White House Statement on Disaster Relief for Louisiana
September 5, 1992

The President today announced that he has amended his August 26, 1992, declaration of a major disaster in the State of Louisiana to waive State and local cost sharing requirements, where permitted to do so by law, and to allow reimbursement of 100 percent of eligible public assistance costs exceeding \$10 per capita.

This additional relief provided by the President is consistent with a request made by Governor Edwin Edwards. It was taken in response to the unprecedented damage and destruction caused by Hurricane Andrew. By waiving customary State and local cost sharing requirements, the President can provide maximum Federal assistance to the people of Louisiana whose lives have been so severely disrupted by this disaster.

This waiver applies to all authorized public assistance. It will provide additional help to the State in its efforts to remove debris from the disaster areas, eliminate immediate threats to public health and safety, and carry out emergency work to save lives. Assistance for temporary housing, crisis counseling, and disaster unemployment will continue to be 100 percent federally funded where allowed under the law.

Remarks Prior to a Redbirds Baseball Game in Louisville, Kentucky
September 6, 1992

Thank you all. What a wonderful holiday welcome. We've got to see a ball game now. Thank you very much. May I just first say what a privilege and thrill it is for Barbara and me to be here. I want to thank Stan for the introduction. I've just been in one of the dugouts talking to the Redbirds, and I also salute the Indianapolis ball club here today. We've going to treat them very kindly. Aren't we, you guys?

But may I also say as an old baseball fan, to be here with Pee Wee Reese, that's a great treat for me, an old fan of his. Also Paul

Hornung, I've watched him day-in and day-out, not only in college ball but when he was up there at Green Bay, a superb athlete, a great citizen of Kentucky.

And single out two coaches, Coach Crum and Coach Schnellenberger. Somebody once told me that playing a tie ball game is like kissing your sister. Well, I want to tell you this: The coach did the right thing yesterday. He did it the American way. He took a real shot at it, and we are proud of him and proud of that ball club of his, the Cardinals.

Let me end it by just simply saying I'm here to salute Harvest U.S.A. and Kentucky Harvest. Stan is right, the heartbeat in Louisville and Lexington, Indianapolis, is far louder and far clearer than the heartbeat up in Washington. When one American pitches in to help another, as you're doing now for the victims of this terribly devastating hurricane in south Florida and then again in Louisiana, we salute you. One neighbor helping another, that is the American spirit, the American way. That is what we mean when we talk about Points of Light.

May God bless you all, and may God bless this wonderful American spirit. Thank you so much.

Note: The President spoke at 12:46 p.m. at Cardinal Stadium. In his remarks, he referred to Stan Curtis, founder of Kentucky Harvest; and Denny Crum, head basketball coach, and Howard Schnellenberger, head football coach, University of Louisville. A tape was not available for verification of the content of these remarks.

Remarks to the Polish-American Community in Chicago, Illinois
September 6, 1992

The President. Thank you, Mitch. Thank you all for that great welcome.

Audience members. Four more years! Four more years! Four more years!

The President. Thank you so much for the wonderful introduction. And may I pay my respects to the Governor, Jim Edgar, doing a superb job for the people of this great State. Jim, we're grateful to you. Let me also

we watched him day-in and day-out in college ball but when he was in Green Bay, a superb athlete, a star of Kentucky.

He had two coaches, Coach Crum and Coach Schnellenberger. Somebody once playing a tie ball game is like a sister. Well, I want to tell you he did the right thing yesterday. An American way. He took a real pride in being proud of him and proud of his, the Cardinals.

It is by just simply saying I'm Harvest U.S.A. and Kentucky is right, the heartbeat in Louisville, Indianapolis, is far louder than the heartbeat up in when one American pitches in as you're doing now for the terribly devastating hurricane and then again in Louisiana, One neighbor helping another. American spirit, the American spirit, the American spirit is what we mean when we speak of Light.

Thank you all, and may God bless the American spirit. Thank you

ent spoke at 12:46 p.m. at 12:46 p.m. In his remarks, he re-
rtis, founder of Kentucky

Polish-American Chicago, Illinois

Thank you, Mitch. Thank
welcome.

ers. Four more years!
or more years!

Thank you so much for
uction. And may I pay
Governor, Jim Edgar,
the people of this great
eful to you. Let me also

single out Rich Williamson. We need him in the United States Senate. We've got to change the Congress. We've got to clean the House. We've got to elect Rich Williamson to the Senate. Another old friend, Wally Dudycz, glad to see him and Jack O'Malley and Lou Kasper. The Polish consul general came to greet me, Mr. Jankowski. Ed Moskal, of course, our old, dear friend. And again, I'd like to salute Secretary Ed Derwinski, known so well to everybody here, an outstanding American that has served his country with such distinction.

This past Independence Day, some of you were with us, I traveled to the heartland of Poland to bury a treasure. In the crypt of an ancient cathedral, I stood with President Lech Walesa as the remains of the great patriot Ignacy Paderewski was finally laid to rest in the rich and free Polish soil that conceived and sustained him. And it struck me, this was the fulfillment of Poland's dreams.

Think of what we have seen together in the last few years. We watched a Gdansk electrician, a humble man, stand up for freedom, electrify the world with the charge that all people should be free and be heard. We watched the nation of Poland reform, brimming with a new and different fluid of life, inspired by the passion for freedom. And we watched a Pope named John Paul II, a proud Pole. And as we gather today at this festival, a good time to count our blessings, I can say something no President ever could say before: The cold war is over, and freedom finished first. And Poland is free.

You know, my opponents say—

Audience members. Four more years!
Four more years! Four more years!

The President. We've got a lot of work to do for 4 more, I'll tell you.

These critics, the Clinton-Gore ticket, say that I spend too much time on foreign policy. Well, let me tell you this: American school-children used to hide under their desks in drills to prepare for nuclear war. We saw the chance to cut down the threat of nuclear war, and we did it. And does that matter? You bet it matters to the young people that are here right here today. You know, over the past—and everybody in this crowd understands this, Democrat, Republican, liberal, it doesn't matter, you understand this point:

Over the past 4 years, more people have breathed the fresh air of freedom than in all of human history. We saw a chance to help, and I did it. And do you say, does that matter? Of course, it does. You bet it does.

Now our challenges are straightforward. This Labor Day weekend we must dedicate ourselves to the challenge: economic security for the working men and working women of America. That is the big challenge, jobs for the American people. You know, in this 21st century America must not only be a military superpower, we've got to be an export superpower, and we've got to be an economic superpower.

Audience members. Four more years!
Four more years! Four more years!

The President. My vision is to look forward, to open new markets, to prepare our people to compete, to save and to invest, to strengthen the American family so that we can win.

You know, I've spent half my life in public service, half in the private sector. I built a business, and I met a payroll. And I believe that is a good qualification for being President of the United States, to know what it is to hold a job in the private sector. And Governor Clinton has spent all but a handful of years of his adult life in government. Now he says he respects the small businessman, he loves the private sector. Well, maybe it's a good chance now to give him a chance to experience what it's like to be in the private sector. Because he isn't going to be President of the United States.

I agree with you, Government has got to help people. But Government is too big, and it taxes too much, and it spends too much of your money. And we've got to get it under control. And so I put a freeze on domestic discretionary spending, plus a plan to control mandatory Federal spending except Social Security. I said at the beginning, don't mess with Social Security. And we are not going to let them touch Social Security. My plan, and it is up before the Congress now, would save nearly \$300 billion in over 5 years. And I want to say *Do widzenia* to more than 4,000 wasteful Federal projects, like a national research program, and get into this one, the mating habits of the mink. We do not need

to spend your taxpayers' money on that kind of program.

So the gridlocked Congress has balked at my ideas. So now I have a new idea: Give you all a say on it. I want to give you, the taxpayer, the option of taking 10 percent of your income tax and using it for one purpose alone, to reduce the national deficit. Get the mortgage off the back of these young people. Check off 10 percent to get the deficit down. If Congress won't cut spending, let you, the people, do it. And I'll be at your side.

But while we cut Federal spending, we can still set priorities to help people in need to get back on their feet. So this week I took money that had already been appropriated and used it to help farmers whose crops were destroyed. And I said I'd help the private sector rebuild devastated Florida and Louisiana. And let me thank the people of Illinois who reached out to help their fellow man down in the south. You have been magnificent. But anyway, when I did all this to try to help these people, Governor Clinton, of all people, accused me of pandering. This from the man that Paul Tsongas, you remember the little bear, this from the man that Paul Tsongas called the "Pander Bear," the same Paul Tsongas who said on April 7th, the American people are just hearing how cynical and unprincipled Bill Clinton is. That's not from a Republican, that was from a Democrat, Paul Tsongas of Massachusetts. And he's right. He is right.

But here are the facts. Governor Clinton proposes at least \$220 billion in new spending, just to start. Newsweek magazine called the Clinton approach, and I quote, "economic fantasy." And Newsweek went on to say that the real cost of the Clinton program is "arguably at least 3 times higher" than he's admitted. And he has mentioned program after program after program that he wants to increase spending for. So while we're eating a little kielbasa, he's offering pie in the sky. Who does he think he's kidding? Not the American people.

You know, I've been one of these guys who is accused of thinking every day is the Fourth of July. Well, I like the way a cartoon summed it up. My opponent thinks that every day is April 15th. You know what happens then. They have this cartoon; it featured

a guy at the kitchen table. He said to his wife, "Honey, I figure we can afford all those taxes Clinton and Gore want to raise if I can get two of those jobs they say they'll create." Well, raising taxes doesn't create jobs, it destroys them. You know that. So with the savings that I have proposed, we can cut taxes and get this economy moving again. The difference is tax and spend versus less taxes and less spending.

Now, one other thing. More than 2 percent of our gross domestic product is spent not in the factory, not in the classroom, not in the laboratory but in and around the courtroom. I've never heard of a Nation that sued its way to greatness. So I have a plan for the gridlocked Congress to cut down on all these crazy lawsuits that are choking our economy. Too many lawsuits. And as a Nation we ought to sue each other less and care for each other just a little bit more. That's my philosophy. That's the way Barbara looks at it.

Another thing, you look around and see these great kids, and you think we've got to do better in education. Three years ago this month, we started a revolution in American education, one called America 2000. Today for the first time, every eligible 4-year-old whose parents choose to participate can get a Head Start on kindergarten. That is progress. That is the way to help the young people in this country. Today for the first time, half our students in college have a Federal loan or grant. Grants and loans are at an all-time high under our administration for these college kids. And we have a new "GI bill" for kids. We want to give every one of you the freedom to pick where your children will learn, any program, any school. I favor school choice. Let the parents decide whether it's public, private, or religious schools.

We've got to do better in education. We've got to do better in law enforcement, backing up the law enforcement people. It's cheaper to send a kid to Yale than to send a kid to jail. Penn State is cheaper than the State pen. But for those who refuse to pitch in and help build up America and instead tear us down, we need to show them what law and order is all about. It's about supporting our police forces and judicial system. God bless the po-

a kitchen table. He said to his v, I figure we can afford all those and Gore want to raise if I can ose jobs they say they'll create." taxes doesn't create jobs, it de- You know that. So with the sav- ave proposed, we can cut taxes economy moving again. The dif- and spend versus less taxes and

lice that stand up against these outrageous criminals.

And it's time we take back the streets of America and support the American family. It is time we let those family values come to the fore. And that means let's reform our welfare system so that families stay together and these fathers that owe the money will stick around and pay what they owe to these mothers that are trying to bring up these kids.

And while we're at it, I've got a plan for health care, and that plan says this: We don't need the Government taking over health care. It doesn't work. We've got the best quality health care. What we need is to pool insurance. What we need are designed—not respect for Government policies but respect for the American family. We've made progress, great progress, and now I ask for your help for a health care reform that will bring insurance to every single family that wants it. That's our proposal. His is to turn it over to the Government.

Now this is the last point. This is the last point, except I want to say a word to this guy over here who feels very strongly about something. He's talking about AIDS. Under my administration the spending for this deadly disease is up from \$4.3 billion to a request for \$4.9 billion. We care. We are working. And disruptions don't help. What helps is what you feel in your heart. And we will keep on this research until we whip that deadly disease.

So we made a lot of progress. But in others we've got a ways to go. And you ask me why, and I would say three words: the gridlocked Congress. And I know you get tired of people blaming each other, but let me explain something. There are certain numbers that mean something: number 40, Gale Sayers; number 8, Carl Yastrzemski; number 23, a certain basketball player in baggy shorts. Here's one you may not know, number 38. That's how long the same party, the same crowd has been running the United States House of Representatives, 38 years. Ask Millie, our dog, and she'll tell you that's 266 years in a dog life. Change the Congress. Change the Congress. Clean the House. Elect Rich Williamson to the Senate. And while we're at it, elect Eliah Zenkich to the House. And

while we're at it, let's limit the terms of Congressmen. Let's get some limits out there so things will change.

Let me tell you this. If you detect a little optimism about our country, you're absolutely right. The other side is saying that we're somewhere between Germany and Sri Lanka. They ought to go abroad. Let them go to Poland. Let them look into the eyes of the Polish people who thank America every single day for their freedom. Let Governor Clinton take a look. Let him see what this world is like with freedom and democracy on the march.

We have done it. And we can do it right here at home with your help. God bless our country. Don't let them tear it down. God bless the United States of America. And thank you for this wonderful turnout. Thank you all.

Note: The President spoke at 2:45 p.m. at the Copernicus Center during the Taste of Polonia Festival. In his remarks, he referred to Mitchell P. Kobelinski, president, Copernicus Foundation; Walter Dudycz, Illinois State senator; Jack O'Malley, Cook County State's attorney; Lou Kasper, City of Chicago Republican Party chairman; and Edward J. Moskal, president, Polish National Alliance. A tape was not available for verification of the content of these remarks.

Remarks at the Annual Labor Day Mackinac Bridge Walk in Michigan September 7, 1992

All right. Who brought the coffee? Now let's go. Governor Engler's here. You know his reputation as a fiscal conservative. When it comes to the taxpayers' money, they say he's so tight that he squeaks when he walks, so we are going to find out about that. [Laughter]

We're grateful to see so many people ready for the latest "Big Mac Attack." We're going across this thing. Barbara and I were over in Sault Sainte Marie, and she handed me my sneakers. And she said, "Just do it." Well, that's what we plan to do this fall, I'll tell you.

**AND THE ALL THE PEOPLE WHO MADE THIS FESTIVAL POSSIBLE:
MITCHELL KOBELINSKI, DONALD GUTOWSKI, TED WIECEK [WEE-
SECK].**

**FELLOW AMERICANS... I'M PROUD TO BE HERE TODAY, AT
THIS MARVELOUS CELEBRATION OF POLISH-AMERICAN HERITAGE.**

**THIS PAST INDEPENDENCE DAY, I TRAVELED TO THE
HEARTLAND OF POLAND... TO BURY A TREASURE.**

IN THE CRYPT OF AN ANCIENT CATHEDRAL... I STOOD WITH PRESIDENT WALESZA... AS THE REMAINS OF THE GREAT PATRIOT AND ARTIST, IGNACY PADEREWSKI [[IG-NAH-SEE PADER-EV-SKI], WERE FINALLY LAID TO REST... IN THE RICH AND FREE POLISH SOIL THAT CONCEIVED AND SUSTAINED HIM.

AND IT STRUCK ME... THIS WAS NOT SO MUCH A BURIAL... AS IT WAS A RESURRECTION -- THE RESURRECTION OF POLAND'S DREAMS.

A PATRIOT WAS AT LONG LAST LAID TO REST IN POLISH SOIL... IN POLISH SOIL... THAT WAS FINALLY FREE.

THINK OF WHAT WE HAVE SEEN TOGETHER -- THESE PAST FEW YEARS.

WE WATCHED A GDANSK ELECTRICIAN ELECTRIFY THE WORLD WITH THE CHARGE THAT ALL PEOPLE SHOULD BE FREE AND BE HEARD.//

WE WATCHED THE NATION OF POLAND REBORN, BRIMMING WITH A NEW AND DIFFERENT FLUID OF LIFE... INSPIRED BY A PASSION FOR FREEDOM ... AND A POPE NAMED JOHN PAUL II.

AND AS WE GATHER TODAY AT THIS FESTIVAL, I CAN SAY SOMETHING NO PRESIDENT COULD EVER SAY BEFORE. THE COLD WAR IS OVER. FREEDOM FINISHED FIRST.//

MY OPPONENTS SAY I SPEND TOO MUCH TIME ON FOREIGN POLICY. WELL, AMERICAN SCHOOLCHILDREN USED TO HIDE UNDER THEIR DESKS IN DRILLS TO PREPARE FOR NUCLEAR WAR.

I SAW THE CHANCE TO ERASE THEIR NUCLEAR NIGHTMARES -- AND I DID IT. DOES THAT MATTER? YOU BET IT DOES.

OVER THE PAST FOUR YEARS, MORE PEOPLE HAVE BREATHED THE FRESH AIR OF FREEDOM THAN IN ALL OF HUMAN HISTORY. I SAW A CHANCE TO HELP, AND I DID IT. DOES THAT MATTER? YOU BET IT DOES.

NOW, OUR CHALLENGE IS STRAIGHT-FORWARD. THIS LABOR DAY WEEKEND, WE MUST DEDICATE OURSELVES TO THE CHALLENGE -- ECONOMIC SECURITY FOR THE WORKING MEN AND WOMEN OF AMERICA.

IN THE 21ST CENTURY -- AMERICA MUST BE NOT ONLY A MILITARY SUPERPOWER, WE MUST CONTINUE TO BE AN EXPORT SUPERPOWER, AND AN ECONOMIC SUPERPOWER..//

MY VISION IS TO LOOK FORWARD -- TO OPEN NEW MARKETS, TO PREPARE OUR PEOPLE TO COMPETE, TO SAVE AND INVEST, TO STRENGTHEN THE AMERICAN FAMILY -- SO THAT WE CAN WIN.//

I'VE SPENT HALF MY LIFE IN PUBLIC SERVICE -- HALF IN THE PRIVATE SECTOR. I BUILT A BUSINESS, MET A PAYROLL. AND I BELIEVE THAT'S A GOOD QUALIFICATION TO BE PRESIDENT OF THE UNITED STATES.//

MY OPPONENTS HAS SPENT MOST OF HIS LIFE IN GOVERNMENT. NOW, HE SAYS HE RESPECTS SMALL BUSINESSMAN MEN, AND LOVES THE PRIVATE SECTOR. MAYBE IT IT'S A GOOD IDEA TO GIVE HIM A CHANCE TO EXPERIENCE IT.

MY EXPERIENCE IS REFLECTED IN MY PHILOSOPHY. I BELIEVE THAT GOVERNMENT IS TOO BIG -- AND SPENDS TOO MUCH OF YOUR MONEY.//

I HAVE PUT FORWARD A FREEZE ON DOMESTIC DISCRETIONARY SPENDING, PLUS A PLAN TO CONTROL MANDATORY FEDERAL SPENDING EXCEPT SOCIAL SECURITY. IT WOULD SAVE NEARLY \$300 BILLION IN OVER FIVE YEARS.

I WANT TO SAY "DO WIDZENIA" [[DOE-VEED-ZEN-YUH]] TO MORE THAN 4,000 WASTEFUL FEDERAL PROJECTS -- LIKE A NATIONAL RESEARCH PROGRAM THAT LOOKS INTO -- GET THIS -- THE MATING HABITS OF THE MINK.//

SO FAR, CONGRESS HAS BALKED AT MAKING THESE TOUGH CHOICES. SO NOW I HAVE A NEW IDEA.

I WANT TO GIVE YOU -- THE TAXPAYER -- THE OPTION OF TAKING 10 PERCENT OF YOUR INCOME TAX -- AND USING IT FOR ONE PURPOSE ALONE -- TO REDUCE THE NATIONAL DEFICIT.//

IF CONGRESS WON'T CUT SPENDING, LET YOU THE PEOPLE DO IT.//

BUT WHILE WE CUT FEDERAL SPENDING, WE CAN STILL SET PRIORITIES -- TO HELP PEOPLE IN NEED GET BACK ON THEIR FEET.

SO THIS WEEK, I TOOK FEDERAL MONEY THAT HAD ALREADY BEEN APPROPRIATED -- AND USED IT TO HELP FARMERS WHOSE CROPS WERE DESTROYED. AND I SAID WE'D HELP THE PRIVATE SECTOR REBUILD DEVASTATED FLORIDA AND LOUISIANA.//

MR. CLINTON WAS OUTRAGED -- HE ACCUSED ME OF "PANDERING." THIS, FROM A MAN WHOM SENATOR PAUL TSONGAS CALLED -- THE "PANDER BEAR."

NOW HE'S ACTING LIKE ONE OF THE GOLDBLOCK'S THREE BEARS
-- SAYING: "SOMEBODY'S BEEN SLEEPING IN MY BED!"

WHAT DOES MY OPPONENT OFFER? WELL, HERE ARE THE
FACTS -- PURE AND SIMPLE. WHILE I HAVE PUT FORTH
SPECIFIC CUTS IN GOVERNMENT SPENDING -- GOVERNOR
CLINTON PROPOSES AT LEAST \$220 BILLION IN NEW SPENDING,
JUST TO START.

AT LAST COUNT MY OPPONENT HAS MENTIONED DOZENS OF
SEPARATE GOVERNMENT INITIATIVES THAT HE WANTS TO
INCREASE SPENDING FOR. SO WHILE WE'RE HERE EATING
KIELBASA -- HE'S OFFERING "PIE IN THE SKY." WHO DOES
HE THINK HE'S KIDDING? WHAT'S HE TRYING TO HIDE?

YOU, THE AMERICAN TAXPAYER.

I'VE BEEN ACCUSED OF THINKING EVERY DAY IS THE FOURTH OF JULY. MY OPPONENT SEEMS TO THINK EVERY DAY IS APRIL 15TH.// I LIKE THE WAY A CARTOON SUMMED IT UP THIS WEEK. IT FEATURED A GUY AT A KITCHEN TABLE. HE SAID TO HIS WIFE, "HONEY, I FIGURE WE CAN AFFORD ALL THOSE TAXES CLINTON AND GORE WANT TO RAISE, IF I CAN GET TWO OF THOSE JOBS THEY SAY THEY'LL CREATE."

RAISING TAXES DOESN'T CREATE JOBS, IT DESTROYS THEM. YOU KNOW THAT. SO WITH THE SAVINGS I HAVE PROPOSED, WE CAN CUT TAXES, AND GET THIS ECONOMY MOVING AGAIN.

THINK ABOUT THIS. MORE THAN 2 PERCENT OF OUR GROSS DOMESTIC PRODUCT IS SPENT NOT IN A FACTORY, NOT IN A CLASSROOM, NOT IN A LABORATORY -- BUT IN AND AROUND THE COURTROOM.

I'VE NEVER HEARD OF A NATION THAT SUED ITS WAY TO GREATNESS. SO I HAVE A PLAN TO CUT DOWN ON ALL THESE CRAZY LAWSUITS THAT ARE CHOKING OUR ECONOMY. AS A NATION, WE MUST SUE EACH OTHER LESS -- AND CARE FOR EACH OTHER MORE.//

I LOOK OUT IN THE CROWD AND I SEE SO MANY CHILDREN. THE FIFTH GRADERS HERE TODAY WILL GRADUATE FROM HIGH SCHOOL IN THE YEAR 2,000.

THEIR WORLD THEN WON'T LOOK LIKE OUR WORLD NOW, AND THE SCHOOLS THEY LEAVE CANNOT BE LIKE SCHOOLS TODAY -- OR AMERICA IS DEAD IN THE WATER.

THREE YEARS AGO THIS MONTH, WE STARTED A REVOLUTION IN AMERICAN EDUCATION -- WHAT WE CALL AMERICA 2000.

TODAY -- FOR THE FIRST TIME -- EVERY ELIGIBLE FOUR-YEAR OLD WHOSE PARENTS CHOOSE TO PARTICIPATE CAN GET A HEAD START ON KINDERGARTEN.//

TODAY -- FOR THE FIRST TIME -- HALF OUR STUDENTS IN COLLEGE HAVE A FEDERAL LOAN OR GRANT.//

AND IN THOUSANDS OF TOWNS AND CITIES, PARENTS AND TEACHERS ARE CREATING WHAT WE CALL "BREAK-THE-MOLD SCHOOLS." WE'RE RAISING STANDARDS -- SO OUR KIDS WILL LEAD THE WORLD, NOT JUST IN THE SWIMMING POOL AND THE BASKETBALL COURT, BUT AT THE COMPUTER AND IN THE SCIENCE LAB.//

AND WITH OUR NEW GI BILL FOR KIDS -- WE WANT TO GIVE EVERY ONE OF YOU THE FREEDOM TO PICK WHERE YOUR CHILDREN WILL LEARN -- ANY PROGRAM, ANY SCHOOL.//

A NATION THAT CAN BUILD SMART BOMBS -- CAN SURELY TURN OUT THE SMARTEST YOUNG PEOPLE IN THE WORLD.

THE FLIP SIDE OF EDUCATION IS WHAT HAPPENS IF YOU FAIL.

IT'S CHEAPER TO SEND A KID TO YALE THAN TO SEND A KID TO JAIL. PENN STATE'S CHEAPER THAN THE STATE PEN.

BUT FOR THOSE WHO REFUSE TO PITCH IN AND HELP BUILD AMERICA UP... AND INSTEAD TEAR US DOWN -- WE NEED TO SHOW THEM WHAT LAW AND ORDER IS ALL ABOUT.//

IT'S ABOUT SUPPORTING OUR POLICE FORCES AND JUDICIAL SYSTEM... GIVING THEM THE TOOLS THEY NEED TO DO THEIR JOB RIGHT. IT'S TIME TO TAKE BACK THE STREETS OF AMERICA.//

I HAVE OTHER ITEMS ON MY AGENDA FOR ACTION. WE NEED TO REFORM OUR WELFARE SYSTEM, SO THAT FAMILIES WILL STICK TOGETHER, AND FATHERS WILL STICK AROUND.

I HAVE A PLAN TO CUT THE COST OF HEALTH CARE -- WITHOUT THE TAXPAYER-FINANCED GOVERNMENT TAKEOVER THAT GOVERNOR CLINTON WOULD ENCOURAGE. MY POLICIES ARE DESIGNED NOT WITH RESPECT FOR GOVERNMENT, BUT RESPECT FOR THE AMERICAN FAMILY.

WE'VE MADE PROGRESS IN A LOT OF AREAS, BUT IN OTHERS, WE'VE GOT A WAYS TO GO. ASK WHY -- AND I WOULD SAY THREE WORDS -- "THE GRIDLOCK CONGRESS."

NOW I KNOW YOU ARE TIRED OF ELECTED OFFICIALS BLAMING EACH OTHER ALL THE TIME. BUT LET ME EXPLAIN SOMETHING.

THERE ARE CERTAIN NUMBERS THAT MEAN SOMETHING IN AMERICA. NUMBER 40 IS GALE SAYERS. NUMBER 8 -- CARL YASTREMSKI. NUMBER 23 -- A CERTAIN BASKETBALL PLAYER IN BAGGY SHORTS.

HERE'S ONE YOU MAY NOT KNOW. NUMBER 38. THAT'S HOW LONG THE SAME CROWD HAS BEEN RUNNING THE U.S. HOUSE OF REPRESENTATIVES. 38 YEARS. ASK MILLIE, SHE'LL TELL YOU -- THAT'S 266 YEARS IN DOG YEARS -- AND IT SHOWS!

IF YOU REALLY WANT CHANGE -- LET'S GET SOME FRESH BLOOD IN CONGRESS, GOOD PEOPLE WHO HAVEN'T SPENT THEIR LIFE IN POLITICS. WE NEED TO LIMIT THE TERMS OF MEMBERS OF CONGRESS.

MY OPPONENT SAYS NO -- I SAY YES. THIS YEAR, WHEN WE GO IN THE VOTING BOOTH -- GIVE ME RICH WILLIAMSON IN THE SENATE. LET'S START A NEW TRADITION IN AMERICA -- SPRING CLEANING IN NOVEMBER. LET'S CLEAN HOUSE.

AS WE LOOK AROUND US TODAY, WE SEE A WORLD CONSUMED WITH CHANGE -- WITH PROGRESS. WHAT'S OUR PLACE IN THIS NEW WORLD?

WELL, THERE'S ONLY REASON THAT AMERICA ALONE, HAS ALWAYS BEEN ABLE TO STAND SO TALL, AND COMMAND A VIEW OF THE MOST DISTANT HORIZON.

IT'S BECAUSE WE STAND ON THE SHOULDERS OF GIANTS.

THE SHOULDERS OF YOUR PARENTS, AND THEIR PARENTS BEFORE THEM.

THAT'S WHY WE LEAD THE WORLD. CAN THERE BE ANY DOUBT WE CAN BUILD A SAFER AND MORE SECURE AMERICAN FOR OUR CHILDREN?

YOU KNOW, I SEE FLORIDA AFTER HURRICANE ANDREW... AND I SEE LOUISIANA... AND I SEE AN OUTPOURING OF LOVE AND CONCERN FROM THE REST OF OUR GREAT NATION, AND I TELL YOU:

IF ANY AMONG US HAVE ANY DOUBT ABOUT THIS NATION'S CAPACITY TO REACH DEEP WITHIN -- TO TAP THE WELLSPRING OF PASSION FOR THIS COUNTRY AND ITS PEOPLE -- IF THERE IS ANY DOUBT -- LOOK SOUTH -- AND LET IT BE ERASED.

AMERICANS -- WE HAVE CHANGED THE WORLD -- AND LIT THE CANDLE OF FREEDOM WHERE ONCE THERE WAS ONLY DARKNESS.

WITH THE SAME PERSEVERANCE, THE SAME CHARACTER, THE SAME DETERMINATION -- WE WILL BUILD A SAFER AND MORE SECURE AMERICA -- FOR ALL GENERATIONS TO COME.

GOD BLESS POLONIA. GOD BLESS CHICAGO AND THE UNITED STATES OF AMERICA.

#

WE WATCHED A GDANSK ELECTRICIAN ELECTRIFY THE WORLD WITH THE CHARGE THAT ALL PEOPLE SHOULD BE FREE AND BE HEARD.//

WE WATCHED THE NATION OF POLAND REBORN, BRIMMING WITH A NEW AND DIFFERENT FLUID OF LIFE... INSPIRED BY A PASSION FOR FREEDOM ... AND A POPE NAMED JOHN PAUL II.

AND AS WE GATHER TODAY AT THIS FESTIVAL, I CAN SAY SOMETHING NO PRESIDENT COULD EVER SAY BEFORE. THE COLD WAR IS OVER. FREEDOM FINISHED FIRST.//

MY OPPONENTS SAY I SPEND TOO MUCH TIME ON FOREIGN POLICY. WELL, AMERICAN SCHOOLCHILDREN USED TO HIDE UNDER THEIR DESKS IN DRILLS TO PREPARE FOR NUCLEAR WAR.

I SAW THE CHANCE TO ERASE THEIR NUCLEAR NIGHTMARES -- AND I DID IT. DOES THAT MATTER? YOU BET IT DOES.

OVER THE PAST FOUR YEARS, MORE PEOPLE HAVE BREATHED THE FRESH AIR OF FREEDOM THAN IN ALL OF HUMAN HISTORY. I SAW A CHANCE TO HELP, AND I DID IT. DOES THAT MATTER? YOU BET IT DOES.

NOW, OUR CHALLENGE IS STRAIGHT-FORWARD. THIS LABOR DAY WEEKEND, WE MUST DEDICATE OURSELVES TO THE CHALLENGE -- ECONOMIC SECURITY FOR THE WORKING MEN AND WOMEN OF AMERICA.

IN THE 21ST CENTURY -- AMERICA MUST BE NOT ONLY A
MILITARY SUPERPOWER, WE MUST CONTINUE TO BE AN EXPORT
SUPERPOWER, AND AN ECONOMIC SUPERPOWER.//

MY VISION IS TO LOOK FORWARD -- TO OPEN NEW
MARKETS, TO PREPARE OUR PEOPLE TO COMPETE, TO SAVE AND
INVEST, TO STRENGTHEN THE AMERICAN FAMILY -- SO THAT WE
CAN WIN.//

I'VE SPENT HALF MY LIFE IN PUBLIC SERVICE -- HALF
IN THE PRIVATE SECTOR. I BUILT A BUSINESS, MET A
PAYROLL. AND I BELIEVE THAT'S A GOOD QUALIFICATION TO
BE PRESIDENT OF THE UNITED STATES.//

MY OPPONENTS HAS SPENT MOST OF HIS LIFE IN
GOVERNMENT. NOW, HE SAYS HE RESPECTS SMALL BUSINESSMAN
MEN, AND LOVES THE PRIVATE SECTOR. MAYBE IT IT'S A
GOOD IDEA TO GIVE HIM A CHANCE TO EXPERIENCE IT.

MY EXPERIENCE IS REFLECTED IN MY PHILOSOPHY. I BELIEVE THAT GOVERNMENT IS TOO BIG -- AND SPENDS TOO MUCH OF YOUR MONEY.//

I HAVE PUT FORWARD A FREEZE ON DOMESTIC DISCRETIONARY SPENDING, PLUS A PLAN TO CONTROL MANDATORY FEDERAL SPENDING EXCEPT SOCIAL SECURITY. IT WOULD SAVE NEARLY \$300 BILLION IN OVER FIVE YEARS.

I WANT TO SAY "DO WIDZENIA" [[DOE-VEED-ZEN-YUH]] TO MORE THAN 4,000 WASTEFUL FEDERAL PROJECTS -- LIKE A NATIONAL RESEARCH PROGRAM THAT LOOKS INTO -- GET THIS -- THE MATING HABITS OF THE MINK.//

SO FAR, CONGRESS HAS BALKED AT MAKING THESE TOUGH CHOICES. SO NOW I HAVE A NEW IDEA.

I WANT TO GIVE YOU -- THE TAXPAYER -- THE OPTION OF TAKING 10 PERCENT OF YOUR INCOME TAX -- AND USING IT FOR ONE PURPOSE ALONE -- TO REDUCE THE NATIONAL DEFICIT.//

IF CONGRESS WON'T CUT SPENDING, LET YOU THE PEOPLE DO IT.//

BUT WHILE WE CUT FEDERAL SPENDING, WE CAN STILL SET PRIORITIES -- TO HELP PEOPLE IN NEED GET BACK ON THEIR FEET.

SO THIS WEEK, I TOOK FEDERAL MONEY THAT HAD ALREADY BEEN APPROPRIATED -- AND USED IT TO HELP FARMERS WHOSE CROPS WERE DESTROYED. AND I SAID WE'D HELP THE PRIVATE SECTOR REBUILD DEVASTATED FLORIDA AND LOUISIANA.//

MR. CLINTON WAS OUTRAGED -- HE ACCUSED ME OF "PANDERING." THIS, FROM A MAN WHOM SENATOR PAUL TSONGAS CALLED -- THE "PANDER BEAR."

~~NOW HE'S ACTING LIKE ONE OF THE GOLDILOCK'S THREE BEARS~~
~~-- SAYING: "SOMEBODY'S BEEN SLEEPING IN MY BED!"~~

~~WHAT DOES MY OPPONENT OFFER?~~ WELL, HERE ARE THE
FACTS -- PURE AND SIMPLE. WHILE I HAVE PUT FORTH
SPECIFIC CUTS IN GOVERNMENT SPENDING -- GOVERNOR
CLINTON PROPOSES AT LEAST \$220 BILLION IN NEW SPENDING,
JUST TO START.

AT LAST COUNT MY OPPONENT HAS MENTIONED DOZENS OF
SEPARATE GOVERNMENT INITIATIVES THAT HE WANTS TO
INCREASE SPENDING FOR. SO WHILE WE'RE HERE EATING
KIELBASA -- HE'S OFFERING "PIE IN THE SKY." WHO DOES
HE THINK HE'S KIDDING? WHAT'S HE TRYING TO HIDE?

YOU, THE AMERICAN TAXPAYER.

I'VE BEEN ACCUSED OF THINKING EVERY DAY IS THE FOURTH OF JULY. MY OPPONENT SEEMS TO THINK EVERY DAY IS APRIL 15TH.// I LIKE THE WAY A CARTOON SUMMED IT UP THIS WEEK. IT FEATURED A GUY AT A KITCHEN TABLE. HE SAID TO HIS WIFE, "HONEY, I FIGURE WE CAN AFFORD ALL THOSE TAXES CLINTON AND GORE WANT TO RAISE, IF I CAN GET TWO OF THOSE JOBS THEY SAY THEY'LL CREATE."

RAISING TAXES DOESN'T CREATE JOBS, IT DESTROYS THEM. YOU KNOW THAT. SO WITH THE SAVINGS I HAVE PROPOSED, WE CAN CUT TAXES, AND GET THIS ECONOMY MOVING AGAIN.

THINK ABOUT THIS. MORE THAN 2 PERCENT OF OUR GROSS DOMESTIC PRODUCT IS SPENT NOT IN A FACTORY, NOT IN A CLASSROOM, NOT IN A LABORATORY -- BUT IN AND AROUND THE COURTROOM.

I'VE NEVER HEARD OF A NATION THAT SUED ITS WAY TO GREATNESS. SO I HAVE A PLAN TO CUT DOWN ON ALL THESE CRAZY LAWSUITS THAT ARE CHOKING OUR ECONOMY. AS A NATION, WE MUST SUE EACH OTHER LESS -- AND CARE FOR EACH OTHER MORE.//

I LOOK OUT IN THE CROWD AND I SEE SO MANY CHILDREN. THE FIFTH GRADERS HERE TODAY WILL GRADUATE FROM HIGH SCHOOL IN THE YEAR 2,000.

THEIR WORLD THEN WON'T LOOK LIKE OUR WORLD NOW, AND THE SCHOOLS THEY LEAVE CANNOT BE LIKE SCHOOLS TODAY -- OR AMERICA IS DEAD IN THE WATER.

THREE YEARS AGO THIS MONTH, WE STARTED A REVOLUTION IN AMERICAN EDUCATION -- WHAT WE CALL AMERICA 2000.

TODAY -- FOR THE FIRST TIME -- EVERY ELIGIBLE FOUR-YEAR OLD WHOSE PARENTS CHOOSE TO PARTICIPATE CAN GET A HEAD START ON KINDERGARTEN.//

TODAY -- FOR THE FIRST TIME -- HALF OUR STUDENTS IN COLLEGE HAVE A FEDERAL LOAN OR GRANT.//

AND IN THOUSANDS OF TOWNS AND CITIES, PARENTS AND TEACHERS ARE CREATING WHAT WE CALL "BREAK-THE-MOLD SCHOOLS." WE'RE RAISING STANDARDS -- SO OUR KIDS WILL LEAD THE WORLD, NOT JUST IN THE SWIMMING POOL AND THE BASKETBALL COURT, BUT AT THE COMPUTER AND IN THE SCIENCE LAB.//

AND WITH OUR NEW GI BILL FOR KIDS -- WE WANT TO GIVE EVERY ONE OF YOU THE FREEDOM TO PICK WHERE YOUR CHILDREN WILL LEARN -- ANY PROGRAM, ANY SCHOOL.//

A NATION THAT CAN BUILD SMART BOMBS -- CAN SURELY TURN OUT THE SMARTEST YOUNG PEOPLE IN THE WORLD.

THE FLIP SIDE OF EDUCATION IS WHAT HAPPENS IF YOU FAIL.

IT'S CHEAPER TO SEND A KID TO YALE THAN TO SEND A KID TO JAIL. PENN STATE'S CHEAPER THAN THE STATE PEN.

BUT FOR THOSE WHO REFUSE TO PITCH IN AND HELP BUILD AMERICA UP... AND INSTEAD TEAR US DOWN -- WE NEED TO SHOW THEM WHAT LAW AND ORDER IS ALL ABOUT.//

IT'S ABOUT SUPPORTING OUR POLICE FORCES AND JUDICIAL SYSTEM... GIVING THEM THE TOOLS THEY NEED TO DO THEIR JOB RIGHT. IT'S TIME TO TAKE BACK THE STREETS OF AMERICA.//

I HAVE OTHER ITEMS ON MY AGENDA FOR ACTION. WE NEED TO REFORM OUR WELFARE SYSTEM, SO THAT FAMILIES WILL STICK TOGETHER, AND FATHERS WILL STICK AROUND.

I HAVE A PLAN TO CUT THE COST OF HEALTH CARE -- WITHOUT THE TAXPAYER-FINANCED GOVERNMENT TAKEOVER THAT GOVERNOR CLINTON WOULD ENCOURAGE. MY POLICIES ARE DESIGNED NOT WITH RESPECT FOR GOVERNMENT, BUT RESPECT FOR THE AMERICAN FAMILY.

WE'VE MADE PROGRESS IN A LOT OF AREAS, BUT IN OTHERS, WE'VE GOT A WAYS TO GO. ASK WHY -- AND I WOULD SAY THREE WORDS -- "THE GRIDLOCK CONGRESS."

NOW I KNOW YOU ARE TIRED OF ELECTED OFFICIALS BLAMING EACH OTHER ALL THE TIME. BUT LET ME EXPLAIN SOMETHING.

THERE ARE CERTAIN NUMBERS THAT MEAN SOMETHING IN AMERICA. NUMBER 40 IS GALE SAYERS. NUMBER 8 -- CARL YASTREMSKI. NUMBER 23 -- A CERTAIN BASKETBALL PLAYER IN BAGGY SHORTS.

HERE'S ONE YOU MAY NOT KNOW. NUMBER 38. THAT'S HOW LONG THE SAME CROWD HAS BEEN RUNNING THE U.S. HOUSE OF REPRESENTATIVES. 38 YEARS. ASK MILLIE, SHE'LL TELL YOU -- THAT'S 266 YEARS IN DOG YEARS -- AND IT SHOWS!

IF YOU REALLY WANT CHANGE -- LET'S GET SOME FRESH BLOOD IN CONGRESS, GOOD PEOPLE WHO HAVEN'T SPENT THEIR LIFE IN POLITICS. WE NEED TO LIMIT THE TERMS OF MEMBERS OF CONGRESS.

MY OPPONENT SAYS NO -- I SAY YES. THIS YEAR, WHEN WE GO IN THE VOTING BOOTH -- GIVE ME RICH WILLIAMSON IN THE SENATE. LET'S START A NEW TRADITION IN AMERICA -- SPRING CLEANING IN NOVEMBER. LET'S CLEAN HOUSE.

AS WE LOOK AROUND US TODAY, WE SEE A WORLD CONSUMED WITH CHANGE -- WITH PROGRESS. WHAT'S OUR PLACE IN THIS NEW WORLD?

WELL, THERE'S ONLY REASON THAT AMERICA ALONE, HAS ALWAYS BEEN ABLE TO STAND SO TALL, AND COMMAND A VIEW OF THE MOST DISTANT HORIZON.

IT'S BECAUSE WE STAND ON THE SHOULDERS OF GIANTS.

THE SHOULDERS OF YOUR PARENTS, AND THEIR PARENTS BEFORE THEM.

THAT'S WHY WE LEAD THE WORLD. CAN THERE BE ANY DOUBT WE CAN BUILD A SAFER AND MORE SECURE AMERICAN FOR OUR CHILDREN?

YOU KNOW, I SEE FLORIDA AFTER HURRICANE ANDREW... AND I SEE LOUISIANA... AND I SEE AN OUTPOURING OF LOVE AND CONCERN FROM THE REST OF OUR GREAT NATION, AND I TELL YOU:

IF ANY AMONG US HAVE ANY DOUBT ABOUT THIS NATION'S CAPACITY TO REACH DEEP WITHIN -- TO TAP THE WELLSPRING OF PASSION FOR THIS COUNTRY AND ITS PEOPLE -- IF THERE IS ANY DOUBT -- LOOK SOUTH -- AND LET IT BE ERASED.

AMERICANS -- WE HAVE CHANGED THE WORLD -- AND LIT THE CANDLE OF FREEDOM WHERE ONCE THERE WAS ONLY DARKNESS.

WITH THE SAME PERSEVERANCE, THE SAME CHARACTER, THE SAME DETERMINATION -- WE WILL BUILD A SAFER AND MORE SECURE AMERICA -- FOR ALL GENERATIONS TO COME.

GOD BLESS POLONIA. GOD BLESS CHICAGO AND THE UNITED STATES OF AMERICA.

PRESIDENTIAL REMARKS: POLONIA FESTIVAL
CHICAGO, ILLINOIS
SEPTEMBER 6, 1992
3:30 P.M.

Thank you, Governor.

Fellow Americans... I'm proud to be here today, at this marvelous celebration of Polish-American heritage.

This past Independence Day, I traveled to the heartland of Poland... to bury a treasure.

In the crypt of an ancient cathedral... I stood with President Walesa... as the remains of the great patriot and artist, Igancy Paderewski [[Ig-NAH-see Pader-EV-ski]], were finally laid to rest... in the rich and free Polish soil that conceived and sustained him.

And it struck me... this was not so much a burial... as it was a resurrection -- the resurrection of a nation's dreams.

A patriot was at long last laid to rest in Polish soil... in Polish soil... that was finally free.

And the ripples from that moment, as his remains were consecrated to earth on that warm summer day in Warsaw... are passing through this crowd, here and now.

Think of what we have seen together -- these past few years.

We watched a Gdansk electrician electrify the world with the charge that all people should be free and be heard.//

We watched the nation of Poland reborn, brimming with a new and different fluid of life... inspired by a passion for freedom ... and a Pope named John Paul II.

We watched this new force, not pushed down from a tyrant, but up from the people, firm in the belief the dream was real.

Fellow Americans... the dream is real. It was a long time coming... but On! On! from Italy's fair plain... Dombrowski [[dum-BRUHV-skee]] has led Poland back again!

And as we gather today at this festival, I can say something no President could ever say before. The Cold War is over. Freedom finished first.//

My opponents say I spend too much time on foreign policy. Well, American schoolchildren used to hide under their desks in drills to prepare for nuclear war. I saw the chance to erase their nuclear nightmares -- and I did it. Does that matter? You bet it does.

Over the past four years, more people have breathed the fresh air of freedom than in all of human history. I saw a chance to help, and I did it. Does that matter? You bet it does.

I seized those two opportunities of a lifetime... I did it for our kids and our grandkids... and I make no apologies for that.

Now, our challenge is straightforward. This Labor Day weekend, we must dedicate ourselves to the challenge -- economic security for the working men and women of America. In the 21st

Century -- America must be not only a military superpower, we must continue to be an export superpower, and an economic superpower.//

My vision is to look forward -- to open new markets, to prepare our people to compete, to save and invest, to strengthen the American family -- so that we can win.//

I've spent half my life in public service -- half in the private sector. I built a business, met a payroll. And I believe that's a good qualification to be President of the United States.//

My experience is reflected in my philosophy. I believe that government is too big -- and spends too much of your money.//

I have put forward a freeze on federal discretionary spending, plus a plan to control mandatory federal spending except Social Security. It would save \$300 billion in five years. I want to say "Do widzenia" [[doe-veed-ZEN-yuh]] to more than 4,000 wasteful federal projects -- like a national research program that looks into -- get this -- the mating habits of the mink.//

So far, Congress has balked at making these tough choices. So now I have a new idea. I want to give you -- the taxpayer -- the option of taking 10 percent of your income tax -- and using it for one purpose alone -- to reduce the budget deficit.//

I want to put a line on your tax return next year: it'll say, "Check here to stop the spenders." If Congress won't cut spending, let you the people do it.//

But while we cut federal spending, we can still set priorities -- to help people in need get back on their feet. So this week, I took federal money that had already been appropriated -- and used it to help farmers whose crops were destroyed. And I said we'd help the private sector rebuild devastated Florida and Louisiana.//

Mr. Clinton was outraged -- he accused me of "pandering." This, from a man whom Senator Paul Tsongas called -- the "Pander Bear." Now he's acting like Goldie Locks -- saying: "Somebody's been sleeping in my bed!"

What does my opponent offer? Well, here are the facts -- pure and simple. While I have put forth specific cuts in government spending -- Governor Clinton proposes at least \$220 billion in new spending, just to start. Newsweek magazine called the Clinton program -- and I quote -- "economic fantasy." Newsweek went on to say that the real cost of the Clinton program is -- and I quote -- "arguably at least 3 times higher" than he's admitted. // At last count, my opponent has mentioned 62 separate government initiatives that he wants to increase spending for. So while we're here eating Kielbasa -- he's offering "pie in the sky." Who does he think he's kidding? What's he trying to hide?

You, the American taxpayer.

I've been accused of thinking every day is the Fourth of July. My opponent seems to think every day is April 15th.// I like the way a cartoon summed it up this week. It featured a guy

at a kitchen table. He said to his wife, "honey, I figure we can afford all those taxes the Democrats want to raise, if I can get two of those jobs they say they'll create."

Raising taxes doesn't create jobs, it destroys them. You know that. So with the savings I have proposed, we can cut taxes, and get this economy moving again.

There's something else we have to fix. Think about this. Almost 3 percent of our Gross Domestic Product is spent not in a factory, not in a classroom, not in a laboratory -- but in and around the courtroom. In America today, if you fall off a stepladder, a trial lawyer will be there to catch you -- right after you bounce off the ground.

I've never heard of a nation that sued its way to greatness. So I have a plan to cut down on all these crazy lawsuits. As a nation, we must sue each other less -- and care for each other more.//

I look out in the crowd and I see so many children. The fifth graders here today will graduate from high school in the year 2,000. Their world then won't look like our world now, and the schools they leave cannot be like schools today -- or America is dead in the water.

Two years ago this month, we started a revolution in American education -- what we call America 2000. Governors, teachers, parents, all working together to reinvent our schools.

Today -- for the first time -- every child in our inner cities who needs a Head Start on kindergarten -- can get one.//

Today -- for the first time -- half our students in college have a federal loan or grant.//

And in thousands of towns and cities, parents and teachers are creating what we call "Break-the-Mold Schools." We're raising standards -- so our kids will lead the world, not just in the swimming pool and the basketball court, but at the computer and in the science lab.// And with our new GI Bill For Kids -- we want to give every one of you the freedom to pick where your children will learn -- any program, any school.//

A nation that can build smart bombs -- can surely turn out the smartest young people in the world.

The flip side of education is what happens if you fail. It's cheaper to send a kid to Yale than to send a kid to jail. Penn State's cheaper than the State Pen.

But for those who refuse to pitch in and help build America up... and instead tear us down -- we need to show them what law and order is all about.//

It's about supporting our police forces and judicial system... giving them the tools they need to do their job right. It's time to take back the streets of America.//

I have other items on my agenda for action. We need to reform our welfare system, so that families will stick together, and fathers will stick around. I have a plan to cut the cost of health care. And I believe we need to strengthen America's moral foundation. We will always have a special place in God's heart, as long as God has a special place in ours.

We've made progress in a lot of areas, but in others, we've got a ways to go. Ask why -- and I would say three words -- "the Gridlock Congress."

Now I know you are tired of elected officials blaming each other all the time. But let me explain something.

There are certain numbers that mean something in America. Number 16 is Joe Montana. Number 3 -- Babe Ruth. Number 23 -- a certain basketball player in baggy shorts.

Here's one you may not know. Number 38. That's how long the same crowd has been running the U.S. House of Representatives. 38 years. Ask Millie, she'll tell you -- that's 266 years in dog years -- and it shows!

If you really want change -- let's get some fresh blood in Congress, good people who haven't spent their life in politics. Limit the terms of members of Congress. This year, when we go in the voting booth -- let's start a new tradition in America -- Spring Cleaning in November. Let's Clean House.

As we look around us today, we see a world consumed with change -- with progress. What's our place in this world?

Well, there's only reason that America, alone in the world, has always been able to stand so tall, and command a view of the most distant horizon.

It's because we stand on the shoulders of giants.

The shoulders of your parents, and their parents before them.

That's why we lead the world. Can there be any doubt we can build a safer and more secure American for our children?

You know, I see Florida after Hurricane Andrew... and I see Louisiana... and I see an outpouring of love and concern from the rest of our great nation, and I tell you: If any among us have any doubt about this nation's capacity to reach deep within -- to tap the wellspring of passion for this country and its people -- if there is any doubt -- look South -- and let it be erased.

Americans -- we have changed the world -- and lit the candle of freedom where once there was only darkness.

With the same perseverance, the same character, the same determination -- we will build a safer and more secure America -
- for all generations to come.

God bless Chicago. And God Bless the United States of America.

PRESIDENTIAL REMARKS: POLONIA FESTIVAL
CHICAGO, ILLINOIS
SEPTEMBER 6, 1992
3:30 P.M.

Thank you, Governor.

Fellow Americans... I'm proud to be here today, at this marvelous celebration of Polish-American heritage.

You've made Poland such a rich part of the American tapestry... with your strong values... your deep culture... and of course ... your food. I for one want to personally thank you for bringing kielbasa to my attention.

Because you've become such a deep part of America... through recent years, as your great mother country struggled to become a free nation once again... we couldn't help but watch and pray and give her our heartfelt support.

We watched as a Gdansk electrician electrified the world with the charge that all people should be free and be heard.//

Too Passive
We Supported

We watched the nation of Poland reborn, brimming with a new and different fluid of life... inspired by a passion for freedom ... and a Pope named John Paul II.

We watched this new force, not pushed down from a tyrant, but up from the people -- firm in the belief that the dream was real.

Fellow Americans... the dream is real. It is real. It was a long time coming... but on, on, from Italy's fair plain... Dombrowski [[dum-BRUHV-skee]] has led Poland back again!

As we gather today at this festival, I can say something no President could ever say before. The Cold War is over. Freedom finished first.//

Now our challenge is straightforward. In the 21st century -
- America must be not only a military superpower, we must continue to be an export superpower, and an economic superpower.//

In this election, you'll hear two versions of how to do this. My opponent's answer is to look inward to pretend we can protect what we already have. Our vision is to look forward -- to open new markets, to prepare our people to compete, to save and invest, to strengthen the American family -- so that we can win.

As you consider the two candidates, I ask that you examine first ~~at~~ our background -- our experience. ✓

My opponent has been in the public sector virtually all his adult life. Remember the movie -- the ^dAdams Family? Governor Clinton ^{feels} feels for government -- the same way that Gomez felt when Mortisha spoke French. Whenever somebody talks about expanding government, Governor Clinton starts kissing up their arm.//

Presidential?

I have spent half my life in public service -- half in the private sector. I built a business, met a payroll. And I don't

believe that's a bad qualification to be President of the United States.//

My experience is reflected in my philosophy. I believe that government is too big -- and spends too much of your money.//

I have put forward over \$250 billion in spending cuts, a plan to control mandatory federal spending, and I want to say (Polish word for goodbye) to over 4,000 federal projects -- like a national research program that looks into -- get this -- the mating habits of the mink.//

So far, Congress has balked at making these tough choices. So now I have a new idea. I want to give you -- the taxpayer -- the option of taking 10 percent of your income tax -- and using it for one purpose alone --to reduce the budget deficit.//

My opponent offers a much different approach. Here are the facts -- pure and simple. While I have put forth cuts in government spending -- Governor Clinton proposes at least \$220 billion more. A national news magazine suggests the real cost is three times higher.// So while we're eating kielbasa -- he's offering "pie in the sky."

To be fair, Governor Clinton has proposed to eliminate a federal program. He scoured the (9,732) pages of the federal budget, summoned his courage, closed his eyes, and agreed to slash one program -- the federal subsidy for honey bees. Believe me, no one will get stung by that one.

Who's going to pay for all his new spending? I'll give you one hint -- it begins with "T" ends with an "R" -- and abhors a

certain day in April. That's right, you, the hard-working American taxpayer.

Right out of the box, Governor Clinton's proposals would lead to a \$150 billion tax increase, a new payroll tax increase for health care, and another payroll tax for training. (It makes me tired just talking about it.)

I've been accused of thinking every day is the Fourth of July. My opponent seems think every day is April 15th.// I want to cut taxes, and get this economy moving again.

Today, here in Illinois, one out of every () jobs is tied to foreign trade. Just as John Kennedy once said that America would "pay any price, bear any burden" for freedom -- today Americans can go to any corner of the globe -- to find new customers for our products -- to support new jobs for American workers.

logic -
Why does
this track

What's my opponents position on free trade? One day he is for it, the next day -- against it. Now he says he wants to wait a while before he makes up his mind. Well, the rest of the world is moving, our workers can't wait//

Think about this. Almost 3 percent of our Gross Domestic Product is spent not in a factory, not in a laboratory, but in and around the courtroom. In America today, if you fall off a stepladder, a trial lawyer will be there to catch you -- before you hit the ground.

I have a plan to cut down all these crazy lawsuits. As a nation, we must sue each other less -- and care for each other more.//

Don't worry about my opponent taking on this battle. Listen to what the top trial lawyer in Arkansas said about Governor Clinton. I want to be fair, this is a direct quote. "I can never remember an occasion where he failed to do what was right where we trial lawyers were concerned."

I don't want to do what's right for trial lawyers -- I want to do what's right for America.//

What about education? It's not at the top of the evening news every night -- but it is the solution to most of what is.

As I look out in the crowd, I see so many children. The fifth graders here today will graduate from high school in the year 2,000. The world they enter won't look like the world today, and the schools they leave cannot be like the schools today.

Two years ago this month, we started a revolution in American education -- what we call America 2000. Governors, teachers, parents, all working together to reinvent our schools.

Today -- for the first time -- every child in our inner cities who needs a head start on kindergarten -- can get one.//

Today -- for the first time -- half our students in college have a federal loan or grant.//

And in thousands of towns and cities, parents and teachers are creating what we call "Break The Mold Schools." We are

raising standards -- so that our kids will lead the world not just in the swimming pool and the basketball court, but in the math room and the science lab.// And with our new GI Bill For Kids -- we want to give every you the freedom to pick where your children will learn -- any program, any school.//

A nation that can amaze the world by dropping bombs down chimneys -- can surely create the best schools in the world for our children.//

I have other items on my agenda for action. We need to reform our welfare system, so that families will stick together, and fathers will stick around. I have a plan to cut the cost of health care, without the backdoor government takeover my opponent proposes. And I believe that we need to strengthen America's moral foundation -- we will always have a special place in God's heart, as long as he has a special place in ours.

In many areas, we have made progress, but in others, we have far to go. Ask why -- and I would say three words -- "the Gridlock Congress."

There are certain numbers that mean something in America. Number ~~16~~ is Joe Montana. Number () -- Ted Williams. Number 23 a basketball player named Michael Jordan.

Here's one you may not know. Number 38. That's how long the same crowd has been running the U.S. Congress. 38 years. (That's 276 years in dog years -- and it shows.)

If you really want to change -- limit the terms of members of Congress. My opponent says no -- I say yes.//

So this year, when you go in the voting booth -- lets start a new tradition in America -- Spring Cleaning in November. Let's Clean House.

Fellow Americans, as we look around us today, we see a world consumed with change -- with progress.

It is on your shoulders and the shoulders of your mothers and fathers and theirs before them, that America alone has been able to stand so tall, and command a view of the most distant horizon.

That is why we lead the world. Can there be any doubt we can build a safer and more secure American for our children?

I see Florida, I see Louisiana, and I see an outpouring of love and concern from the rest of our great nation, and I tell you: If any among us have any doubt about this nation's capacity to reach deep within -- to tap the wellspring of passion for this country and its people -- if there is any doubt -- look South -- and let it be erased.

We have changed the world -- and lit the candle of freedom where once there was only the darkness of tyranny. With the same perserverance, the same character, the same determination -- we will build a safer and more secure America -- for all generations to come.

God bless Polonia. And God Bless the United States of America.

PRESIDENTIAL REMARKS: POLONIA FESTIVAL
CHICAGO, ILLINOIS
SEPTEMBER 6, 1992
3:30 P.M.

Thank you, Governor.

Fellow Americans... I'm proud to be here today, at this marvelous celebration of Polish-American heritage.

You've made Poland such a rich part of the American tapestry... with your strong values... your deep culture... and of course ... your food. I for one want to personally thank you for bringing kielbasa to my attention.

Because you've become such a deep part of America... through recent years, as your great mother country struggled to become a free nation once again... we couldn't help but watch and pray and give her our heartfelt support.

We watched as a Gdansk electrician electrified the world with the charge that all people should be free and be heard.//

We watched the nation of Poland reborn, brimming with a new and different fluid of life... inspired by a passion for freedom ... and a Pope named John Paul II.

We watched this new force, not pushed down from a tyrant, but up from the people -- firm in the belief that the dream was real.

pls look at Hamtramck to
see if we have
another 1/2 or so
of Polish color.
(you call)

(Ross)

Fellow Americans... the dream is real. ~~It is real.~~ It was a long time coming... but on, on, from Italy's fair plain... Dombrowski [[dum-BRUHV-skee]] has led Poland back again!

As we gather today at this festival, I can say something no President could ever say before. The Cold War is over. Freedom finished first.//

✓ Now our challenge is straightforward. In the 21st ^(C)Century -
- America must be not only a military superpower, we must continue to be an export superpower, and an economic superpower://

In this election, you'll hear two versions of how to do this. My opponent's answer is to look inward to pretend we can protect what we already have. Our vision is to look forward -- to open new markets, to prepare our people to compete, ^{renew social fabric} to save and invest, to strengthen the American family -- so that we can win.

As you consider the two candidates, I ask that you examine first at our background -- our experience.

My opponent has been in the public sector virtually all his adult life. Remember the movie -- the Adams Family? Governor Clinton feels for government -- the same way that Gomez felt when Mortisha spoke French. Whenever somebody talks about expanding government, Governor Clinton starts kissing up their arm.//

I have spent half my life in public service -- half in the private sector. I built a business, met a payroll. And I ~~don't~~

→ Boskin Hates this!

→ Delete (Ross)

→ Clayton Fong questions TP

so he learns it & we repeat it

(Porter)

See my comment on Henderson

(Good-Porter)
believe that's a ~~bad~~ qualification to be President of the United States.//

My experience is reflected in my philosophy. I believe that government is too big -- and spends too much of your money.//

See comment on Hendersonville
I have put forward over \$250 billion in spending cuts, a plan to control mandatory federal spending, and I want to say (Polish word for goodbye) to over 4,000 federal projects -- like a national research program that looks into -- get this -- the mating habits of the mink.//

eliminating wasteful projects (Porter)
So far, Congress has balked at ~~making~~ these ~~tough choices~~.
So now I have a new idea. I want to give you -- the taxpayer -- the option of taking 10 percent of your income tax -- and using it for one purpose alone --to reduce the budget deficit.// *See Hendersonville*

My opponent offers a much different approach. Here are the facts -- pure and simple. While I have put forth cuts in government spending -- Governor Clinton proposes *increasing spending by (Porter)* at least \$220 billion ~~more~~. A national news magazine suggests the real cost is three times higher.// So while we're eating kielbasa -- he's offering "pie in the sky."

To be fair, Governor Clinton has proposed to eliminate a federal program. He scoured the (9,732) pages of the federal budget, summoned his courage, closed his eyes, and agreed to slash one program -- the federal subsidy for honey bees. Believe me, no one will get stung by that one. *Gore?*

Who's going to pay for all his new spending? I'll give you one hint -- it begins with "T" ends with an "R" -- and abhors a

certain day in April. That's right, you, the hard-working American taxpayer.

Right out of the box, Governor Clinton's proposals would lead to a \$150 billion tax increase, a new payroll tax increase for health care, and another payroll tax for training. (It makes me ~~tired~~ ^{cringe (Porter)} just talking about it.)

I've been accused of thinking every day is the Fourth of July. My opponent seems ^{to} think every day is April 15th.// I want to cut taxes, and get this economy moving again.

Today, here in Illinois, one out of every () jobs is tied to foreign trade. ~~Just as John Kennedy once said that America would "pay any price, bear any burden" for freedom --~~ ^{aut. transition (Porter)} today American can go to any corner of the globe ^{open any market (Rosa)} -- to find new customers for our products -- to support new jobs for American workers.

What's my opponents position on free trade? One day he is for it, the next day -- against it. Now he says he wants to wait a while before he makes up his mind. Well, the rest of the world is moving, our workers can't wait//

Think about this. Almost 3 percent of our Gross Domestic Product is spent not in a factory, not in a laboratory, but in and around the courtroom. In America today, if you fall off a stepladder, a trial lawyer will be there to ~~catch you~~ -- before you hit the ground.

^{hand you a business card (Porter)}

I have a plan to cut down all these crazy lawsuits. As a nation, we must sue each other less -- and care for each other more.//

think that (Porter) will
Don't ~~worry about~~ my opponent ^{*e*} taking on this battle. Listen to what the top trial lawyer in Arkansas said about Governor Clinton. I want to be fair, this is a direct quote. "I can never remember an occasion where he failed to do what was right where we trial lawyers were concerned."

I don't want to do what's right for trial lawyers -- I want to do what's right for America.//

What about education? It's not at the top of the evening news every night -- but it is the solution to most of ~~what is~~. *the changes we face.*

As I look out in the crowd, I see so many children. The fifth graders here today will graduate from high school in the year 2,000. The world they enter won't look like the world today, and the schools they leave cannot be like the schools today.

Two years ago this month, we started a revolution in American education -- what we call America 2000. Governors, teachers, parents, all working together to reinvent our schools.

Today -- for the first time -- *we are providing a head start for* every child ~~in our inner~~ *Kindergarten* ~~cities who needs a head start on kindergarten -- can get one.~~ *whose parents want them to participate. -- eligible* *(Porter)*

Today -- for the first time -- half our students in college have a federal loan or grant.//

And in thousands of towns and cities, parents and teachers are creating what we call "Break The Mold Schools." We are

raising standards -- so that our kids will lead the world not just in the swimming pool and the basketball court, but in the math room and the science lab.// And with our new GI Bill For Kids -- we want to give ~~every~~ middle + low income parents help in choosing you the freedom to pick ~~where your~~ where their children will learn -- any program, any school.// (Porter)

A nation that can amaze the world by dropping bombs down chimneys -- can surely create the best schools in the world for our children.//

I have other items on my agenda for action. We need to reform our welfare system, so that families will stick together, and fathers will stick around. I have a plan to cut the cost of health care, without the backdoor government takeover my opponent proposes. And I believe that we need to strengthen America's moral foundation -- we will always have a special place in God's heart, as long as he has a special place in ours.

In many areas, we have made progress, but in others, we have far to go. Ask why -- and I would say three words -- "the Gridlock Congress."

There are certain numbers that mean something in America. Number 16 is Joe Montana. Number A) -- Ted Williams. Number 23 a basketball player named Michael Jordan.

Here's one you may not know. Number 38. That's how long the same crowd has been running the U.S. Congress. 38 years. (That's 276 years in dog years -- and it shows.)

If you really want to change -- limit the terms of members of Congress. My opponent says no -- I say yes.//

So this year, when you go in the voting booth -- lets start a new tradition in America -- Spring Cleaning in November. Let's Clean House.

Fellow Americans, as we look around us today, we see a world consumed with change -- with progress. --with opportunity. (Porter)

It is on your shoulders and the shoulders of your mothers and fathers and theirs before them, that America alone has been able to stand so tall, and command a view of the most distant horizon.

That is why we lead the world. Can there be any doubt we can build a safer and more secure American for our children?

I see Florida, I see Louisiana, and I see an outpouring of love and concern from the rest of our great nation, and I tell you: If any among us have any doubt about this nation's capacity to reach deep within -- to tap the wellspring of passion for this country and its people -- if there is any doubt -- look South -- and let it be erased.

We have changed the world -- and lit the candle of freedom where once there was only the darkness of tyranny. With the same perserverance, the same character, the same determination -- we will build a safer and more secure America -- for all generations to come.

God bless Polonia. And God Bless the United States of America.

PRESIDENTIAL REMARKS: POLONIA FESTIVAL
CHICAGO, ILLINOIS
SEPTEMBER 6, 1992
3:30 P.M.

Thank you, Governor.

Fellow Americans... I'm proud to be here today, at this marvelous celebration of Polish-American heritage.

You've made Poland such a rich part of the American tapestry... with your strong values... your deep culture... and of course ... your food. I for one want to personally thank you for bringing kielbasa to my attention.

Because you've become such a deep part of America... through recent years, as your great mother country struggled to become a free nation once again... we couldn't help but watch and pray and give her our heartfelt support.

We watched as a Gdansk electrician electrified the world with the charge that all people should be free and be heard.//

We watched the nation of Poland reborn, brimming with a new and different fluid of life... inspired by a passion for freedom ... and a Pope named John Paul II.

We watched this new force, not pushed down from a tyrant, but up from the people -- firm in the belief that the dream was real.

Fellow Americans... the dream is real. It is real. It was a long time coming... but on, on, from Italy's fair plain... Dombrowski [[dum-BRUHV-skee]] has led Poland back again!

As we gather today at this festival, I can say something no President could ever say before. The Cold War is over. Freedom finished first.//

Now our challenge is straightforward. In the 21st century -
- America must be not only a military superpower, we must continue to be an export superpower, and an economic superpower.//

In this election, you'll hear two versions of how to do this. My opponent's answer is to look inward to pretend we can protect what we already have. Our vision is to look forward -- to open new markets, to prepare our people to compete, to save and invest, to strengthen the American family -- so that we can win.

As you consider the two candidates, I ask that you examine first at our background -- our experience.

DAETE
My opponent has been in the public sector virtually all his adult life. Remember the movie -- the Adams Family? Governor Clinton feels for government -- the same way that Gomez felt when Mortisha spoke French. Whenever somebody talks about expanding government, Governor Clinton starts kissing up their arm.//

I have spent half my life in public service -- half in the private sector. I built a business, met a payroll. And I ~~don't~~

^{Good}
believe that's a ~~bad~~ qualification to be President of the United States.//

My experience is reflected in my philosophy. I believe that government is too big -- and spends too much of your money.//

I have put forward over \$250 billion in spending cuts, a plan to control mandatory federal spending, and I want to say (Polish word for goodbye) to over 4,000 federal projects -- like a national research program that looks into -- get this -- the mating habits of the mink.//

So far, Congress has balked at ~~making~~ ^{ELIMINATING} these ~~tough choices~~ ^{WASTEFUL PROJECTS.}. So now I have a new idea. I want to give you -- the taxpayer -- the option of taking 10 percent of your income tax -- and using it for one purpose alone --to reduce the budget deficit.//

My opponent offers a much different approach. Here are the facts -- pure and simple. While I have put forth cuts in government spending -- Governor Clinton proposes ^{INCREASING SPENDING BY AT} ~~at~~ least \$220 billion ~~more~~. A national news magazine suggests the real cost is three times higher.// So while we're eating kielbasa -- he's offering "pie in the sky."

To be fair, Governor Clinton has proposed to eliminate a federal program. He scoured the (9,732) pages of the federal budget, summoned his courage, closed his eyes, and agreed to slash one program -- the federal subsidy for honey bees. Believe me, no one will get stung by that one.

Who's going to pay for all his new spending? I'll give you one hint -- it begins with "T" ends with an "R" -- and abhors a

certain day in April. That's right, you, the hard-working American taxpayer.

Right out of the box, Governor Clinton's proposals would lead to a \$150 billion tax increase, a new payroll tax increase for health care, and another payroll tax for training. (It makes me ^{CRINCE} tired just talking about it.)

I've been accused of thinking every day is the Fourth of July. My opponent seems ^{TO} think every day is April 15th.// I want to cut taxes, and get this economy moving again.

Today, here in Illinois, one out of every () jobs is tied to foreign trade. ~~Just as John Kennedy once said that America~~ ^{TRANSITION} would "pay any price, bear any burden" for freedom -- today American can go to any corner of the globe -- to find new customers for our products -- to support new jobs for American workers.

What's my opponents position on free trade? One day he is for it, the next day -- against it. Now he says he wants to wait a while before he makes up his mind. Well, the rest of the world is moving, our workers can't wait//

Think about this. Almost 3 percent of our Gross Domestic Product is spent not in a factory, not in a laboratory, but in and around the courtroom. In America today, if you fall off a stepladder, a trial lawyer will be there to ~~catch you~~ -- before you hit the ground.

HAND YOU A BUSINESS CARD

I have a plan to cut down all these crazy lawsuits. As a nation, we must sue each other less -- and care for each other more.//

Don't ^{THINK THAT I} ~~worry about~~ my opponent ^{WILL E} taking on this battle. Listen to what the top trial lawyer in Arkansas said about Governor Clinton. I want to be fair, this is a direct quote. "I can never remember an occasion where he failed to do what was right where we trial lawyers were concerned."

I don't want to do what's right for trial lawyers -- I want to do what's right for America.//

What about education? It's not at the top of the evening news every night -- but it is the solution to most of ~~what is~~ ^{THE CHALLENGES}

As I look out in the crowd, I see so many children. The fifth graders here today will graduate from high school in the year 2,000. The world they enter won't look like the world today, and the schools they leave cannot be like the schools today.

Two years ago this month, we started a revolution in American education -- what we call America 2000. Governors, teachers, parents, all working together to reinvent our schools.

Today -- for the first time -- ~~every child in our inner cities who needs a head start on kindergarten~~ ^{WE ARE PROVIDING A HEAD} ~~start~~ ^{SE PARENTS WANT THEM TO PARTICIPATE. ELIGIBLE} can get one.//

Today -- for the first time -- half our students in college have a federal loan or grant.//

And in thousands of towns and cities, parents and teachers are creating what we call "Break The Mold Schools." We are

WE FACE

START FOR KINDERGARTEN TO

raising standards -- so that our kids will lead the world not just in the swimming pool and the basketball court, but in the math room and the science lab.// And with our new GI Bill For Kids -- we want to give ^{MIDDLE- AND LOW-INCOME PARENTS HELP IN CHOOSING} ~~every you the freedom to pick~~ where ~~your~~ ^{THEIR} children will learn -- any program, any school.//

A nation that can amaze the world by dropping bombs down chimneys -- can surely create the best schools in the world for our children.//

I have other items on my agenda for action. We need to reform our welfare system, so that families will stick together, and fathers will stick around. I have a plan to cut the cost of health care, without the backdoor government takeover my opponent proposes. And I believe that we need to strengthen America's moral foundation -- we will always have a special place in God's heart, as long as he has a special place in ours.

In many areas, we have made progress, but in others, we have far to go. Ask why -- and I would say three words -- "the Gridlock Congress."

There are certain numbers that mean something in America. Number 16 is Joe Montana. Number ⁹() -- Ted Williams. Number 23 a basketball player named Michael Jordan.

Here's one you may not know. Number 38. That's how long the same crowd has been running the U.S. Congress. 38 years. (That's 276 years in dog years -- and it shows.)

If you really want to change -- limit the terms of members of Congress. My opponent says no -- I say yes.//

So this year, when you go in the voting booth -- lets start a new tradition in America -- Spring Cleaning in November. Let's Clean House.

Fellow Americans, as we look around us today, we see a world consumed with change -- with progress, -- *WITH OPPORTUNITY* ^o

It is on your shoulders and the shoulders of your mothers and fathers and theirs before them, that America alone has been able to stand so tall, and command a view of the most distant horizon.

That is why we lead the world. Can there be any doubt we can build a safer and more secure American for our children?

I see Florida, I see Louisiana, and I see an outpouring of love and concern from the rest of our great nation, and I tell you: If any among us have any doubt about this nation's capacity to reach deep within -- to tap the wellspring of passion for this country and its people -- if there is any doubt -- look South -- and let it be erased.

We have changed the world -- and lit the candle of freedom where once there was only the darkness of tyranny. With the same perserverance, the same character, the same determination -- we will build a safer and more secure America -- for all generations to come.

God bless Polonia. And God Bless the United States of America.

Here's one you may not know. Number 38. That's how long the same crowd has been running the U.S. Congress. 38 years. (That's 276 years in dog years -- and it shows.)

If you really want to change -- limit the terms of members of Congress. My opponent says no -- I say yes.//

So this year, when you go in the voting booth -- lets start a new tradition in America -- Spring Cleaning in November. Let's Clean House.

Fellow Americans, as we look around us today, we see a world consumed with change -- with progress.

It is on your shoulders and the shoulders of your mothers and fathers and theirs before them, that America alone has been able to stand so tall, and command a view of the most distant horizon.

That is why we lead the world. Can there be any doubt we can build a safer and more secure American for our children?

I see Florida, I see Louisiana, and I see an outpouring of love and concern from the rest of our great nation, and I tell you: If any among us have any doubt about this nation's capacity to reach deep within -- to tap the wellspring of passion for this country and its people -- if there is any doubt -- look South -- and let it be erased.

We have changed the world -- and lit the candle of freedom where once there was only the darkness of tyranny. With the same perserverance, the same character, the same determination -- we will build a safer and more secure America -- for all generations to come.

God bless Polonia. And God Bless the United States of America.

PRESIDENTIAL REMARKS: POLONIA FESTIVAL
CHICAGO, ILLINOIS
SEPTEMBER 6, 1992
3:30 P.M.

Thank you, Governor.

Fellow Americans... I'm proud to be here today, at this marvelous celebration of Polish-American heritage.

You've made Poland such a rich part of the American tapestry... with your strong values... your deep culture... and of course ... your food. I for one want to personally thank you for bringing kielbasa to my attention.

Because you've become such a deep part of America... through recent years, as your great mother country struggled to become a free nation once again... we couldn't help but watch and pray and give her our heartfelt support.

We watched as a Gdansk electrician electrified the world with the charge that all people should be free and be heard.//

We watched the nation of Poland reborn, brimming with a new and different fluid of life... inspired by a passion for freedom ... and a Pope named John Paul II.

We watched this new force, not pushed down from a tyrant, but up from the people -- firm in the belief that the dream was real.

Fellow Americans... the dream is real. It is real. It was a long time coming... but on, on, from Italy's fair plain... Dombrowski [[dum-BRUHV-skee]] has led Poland back again!

As we gather today at this festival, I can say something no President could ever say before. The Cold War is over. Freedom finished first.//

Now our challenge is straightforward. In the 21st century -
- America must be not only a military superpower, we must continue to be an export superpower, and an economic superpower.//

In this election, you'll hear two versions of how to do this. My opponent's answer is to look inward to pretend we can protect what we already have. Our vision is to look forward -- to open new markets, to prepare our people to compete, to save and invest, to strengthen the American family -- so that we can win.

As you consider the two candidates, I ask that you examine first at our background -- our experience.

My opponent has been in the public sector virtually all his adult life. Remember the movie -- the Adams Family? Governor Clinton feels for government -- the same way that Gomez felt when Mortisha spoke French. Whenever somebody talks about expanding government, Governor Clinton starts kissing up their arm.//

I have spent half my life in public service -- half in the private sector. I built a business, met a payroll. And I don't

believe that's a bad qualification to be President of the United States.//

My experience is reflected in my philosophy. I believe that government is too big -- and spends too much of your money.//

I have put forward over \$250 billion in spending cuts, a plan to control mandatory federal spending, and I want to say (Polish word for goodbye) to over 4,000 federal projects -- like a national research program that looks into -- get this -- the mating habits of the mink.//

So far, Congress has balked at making these tough choices. So now I have a new idea. I want to give you -- the taxpayer -- the option of taking 10 percent of your income tax -- and using it for one purpose alone --to reduce the budget deficit.//

My opponent offers a much different approach. Here are the facts -- pure and simple. While I have put forth cuts in government spending -- Governor Clinton proposes at least \$220 billion more. A national news magazine suggests the real cost is three times higher.// So while we're eating kielbasa -- he's offering "pie in the sky."

To be fair, Governor Clinton has proposed to eliminate a federal program. He scoured the (9,732) pages of the federal budget, summoned his courage, closed his eyes, and agreed to slash one program -- the federal subsidy for honey bees. Believe me, no one will get stung by that one.

Who's going to pay for all his new spending? I'll give you one hint -- it begins with "T" ends with an "R" -- and abhors a

certain day in April. That's right, you, the hard-working American taxpayer.

Right out of the box, Governor Clinton's proposals would lead to a \$150 billion tax increase, a new payroll tax increase for health care, and another payroll tax for training. (It makes me tired just talking about it.)

I've been accused of thinking every day is the Fourth of July. My opponent seems think every day is April 15th.// I want to cut taxes, and get this economy moving again.

Today, here in Illinois, one out of every () jobs is tied to foreign trade. Just as John Kennedy once said that America would "pay any price, bear any burden" for freedom -- today American can go to any corner of the globe -- to find new customers for our products -- to support new jobs for American workers.

What's my opponents position on free trade? One day he is for it, the next day -- against it. Now he says he wants to wait a while before he makes up his mind. Well, the rest of the world is moving, our workers can't wait//

Think about this. Almost 3 percent of our Gross Domestic Product is spent not in a factory, not in a laboratory, but in and around the courtroom. In America today, if you fall off a stepladder, a trial lawyer will be there to catch you -- before you hit the ground.

I have a plan to cut down all these crazy lawsuits. As a nation, we must sue each other less -- and care for each other more.//

Don't worry about my opponent taking on this battle. Listen to what the top trial lawyer in Arkansas said about Governor Clinton. I want to be fair, this is a direct quote. "I can never remember an occasion where he failed to do what was right where we trial lawyers were concerned."

I don't want to do what's right for trial lawyers -- I want to do what's right for America.//

What about education? It's not at the top of the evening news every night -- but it is the solution to most of what is.

As I look out in the crowd, I see so many children. The fifth graders here today will graduate from high school in the year 2,000. The world they enter won't look like the world today, and the schools they leave cannot be like the schools today.

Two years ago this month, we started a revolution in American education -- what we call America 2000. Governors, teachers, parents, all working together to reinvent our schools.

Today -- for the first time -- every child in our inner cities who needs a head start on kindergarten -- can get one.//

Today -- for the first time -- half our students in college have a federal loan or grant.//

And in thousands of towns and cities, parents and teachers are creating what we call "Break The Mold Schools." We are

raising standards -- so that our kids will lead the world not just in the swimming pool and the basketball court, but in the math room and the science lab.// And with our new GI Bill For Kids -- we want to give every you the freedom to pick where your children will learn -- any program, any school.//

A nation that can amaze the world by dropping bombs down chimneys -- can surely create the best schools in the world for our children.//

I have other items on my agenda for action. We need to reform our welfare system, so that families will stick together, and fathers will stick around. I have a plan to cut the cost of health care, without the backdoor government takeover my opponent proposes. And I believe that we need to strengthen America's moral foundation -- we will always have a special place in God's heart, as long as he has a special place in ours.

In many areas, we have made progress, but in others, we have far to go. Ask why -- and I would say three words -- "the Gridlock Congress."

There are certain numbers that mean something in America. Number 16 is Joe Montana. Number () -- Ted Williams. Number 23 a basketball player named Michael Jordan.

Here's one you may not know. Number 38. That's how long the same crowd has been running the U.S. Congress. 38 years. (That's 276 years in dog years -- and it shows.)

If you really want to change -- limit the terms of members of Congress. My opponent says no -- I say yes.//
