alone will not renew our great Nation. People built it, people who believe in family, people who believe in hard work, people just like you standing out here on this magnificent Ohio day.

So he offers you more Government, and I offer more power to the American family, more power to the American people. And I stand before you as a leader who has served his country in war and in peace; a leader with the experience, hopefully the character, the ideas to keep the great train of America rolling along to a more safe and a secure future.

These are exciting times. America is not in decline. We are a strong, respected, rising nation. I ask for your trust for another 4 years to lead this great Nation.

May God bless you all. And may God bless the United States of America. Thank you very, very much. Thank you all.

Remarks at the Centennial Family Picnic in Arlington, Ohio September 26, 1992

The President. Thank you very, very much. What a wonderful welcome to Arlington. Thank you so much. I just wish each and every one of you could have been on this train ride from Columbus here. It has been magnificent, a wonderful turnout of the true American spirit, a welcome by Ohio that has warmed our hearts. Then to come here for this icing on the cake, this fantastic rally. We are very, very glad to be with you on your 100th anniversary.

In case you didn't see him when we walked in, I want to be sure you salute and honor a great, a truly great Governor, George Voinovich. What a job he's doing for this State. Your Congressman, Mike Oxley, and I go back a long, long time. You've got one of the best. If we had more like him everybody wouldn't be yelling, "Clean House!" We need to clean House, but we need more like Mike Oxley to get the job done for America.

I believe Mike DeWine is with us. I haven't seen him on this stop. He's been along with us. But let me say, whether he's here or not, we must clean House, and that means we need a new Senator. Please elect this great Lieutenant Governor to the United States Senate.

Mayor Suter, may I thank you and all the citizens here for this warm welcome. I'll tell you, as we were leaning out of the train coming around the bend here, you could just sense the feeling of this marvelous community gathering. And we are very, very grateful to you.

I understand that your local deputy, Kreg Sheets, is here, or he was here a minute ago, he's the guy all dressed up because he's getting married in less than an hour; there he is, right here. We wish him well. Kreg, we want to wish you and Kris Martin all the very, very best in a great life of happiness ahead.

Now, today's been a wonderful day for Barbara and me: the sendoff from my dad's birthplace in Columbus, Ohio; then a stop in Marysville, which is where Barbara's mother was born; and then the trip here through this gentle, beautiful, highly productive Ohio farmland. People greeting us on both sides of the Spirit of America, great sounds and sights, it has been a wonderfully moving day, where you can't help but count your blessings and say America is the greatest, freest country on the face of the Earth.

We saw all kinds of farmers lined up along the railroad tracks. We saw a dairy farmer holding up a sign. It said he'd be "pulling for me." [Laughter] Well, that ought to ruin your lunch, but that's what I saw. [Laughter]

We knew the best still lay ahead of us: this town, this lunch, Rosemary Orwick's pasta noodles. I'm not quite sure what's more difficult, working with Congress or getting Rosemary to divulge her secret recipe I'm about to sample here.

There's a lot at stake in this election. We have won great victories around the world. The kids here in this beautiful cross section of America can go to bed at night without the same fear of nuclear war that the older generation had. That is a wonderful accomplishment for the United States of America, and we ought to take great pride in it.

Now, it's time, with all these dramatic changes around the world that we've help bring about—decline and fall of the Soviet empire; Middle Eastern enemies talking to each other; democracy on the move south of our border; the great countries of Eastern Europe free, free at last—it's now time to roll up our sleeves and renew America, just as our ancestors did. We want an America of the best schools in the world. We want safe neighborhoods and safe streets. And that's what I'm fighting for against this Congress in Washington, DC. We want lower taxes and less regulation. An America working and hoping and building, where every day is like the Fourth of July for our families and for these young people here today.

I'm not going to ruin this magnificent picnic with a long political speech, but let me just say that the question before you in this election is very simple. My opponent believes that America should pay more taxes because Government planners, senior little chairmen up there in the Congress, bureaucrats can spend your money more wisely than you can. And I don't believe that for one single minute.

You know, all of this talk about class warfare and a talk of moderation and going after the rich, he's got a big tax increase aimed right at the heart of middle America. I don't think we need that. I believe you should keep more of your hard-earned dollars because you can invest them more wisely.

In my second term, and believe me there will be one, I will continue to be doing for this Nation which your great Governor is doing for Ohio, opening up new markets for our products and creating new jobs for our workers. We can out hustle the workers in any other country if we open those foreign markets to American expertise. That's what I'm trying to do.

So we will be working to hold the line on Government spending and taxes and regulation, to cut the health care costs down with my health care program that provides everybody in this country that needs it insurance. We keep the quality of health care, but we then provide insurance to people, and we do not get the Government further involved like some of the socialist systems around the

world. We've got the best; we want to make it better and make it available to all.

The liberals in Washington don't like it, but let me tell you something: I am going to keep trying to find ways to strengthen the American family. The family is our strength, and the family needs to be supported, not divided. And how do you do that? You do it by giving parents more choice in child care or in schools. You do it by reforming welfare so that the young girl is in school and tries to save a little money, save over \$1,000, her mother doesn't get thrown off of welfare. Reform the system to keep families together, rather than trying to drive them apart.

Strengthening the family by making our neighborhoods safer. I strongly back our local law enforcement people, our firefighters, our policemen, our county sheriff's people. I back them all the way because they are fighting for the American family by cutting down crime in our neighborhoods all across America.

So when I talk about strengthening the family, it's this and so many things else. And I might say something about our First Lady. When she holds in her arms a baby stricken by AIDS or cancer, she's sending the signal that we ought to love each other more. And when she sits there in the White House and reads to a group of kids, she's setting an example for parents and families all across this country, because reading to kids is important. So don't let the liberals scare us away from strengthening the American family. We are right and you are right. And this part of America knows exactly what I'm talking about.

In its great 100 years, Arlington has seen its children march off to war, its young men and women; seen its old cry, in the old, seen the cry of the tears of depression. And you've marveled at the arrival of new technology and treasured this sturdy foundation of the traditional values that we're talking about here. Through every change, America has emerged stronger, and it is the same today.

Our challenges look difficult, and we've got big challenges. If you look around the world, you'll see the whole world is facing economic challenges. Whether it's in Europe or wherever else it is, there's enormous economic change taking place. In spite of what

want to make to all. I don't like it, because I am going to strengthen the economy, our strength, supported, not that? You do it in child care, forming welfare school and tries to get \$1,000, her of welfare. Reunites together, apart. by making our back our local firefighters, our firefighters people. I they are fighting cutting down across Amer-

strengthening the things else. And our First Lady. baby stricken, giving the signal, get more. And the House and setting an example all across this is important. us away from family. We are this part of. I'm talking

Clinton has seen its young men the old, seen it. And you've technology and of the tradition about here. has emerged v.

it, and we've around the world is facing it's in Europe enormous economic spite of what

my opponent says, the United States, although we've got to do much better, is the envy of the entire world, whether it's our economy, our military strength, our system of freedom.

So I am not one who wants to get to be President again by complaining about the United States or tearing it down or saying, as Governor Clinton does, that we are somewhere less than Germany and a little better than Sri Lanka. We are the United States of America, the envy of the entire world because we have stood for freedom. And we can do anything we set our sights on.

My faith is in the American people. My faith is with the people, to give the people the power that comes from less Government, less taxes, less regulation, and more confidence in the neighborhoods and in the communities and in the young people we're surrounded with here today.

So I come here as an optimist about America, and I want to finish the job that I have started. I believe this: It's not that I need to be President, but it is that I want to finish the job and strengthen the institutions, and particularly the family that we've talked about. We've made a big start. We are the envy of the world. And I am proud that these kids go to bed at night without the same fear of nuclear war that their predecessors did, much, much prouder than I could be of anything else.

But now, I ask for your support; 4 more years to strengthen America, bring us back, bring economic opportunity to all. And may God bless our great country. And thank you all very, very much.

And Mayor, will you come up?

Audience members. Four more years! Four more years! Four more years!

The President. This is a little symbol that's flown over the Capitol. This is for Arlington on its 100th birthday. Many, many thanks and congratulations.

Note: The President spoke at 2:21 p.m. at Arlington Park. In his remarks, he referred to Dean Suter, Mayor of Arlington. A tape was not available for verification of the content of these remarks.

Remarks to the Community in Findlay, Ohio

September 26, 1992

Is this thing working? Hey, listen, it's great to be back in Findlay. We want to come down and shake a few hands, but thanks for this welcome. We've had a great trip across, all the way from Columbus through Marysville, Arlington. Here we are in Findlay, and on we go. But I'll tell you something: This is a great part of the United States. Do not let Bill Clinton tell you that this is a nation in decline. We are the best in the entire world. We can solve every problem we've got.

Here's a guy that's got a good idea. He's saying, "Clean House!" Let's clean House in the Capitol, and let's get this country going forward again. Clean the House. That's exactly right. Those guys have been in control of the House for 38 years, and it's time to clean House, get rid of them and get a good team in like your Representatives right here from Findlay. We need more.

It's been a wonderful day. By the way, don't vote for a man that's going to raise your taxes and raise spending all at the same time. Do not put Governor Clinton in that White House.

One last word, and then we'll come down, Barbara and I, down to say hello down there. But one last word. I see these young people here today, and I take great pride in the fact that they go to bed at night with a lot less fear of nuclear weapons. Bill Clinton says foreign affairs don't mean anything. I say world peace means an awful lot.

Now let's get this country moving by less taxes and less spending, less regulation, more emphasis on strengthening the American family and less emphasis on spending and taxing, like Clinton and Gore want.

Thank you all very, very much.

Note: The President spoke at 3:30 p.m. on the observation deck of the Spirit of America train. A tape was not available for verification of the content of these remarks.

PRESIDENTIAL REMARKS: ARLINGTON PICNIC
ARLINGTON, OHIO
SATURDAY, SEPT. 26, 1992
1:30 P.M.

Governor Voinovich, thank you for that introduction. It's great to see Mrs. (Janet) Voinovich, Congressman Mike Oxley, Lt. Governor Mike DeWine, and Mayor Suter [SOO-ter.] Barbara and I want to thank all of you for letting us help celebrate Arlington's 100th birthday.

I understand your local deputy, Kreg Sheets, is here even though he's getting married later today. Kreg, we want to wish you and Kris Martin all the best of luck. //

Already, today's been wonderful for Barbara and me. First, the sendoff from my dad's birthplace, Columbus. Next, a stop in Marysville -- where Barbara's relatives are from. This is my agenda -- to Renew America -- by giving power not to government -- but to people, good people like those of you here in Arlington.

In it's hundred years, Arlington has seen it's children march off to war, and it's old cry the tears of Depression. You have marveled at the arrival of new technology, and treasured the sturdy foundation of old values like the family.

Through every change, America has emerged stronger. It is the same today. Our challenges look difficult, but we will meet them. With the industry, the faith in people -- that keeps America great.

Thanks for having the Spirit of America pull into Arlington. Happy birthday again. And God bless the United States.

Presidential Remarks
Marysville Main Street
September 26, 1992
9:00 p.m.

(Thank you Barbara. Governor Voinovich. (Acknowledgements)

May I pay a special tribute to these wonderful bands. The Monarchs, the Wildcats, and the Panthers.

Someone told that a lot of you normally wear buttons that say -- "re-elect Barbara Bush's husband." That doesn't bother me at all. I'll take my support any way I can get it.//

I'm also told that you can still get a five cent cup of coffee over at McCarthy's (Mc-GAR-tees) drug store. I knew we had inflation under control -- but this is amazing.

We take this train through Marysville this morning, to discuss what kind of America we want for our kids and our grandkids..

I want an America that is a military superpower -- but also an export superpower -- and an economic superpower.//

An America where every person who wants the dignity of work can find it. Because just as you can't build a home without a hammer -- you can't build a dream without a job.//

I have laid out my Agenda for American Renewal -- a comprehensive, integrated series of steps to create here in America -- by early in the next century -- the world's very first \$10 trillion economy.//

2

I believe the only way to achieve prosperity -- is by opening foreign markets to American goods and services. You see, I have faith in the American worker, and I'll tell you why.

Your great Governor recently visited Japan -- and talked with the chairman of Honda. He told him -- flat out -- that the workers here in Marysville are not as good as Japanese workers. He told them you were better than Japanese workers.//

On free trade, my opponent hasn't made up his mind yet -- but he does want to slap a tough new tax on foreign plants in the U.S. -- including the Honda plant here in Marysville.

I think that's crazy. I think free and fair trade isn't worth fighting against -- it's worth fighting for -- because we're fighting to protect your jobs.

The workers here in Marysville are like American workers everywhere. You never retreat. You always compete. And you will win.//

We pulled this "Spirit of America" into Marysville this morning -- to talk about how we will win the economic competition.

Governor Clinton says our economy is -- and I quote -- "sliding past Germany, headed South toward Sri Lanka." Those are his words.

Well, I know America had some tough times, but compare us to the economies of Europe, where they suffer with the high taxes and big government that Candidate Clinton favors. We have lower

3

unemployment -- stronger growth. Governor, that doesn't sound like Sri Lanka to me.//

Interest rates remain at 20 year-lows, inflation is under control, and our workers are the most productive in the world. Governor, that doesn't sound like Sri Lanka to me!//

I believe our economy is poised to moving, if we make the right choice this November.

But you know, our economy could slide into disaster, if we make the wrong choice . That's why today, we are going to Blow the Whistle on Bill Clinton. Because Governor Clinton is promising to do for the national economy what he has done for Arkansas. When you look at his record you realize -- That's not a promise -- it's a threat. //

Now, I know that Marysville hosted the Hot Air Balloon Festival last month. And you probably think that with a politician -- every day is a Hot Air Balloon Festival. So let me stick to the facts about Governor Clinton -- his record, and his rhetoric.

Arkansas was one of the poorest states when Bill Clinton became Governor. Twelve years later, it is still on the bottom. The problem is not with the good people of Arkansas. The problem is with their leader.

Governor Bill Clinton raised and extended the sales tax -- over and over. He taxed groceries, he taxed mobile homes, he doubled the tax on gasoline, and he raised the tax on beer.

4

(I know listening to Governor Clinton's record might tax your patience. But I say -- why give him another idea?)

Governor Clinton is no friend of the middle class. But don't take my word for it. Listen to Governor Clinton's hometown newspaper -- The Arkansas Gazette. I quote: "In the Clinton era, the Arkansas tax system has become stacked against the ordinary taxpayer and consumer, stacked for the rich and special interest."

I don't want a tax system that just benefits the rich -- I want a tax system that helps all working people get rich. That is the American way.//

Now, Candidate Clinton says he has seen the light. In this campaign, he's come right out and said he wants \$150 billion in new taxes. But don't worry, he says --all the money will come from the rich -- all those people who drive Jaguars and play paddle tennis

We've heard this song before. Jimmy Carter sang it. Walter Mondale sang it. Mike Dukakis sang it. They're going after the rich, but the middle-class ends up singing the blues. That's just not fair!

Governor Clinton says he'll raise this \$150 billion, mainly by taxing the top 2 percent of Americans -- all those people who make over \$200,000 a year.

But whoops. That's not the top 2 percent of Americans. The IRS says the top two percent of Americans begins with individuals with taxable income of \$65,000.

5

But there's not even enough money at this level, so to get the full \$150 billion -- Bill Clinton would have to tax people at \$36,000 a year.

I don't think these people are spending their time playing paddle tennis. Bill Clinton ought to leave your wallets alone.//

But it's worse than this. Because Governor Clinton has made a lot of promises in this campaign. He's called for spending increases of at least \$220 billion. Newsweek Magazine says the real cost real cost is arguably at least three times higher than he admits.

Now, the liberal Congress is salivating -- waiting to pass all these new programs. But where will Governor Clinton get the money?

Well, listen to the folks who know Bill Clinton best. The Pine Bluff Commercial -- an Arkansas newspaper says -- and I quote -- "if Congress followed the example that Bill Clinton has set as Governor of Arkansas, it would pass a tax program that would hit the middle-class the hardest.

That's the big secret of this campaign. To capture all the revenue he wants to raise, and to pay for all his promises, Bill Clinton needs to sock the middle-class in the wallet. I'm not going to let him.//

Just think about what the Clinton plan could mean for Marysville.

Lets say you're a forty-year-old fireman, with about \$30,000 in taxable income. Governor Clinton could have you give the

6

government another thousands dollar a year. That money could help you pay for your kids education -- and you should keep it in your hands.//

Or lets say you are a licensed nurse, making just over \$37,000 in taxable income. Governor Clinton wants you to fork over another \$800 a year. That money could pay to fix your car, or help pay your mortgage. You ought to be allowed to keep it.//

This is a fundamental issue in this election. Governor Clinton trusts government planners to make better decisions than you can. I believe you can invest your money, and make your own decisions, better than any government planner.//

Governor Clinton says he wants to gather the so-called "best and brightest" -- all the economists and lawyers and lobbyists and bring them to Washington -- to figure out how to fix all your problems. I want to give more power and freedom to you -- because in my mind, America's best and brightest are right here -- right here in Marysville.//

Here's the bottom line.

Bill Clinton's taxes are wrong for our economy. Bill Clinton's Arkansas record is wrong for the White House. Any way you cut it -- Bill Clinton is wrong for America.//

I know this town's slogan is the place where "the grass is always greener." But it might as well make it the slogan for America.

7

Sure we have problems, sure we face our challenges -- but ask a European ask an Asian -- America is still number one in the world.

Look around this community, at the new jobs, at the Americans competing in a new world economy. You see our capacity for renewal.

Government didn't build this great nation -- and government alone won't renew. People people built America. People who believe in family, people who believe in hard work, people like you -- right here in Marysville.

My opponent offers you more government, I offer more power to the American people. I stand before you as a leader with the experience, the character the ideas -- to keep the great train of America -- rolling along to more safe and secure future.

Thanks for turning out to greet us. And god Bless the United States of America.

PRESIDENTIAL REMARKS: ARLINGTON PICNIC
ARLINGTON, OHIO
SATURDAY, SEPT. 26, 1992
1:30 P.M.

Governor Voinovich, thank you for that introduction. It's great to see Mrs. (Janet) Voinovich, Congressman Mike Oxley, Lt. Governor Mike DeWine, and Mayor Suter [SOO-ter.] Barbara and I want to thank all of you for letting us help celebrate Arlington's 100th birthday.

I understand your local deputy, Kreg Sheets, is here even though he's getting married later today. Kreg, we want to wish you and Kris Martin all the best of luck. //

Already, today's been wonderful for Barbara and me. First, the sendoff from my dad's birthplace, Columbus. Next, a stop in Marysville -- where Barbara's relatives are from. Then, the trip here through gentle, beautiful Ohio farmland. People greeting us on both sides of "The Spirit of America." Great sounds and sights. /

It was especially exciting to see people lined up along the railroad tracks. We saw a dairy farmer who held up a sign --it said he'd be "pulling for us." / ((That joke's so bad, it will probably spoil your lunch.)) //

But we knew the best still lay ahead of us. This town / this lunch / and Rosemary Orwick's pasta noodles. / I'm not

quite sure what's more difficult -- working with Congress or getting Rosemary to divulge her secret recipe. //

There's a lot at stake in this election. We have won great victories around the world. The kids here today can sleep the sweet dreams of peace -- free from the nightmare of nuclear weapons.

Now, it's time to roll up our sleeves -- and renew America, just as our ancestors did. We want an America of good schools, and safe streets. Lower taxes, and less regulation. An America working / hoping / building. Where every day is the 4th of July -- for our families and for our kids. //

I'm not going to ruin your picnic with a political speech, but let me just say that the question before you in this election is really simple.

My opponent believes that America should pay more taxes -- because government planners and bureaucrats can spend your money more wisely than you can. /

Despite all his talk of moderation and going after the rich, he's a big tax increase aimed right at the middle-class.

I don't think we need that. I believe you should keep your hard-earned dollars -- because you can invest them more wisely. //

In my second term, I'll be fighting to open new markets for our products and create new jobs for our workers. I'll be working to cut government spending and taxes and regulations, to

cut health care costs, and give every parent the right to choose their kids' school. /

This is my agenda -- to Renew America -- by giving power not to government -- but to people, good people like those of you here in Arlington.

In it's hundred years, Arlington has seen it's children march off to war, and it's old cry the tears of Depression. You have marveled at the arrival of new technology, and treasured the sturdy foundation of old values like the family.

Through every change, America has emerged stronger. It is the same today. Our challenges look difficult, but we will meet them. With the industry, the faith in people -- that keeps America great.

Thanks for having the Spirit of America pull into Arlington. Happy birthday again. And God bless the United States.
