2 JUL 16 P3:26

Good morning everybody. It's great to be out West ... and to visit this outstanding university ... and to be here where the Cougars have devoured so many victims.

"The West is where we all go someday" ... a famous writer once wrote. "It's where we go when we hear there is 'gold in them thar hills.' Where we go to grow with the country. Where we chase our young dreams ... or spend our old age."

And today I can add ... with complete authority ... that the West also isn't all that bad a place to be ... when your personality is being pummelled ... your character questioned ... and your administration verbally assassinated ... 2,000 miles away.

I spent the past couple days away from a television set ... up in Wyoming trout fishing with Secretary of State Jim Baker ... and our sons, Jamie and Jeb.

But I am aware that something else was going on in America this week. Something real important.

This is the week when all across America ... crowds of panting, sweating people overran their neighborhood video stores. From Tallahassee to Tempe ... Americans turned on their TV and decided they'd rather rent "Action Jackson" than listen to: Well, never mind.

Now ... please don't get the idea that this is some kind of partisan attack. Stop by Rich's Video down on Freedom Boulevard ... and I'm sure Rich'll tell it to you straight. Sales aren't all that bad during the Republican Convention either.

I know you have a lot on your minds beside politics. And I hate to poison the air with partisan talk. But let me respond just a little to what went on in Manhattan.

If you're one of those who prefer video renting to politicians venting ... I'll put it simple. You can sum up all you need to know about the Manhattan meeting with the title of a 1965 Cliff Robertson comedy: "Masquerade."

From what I heard about the convention ... I wonder if the Democrats are donning a disguise.

They're saying the right things. Pride in America's strength. Support for entrepreneurs. Respect for law and order.

In fact ... if it weren't for the \$9,000 stuffed ponies at the toy store on the corner ... and the bullet proof vests being sold on street corners ... you could close your eyes and think they were at this "home on the range" in Provo ... not the "home of the hockey Rangers" in New York City.

But you know ... I couldn't help but wonder ... do they really mean what they say? Or is this new costume something the Democrats plan on discarding ... maybe sometime right after Halloween?

Think about it. If they celebrate the end of the Cold War ... how come they never supported the strength that won it?

If they claim to be buddies with business people ... how come they want to load 'em down with new taxes?

If they are really the party of new ideas and open ears ... why not allow just one speaker to talk about the rights of the unborn?

And if they start their convention with a prayer ... how come you can read all 10,000 words in their party platform ... and never run across three simple letters: G-O-D.

Now ... don't take my word that the Democrats may not be what they appear to be. I'm a little biased.

Listen instead ... to a party elder. A guy named McGovern. First name George. He called this year's Democratic Party ... "a Trojan Horse."

He said ... and I quote ... "they're much more liberal underneath ... and will prove it when they're elected."

I know I've never said this publicly. But that McGovern. He's an incredibly insightful man!

Now ... let me be straight with you. This election isn't going to be decided on what we say about the other side ... or what they say about us ... for that matter.

What matters ... is what we have to offer the American people.

My view of America is a little different than what you may have heard this week. I'd like to explain it.

I know at BYU you like to say ... that the world is your campus. Let me say ... that campus has been through incredible change in four years. Because of our leadership ... because of your sacrifice and commitment ... millions of people breathe free today.

That poses challenges ... and opportunities.

The question is this ... can we compete ... now that so many other nations are playing our game?

We need to understand something. If we can win this competition ... and we will ... to the victors will go bigger spoils than ever before in human history.

Today ... far more people are eager for the fruit of our labors. That means more jobs ... more prosperity for our kids ... and their kids.

Now ... that's the opportunity I see today. But how do we take advantage of it?

Our first priority ... is to create and protect jobs.

Listening to Madison Square Garden this week ... you probably got the impression that our economy was second rate ... second class.

But keep in mind a few facts.

We are still the world's largest and most vibrant economy.

Second to no one.

We've tamed inflation ... the last time interest rates stayed this low ... the Brady Bunch hadn't started re-runs.

Our factories produce a higher percentage of the world's manufactured goods than we did 20 years ago.

What a Japanese worker can produce in five days ... an American can make in four.

Today ... we have emerged as the world's export champion.

Last year ... the Japanese government asked who leads the world in 143 critical technology industries. Japanese firms led in 33. The United States in 43.

And I wouldn't be suprised to learn ... if that report was put together on WordPerfect software ... made right here in Provo.

Our economy is growing today. But not fast enough.

Too many people have worked for a company for twenty years ... only to fear that the next mail run will bring a pink slip. And many of you young people are working your way through Brigham Young ... you deserve to be able to find a job on graduation day.

I used to run a business ... meet a payroll. I learned the only way that government can create jobs ... is to support the people who create jobs.

This is the creed Governor Norm Bangerter follows. He understands that the only surefire way to give people unlimited dreams ... is by limiting the size of government.

We're going to bring some of Norm's attitude to Washington.

Like your Governor ... we need a line-item veto ... and I'm going to get it.

Like your Governor ... we need a balanced budget amendment to the Constitution ... and I'm going to get it.

And despite 31 vetoes in three years ... we need even more discipline on the Potomac.

With the help of Senator Jake Garn and Senator Orrin Hatch ... a new Congressman named Richard Harrington ... we're going to treat

wasteful government spending the way Karl Malone will treat a jump shot in Barcelona. We're going to swat it back into the front row!

Here's my second priority. A moral revolution in America.

Americans need to understand something you all know very well.

"No success can compensate for failure in the home."

David O. McKay said those words many years ago ... and they harken back to a different age in America.

Today we can fly from Paris to New York and arrive earlier than we left ... but do we too often leave behind the difference between right and wrong?

We can explore a world beyond the stars ... but do we too often ignore a neighbor down the street?

We can turn natural ingredients into miracle medicines ... but why do we feel the need to turn every argument into a lawsuit?

America won't get better until we start suing each other less ... and serving each other more.

We learn these values in our living rooms and around our kitchen tables. But while families help keep our lives together ... government can help keep our families together.

By giving parents the freedom to choose their kid's schools. By reforming welfare ... so that we reward work and families can stick together ... not fall apart.

Only then ... can our nation find its way back to our foundation.

My third priority. Quite simple. Restore respect for the law.

Elderly women in this country ... watch the Berlin Wall fall on television ... but are afraid to walk to their neighborhood grocery store.

There are kids in our cities ... who hear of the Russians reducing nuclear weapons ... but then have to walk through a metal detector at school every morning.

What do you say to these Americans? You say enough is enough. Let's put an end to the lawlessness. Let's put an end to the illegal behavior.

These are my principles ... the things in which I believe. I hope you agree ... because they are the key to our future.

Those of you in the BYU summer school program ... are here to be prepared to "go forth to serve." But you might be wondering where America is going forth.

The question on your minds ... is one that's been asked for generations. Can I do better than my mom and dad? Will the dream still be alive for me and my kids.

Well ... I've been around for a couple years. If you'll excuse some advice from an elder ... I really do believe America's best days are ahead.

Yes ... we face challenges today ... but I've seen this nation climb much taller mountains.

If we can topple the Berlin Wall ... we can build a strong economy. If we can lift the iron curtain ... we can bring the curtain down on immorality and indifference. If we can help people walk free in Eastern Europe ... we can take back the streets of America.

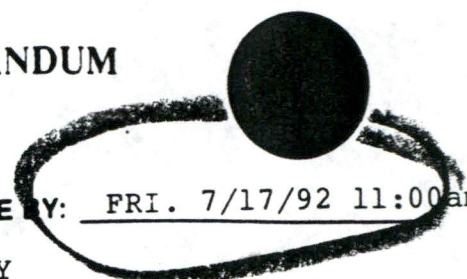

This is our mission. Together we'll accomplish it.

God bless you and God bless America.

We need to understand something. If we can win this competition ... and we will ... to the victors will go bigger spoils than ever before in human history.

Today ... far more people are eager for the fruit of our labors. That means more jobs ... more prosperity for our kids ... and their kids.

Now ... that's the opportunity I see today. But how do we take advantage of it?

Our first priority ... is to create and protect jobs.

Listening to Madison Square Garden this week ... you probably got the impression that our economy was second rate ... second class.

But keep in mind a few facts.

We are still the world's largest and most vibrant economy.
Second to no one.

We've tamed inflation ... the last time interest rates stayed
this low ... the Brady Bunch hadn't started re-runs.

Our factories produce a higher percentage of the world's
manufactured goods than we did 20 years ago.

~~What a Japanese worker can produce in five days ... an American
can make in four.~~

Today ... we have emerged as the world's export champion.

Last year ... the Japanese government asked who leads the world
in 143 critical technology industries. Japanese firms led in 33.
The United States in 43.

And I wouldn't be suprised to learn ... if that report was put
together on WordPerfect software ... made right here in Provo.

Our economy is growing today. But not fast enough.

*While total U.S. productivity (including agriculture) is higher,
manufacturing productivity is lower. The statement appears to
relate to manufacturing productivity and therefore
is misleading. It should be deleted.*

Too many people have worked for a company for twenty years ... only to fear that the next mail run will bring a pink slip. And many of you young people are working your way through Brigham Young ... you deserve to be able to find a job on graduation day.

I used to run a business ... meet a payroll. I learned the only way that government can create jobs ... is to support the people who create jobs.

This is the creed Governor Norm Bangerter follows. He understands that the only surefire way to give people unlimited dreams ... is by limiting the size of government.

We're going to bring some of Norm's attitude to Washington.

Like your Governor ... we need a line-item veto ... and I'm going to get it.

Like your Governor ... we need a balanced budget amendment to the Constitution ... and I'm going to get it.

And despite 31 vetoes in three years ... we need even more discipline on the Potomac.

With the help of Senator Jake Garn and Senator Orrin Hatch ... a new Congressman named Richard Harrington ... we're going to treat

wasteful government spending the way Karl Malone will treat a jump shot in Barcelona. We're going to swat it back into the front row!

Here's my second priority. A moral revolution in America.

Americans need to understand something you all know very well.

"No success can compensate for failure in the home."

David O. McKay said those words many years ago ... and they harken back to a different age in America.

Today we can fly from Paris to New York and arrive earlier than we left ... but do we too often leave behind the difference between right and wrong?

We can explore a world beyond the stars ... but do we too often ignore a neighbor down the street?

We can turn natural ingredients into miracle medicines ... but why do we feel the need to turn every argument into a lawsuit?

America won't get better until we start suing each other less ... and serving each other more.

We learn these values in our living rooms and around our kitchen tables. But while families help keep our lives together ... government can help keep our families together.

By giving parents the freedom to choose their kid's schools. By reforming welfare ... so that we reward work and families can stick together ... not fall apart.

Only then ... can our nation find its way back to our foundation.

My third priority. Quite simple. Restore respect for the law.

Elderly women in this country ... watch the Berlin Wall fall on television ... but are afraid to walk to their neighborhood grocery store.

There are kids in our cities ... who hear of the Russians reducing nuclear weapons ... but then have to walk through a metal detector at school every morning.

What do you say to these Americans? You say enough is enough. Let's put an end to the lawlessness. Let's put an end to the illegal behavior.

These are my principles ... the things in which I believe. I hope you agree ... because they are the key to our future.

Those of you in the BYU summer school program ... are here to be prepared to "go forth to serve." But you might be wondering where America is going forth.

The question on your minds ... is one that's been asked for generations. Can I do better than my mom and dad? Will the dream still be alive for me and my kids.

Well ... I've been around for a couple years. If you'll excuse some advice from an elder ... I really do believe America's best days are ahead.

Yes ... we face challenges today ... but I've seen this nation climb much taller mountains.

If we can topple the Berlin Wall ... we can build a strong economy. If we can lift the iron curtain ... we can bring the curtain down on immorality and indifference. If we can help people walk free in Eastern Europe ... we can take back the streets of America.

This is our mission. Together we'll accomplish it.

God bless you and God bless America.

2 JUL 16 P3:26

Good morning everybody. It's great to be out West ... and to visit this outstanding university ... and to be here where the Cougars have devoured so many victims.

"The West is where we all go someday" ... a famous writer once wrote. "It's where we go when we hear there is 'gold in them thar hills.' Where we go to grow with the country. Where we chase our young dreams ... or spend our old age."

And today I can add ... with complete authority ... that the West also isn't all that bad a place to be ... when your personality is being pummelled ... your character questioned ... and your administration verbally assassinated ... 2,000 miles away.

I spent the past couple days away from a television set ... up in Wyoming trout fishing with Secretary of State Jim Baker ... and our sons, Jamie and Jeb.

But ~~I can assure that~~ something else was going on in America this week. Something ~~real~~ important.

This is the week when all across America ... crowds of panting, sweating people overran their neighborhood video stores. From Tallahassee to Tempe ... Americans turned on their TV and decided they'd rather rent "Action Jackson" than listen to: Well, never mind.

Now ... please don't get the idea that this is some kind of partisan attack. Stop by Rich's Video down on Freedom Boulevard ... and I'm sure Rich'll tell it to you straight. Sales aren't all that bad during the Republican Convention either.

I know you have a lot on your minds beside politics. And I hate to poison the air with partisan talk. But let me respond just a little to ^{SOME OF THE ASSERTIONS MADE} ~~what went on~~ in Manhattan.

If you're one of those who prefer video renting to politicians venting ... I'll put it simple. You can sum up all you need to know about the Manhattan meeting with the title of a 1965 Cliff Robertson comedy: "Masquerade."

From what I heard about the convention ... I wonder if the Democrats are donning a disguise.

They're saying the right things. Pride in America's strength. Support for entrepreneurs. Respect for law and order.

In fact ... if it weren't for the \$9,000 stuffed ponies at the toy store on the corner ... and the bullet proof vests being sold on street corners ... you could close your eyes and think they were at this "home on the range" in Provo ... not the "home of the hockey Rangers" in New York City.

But you knew ... I couldn't help but wonder ... do they really mean what they say? Or is this new costume something the Democrats plan on discarding ... maybe sometime right after Halloween?

THE DEMOCRATS

Think about it. If ~~they~~^{they} celebrate the end of the Cold War ... how come they never supported the strength that won it?

SUPPORT

If they claim to ~~be buddies with~~^{be buddies with} business people ... how come they want to load 'em down with new taxes?

If they are really the party of new ideas and open ears ... why not allow just one speaker to talk about the rights of the unborn?

And if they start their convention with a prayer ... how come you can read all 10,000 words in their party platform ... and never run across three simple letters: G-O-D.

I know at BYU you like to say ... that the world is your campus. Let me say ... that campus has been through incredible change in four years. Because of our leadership ... because of your sacrifice and commitment ... millions of people breathe free today.

That poses challenges ... and opportunities.

The question is this ... can we compete ... now that so many other nations are playing our game?

We need to understand something. If we can win this competition ... and we will ... to the victors will go bigger spoils than ever before in human history.

Now ... let me be straight with you. This election isn't going to be decided on what we say about the other side ... or what they say about us ... for that matter.

What matters ... is what we have to offer the American people.

My view of America is a little different than what you may have heard this week. I'd like to explain it.

In fact ... if it weren't for the \$9,000 stuffed ponies at the toy store on the corner ... and the bullet proof vests being sold on street corners ... you could close your eyes and think they were at this "home on the range" in Provo ... not the "home of the hockey Rangers" in New York City.

But you know ... I couldn't help but wonder ... do they really mean what they say? Or is this new costume something the Democrats plan on discarding ... maybe sometime right after Halloween?

Think about it. If they celebrate the end of the Cold War ... how come they never supported the strength that won it?

If they claim to be buddies with business people ... how come they want to load 'em down with new taxes?

If they are really the party of new ideas and open ears ... why not allow just one speaker to talk about the rights of the unborn?

And if they start their convention with a prayer ... how come you can read all 10,000 words in their party platform ... and never run across three simple letters: G-O-D.

I know at BYU you like to say ... that the world is your campus.

Let me say ... that campus has been through incredible change in four years. Because of our leadership ... because of your sacrifice and commitment ... millions of people breathe free today.

That poses challenges ... and opportunities.

The question is this ... can we compete ... now that so many other nations are playing our game?

We need to understand something. If we can win this competition ... and we will ... to the victors will go bigger spoils than ever before in human history.

Today ... far more people are eager for the fruit of our labors. That means more jobs ... more prosperity for our kids ... and their kids.

Now ... that's the opportunity I see today. But how do we take advantage of it?

Our first priority ... is to create and protect jobs.

Listening to Madison Square Garden this week ... you probably got the impression that our economy was second rate ... second class.

But keep in mind a few facts.
THE WHITE HOUSE

We are still the world's largest and most vibrant economy.
Second to no one.

We've tamed inflation ... the last time interest rates stayed
this low ... the Brady Bunch hadn't started re-runs.

Our factories produce a higher percentage of the world's
manufactured goods than we did 20 years ago.

What a Japanese worker can produce in five days ... an American

Today ... we have emerged as the world's export champion.

Last year ... the Japanese government asked who leads the world

Our economy is growing today. But not fast enough.

Good morning everybody. It's great to be out West ... and to visit this outstanding university ... and to be here where the Cougars have devoured so many victims.

"The West is where we all go someday" ... a famous writer once wrote. "It's where we go when we hear there is 'gold in them thar hills.' Where we go to grow with the country. Where we chase our young dreams ... or spend our old age."

And today I can add ... with complete authority ... that the West also isn't all that bad a place to be ... when your personality is being pumelled ... your character questioned ... and your administration verbally assassinated ... 2,000 miles away.

»

I spent the past couple days away from a television set ... up in Wyoming trout fishing with Secretary of Stat: Jim Baker ... and our sons, Jamie and Job.

But I am aware that something else was going on in America this week. Something real important.

This is the week when all across America ... crowds of panting, sweating people overran their neighborhood video stores. From Tallahassee to Tempe ... Americans turned on their TV and decided they'd rather rent "Action Jackson" than listen to: Well, never mind.

Now ... please don't get the idea that this is some kind of partisan attack. Stop by Rich's Video down on Freedom Boulevard ... and I'm sure Rich'll tell it to you straight. Sales aren't all that bad during the Republican Convention either.

I know you have a lot on your minds beside politics. And I hate to poison the air with partisan talk. But let me respond just a little to what went on in Manhattan.

If you're one of those who prefer video renting to politicians ranting ... I'll put it simple. You can sum up all you need to know about the Manhattan meeting with the title of a 1965 Cliff Robertson comedy: "Masquerade."

From what I heard about the convention ... I wonder if the Democrats are donning a disguise.

They're saying the right things. Pride in America's strength. Support for entrepreneurs. Respect for law and order.

In fact ... if it weren't for the \$9,000 stuffed ponies at the toy store on the corner ... and the bullet proof vests being sold on street corners ... you could close your eyes and think they were at this "home on the range" in Prevo ... not the "home of the hockey Rangers" in New York City.

But you know ... I couldn't help but wonder ... do they really mean what they say? Or is this new costume something the Democrats plan on discarding ... maybe sometime right after Halloween?

Think about it. If they celebrate the end of the Cold War ... how come they never supported the strength that won it?

And if they start their convention with a prayer ... how come you can read all 10,000 words in their party platform ... and never run across three simple letters: G-O-D.

Now ... don't take my word that the Democrats may not be what they appear to be. I'm a little biased.

Listen instead ... to a party elder. A guy named McGovern. First name George. He called this year's Democratic Party "a Trojan Horse."

Like your Governor ... *we've* we need a balanced budget amendment to the Constitution ... and I'm going to get it.

And despite 31 vetoes in three years ... we need even more discipline on the Potomac.

With the help of Senator Jake Garn and Senator Orrin Hatch ... a new Congressman named Richard Harrington ... we're going to treat

wasteful government spending the way Karl Malone will treat a jump shot in Barcelona. We're going to swat it back into the front row!

Here's my second priority. A moral revolution in America.

Americans need to understand something you all know very well.

"No success can compensate for failure in the home."

David O. McKay said those words many years ago ... and they harken back to a different age in America.

Today we can fly from Paris to New York and arrive earlier than we left ... but do we too often leave behind the difference between right and wrong?

We can explore a world beyond the stars ... but do we too often ignore a neighbor down the street?

We can turn natural ingredients into miracle medicines ... but why do we feel the need to turn every argume t into a lawsuit?

America won't get better until we start suing each other less ... and serving each other more.

We learn these values in our living rooms and around our kitchen tables. But while families help keep our lives together ... government can help keep our families together.

By giving parents the freedom to choose their kid's schools. By reforming welfare ... so that we reward work and families can stick together ... not fall apart.

Only then ... can our nation find its way back to our foundation.

My third priority. Quite simple. Restore respect for the law.

Elderly women in this country ... watch the Berlin Wall fall on television ... but are afraid to walk to their neighborhood grocery store.

There are kids in our cities ... who hear of the Russians reducing nuclear weapons ... but then have to walk through a metal detector at school every morning.

What do you say to these Americans? You say enough is enough. Let's put an end to the lawlessness. Let's put an end to the illegal behavior.

These are my principles ... the things in which I believe. I hope you agree ... because they are the key to our future.

Those of you in the BYU summer school program ... are here to be prepared to "go forth to serve." But you might be wondering where America is going forth.

The question on your minds ... is one that's been asked for generations. Can I do better than my mom and dad? Will the dream still be alive for me and my kids.

Well ... I've been around for a couple years. If you'll excuse some advice from an elder ... I really do believe America's best days are ahead.

Yes ... we face challenges today ... but I've seen this nation climb much taller mountains.

If we can topple the Berlin Wall ... we can build a strong economy. If we can lift the iron curtain ... we can bring the curtain down on immorality and indifference. If we can help people walk free in Eastern Europe ... we can take back the streets of America.

This is our mission. Together we'll accomplish it.

God bless you and God bless America.

They're saying the right things. Pride in America's strength. Support for entrepreneurs. Respect for law and order.

In fact ... if it weren't for the \$9,000 stuffed ponies at the toy store on the corner ... and the bullet proof vests being sold on street corners ... you could close your eyes and think they were at this "home on the range" in Provo ... not the "home of the hockey Rangers" in New York City.

But you know ... I couldn't help but wonder ... do they really mean what they say? Or is this new costume something the Democrats plan on discarding ... maybe sometime right after Halloween?

Think about it. If they celebrate the end of the Cold War ... how come they never supported the strength that won it?

If they claim to be buddies with business people ... how come they want to load 'em down with new taxes?

If they are really the party of new ideas and open ears ... why not allow just one speaker to talk about the rights of the unborn?

And if they start their convention with a prayer ... how come you can read all 10,000 words in their party platform ... and never run across three simple letters: G-O-D.

Now ... don't take my word that the Democrats may not be what they appear to be. I'm a little biased.

Listen instead ... to a party elder. A guy named McGovern. First name George. He called this year's Democratic Party ... "a Trojan Horse."

He said ... and I quote ... "they're much more liberal underneath ... and will prove it when they're elected."

I know I've never said this publicly. But that McGovern. He's an incredibly insightful man!

is covered to with?
~~Now ... let me be straight with you.~~ This election isn't going to be decided on what we say about the other side ... or what they say about us ... for that matter.

What matters ... is what we have to offer the American people.

My view of America is a little different than what you may have heard this week. ~~I'd like to explain it.~~

I know at BYU you like to say ... that the world is your campus. Let me say ... that campus has been through incredible change in four years. Because of our leadership ... because of your sacrifice and commitment ... millions of people breathe free today.

That poses challenges ... and opportunities.

The question is this ... can we compete ... now that so many other nations are playing our game?

We need to understand something. If we can win this competition ... and we will ... to the victors will go bigger spoils than ever before in human history.

Today ... far more people are eager for the fruit of our labors. That means more jobs ... more prosperity for our kids ... and their kids.

Now ... that's the opportunity I see today. But how do we take advantage of it?

Our first priority ... is to create and protect jobs.

Listening to Madison Square Garden this week ... you probably got the impression that our economy was second rate ... second class.

But keep in mind a few facts.

We are still the world's largest and most vibrant economy.
Second to no one.

We've tamed inflation ... the last time interest rates stayed
this low ... the Brady Bunch hadn't started re-runs.

Our factories produce a higher percentage of the world's
manufactured goods than we did 20 years ago.

What a Japanese worker can produce in five days ... an American
can make in four.

Today ... we have emerged as the world's export champion.

Last year ... the Japanese government asked who leads the world
in 143 critical technology industries. Japanese firms led in 33.
The United States in 43.

And I wouldn't be suprised to learn ... if hat report was put
together on WordPerfect software ... made ri ht here in Provo.

Our economy is growing today. But not fast enough. *our work*
IS NOT FINISHED. THE ~~JOB~~ IS NOT COMPLETED.
MISSION

Too many people have worked for a company for twenty years ... only to fear that the next mail run will bring a pink slip. And many of you young people are working your way through Brigham Young ... you deserve to be able to find a job on graduation day.

I used to run a business ... meet a payroll. I learned the only way that government can create jobs ... is to support the people who create jobs.

This is the creed Governor Norm Bangerter follows. He understands that the only surefire way to give people unlimited dreams ... is by limiting the size of government.

We're going to bring some of Norm's attitude to Washington.

Like your Governor ... we need a line-item veto ... and I'm going to get it.

Like your Governor ... we need a balanced budget amendment to the Constitution ... and I'm going to get it.

And despite 31 vetoes in three years ... we need even more discipline on the Potomac.

With the help of Senator Jake Garn and Senator Orrin Hatch ... a new Congressman named Richard Harrington ... we're going to treat

wasteful government spending the way Karl Malone will treat a jump shot in Barcelona. We're going to swat it back into the front row!

Here's my second priority. A moral revolution in America.

Americans need to understand something you all know very well.

"No success can compensate for failure in the home."

David O. McKay said those words many years ago ... and they harken back to a different age in America.

Today we can fly from Paris to New York and arrive earlier than we left ... but do we too often leave behind the difference between right and wrong?

We can explore a world beyond the stars ... but do we too often ignore a neighbor down the street?

We can turn natural ingredients into miracle medicines ... but why do we feel the need to turn every argume t into a lawsuit?

America won't get better until we start suing each other less ... and serving each other more.

We learn these values in our living rooms and around our kitchen tables. But while families help keep our lives together ... government can help keep our families together.

By giving parents the freedom to choose their kid's schools. By reforming welfare ... so that we reward work and families can stick together ... not fall apart.

Only then ... can our nation find its way back to our foundation.

My third priority. Quite simple. Restore respect for the law.

Elderly women in this country ... watch the Berlin Wall fall on television ... but are afraid to walk to their neighborhood grocery store.

There are kids in our cities ... who hear of the Russians reducing nuclear weapons ... but then have to walk through a metal detector at school every morning.

What do you say to these Americans? You say enough is enough.

~~Let's put an end to the lawlessness.~~ Let's put an end to the illegal behavior. *I'M FIGHTING TO PUT AN END TO LAWLESSNESS*

These are my principles ... the things in which I believe. I hope you agree ... because they are the key to our future.

Those of you in the BYU summer school program ... are here to be prepared to "go forth to serve." But you might be wondering where America is going forth.

The question on your minds ... is one that's been asked for generations. Can I do better than my mom and dad? Will the dream still be alive for me and my kids.

Well ... I've been around for a couple years. If you'll excuse some advice from an elder ... I really do believe America's best days are ahead.

Yes ... we face challenges today ... but I've seen this nation climb much taller mountains.

If we can topple the Berlin Wall ... we ^{WILL} ~~can~~ build a strong economy. If we can lift the iron curtain ... we ^{WILL} ~~can~~ bring the curtain down on immorality and indifference. If we can help people walk free in Eastern Europe ... we ^{WILL} ~~can~~ take back the streets of America.

This is our mission. Together we'll accomplish it.

God bless you and God bless America.

Presidential Remarks
Bush-Quayle Rally
Provo, Utah
18 July 1992
Draft

Good morning everybody. It's great to be out West ... and to visit this outstanding university ... and to be here where the Cougars have devoured so many victims.

"The West is where we all go someday" ... a famous writer once wrote. "It's where we go when we hear there is 'gold in them thar hills.' Where we go to grow with the country. Where we chase our young dreams ... or spend our old age."

And today I can add ... with complete authority ... that the West also isn't all that bad a place to be ... when your personality is being pummelled ... your character questioned ... and your administration verbally assassinated ... 2,000 miles away.

I spent the past couple days away from a television set ... up in Wyoming trout fishing with Secretary of State Jim Baker ... and our sons, Jamie and Jeb.

But I am aware that something else was going on in America this week. Something real important.

This is the week when all across America ... crowds of panting, sweating people overran their neighborhood video stores. From Tallahassee to Tempe ... Americans turned on their TV and decided they'd rather rent "Action Jackson" than listen to: Well, never mind.

Now ... please don't get the idea that this is some kind of partisan attack. Stop by Rich's Video down on Freedom Boulevard ... and I'm sure Rich'll tell it to you straight. Sales aren't all that bad during the Republican Convention either.

I know you have a lot on your minds beside politics. And I hate to poison the air with partisan talk. But let me respond just a little to what went on in Manhattan.

If you're one of those who prefer video renting to politicians venting ... I'll put it simple. You can sum up all you need to know about the Manhattan meeting with the title of a 1965 Cliff Robertson comedy: "Masquerade."

From what I heard about the convention ... I wonder if the Democrats are donning a disguise.

They're saying the right things. Pride in America's strength. Support for entrepreneurs. Respect for law and order.

In fact ... if it weren't for the \$9,000 stuffed ponies at the toy store on the corner ... and the bullet proof vests being sold on street corners ... you could close your eyes and think they were at this "home on the range" in Provo ... not the "home of the hockey Rangers" in New York City.
