
America Plan.

I thank you all for coming. Now I will in-
vite the Senators and Congressman McDade
to come up, and be glad to sign this impor-
tant legislation.

[At this point, the President signed the bill.]

The deed is done. Thank you all very, very
much.

*Note: The President spoke at 2 p.m. in the
Rose Garden at the White House. In his re-
marks, he referred to Kurt Schmoke, Mayor
of Baltimore, MD, and Robert R. Neall, coun-
ty executive of Anne Arundel County, MD.

And you have contributed more than inspiration. We need
look no further than your commitment to the entrepreneurial spirit to
see how you've helped our country and helped our economy. You've
built dreams; you've also built jobs. You've opened up opportunities
for all Americans by bolstering economic growth.

We look to job-creation leaders like those that we
honor: Maryles Casto, David Lee, Bob Nakasone. I told Bob that I'm
sorry Barbara's not out here because if he ever runs for anything,
Barbara Bush will be his campaign manager, I'll guarantee you that.
Another great admirer. (Applause.)

But another old friend over here, Jhoon Rhee; Ram
Thukkaram; Ted Ngoy; Jang Lee, another man who I saw in action the
other day in Koreatown; and the late John Fang, represented here
tonight by his wife Florence, another friend of mine.

And like these, the Asian Americans proud hold on the
American Dream seems secure. I still believe that today, even after
this terrible tragedy that part of the Asian American community
suffered. And I went through Koreatown. And I saw how a community
that had been building its roots and reaching out for its dreams for
25 years could be reduced overnight to ashes -- over 1,600 stores
burned or ransacked in the rampage. I talked with victims like Helen
Lim who said that, with each statistic, America must realize that,
"It's a life -- a human being is suffering."

One person told me how teenager Edward Song Lee said to
his dad that "the Korean community needs my help" -- and then went
out unarmed to protect his neighborhood, only to be killed in the
crossfire. I heard of devastation that spread through Chinatown,
Japantown, Vietnamese and Cambodian neighborhoods in Long Beach. I
was heartsick to see how low humanity can sink. But on the same
streets -- on the same streets, I also saw how high humanity can
rise.

Americans everywhere condemned the violence and the
looting. Victimized neighbors -- black, Hispanic, Asian American --
came together to renounce darkness and embrace healing. And the
buildings were destroyed -- but you could feel it -- not the spirit,
not the spirit. And the community will rebuild not just to make
things the way they were, but to make things better.

You've drawn on your inner strength for courage and
