Michael -

I talked to Jiz. She believes that
 Ring will be back @ later day,
 which means that she will
 be attending the screening on Sept.

Ivanne,

Great to talk with you. Soooooo glad that Rory got to slip away, and that she and Mark had a chance to get married without all the cameras and the madness. I will have

As you suggested -- here is a rundown of the DC schedule. The DC Epidemic Africa screening had been scheduled for Thursday, Sept 9th in the Senate. We had received word in early July from Jake that the date would work for Rory. Trying to find out if this is still something that Rory wants to attend and if so, if she will be back and available? Obviously, we want to do every we can to accomodate her. *Jake follow up tomorrow in order to see if Rick can confirm*

Here are some other dates that we are trying to juggle. The fiscal year ends at the end of September, and all funding decisions, including how much we can get for AIDS in Africa, will be made by then. We hope that the film help to put this issue high on their priority list. Also, Sandy and I are scheduled to go back to Africa September 10-20. I think it is not a good idea for the film to wait until we get back -- but think that it should happen during the week to Sept 13th if Rory could make it -- even if we cant. If she wants to be there -- working around her schedule is much more important to me than working around ours. *Jake call, Yvonne*

Well thats the scoop. I hope that Liz can help solve this mystery. I would certainly not want to bother the happy honeymooners!

As always, you folks are the best!
 Thanks,
 Michael

Dear Mr. Young:

On September 9th, *Epidemic Africa*, a documentary directed by Rory Kennedy, will be premiered in our nation's capitol. The film tells the story of the growing pandemic of AIDS in Africa as seen through the eyes and lives of children and families caught in the crossfire. In the next decade, the number of children who have lost one or both parents to AIDS is projected to reach 40 million. Archbishop Desmond Tutu, currently residing in Atlanta, was gracious enough to film the introduction of the documentary and has agreed to join us for the event. His leadership in this cause continues to be an essential part of raising awareness of families devastated by AIDS in sub-Saharan Africa. The screening would not be the same without his presence.

The Children Affected by AIDS Foundation is honored and delighted to sponsor the premiere, which also will be attended by Rory Kennedy, White House AIDS Policy Director Sandra Thurman, Members of Congress, Members of the African Diplomatic Corps, and other key players in the global fight against AIDS. Lynn Cothren in Ms. Coretta Scott King's office recommended we contact you in our hope of acquiring support for the Archbishop's airfare. If this is a request you would consider, I would be happy to provide you with details.

Thank you for your attention. I look forward to hearing from you.

Sincerely,

Tx, Tracy

All of us in our family are very grateful for the generous expressions of support by so many people across the country in the difficult time after the loss of John and Carolyn and Lauren.

Their caring and concern means a great deal to the Kennedy and Bessette families. We are deeply touched by their support, and we are very grateful for their kindness and their thoughtfulness.

AIDS in Africa Comes to the Congress: Republicans and Democrats Demonstrate Broad-Based Concern

Washington, DC (September 8, 1999). Today, the Congress returns to Washington to consider a host of critically important matters. And while countless policy battles loom large in the days to come, the growing crisis of AIDS in Africa is gradually capturing the attention of both Republicans and Democrats. As people understand the magnitude of this emergency and the opportunities for turning the tide, the public and policy makers are anxious to join in the fight. This has been a silent emergency for far too long, and it is time for the story to be told.

To help increase awareness among Washington policy-makers, the Children Affected by AIDS Foundation (CAAF) is pleased to sponsor a special Congressional screening of *Epidemic Africa*, a landmark documentary focusing on AIDS in sub-Saharan Africa. **The screening will be held on Thursday, September 9th at 6:00pm. in the Caucus Room of the Russell Senate Office Building.** The screening is co-hosted by a large group of Republican and Democratic Senators and Congresspeople. **In addition, special guests will provide remarks following the screening including Desmond Tutu, Archbishop Emeritus of Cape Town, Rory Kennedy, Producer and Director, *Epidemic Africa*, and Sandra Thurman, Director, White House Office of National AIDS Policy.**

Running ten poignant and powerful minutes, *Epidemic Africa* provides the human faces behind the statistics, chronicling the stories of families and children in several areas hardest hit the pandemic. These are not just stories of tragedy but of hope. In villages across Africa, community-based programs are saving lives and supporting families caught in the crossfire of AIDS pandemic. Unfortunately, tens of millions of children and families are being left behind.

Moxie Firecracker Films and acclaimed director Rory Kennedy accompanied a delegation of US officials, business and religious leaders, and non-governmental organizations, led by White House AIDS Czar Sandra Thurman, through the sub-Saharan countries that now form the epicenter of the AIDS pandemic. *Epidemic Africa*, underscored by the compelling narration of actress Jamie Lee Curtis, is an emotionally charged journey that everyone should take.

"In Africa and other parts of the world, children are hardest hit by this pandemic" says Joe Christina, Founder and Board Chair of the Children Affected by AIDS Foundation, sponsor of the screening. "This documentary is a critically needed tool for raising awareness about the global AIDS pandemic. In fact, CAAF has established a unique initiative surrounding its support of *Epidemic Africa*. This special fund will help meet the emergent needs of children whose lives are being shattered by AIDS every day in Africa."

An embargoed copy of the documentary is available upon request.

MEMORANDUM

TO: Jaqueline Smith

FROM: Sandra L. Thurman, Director Office of National AIDS Policy 

RE: Invitation of Archbishop Desmond Tutu

Thank you for your help in arranging for Archbishop Tutu's attendance at the Global AIDS Initiative announcement on July 19, 1999. His presence at the event was most inspiring, and I appreciate your efforts to bring him here.

During the event in July, I spoke with the Archbishop about the possibility of his attending the Washington, DC premier of "Epidemic Africa," directed and produced by Rory Kennedy, and sent him the enclosed invitation. As you know, the film tells the story of the growing pandemic of AIDS in Africa as seen through the eyes and lives of children and families caught in the crossfire. With your assistance, the Archbishop was kind enough to film the introduction of the documentary. The screening would not be the same without his presence. The premier will be held in the Senate Caucus Room (Russell 325) on September 9th, 1999 from 5-7PM.

I would be honored and delighted to have the Archbishop attend the event, as his leadership in this cause continues to be an essential part of raising awareness of families devastated by AIDS in sub-Saharan Africa. Please feel free to contact me or my assistant, Cheryl Bauerle, at 202-456-2959 if you have any questions. Thank you so much for all of your help these last few months.

Archbishop Desmond Tutu

Dear Archbishop Tutu:

On July 19, 1999 we proved that, working together, we could indeed move mountains in response to pain and suffering. Your presence at the Global AIDS Initiative announcement touched so many, so deeply. I am forever grateful for your words and for your leadership.

This September 9th we hope to again inspire further commitment to this critical issue with the formal release of 'Epidemic Africa', a documentary directed by Rory Kennedy, who will be in attendance.

I do so hope your schedule will permit you to join us for this event. The premier would not be the same without you!

With warm regards,

Dear Mr. Bozzi,

Thank you so very much for helping Archbishop Tutu back to my hometown of Atlanta following his appearance at the 'Epidemic Africa' screening on September 9th.

The Archbishop's presence at the premier was critical in helping to inspire the commitment and leadership so desperately needed in our fight against AIDS around the world. The example he continues to set on this issue has inspired a renewed sense of hope and a brighter vision for the future of our children in the face of AIDS.

Your kind generosity of time and spirit in assisting the Archbishop during his travel made us all rest a little easier!

Best regards,
