Presidential Remarks: Brookville Community Picnic
 Brookville, Ohio
 Friday, July 24, 1992

Thank you for that warm Brookville welcome ... and thanks
for inviting me to this year's picnic.

(Acknowledgements)

I've had a lot of fun today. I love the chance to eat a
little food ... play a little baseball ... and get to know the
legendary Cloyce Copley. Cloyce may be the northern side of 90
... but he can still throw a mean horseshoe.//

I was told that the most popular booth here is the "Waffle
Trailer." I asked somebody: "what is a waffle trailer?" ... and
they told me about those delicious deep fried snowflakes.

92 JUL 23 P12:22

I was worried that a "waffle-trailer" is what you call six politicians in a truck with aluminum siding.//

I know you're having a lot of fun today at this picnic ... but I'd like you to reflect for a few moments ... on where our great nation stands today.

The past four years have been a crummy time for the world's fortune tellers. Month after month ... day after day ... events occurred that ~~busted~~ ^{shattered} all the crystal balls.

The Berlin Wall crumbled. Russians trooped to the polls. Hungarians heard the unmistakable ring of a stock exchange opening.

The Cold War is over. After four decades of sacrifice ... four decades of ~~selfless commitment to our democratic ideals~~ ^{holding tight to our belief in democracy...} ... the world has said in unison: ~~We'd rather~~ ^{wanna'} go the way of the good ole "U.S.A."

What does it mean for us? Wellwhen your kids and grandkids go to bed tonight ... (they can think about the name of the first crush they carved in these old beech trees) ... or the start of football "two-a-days." But they don't have to worry about nuclear ~~weapons~~ ^{attack}.

→ do kids really do this anymore? I never did..

The world is safer than it was a decade ago. Safer than it was a year ago. Safer than it was even a month ago ... before ^{Boris} ~~I~~ ^{Yeltsin and I sat down and agreed to cut nuclear weapons.} ~~sat down with Boris Yeltsin and cut those nuclear weapons.~~

--- challenges that are definitely within our reach.

too frightening

This new world poses huge challenges. Our economy is ^{changing} ~~undergoing wrenching change ...~~ as we adjust to a world in which so many nations are now playing our game.

Can we compete? I ^{know} ~~believe~~ we can. But it's going to require ~~some changes in~~ ^{each one of us to help change} America.

That's why I'm running for re-election. We have changed the world ... and now I believe we can change America. ~~change by~~ ^{We must} ~~taking us back to~~ ^{return to} some ~~enduring~~ ^{everlasting} values ... so that we can build a stronger and better future.

I'm concerned about a new ~~nuclear~~ threat facing our country today ... a threat more dangerous than any missile or ~~submarine~~ ^{bomb} ... I'm ^{not} ~~taking~~ about the breakdown of the ~~nuclear~~ family.

Some say that "family values" is merely a slogan ... a rhetorical sweatshirt that politicians pull over their heads every four years.

I'm sorry ... but I just don't agree.

On the way here ... I had the pleasure of reading one of the beautiful poems by ^{Brookville's own} ~~your~~ Ruth Ditmer Ream. She wrote about a world "short on hope ... where there is so much pain."

Ruth asked ... "how can we mend the 'golden thread' ... to weave our dreams again?"

Well, ^{Ruth} ~~I see the family as our "golden thread."~~ ^{my family is my "golden thread".} The center of ~~our lives~~ ^{my life} ... the glue that ~~holds~~ ^{keeps} us together. I believe that family can do things that no government program ever can.

Look right here in this community.

Where would you find a government program ... that would guarantee that ^{Brookville High's} ~~your~~ senior class ... would have a 95 percent attendance record?

Government can't do it ... ~~but~~ family can.

Where would you find a government program ... that motivates six of your best and brightest to earn perfect Grade Point averages ... and earn a quarter of a million dollars in college scholarships?

Government can't do it ... ~~but~~ family can.

Where would you find a government program ... to teach and shape a good, solid young man like Derek Brown ... who ~~can~~ ^{has} earned ^{ed} a national merit scholarship?

Government ~~can't~~ ^{didn't} do it ... ~~but~~ Derek's mom and dad ^{did} ~~can~~.

Family teaches us ~~simple values~~ ^{about} ... work and responsibility ... to love thy neighbor and respect our creator.

Families ~~can~~ do things that government should never even try. But government must try ... to keep our families together.

It's expensive to raise a family today. You know that.

I believe government can help ease the burden.

Yesterday, I signed a law expanding financial aid available to young families. -- ^{not only the poor}

~~Not just the poor~~ ... but also middle class families. Those of you who skip the ^{yearly} vacation or ~~drive the old clunker~~ ^{put off buying a new car} ... so that your son or daughter can go to college and chase a dream. You deserve support. // ^{- and I am going to see that you get it.}

What about the young children ... ~~with working parents~~ ... who need quality day care ^{... while both their parents are at work?}

Well, ^{last year} I fought for an important new effort to help assist these ^{working parents} ~~families~~. I stood for principle, against those who said that only government-sponsored day care deserves ^{financial (?)} support.

I asked: what's wrong with day care in an aunt's house ... or even a church? When it comes to deciding who cares for children ... let's not let ~~bureaucrats~~ ^{government} decide ... father and mother really do know best.//

→ pro-choice??
(Choice is the hallmark of our free enterprise system.) *→ lofty*

I believe the same principle ought to apply to our schools. If we have the freedom to choose the kind of ~~wood~~ ^{materials} we use to build our homes ... shouldn't we be free to choose the kind of school our kids use to build their dreams?

That's why I proposed
~~So I believe in~~ a "GI bill for children" ... to give ~~x~~ parents a thousand dollars to send their child to the best school they can find. Whether it's a public school, a private school, or a church school ... I say ... let the ~~parents~~ ^{family} ~~choose!~~ ^{decide}!//

These are some of the ~~ideas~~ ^{many} ideas I have been fighting for. There are others. Like a \$5,000 tax credit ... to help young families ~~can~~ buy their first home. ~~I~~ ^{also} want families to be able to use their IRA's ... for unexpected health care costs.

Our families who are poor or struggling ~~pose~~ ^{face} an especially daunting challenge.

We know that in recent years ... the number of single-parent families has ~~exploded~~ ^{sky-rocketed}. And ~~fully~~ half the children in single parent homes live in poverty. ~~... five times the rates of other children.~~ ^{not necessary}

Our nation and our children ... cannot afford to lose ~~the~~ ^{this battle.} ~~future~~. So I believe it's high time we changed our system to reward work ... not welfare. It's time to give these families an incentive ~~not to fall apart ... but~~ to stick together. ^{Mention NJ waiver just signed --}

These are the economic ideas I am advancing to ~~protect the~~ ^{preserve} ~~family.~~ But there are other pressures ~~more subtle ... that~~ ^{that can destroy the home} ~~tear at the fabric of this institution.~~

^{I'm talking about drugs.} Drugs can sap the vitality from a young person. ^{Drugs can turn a football team captain into a dropout.} We have fought drugs with more cops on our streets ... and more concern in our classrooms. We have brought drug use down ... but ~~it must~~ ^{everyone person} ~~fall further.~~ ^{and sell to} I say that if drug kingpins prey for profit on our children ... they should ~~face a federal death penalty.~~ ^{sit in the electric chair.}

And what ~~of~~ ^{about} dads ... who leave their children ~~without~~ ^{stranded} ~~emotional or~~ ^{financial} support? We have passed landmark legislation that says to deadbeat dads ... "we will find you ... and we will make you pay." //

I remember a story about a small boy ~~on his knees~~ ^{kneeling by his bed before he went} one night ~~at bedtime.~~ ^{to sleep} And he said ... "oh Lord, God b

less mother and daddy, and ^{my} brother and ^{my} sister. And by the way, God, take care of yourself, because if anything happens to you ... we're all sunk!"

As a nation we will sink if ~~our families~~ ^{we} cannot take their strength from above. And that's why I believe we need a constitutional amendment ... to permit voluntary prayers in our schools.//

These are the ideas I am proposing to combat our new nuclear threat ... the erosion of nuclear family. || Not all of ~~them~~ ^{these ideas} are popular in Washington. ~~While~~ ⁼⁼ they protect old values ... ~~they do so~~ in bold and original ways.

Yet ... with your support ... your commitment ... I will continue ~~the~~ ^{this} fight. It would help a great deal if you'd send me a Republican Congress ... people who believe that the family is not just a slogan ... but something worth fighting for.//

I believe American can
~~Can America~~ compete in the new world we face today. ~~I~~
~~believe we can.~~ I believe our future has never been brighter.

We must remember
~~But only if we understand~~ the limits of government ... and
the power of families.

We can ~~create byzantine bureaucracies along the Potomac ...~~
~~we can~~ pour billions of your tax dollars into government programs
... but we will never be able to ~~replicate~~ ^{replace} the enduring power of
a loving^x mom and dad.

You know that here in Brookville. And today ... I ask you
to join me in taking this crusade to every corner of our nation.

To spread the word far and wide ... that the only way to
keep America first ... is to put the family first.

Thank you. God bless Brookville ... and God bless the
United States of America.

2 JUL 23 10:22 Presidential Remarks: Brookville Community Picnic
Brookville, Ohio
Friday, July 24, 1992

Thank you for that warm Brookville welcome ... and thanks for inviting me to this year's picnic.

(Acknowledgements)

I've had a lot of fun today. I love the chance to eat a little food ... play a little baseball ... and get to know the legendary Cloyce Copley. Cloyce may be the northern side of 90 ... but he can still throw a mean horseshoe.//

I was told that the most popular booth here is the "Waffle Trailer." I asked somebody: "what is a waffle trailer?" ... and they told me about those delicious deep fried snowflakes.

I was worried that a "waffle-trailer" is what you call six politicians in a truck with aluminum siding.//

I know you're having a lot of fun today at this picnic ... but I'd like you to reflect for a few moments ... on where our great nation stands today.

The past four years have been a crummy time for the world's fortune tellers. Month after month ... day after day ... events occurred that busted all the crystal balls.

The Berlin Wall crumbled. Russians trooped to the polls. Hungarians heard the unmistakable ring of a stock exchange opening.

The Cold War is over. After four decades of sacrifice ... four decades of selfless commitment to our democratic ideals ... the world has said in unison: **"We'd rather go the way of the good ole "U.S.A."**

What does it mean for us? Wellwhen your kids and grandkids go to bed tonight ... they can think about the name of the first crush they carved in these old beech trees ... or the start of football "two-a-days." But they don't have to worry about nuclear weapons.

The world is safer than it was a decade ago. Safer than it was a year ago. Safer than it was even a month ago ... before I sat down with Boris Yeltsin and cut those nuclear weapons.

This new world poses huge challenges. Our economy is undergoing wrenching change ... as we adjust to a world in which so many nations are now playing our game.

Can we compete? I believe we can. But it's going to require some changes in America.

That's why I'm running for re-election. We have changed the world ... and now I believe **we can change America**. Change by taking us back to some enduring values ... so that we can build a stronger and better future.

I'm concerned about a **new nuclear threat** facing our country today ... a threat more dangerous than any missile or submarine ... I'm taking about the breakdown of the **nuclear family**.

Some say that "family values" is merely a slogan ... a rhetorical sweatshirt that politicians pull over their heads every four years.

I'm sorry ... but I just don't agree.

On the way here ... I had the pleasure of reading one of the beautiful poems by your Ruth Ditmer Ream. She wrote about a world "short on hope ... where there is so much pain."

Ruth asked ... "how can we mend the 'golden thread' ... to weave our dreams again?"

Well ... I see the family as our "golden thread." The center of our lives ... the glue that holds us together. I believe that family can do things that no government program ever can.

Look right here in this community.

Where would you find a government program ... that would guarantee that your senior class ... would have a 95 percent attendance record?

Government can't do it ... but family can.

Where would you find a government program ... that motivates six of your best and brightest to earn perfect Grade Point averages ... and earn a quarter of a million dollars in college scholarships?

Government can't do it ... but family can.

Where would you find a government program ... to teach and shape a good, solid young man like Derek Brown ... who can earn a national merit scholarship?

Government can't do it ... but Derek's mom and dad can.

Family teaches us simple values ... work and responsibility ... to love thy neighbor and respect our creator.

Families can do things that government should never even try. But government must try ... to keep our families together.

It's expensive to raise a family today. You know that.

I believe government can help ease the burden.

Yesterday I signed a law expanding financial aid available to young families.

Not just the poor ... but also middle class families. Those of you who skip the vacation or drive the old clunker ... so that your son or daughter can go to college and chase a dream. You deserve support.//

What about the young children ... with working parents ... who need quality day care?

Last year I fought for an important new effort to help assist these families. I stood for principle, against those who said that only government-sponsored day care deserves support.

I asked: what's wrong with day care in an aunt's house ... or even a church? When it comes to deciding who cares for children ... let's not let bureaucrats decide ... father and mother really do know best.//

Choice is the hallmark of our free enterprise system.

I believe the same principle ought to apply to our schools. If we have the freedom to choose the kind of wood we use to build our homes ... shouldn't we be free to choose the kind of school our kids use to build their dreams?

So I believe in a "GI bill for children" ... to give a parent a thousand dollars to send their child to the best school they can find. Whether it's a public school a private school or a church school ... I say ... let the parents choose!//

These are some of the ideas I have been fighting for. There are others. Like a \$5,000 tax credit ... to help young families can buy their first home. I want families to be able to use their IRA's ... for unexpected health care costs.

Our families who are poor or struggling pose an especially daunting challenge.

We know that in recent years ... the number of single-parent families has exploded. And fully half the children in single parent homes live in poverty ... five times the rates of other children.

Our nation and our children ... cannot afford to lose the future. So I believe it's high time we changed our system to reward work ... not welfare. It's time to give these families an incentive not to fall apart ... but to stick together.

These are the economic ideas I am advancing to protect the family. But there are other pressures ... more subtle ... that tear at the fabric of this institution.

Drugs can sap the vitality from a young person. We have fought drugs with more cops on our streets ... and more concern in our classrooms. We have brought drug use down ... but it must fall further. I say that if drug kingpins prey for profit on our children ... they should face a federal death penalty.

And what of dads ... who leave their children without support? We have passed landmark legislation that says to deadbeat dads ... "we will find you ... and we will make you pay." //

I remember a story about a small boy on his knees one night at bedtime. And he said ... "oh Lord, God bless mother and daddy, and brother and sister. And by the way, God, take care of yourself, because if anything happens to you ... we're all sunk!"

As a nation we will sink if our families cannot take their strength from above. And that's why I believe we need a constitutional amendment ... to permit voluntary prayers in our schools.//

These are the ideas I am proposing to combat our new nuclear threat ... the erosion of nuclear family. Not all of them are popular in Washington. While they protect old values ... they do so in bold and original ways.

Yet ... with your support ... your commitment ... I will continue the fight. It would help a great deal if you'd send me a Republican Congress ... people who believe that the family is not just a slogan ... but something worth fighting for.//

Can America compete in the new world we face today? I believe we can. I believe our future has never been brighter.

But only if we understand the limits of government ... and the power of families.

We can create byzantine bureaucracies along the Potomac ...
we can pour billions of your tax dollars into government programs
... but we will never be able to replicate the enduring power of
a loving, mom and dad.

You know that here in Brookville. And today ... I ask you
to join me in taking this crusade to every corner of our nation.

To spread the word far and wide ... that the only way to
keep America first ... is to put the family first.

Thank you. God bless Brookville ... and God bless the
United States of America.

1992-23 Presidential Remarks: Brookville Community Picnic
7/27 Brookville, Ohio
Friday, July 24, 1992

Thank you for that warm Brookville welcome ... and thanks
for inviting me to this year's picnic.

(Acknowledgements)

I've had a lot of fun today. I love the chance to eat a
little food ... play a little baseball ... and get to know the
legendary Cloyce Copley. Cloyce may be the northern side of 90
... but he can still throw a mean horseshoe.//

I was told that the most popular booth here is the "Waffle
Trailer." I asked somebody: "what is a waffle trailer?" ... and
they told me about those delicious deep fried snowflakes.

I was worried that a "waffle-trailer" is what you call six
politicians in a truck with aluminum siding.//

I know you're having a lot of fun today at this picnic ...
but I'd like you to reflect for a few moments ... on where our
great nation stands today.

The past four years have been a ~~crummy~~ ^{OF UNIMAGINABLE} time ~~for the world's~~
~~fortune tellers.~~ ^{CHANGE} Month after month ... day after day ... events
occurred that ~~busted all the crystal balls~~ ^{DEFIED ALL EXPECTATIONS}

The Berlin Wall crumbled. Russians trooped to the polls.
Hungarians heard the unmistakable ring of a stock exchange
opening.

The Cold War is over. After four decades of sacrifice...
four decades of selfless commitment to our democratic ideals...
the world has said in unison: "We'd rather go the way of the
good ole "U.S.A."

What does it mean for us? Well....when your kids and
grandkids go to bed tonight ... they can think about the name of
the first crush they carved in these old beech trees ... or the
start of football "two-a-days." But they don't have to worry
about nuclear weapons.

The world is safer than it was a decade ago. Safer than it
was a year ago. Safer than it was even a month ago ... before I
sat down with Boris Yeltsin and cut those nuclear weapons.

AND HUGE OPPORTUNITIES.

This new world poses huge challenges. Our economy is undergoing ~~wrenching~~ change ... as we adjust to a world in which so many nations are now playing our game.

ABSOLUTELY.

Can we compete? ~~I believe we can.~~ But it's going to require some changes in America.

That's why I'm running for re-election. We have changed the world ... and now I believe we can change America. Change by ~~taking us back to~~ ^{STRENGTHENING} some enduring values ... so that we can build a ~~stronger and~~ ^{AND PROSPEROUS} better future.

I'm concerned about a new nuclear threat facing our country today ... a threat more dangerous than any missile or submarine. ... I'm taking about the breakdown of the nuclear family.

Some say that "family values" is merely a slogan ... a rhetorical sweatshirt that politicians pull over their heads every four years.

I DISABLED

~~I'm sorry ... but I just don't agree.~~

On the way here ... I had the pleasure of reading one of the beautiful poems by your Ruth Ditmer Ream. She wrote about a world "short on hope ... where there is so much pain."

~~Ruth~~ ^{SHE} asked ... "how can we mend the 'golden thread' ... to weave our dreams again?"

Well ... I see the family as our "golden thread." ~~The~~ center of our lives ... the glue that holds us together. I believe that family can do things that no government program ever can.

Look right here in this community.

Where would you find a government program ... that would ~~guarantee that your senior class ... would have a 95 percent attendance record?~~

Government can't do it ... but family can.

Where would you find a government program ... that motivates six of your best and brightest to earn perfect Grade Point averages ... and earn a quarter of a million dollars in college scholarships?

Government can't do it ... but family can.

Where would you find a government program ... to teach and shape a good, solid young man like Derek Brown ... who can earn a national merit scholarship?

FACT CHECK
SEEMS
AWFUL
HIGH.

Government can't do it ... but Derek's mom and dad can.

Family teaches us simple values ... work and responsibility ... to love thy neighbor and respect our creator.

Families can do things that government should never even try. But government must try ... to keep our families together.

It's expensive to raise a family today. You know that.

I believe government can help ease the burden.

Yesterday I signed a law expanding financial aid^{for education} available to young families.

Not just the poor ... but also middle class families. Those of you who skip the vacation or drive the old clunker ... so that your son or daughter can go to college and chase a dream. You deserve support.//

What about the young children ... with working parents ... who need quality day care?

1990 NOT 1991

Last year I fought for an important new effort to help assist these families. I stood for principle, against those who said that only government-sponsored day care deserves support.

APPROVED

WE LIKE "CHILD CARE" NOT DAY CARE

6
ING FOR A CHILD

I asked: what's wrong with ~~day~~ care in an aunt's house ... or even a church? When it comes to deciding who cares for children ... let's not let bureaucrats decide ... father and mother really do know best.//

Choice is the hallmark of our free enterprise system.

I believe the same principle ought to apply to our schools.

~~DELETE~~

~~If we have the freedom to choose the kind of wood we use to build our homes ... shouldn't we be free to choose the kind of school our kids use to build their dreams?~~

MY

INITIATIVE WOULD

MIDDLE-
1

LOW-INCOME

~~So I believe in a~~ "GI bill for children" ... to give parents a thousand dollars to send their child to the best school they can find. Whether it's a public school, a private school or a ^{RELIGIOUS} church school ... I say ... let the parents choose!!!

These are some of the ideas I have been fighting for. There are others. Like a \$5,000 tax credit ... to help young families can buy their first home. I want families to be able to use their IRA's ... for unexpected health care costs.

Our families who are poor or struggling pose an especially daunting challenge.

We know that in recent years ... the number of single-parent families has exploded. And fully half the children in single parent homes live in poverty ... five times the rates of other children.

Our nation and our children ... cannot afford to lose the future. ~~So~~ I believe it's high time we changed our system to reward work ... not welfare. It's time to give these families an incentive not to fall apart ... but to stick together.

These are the economic ideas I am advancing to ~~protect the~~ ^{STRENGTHEN} family. But there are other pressures ... more subtle ... that ~~tear at the fabric of this institution.~~ ^{THREATEN FAMILIES}

Drugs can sap the vitality from a young person. We have fought drugs with more cops on our streets ... and more concern in our classrooms. We have ~~brought~~ ^{REDUCED} drug use ~~down~~ ... but it must fall further. I say that if drug kingpins prey for profit on our children ... they should face a federal death penalty. FACT CHECK.

And what of dads ... who leave their children without support? We have passed landmark legislation that says to headbeat dads ... "we will find you ... and we will make you pay." // FACT CHECK

I remember a story about a small boy on his knees one night at bedtime. And he said ... "oh Lord, God bless mother and daddy, and brother and sister. And by the way, God, take care of yourself, because if anything happens to you ... we're all sunk!"

As a nation we will sink if our families cannot take their strength from above. And that's why I believe we need a constitutional amendment ... to permit voluntary prayers in our schools.//

These are the ideas I am proposing to combat our new nuclear threat ... the erosion of nuclear family. Not all of them are popular in Washington. While they protect old values ... they do so in bold and original ways.

Yet ... with your support ... your commitment ... I will continue the fight. It would help a great deal if you'd send me a Republican Congress ... people who believe that the family is not just a slogan ... but something worth fighting for.//

Can America compete in the new world we face today? I believe we can. I believe our future has never been brighter.

But only if we understand the limits of government ... and the power of families.

DELETE

REDUNDANT.

(FROM

p. 3.)

We can create byzantine bureaucracies along the Potomac ...
we can pour billions of your tax dollars into government programs
... but we will never be able to replicate the enduring power of
a loving, mom and dad.

You know that here in Brookville. And today ... I ask you
to join me in taking this crusade to every corner of our nation.

To spread the word far and wide ... that the only way to
keep America first ... is to put the family first.

Thank you- God bless Brookville ... and God bless the
United States of America.
