Reporting Requirements in H.R. 3447

Maintenance of Capacity for Specialized Treatment of Disabled Veterans. H.R. 3447 would extend for three years, to April 1, 2004, VA's obligation to annually report to the House and Senate Veterans' Affairs Committees on its compliance with the maintenance of capacity requirement for the specialized treatment and rehabilitative needs of disabled veterans. It also would require VA to measure the distinct programs or facilities for seriously ill veterans in different ways for the different services provided. All of the data must be provided by geographic service area and totaled nationally. The enrolled bill would require the report to include information on recidivism rates associated with substance-use disorder treatment, and require VA to use standardized data and data definitions. It also would require the VA Inspector General to audit the report and submit a certification to Congress as to the report's accuracy.

National Commission on VA Nursing. H.R. 3447 would require the National Commission on VA Nursing to submit a report on its findings and conclusions to Congress and the VA Secretary no later than two years after its first meeting. No later than 60 days after the date of the Commission's report, VA would be required to submit a report to Congress which would provide the Secretary's views of the Commission's findings and conclusions, and explain what actions, if any, the Secretary would take to implement the Commission's recommendations.

Evaluation of Nurse-Managed Care Clinics. H.R. 3447 would require VA to complete an evaluation of its nurse-managed care clinics no later than 18 months after the enrolled bill's enactment. The enrolled bill would specify that the evaluation should include these clinics, including primary care and geriatric clinics, located in three different geographic areas. If VA does not have clinics in three different geographic areas, it would be required to establish clinics in three different geographic areas and include them in the evaluation. VA would be required to submit a report on the evaluation to the House and Senate Veterans' Affairs Committees no later than 18 months after the date of the enrolled bill's enactment, and provide a copy of the report to the National Commission on VA Nursing.

Request of Waivers of Pay Reductions for Reemployed Annuitants. H.R. 3447 would require VA to report, no later than March 28th of 2002 and 2003, to the House and Senate Veterans' Affairs Committees, as well as the National Commission on VA Nursing, regarding VA's requests during the previous fiscal year to the Director of OPM for pay reduction waivers for reemployed annuitants for appointments to VHA nurse positions. The reports must specify the response of the OPM Director to each request and if the request was granted, whether or not the waiver or authority assisted the VA Secretary in meeting the requirements for appointments to VHA nurse positions.

Annual Report on Nurse Retention Authorities. H.R. 3447 would require that VA submit a report to Congress and the National Commission on VA Nursing, no later than January 31st of each year, regarding VA's use of authorities to exempt experienced nurses from VA's nurse qualification standards. The enrolled bill would specify that the report should include, for each

VA medical facility and geographic service area, the number of waivers requested and granted to promote nurses who have not completed a baccalaureate degree in nursing in a recognized school of nursing, as well as information on age, race, and years of experience of the individuals subject to the waiver requests and waivers. The report must also discuss the programs carried out to facilitate the use of nursing education programs, including flexible scheduling, scholarships, salary replacement pay, and on-site classes, by experienced nurses.

Mandatory Overtime for Nurses and Nursing Assistants. H.R. 3447 would require VA to report to the House and Senate Veterans' Affairs Committees, as well as the National Commission on VA Nursing, no later than 180 days after the enrolled bill's enactment, on the use of mandatory overtime by licensed nurses and nursing assistants in VA medical facilities during 2001.

Mandatory overtime is defined as any period in which a nurse or nursing assistant is required to work or be in on-duty status in excess of: (1) a scheduled workshift or duty period; (2) 12 hours in any 24-hour period; or (3) 80 hours in any period of 14 consecutive days.

Personal Emergency Response System. No later than 180 days after the enrolled bill's enactment, VA should submit to the House and Senate Veterans' Affairs Committees a report on the evaluation and study of the feasibility and desirability of providing a personal emergency response system to veterans who have service-connected disabilities. The report should include the findings from the evaluation and study, as well as the Secretary's conclusion as to whether VA should provide a personal emergency response system to veterans with service-connected disabilities.

Reporting Requirements in H.R. 3447

Maintenance of Capacity for Specialized Treatment of Disabled Veterans. H.R. 3447 would extend for three years, to April 1, 2004, VA's obligation to annually report to the House and Senate Veterans' Affairs Committees on its compliance with the maintenance of capacity requirement for the specialized treatment and rehabilitative needs of disabled veterans. It also would require VA to measure the distinct programs or facilities for seriously ill veterans in different ways for the different services provided. All of the data must be provided by geographic service area and totaled nationally. The enrolled bill would require the report to include information on recidivism rates associated with substance-use disorder treatment, and require VA to use standardized data and data definitions. It also would require the VA Inspector General to audit the report and submit a certification to Congress as to the report's accuracy.

National Commission on VA Nursing. H.R. 3447 would require the National Commission on VA Nursing to submit a report on its findings and conclusions to Congress and the VA Secretary no later than two years after its first meeting. No later than 60 days after the date of the Commission's report, VA would be required to submit a report to Congress which would provide the Secretary's views of the Commission's findings and conclusions, and explain what actions, if any, the Secretary would take to implement the Commission's recommendations.

Evaluation of Nurse-Managed Care Clinics. H.R. 3447 would require VA to complete an evaluation of its nurse-managed care clinics no later than 18 months after the enrolled bill's enactment. The enrolled bill would specify that the evaluation should include these clinics, including primary care and geriatric clinics, located in three different geographic areas. If VA does not have clinics in three different geographic areas, it would be required to establish clinics in three different geographic areas and include them in the evaluation. VA would be required to submit a report on the evaluation to the House and Senate Veterans' Affairs Committees no later than 18 months after the date of the enrolled bill's enactment, and provide a copy of the report to the National Commission on VA Nursing.

Request of Waivers of Pay Reductions for Reemployed Annuitants. H.R. 3447 would require VA to report, no later than March 28th of 2002 and 2003, to the House and Senate Veterans' Affairs Committees, as well as the National Commission on VA Nursing, regarding VA's requests during the previous fiscal year to the Director of OPM for pay reduction waivers for reemployed annuitants for appointments to VHA nurse positions. The reports must specify the response of the OPM Director to each request and if the request was granted, whether or not the waiver or authority assisted the VA Secretary in meeting the requirements for appointments to VHA nurse positions.

Annual Report on Nurse Retention Authorities. H.R. 3447 would require that VA submit a report to Congress and the National Commission on VA Nursing, no later than January 31st of each year, regarding VA's use of authorities to exempt experienced nurses from VA's nurse qualification standards. The enrolled bill would specify that the report should include, for each

VA medical facility and geographic service area, the number of waivers requested and granted to promote nurses who have not completed a baccalaureate degree in nursing in a recognized school of nursing, as well as information on age, race, and years of experience of the individuals subject to the waiver requests and waivers. The report must also discuss the programs carried out to facilitate the use of nursing education programs, including flexible scheduling, scholarships, salary replacement pay, and on-site classes, by experienced nurses.

Mandatory Overtime for Nurses and Nursing Assistants. H.R. 3447 would require VA to report to the House and Senate Veterans' Affairs Committees, as well as the National Commission on VA Nursing, no later than 180 days after the enrolled bill's enactment, on the use of mandatory overtime by licensed nurses and nursing assistants in VA medical facilities during 2001.

Mandatory overtime is defined as any period in which a nurse or nursing assistant is required to work or be in on-duty status in excess of: (1) a scheduled workshift or duty period; (2) 12 hours in any 24-hour period; or (3) 80 hours in any period of 14 consecutive days.

Personal Emergency Response System. No later than 180 days after the enrolled bill's enactment, VA should submit to the House and Senate Veterans' Affairs Committees a report on the evaluation and study of the feasibility and desirability of providing a personal emergency response system to veterans who have service-connected disabilities. The report should include the findings from the evaluation and study, as well as the Secretary's conclusion as to whether VA should provide a personal emergency response system to veterans with service-connected disabilities.
