THE SECRETARY OF VETERANS AFFAIRS
WASHINGTON

October 23, 2002

The Honorable Mitchell E. Daniels, Jr.
Director, Office of
Management and Budget
Attention: Assistant Director
for Legislative Reference
Washington, D.C. 20503

Dear Mr. Daniels:

As requested, I am writing to express the views of the Department of Veterans Affairs (VA) on the enrolled H.R. 4015, 107th Congress, an Act to amend title 38, United States Code, to revise and improve employment, training, and placement services furnished to veterans, and for other purposes. The Act would be cited as the "Jobs for Veterans Act."

The enrolled bill would entitle "covered persons", including veterans and the spouses or surviving spouses of certain veterans, to priority of service under certain qualified job training programs funded in whole or in part by the Department of Labor. It would also direct the Secretary of Labor to evaluate annually whether covered persons are receiving such priority of service and being fully served by qualified job training programs and program levels, as well as veteran participation in such programs as compared to the incidence of veterans in the labor market. The results would be reported to Congress on an annual basis.

In addition, the enrolled bill would:

(1) require all Federal personal property and nonpersonal services procurement contracts in the amount of \$100,000 (an increase from the current threshold of \$25,000) or more to contain a provision requiring the contractor to take affirmative action to employ and advance in employment qualified "covered" veterans and also entitle such veterans to recruitment appointments in the Federal Government;

(2) direct the Secretary of Labor to establish criteria for performance incentive awards programs to be administered by States to encourage the improvement and modernization of veterans' employment, training, and placement services and to recognize employees for excellence in the provision of such services;

2.

The Honorable Mitchell E. Daniels, Jr.

(3) make revisions to the responsibilities of senior officials (including the Assistant Secretary and the Deputy Assistant Secretary of Labor for Veterans' Employment and Training) and restate certain employment-program functions within the Department of Labor;

(4) revise the current formula for funding veterans' employment service providers in State employment offices, and remove restrictions on how they are used by States;

(5) promote employment and job-advancement opportunities within the Federal government for disabled veterans, veterans who served in a military operation for which a service medal was awarded, and recently-separated veterans, by removing the current eligibility restriction allowing only Vietnam-era veterans to participate in these opportunities;

(6) establish financial and non-financial incentive awards for state employees who furnish high-quality employment, training, and placement services to veterans;

(7) require the Secretary of Labor to set performance standards for States, including corrective action plans to be submitted to the Secretary for approval when those standards are not met, and authorize the Secretary to have on-going authority to furnish technical assistance to any State that the Secretary determines to have a deficient entered-employment rate, including assessment in developing a corrective action plan;

(8) direct the Secretary of Labor to provide one-stop services and assistance to covered persons electronically via the Internet and other electronic means;

(9) require information concerning other eligible persons (currently, only Vietnam veterans), recently-separated veterans, and service members making the transition to civilian careers to be included in annual veterans' employment reports by the Secretary, and require additional reports concerning: (A) the program of performance incentive awards for high-quality veterans' employment services; and (B) the performance of States, organizations, and entities carrying out veterans' employment, training, and placement services;

(10) establish the "President's National Hire Veterans Committee" to take certain actions to facilitate the employment of veterans and disabled veterans, with a requirement for reports, from 2003 through 2005, from the Committee to Congress on its activities, including veterans' job placement levels and level of retention achieved; and

3.

The Honorable Mitchell E. Daniels, Jr.

(11) require the Comptroller General to conduct a study on the implementation of the provisions of the Act during program years beginning in fiscal years 2003 and 2004, and submit a report to Congress of its findings and recommendations for legislation or administrative action.

The Department of Veterans Affairs has not taken a formal position on this legislation and, in general, would defer to the Department of Labor with regard to the merits of its numerous provisions. Nonetheless, because we view this legislation as benefiting unemployed and underemployed veterans, we have no objection to its enactment. Thus, we recommend the President's approval.

Sincerely yours,

A handwritten signature in dark ink, reading "Anthony J. Principi". The signature is written in a cursive style with a large, prominent "P" and "i".

SUMMARY OF THE REPORTED BILL

H.R. 4015, as amended, would:

1. Provide priority of service to veterans and spouses of certain veterans for the receipt of employment, training, and placement services in any job training program directly funded, in whole or in part, by the Department of Labor, notwithstanding any other provision of law.
2. Provide, with respect to Federal contracts and subcontracts in the amount of \$100,000 or more, that the contractor and any subcontractor take affirmative action to employ and advance in employment qualified veterans, including immediately listing employment openings for such contracts through the appropriate employment delivery system.
3. Change "Veterans Readjustment Authority (VRA)" to "Veterans Recruitment Authority" and change eligibility for such non-competitive appointment in the Federal government from Vietnam era and post-Vietnam era veterans to qualified covered veterans (see paragraph four) within the 10-year period that begins on the date of the veteran's last discharge; the 10-year period would not apply to a veteran with a service-connected disability of 30 percent or more.

13. Require the Secretary to establish in regulations a uniform national threshold entered-employment rate for a program year by which determinations of deficiency may be made. The Secretary must take into account the applicable annual unemployment data for the state and consider other factors, such as prevailing economic conditions, that affect performance of individuals providing employment, training, and placement services in the state.
14. Require the Secretary to assign to each region a representative of the Veterans' Employment and Training Service to serve as Regional Administrator for Veterans' Employment and Training. The Regional Administrator must be a veteran.
15. Require the Assistant Secretary of Labor for Veterans' Employment and Training to establish and implement a comprehensive accountability system to measure the performance of delivery systems in a state. Such standards and measures must be (1) consistent with state performance measures applicable under section 136(b) of the Workforce Investment Act of 1998, and (2) appropriately weighted to provide special consideration for veterans requiring intensive services, such as special disabled veterans and disabled veterans, and for veterans who enroll in readjustment counseling services furnished by the Department of Veterans Affairs.
16. Require the Secretary to assign to each state a representative of the Veterans Employment and Training Service (VETS) to serve as the Director for Veterans' Employment and Training (DVET) and full-time Federal clerical or other support personnel to each Director; authorize the Secretary to assign as supervisory personnel such representatives of VETS as the Secretary determines appropriate.
17. Require, subject to approval by the Secretary, that states employ a sufficient number of full or part-time DVOPs to carry out intensive services to meet the employment needs of special disabled veterans, other disabled veterans and other eligible veterans. To the maximum extent practicable such employees are to be qualified veterans. Preference would be given to qualified disabled veterans.
18. Require, subject to approval by the Secretary, that a state employ such full and part-time LVERs as the state determines appropriate and efficient to carry out employment, training and placement services. To the maximum extent practicable, such employees are to be qualified veterans.
19. Require the Secretary, within 18 months of enactment, to enhance the delivery of services by providing "one-stop" services and assistance to covered persons electronically by the Internet and by other electronic means.
20. Clarify the authority of the National Veterans' Employment and Training Services Institute (NVETSI) to enter into contracts or agreements with departments or agencies of the United States or of a state, or with other organizations, to carry out training in providing veterans' employment, training, and placement services. Further, require that each an-

Program specialists (DVOPs), and Local Veterans' Employment Representatives (LVERs). These specialists and representatives are employed by State Employment Service Agencies (SESA), and paid from funds raised under authority of the Federal Unemployment Tax Act (FUTA). Training for these specialists and representatives is often provided through the National Veterans' Training Institute (NVTI). The employment services and NVTI are administered through the Veterans' Employment and Training Service (VETS) of the Department of Labor (DoL).

Origins of Employment Services for Unemployed Workers

A formal mechanism for matching specific job opportunities with qualified persons is a rational response to industrialization, in which efficiency is enhanced by a predictable and dependable labor force, and workers are vulnerable to displacement during economic downturns. During the 19th Century, public offices specifically designed to accomplish these reciprocal purposes were established, first by cities, and subsequently by several states. At the onset of World War I, the need for a national manpower pool to support the war effort led to the formation of the U.S. public employment service system, which then substantially disappeared following the end of the war and declining defense industry demand for workers. During the Depression of the 1930s, the federal government tried several approaches that many hoped would relieve the financial hardship of displaced workers, as well as revitalize the economy and stimulate recovery. As part of the recovery efforts, many public jobs were created, thereby combining work relief for the unemployed with the economic stimulus of increased spending by displaced workers who would otherwise be without income.

To help link these public jobs with workers who needed them, Congress resurrected the concept of a publicly-supported system of employment services when it passed the Wagner-Peyser Act of 1933, which called for the development of federal-state employment service offices. In 1935, as part of the Social Security Act, Congress expanded the role of the employment service offices by establishing an unemployment insurance benefit program, thereby creating a governmental interest in determining whether benefit applicants were ready, able, and looking for work.

Development of Employment and Training Services for Veterans

The broad nature of the Great Depression made the scope and import of a national employment service part of a strategy of economic recovery. Yet, the federal-state employment service focused, at least initially, on the circumstances of individual workers, local employers, and the communities in which they resided. With the onset of World War II, however, the scope of employment service offices expanded under federal authority to promote the efficient matching of defense industry needs with available

organization offices. In the spring of 1977, program staff began referring eligible veterans to training and supportive services, educational opportunities, and appropriate job openings that the staff identified among federal contractors with special veterans priority obligations.¹ In addition, the DVOP specialists and LVERs set out to develop working relationships with other job sources, such as labor unions, community organizations, and employers. By July 1979, the unemployment rate for the same group had declined to 3.5 percent from 5.7 percent 2 years earlier, with an actual decline of 111,000 in the number of unemployed Vietnam Era veterans during the same period, according to DOL reports.

CURRENT OPERATIONS OF THE DVOPS AND LVERS EMPLOYMENT SERVICES

Under current law, LVERs are authorized under a formula that provides for one representative for an employment service office with at least 1,100 veterans registered for assistance, with an additional representative for each 1,500 registered veterans above that level. Time is allocated among local employment service offices at the rate of one half-time LVER for each office in which between 350 and 1,100 veterans were registered for employment services. Current law provides for one DVOP specialist for each 7,400 veterans between the ages of 20 and 64 who are residing within a state.

The actual number of positions is governed by the level of appropriations Congress provides to fill the authorized positions. For FY2000, an appropriation of \$80.215 million supports grants for 1,328 DVOP specialists, while \$77.253 million supports 1,173 LVERs. About \$2 million is available for training of DVOP specialists and LVERs through the National Veterans' Training Institute (NVTI).

Implications for VETS Programs of P.L. 105-220, the Workforce Investment Act of 1998 (WIA)

When Congress enacted the Workforce Investment Act of 1998, its stated purpose was to "consolidate, coordinate, and improve employment, training, literacy, and vocational rehabilitation programs." WIA contains provisions which codify a concept called the One-Stop Career Center system, and the Act requires that employment services be delivered through state One-Stop offices.² Under requirements of WIA, local areas established, by July 1, 2000, One-Stop career centers with access to services provided under multiple programs. Unemployed persons will have streamlined

¹ The Vietnam Era Veterans' Readjustment Assistance Act of 1974 requires employers with federal contracts of \$10,000 or more to list all openings (except certain exempt managerial positions) with local SESA offices. The Act also requires "affirmative action" programs for the hiring of veterans, and local employment service offices are expected to monitor contractor compliance, submitting the names of employers suspected of noncompliance to DOL for investigation and eventual resolution.

ment and Training Service (VETS), for deficiencies in performance, performance measurement, and strategic planning.¹

Veterans bring a unique combination of skill, discipline, character, and talent to the marketplace. Although hiring veterans is a good business decision, veterans are a unique national resource that too often goes unrecognized and underused. The Gallup Organization's 1998 National Survey of Employers, requested by the Commission on Servicemembers and Veterans Transition Assistance, found that only 26 percent of employers actively recruited veterans. When asked where employers look to hire veterans, 48 percent incorrectly identified the Department of Veterans Affairs, and only 25 percent cited the local Job Service office in their state.

Priority of service for veterans in Department of Labor job training programs. Section 2 of the reported bill would provide priority of service for veterans and other covered persons in Department of Labor funded job training programs. It would define "priority of service" with respect to any qualified job training program to give priority to eligible veterans and other covered persons over non-veterans for the receipt of employment, training, and placement services under those programs, notwithstanding any other provision of law. A "covered person" means: (1) a veteran; (2) a spouse of any of the following individuals: (a) veteran who died of a service-connected disability, (b) any member of the armed forces who, at the time of application for assistance under this section is listed for more than 90 days, pursuant to section 556 of title 37, United States Code, by the Secretary concerned in one or more of the following categories: (i) missing in action, (ii) captured in the line of duty by a hostile force, or (iii) forcibly detained or interned in the line of duty by a foreign government or power, (c) a veteran who has a total disability resulting from a service-connected disability, or (d) a veteran who died while a disability so evaluated was in existence.

Section 2 also would authorize the Secretary of Labor to set priorities among eligible persons, taking into account the needs of disabled and special disabled veterans, and any other factors the Secretary considers appropriate.

In regard to the priority of service, the Committee notes the testimony submitted for the record by the New Jersey Department of Labor as being illustrative of the view of many organizations: "The State of New Jersey fully supports broadening the mandate to provide priority of service to veterans in all DOL Job Training programs, in addition to the separate section 168 programs under the

of job vacancies with the employment service is essential to building an effective national labor exchange for veterans. . . .”

Section 2 further would make various changes to the language in section 4214(a)(1) of title 38, United States Code, regarding the obligation of the United States to assist veterans of the Armed Forces in readjusting to civilian life since veterans, who by virtue of their military service, have lost opportunities to pursue education and training oriented toward civilian careers.

Finally, section 2 would change “Veterans Readjustment Authority (VRA)” to “Veterans Recruitment Authority.” Eligibility for such non-competitive appointment to Federal service would change from Vietnam era and post-Vietnam era veterans to “qualified covered veterans” (as discussed in the Summary at paragraph four) within the 10-year period that begins on the date of the veteran’s last discharge or release from active duty; the 10-year limitation would not apply to a veteran with a service-connected disability of 30 percent or more. The Committee believes that VRA, as revised by the reported bill, would serve as a valuable tool to recruit future veterans to Federal civilian service.

Performance incentive awards for quality veterans employment, training, and placement services. Section 3 of H.R. 4015, as amended, would require the Secretary to carry out a program of performance incentive cash awards to states to encourage the improvement and modernization of employment, training and placement services to veterans. The performance incentive cash awards for each program year would be with respect to services provided during the preceding program year, beginning with fiscal year 2004.

This section also would require the Secretary to:

- establish eligibility criteria for such awards through a consultative process with states, political subdivisions of states, and other providers of employment, training, and placement services under the Workforce Investment Act of 1998 consistent with the other performance measures for services authorized by this chapter;
- determine the amount of performance incentive awards in a state under this section by measuring the performance of a state in providing employment, training and placement services furnished veterans and eligible persons in each state through employment service delivery systems, through disabled veterans’ outreach program specialists, and through local veterans’ employment representatives during the previous program year based on the measures of performance established under this chapter;
- provide greater amounts to states that provide the highest quality services during the previous year based on measures of performance;
- provide awards to states that have made significant improvements in the delivery of services, but may not have provided the highest quality services; and
- consider the applicable annual state employment data and other factors, such as prevailing economic conditions, that affect performance of individuals providing employment, training, and placement services in the state.

service in the Federal civil service in the executive branch immediately preceding appointment as Deputy Assistant Secretary. For purposes of determining such continuous service of the individual, the reported bill excludes certain specified types of executive branch service. The reported bill would require the Deputy Assistant Secretary to be a veteran.

Section 4 also would specify program functions of the Veterans' Employment and Training Service. The Committee notes this section of the bill largely follows current law with respect to the seven duties of the ASVET listed under section 4102A(b), but with certain clarifying or substantive revisions. For example, this section:

- adds veteran and disabled veteran-owned business concerns to the entities that programs, grantees and contractors would be encouraged to enter into cooperative arrangements in order to meet veterans' employment and training needs;
- clarifies that the ASVET carries out employment, job training, and placement activities with appropriate state employment service officials and other providers;
- replaces "fringe benefits" with "other business expenditures" in regard to expenses for which state grantees or contractors may be reimbursed for specialists' and representatives', including for attendance at the National Veterans' Employment and Training Services Institute;
- deletes the monitoring of appointments and assignment requirements for disabled veterans' outreach program specialists and local veterans' employment representatives; and
- requires the Secretary to establish and update as appropriate, a comprehensive performance accountability system and carry out annual performance reviews of veterans employment, training, and placement services provided through employment service delivery systems, through disabled veterans' outreach program specialists, and through local veterans' employment representatives in states receiving grants, contracts, or awards under this chapter.

This section would revise the methods by which the Secretary furnishes DVOP and LVER funds to a state by requiring the Secretary to make funds available for each fiscal year in proportion to the number of veterans seeking employment using such criteria as the Secretary may establish in regulation, including civilian labor force and unemployment rates. The proportion of funding would reflect the ratio of the total number of veterans residing in the state that are seeking employment to the total number of veterans seeking employment in all states.

The Secretary would be required to phase-in over the three fiscal year period that begins on October 1, 2002, the manner in which amounts are made available to the states for DVOPs and LVERs, as amended by this Act. It also would give the Secretary the discretionary authority to establish minimum funding levels and hold-harmless criteria for states in administering funding to the states. This flexibility is especially appropriate for smaller states with limited staffing to maintain a continuity of service during swings in unemployment rates. This provision was derived from suggestions from the U.S. Department of Labor and the National Association of State Workforce Agencies.

veterans who are economically or educationally disadvantaged. A state, to the maximum extent practicable, would be required to employ qualified veterans to carry out DVOP services, and give preference in hiring to qualified disabled veterans. While it is the Committee's intention that these positions ordinarily be filled by eligible veterans and preferably eligible disabled veterans, the Committee recognizes that under certain circumstances, it may be appropriate or necessary to employ a nonveteran in these positions on a temporary or permanent basis. The reporting requirement for the States to provide information and rationale to the Secretary whenever a nonveteran is employed for more than six months is intended to permit monitoring of the states efforts and to assure that veterans are employed in these positions to "the maximum extent practicable".

The reported bill would provide for the principal duties of LVERs to include conducting outreach to employers to assist veterans in gaining employment, and, in conjunction with employers, conducting job search workshops and establishing job search groups. Duties would also include facilitating employment, training and placement services furnished to veterans in a state under the applicable state employment delivery system. States would be required, to the maximum extent practicable, to employ qualified veterans to carry out duties of LVERs. The Committee expects that veterans would ordinarily fill such positions, but permits nonveterans to be hired when necessary to assure services to veterans.

Further, the Secretary of Labor, within 18 months of enactment, would be required to provide one-stop services and assistance to covered persons electronically by the Internet and other electronic means, to enhance the delivery of such services. For the one-stop office, the Committee expects that the Secretary would establish a virtual Job Service website with four platforms: transition and job readiness, resources, job fair and employer support, plus on-line access to veterans case managers. The system should complement, not supplant, similar efforts of state employment security agencies. Electronic links to services of such agencies should be provided when feasible. The Department of Defense would market and promote such services to transitioning servicemembers, and the Department of Labor and the individual state would promote with employers the use of the website for recruiting.

The U.S. Army has had comprehensive Internet-based employment assistance services available (located at www.acap.army.mil) since 1996 for active-duty clients and family members. Veterans are provided access to the system for up to 90 days after leaving active duty. The written testimony of Resource Consultants, Inc. (RCI), at the July 12, 2000 and April 18, 2002 hearings of the Subcommittee on Benefits stated:

The (Army) Internet-based service includes a comprehensive listing of available jobs that is updated daily, job search tutorials, an e-mail-based job assistance help line, links to the major Internet-based job listing services, and similar services. It has been a popular service with clients able to continue job searches away from an ACAP site, as well as for having access to a job counselor by mail.

"job placement rate" the first place it appears with "the rate of entered employment (as determined in a manner consistent with state performance measures applicable under section 136(b) of the Workforce Investment Act of 1998)," and (3) replacing "the job placement rate" the second place it appears with "such rate of entered employment".

This section would require the Secretary of Labor to include in the Department's annual report to the House and Senate Committees on Veterans' Affairs information on (1) the operation during the preceding program year of the program of performance incentive awards for quality employment services, including an analysis of the amount of incentive awards distributed to each State and the rationale for such distribution, and (2) in the case of a state that has not met the minimum standard of performance as established by the Secretary, the Secretary's analysis of the extent and reason for the state's failure to meet that minimum standard, together with the state's plan for corrective action during the succeeding year.

Finally, this section would clarify that National Veterans' Employment and Training Services Institute should have authority to provide training for personnel of other departments or agencies.

Committee to raise employer awareness of skills of veterans and benefits of hiring veterans. Section 6 would establish within the Department of Labor a committee to be known as the President's National Hire Veterans Committee. The Committee's duties would include (1) furnishing information to employers with respect to the training and skills of veterans and disabled veterans and the advantages afforded employers by hiring veterans with such training and skills, and (2) facilitating employment of veterans and disabled veterans through participation in America's Career Kit national labor exchange and through other means.

The Secretary of Labor would be authorized to appoint 15 individuals to serve as members of the Committee, of whom one would be appointed from among names submitted by the following representatives: the Ad Council, the National Committee for Employer Support of the Guard and Reserve, veterans' service organizations that have a national employment program, state employment security agencies, one-stop career centers, state departments of veterans affairs, and military service organizations.

Eight individuals would be appointed from among businesses, small businesses, industries, companies in the private sector that furnish placement services, civic groups, Workforce Investment Boards, and labor unions.

Non-voting ex officio members of the Committee would include the Secretary of Veterans Affairs, the Secretary of Defense, the Assistant Secretary of Labor for Veterans' Employment and Training, the Administrator of the Small Business Administration, the Postmaster General, and the Director of the Office of Personnel Management. In the event of a vacancy on the Committee, the position would be filled in the manner in which the original appointment was made.

corporate sector. . . . With only one of six Americans under the age of 65 having served in the military, nearly all of the corporate hiring managers and their human resources support personnel had no point of reference about the military, its leadership, its work ethic, and its resourcefulness to manage projects from initiation to completion.

The committee recommends that the President's National Hire Veterans Committee consult the Business Roundtable, the Corporate Conference Board, the U.S. and State Chamber of Commerce, the Small Business Association, international business organizations, and other similar groups. It should reach out and market veterans as a unique national resource to the consumer package goods, pharmaceutical, retail, financial services and other non-defense segments.

Sense of Congress commending veterans and military organizations. Section 7 would commend veterans and military service organizations for the continued assistance the organizations provide veterans; and it would encourage them to provide job placement assistance to veterans who are job-ready by making personal computers available through access to electronic job placement services and programs at local posts and through other means.

Study on economic benefits to the United States of long-term sustained employment of veterans. Section 8 would require the Secretary of Labor to enter into a contract with an appropriate organization or entity to conduct a study to quantify the economic benefit to the United States attributable to the provision of employment and training services under chapter 41 of title 38, United States Code, in assisting veterans to attain long-term, sustained employment. The study would include analyses on the impact of such employment on federal, state, and local tax revenues generated by reason of such employment; the contributions of such employment on the domestic gross national product, and such other indicators of the effect of such employment on the economy of the United States. This section would authorize \$1,000,000 to be appropriated for the Secretary to carry out the study and such sums would remain available until expended. The Secretary would be required to submit a report on the study not later than 18 months after the date on which the Secretary enters into such contract.

Section 4212(a)(2)(A) would require that these regulations shall require each contractor for each contract to immediately list all of its employment openings with the appropriate employment service delivery system (as defined in section 4101(7) of title 38, United States Code). Such contractors may also list such openings with other entities. These entities would include one-stop career centers under the Workforce Investment Act of 1998, other appropriate service delivery points, or America's Job Bank (or any additional or subsequent national electronic job bank established by the Department of Labor). Thank you for inviting me to testify today on H.R. 4015, the "Jobs for Veterans Act." This is my first opportunity to appear before this Subcommittee as the Assistant Secretary for Veterans' Employment and Training and it is an honor for me.

The Administration is deeply committed to helping our veterans find high-quality jobs. Our Nation's veterans deserve nothing less than access to high-quality services in both employment and training. This Administration understands and deeply appreciates the patriotism, dedication, skills and experiences veterans bring to the civilian labor force.

We appreciate the keen interest of this Subcommittee in helping to move the Veterans' Employment and Training Service (VETS) into the 21st century by removing many of the statutory roadblocks that have tied us to the past.

As the Subcommittee is aware, the Administration also has a proposal for improving employment services for veterans, which will be introduced in the near future. That proposal reflects the core principles of competitive, performance-based funding as the best way to improve services to veterans. The proposal would, on a temporary basis until such time as the competitive provisions are in place, transfer administration of the grants programs for the current Disabled Veteran Outreach Program (DVOP), the Local Veteran Employment Representative (LVER), and the Homeless Veterans Reintegration Program (HVRP) to the Department of Veterans Affairs. The DVOP and LVER programs would remain in effect until the Secretary of Veterans Affairs implements a new program of employment-related services that would require competition, be results-based, and provide an integrated, seamless continuum of services to veterans.

We are continuing to review H.R. 4015 and do not presently have a position on every provision of the bill. However, because the bill has a number of elements that have similar goals to the Administration's plan, we can support the intent of a number of aspects of H.R. 4015. I will now comment on some of the major provisions of H.R. 4015.

The repeal of the statutorily defined duties of DVOP Specialists and LVERs has long been necessary and would go a long way toward improving Chapter 41 of Title 38 of the United States Code. This would provide us, and those delivering services in the respective states, with needed flexibility and would help provide a renewed focus on the best ways of achieving the mission and goals of this agency. The Department of Labor endorses the idea of providing states the flexibility to deploy resources to secure needed coverage in rural, remote or underserved areas. Under H.R. 4015, states would be able to more effectively determine where DVOPs and LVERs should be placed with the use of half-time DVOPs, similar to half-time LVERs. In our view, flexibility is critical to making services more accessible to veterans.

Incorporating the expectation of high performance is an essential component of an effective workforce system. H.R. 4015 provides incentives not only to those states that provide the highest levels of performance, but also to those states that show significant improvements. In addition, the Committee's proposal permits incentive awards to be used for additional staffing, modernization of service delivery and pilot projects to test new approaches to enhance services to America's veterans. We believe that the Administration's bill would provide stronger incentives for high performance by adding consequences for poor performance. Our bill also takes a different approach to modernizing service delivery through pilot projects coordinated at the national level.

Other positive elements of this bill include the elimination of the state residency requirement and relief from the application of formula requirements. Residence and formula requirements have hindered the deployment of staff in response to workload requirements and deprived deserving individuals of opportunities for career growth. We believe that veterans should fill the political and senior-level positions, and intend to act accordingly, but we note that the legislation should be amended to provide that the holders of those positions "should" be a veteran, rather than "shall" be a veteran. Also, the legislation should be amended to provide that no person "should" rather than "may" be appointed as Deputy Assistant Secretary of Labor for Veterans' Employment and Training unless the person has five years of Government service as a career civil servant. As a constitutional matter, the Congress cannot unduly burden the nomination and appointment power of the President, in the case of the Assistant Secretary, and the appointment power of the Secretary, in the case of the other positions, by substantially restricting the pool of qualified persons from which the nomination or appointment may be made.

If there is one consistent message that I hear from our state partners, it is to give the states greater flexibility. The current staffing grant formula process for the allocation and assignment of positions does not address the individual requirements of states in providing services to veterans. Economic and demographic conditions, including consideration for rural, urban, inner city, and suburban areas, are just a few

also would authorize a new grant program of incentive awards to states that meet certain performance measures, and would create a President's National Hire Veterans Committee. Assuming the appropriation of the amounts authorized in the bill, CBO estimates that the new provisions would cost \$72 million over the 2003–2007 period. This bill would not affect direct spending or revenues; therefore, pay-as-you-go procedures would not apply.

H.R. 4015 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA). The bill would place new requirements on states that administer job training and employment programs and receive federal funding. Consequently, those requirements are conditions of federal assistance and not intergovernmental mandates. The bill also would increase funding for veterans employment programs through new incentive awards to states.

ESTIMATED COST TO THE FEDERAL GOVERNMENT

The estimated budgetary impact of H.R. 4015 is shown in the following table. The cost of this legislation falls within budget function 700 (veterans benefits and services).

BASIS OF ESTIMATE

For this estimate, CBO assumes that H.R. 4015 will be enacted by September 30, 2002, and that the authorized amounts will be appropriated for each year. Outlays are based on historical spending patterns for similar programs.

H.R. 4015 would authorize performance incentive awards for states to encourage the improvement and modernization of employment, training, and placement services for veterans. The bill would authorize appropriations of \$10 million in 2004, \$25 million in 2005, \$50 million in 2006, \$75 million in 2007, \$100 million in 2008, and such sums as may be necessary for 2009 and subsequent fiscal years.

In addition, H.R. 4015 would authorize a committee within the Department of Labor (DOL) to raise employer awareness of the skills of veterans and of the benefits of hiring veterans. The bill would authorize \$3 million each year for fiscal years 2003 through 2005 for this President's National Hire Veterans Committee.
