**THE WHITE HOUSE  
WASHINGTON**

**REMARKS TO  
THE NATIONAL ASSOCIATION OF MANUFACTURERS  
BOARD OF DIRECTORS**

Wednesday, October 31, 2001  
11:10 a.m. – 11:30 a.m.  
450 Eisenhower Executive Office Building  
Karl Rove

**I. PURPOSE**

To promote the economic stimulus package, trade promotion authority, and energy legislation, and thank the National Association of Manufacturers (NAM) and its membership for their steadfast support of your agenda.

**II. BACKGROUND**

The NAM Board of Directors is composed of CEOs from 230 leading small and mid-size U.S. manufacturers. Overall NAM membership includes 14,000 companies that employ over 18 million people.

The NAM has been very supportive of your agenda. It was a founding member of the Tax Relief Coalition, the 1,000-plus member consortium that led the grass-roots support for your Tax Relief Package. The Tax Relief Coalition is now pushing for passage of your Economic Stimulus Package. The NAM also serves as the Secretariat of the STRADE coalition, which is supporting your Trade Promotion Authority initiative. The NAM is also a founding member of the Alliance for Energy and Economic Growth, a coalition that is pushing for implementation of your National Energy Policy.

The National Association of Manufacturers has also been extremely helpful in pushing your education reform agenda.

Tim Timpken is the Chairman of NAM. This is Mr. Timpken's last official meeting as Chairman of the NAM.

**NATIONAL ASSOCIATION OF MANUFACTURERS  
TALKING POINTS  
November 1, 2001**

**Our Nation is engaged in a war to defeat terrorism. But our economy is struggling against the uncertainty that the threat of terrorist attacks creates.**

**Businesses and governments are paying more for security – at the same time, their revenues are faltering.**

**Americans wonder what tomorrow will bring – and this uncertainty means that consumers are putting off purchases and businesses are postponing investments.**

**We can build and restore buildings and transportation systems. But the recovery of our economy will ultimately depend on the renewed willingness of Americans to take economic risks: to start new businesses – purchase new equipment – or back new ventures.**

**We will restore confidence by providing tax relief – by expanding trade – and by securing our energy reserves for the future.**

**TAX**

**Tax relief is a better stimulus than spending for three reasons:**

- 1) Tax relief takes effect quickly – investment incentives go into effect the day I sign the bill;**
  - 2) Tax relief is efficient – it allows individuals to decide where resources should flow; and**
  - 3) Tax relief encourages productive private-sector investment – spending relies on government consumption.**
-

## **ENERGY**

Energy prices have fallen since the spring, but our Nation still needs a reliable, affordable supply of energy for the future. Consumers, farmers, and business people understand more than ever before the importance of greater energy self-sufficiency – and the need to conserve and to find more of our energy in our own hemisphere. We need to develop new nuclear power – and reduce our dependence on foreign supplies.

## **TRADE**

Freer world trade is essential to the growth of our economy and the health of every company represented in this room.

The triumph of markets – of open trade and open societies – is the great alternative to the resentment and hatred offered by our enemies. Today, we have a chance to draw all people into an open world economy that promises better living standards, political freedom, and human dignity.

In summary, the Senate needs to pass an economic stimulus package soon, and the Administration's energy bill before they adjourn; and the House should pass TPA soon.

In America, our optimism leads to our success. Our economy will prosper again – our country will prevail over the enemies of freedom – and our values will triumph over evil.

## **EDUCATION**

Thank you for your strong support of my education reform plan. We are making good progress on resolving the remaining issues, and I am optimistic that we will pass this bill this year. I hope I can continue to count on your support when we reach a vote on final passage. This bill has strong accountability measures, which will encourage results-based decisions, improve school performance, and make sure that we leave no child behind.
