Memo

To: Mr. Bill Thom
Defense Intelligence Officer for Africa

From: Sandy Thurman, Director 
White House Office of National AIDS Policy

Re: **Report and Recommendations Regarding AIDS in Africa**

In response to a recent Presidential Mission to sub-Saharan Africa designed to assess the impact of the AIDS epidemic, the President has instructed me to convene and chair a global AIDS emergency working group to make recommendations for an enhanced US effort. The President has indicated that he expects this working group to be "active and effective", and that he wants the recommendations for action ready to be released along with a report during the first week in June.

Areas of consideration will include the following:

- new funding
- dept swap for AIDS
- consistent and coordinated US response
- mobilizing other donors
- promoting African leadership
- public-private partnerships

The working group will be co-chaired by Gayle Smith, Senior Director for African Affairs at the NSC and myself. The first meeting will take place on **Friday, May 7 at 1:30 PM in Room 476 of the OEOB**. At this meeting we will provide an overview briefing on AIDS in sub-Saharan Africa, followed by a strategy conversation of how best to execute the task we have been given in the time frame allotted. The success of this working group depends heavily on your participation. While we realize that this meeting is being called on short notice, I hope you will be able to attend this important opening session. Please have a member of your staff contact Cheryl Bauerle in my office at (202) 456-2959 so that she can make sure we have appropriate clearance information.

Thank you very much for your time and attention.

Note: The Working Group includes representatives from the CIA, Commerce, DOD, HHS, NIC, NSC, OMB, OVP, Peace Corps, State, Treasury, USAID and USTR.

NOTES/COMMENTS:

Ken Sorry I didn't get this to you earlier - I got side tracked (what a surprise!).
We had a couple of additional paragraphs in the original POTUS memo but they were classified - so they had to be deleted for this one - Thanks so much -

Memo

To:

From: Sandy Thurman, Director
White House Office of National AIDS Policy

Re: **Report and Recommendations Regarding AIDS in Africa**

In response to a recent Presidential Mission to sub-Saharan Africa designed to assess the impact of the AIDS epidemic, the President has instructed me to convene and chair a global AIDS emergency working group to make recommendations for an enhanced US effort. The President has indicated that he expects this working group to be "active and effective", and that he wants the recommendations for action ready to be released along with a report during the first week in June.

Areas of consideration will include the following:

- new funding
- dept swap for AIDS
- consistent and coordinated US response
- mobilizing other donors
- promoting African leadership
- public-private partnerships

The working group will be co-chaired by Gayle Smith, Senior Director for African Affairs at the NSC and myself. The first meeting will take place on **Friday, May 7 at 1:30 PM in Room 476 of the OEOB**. At this meeting we will provide an overview briefing on AIDS in sub-Saharan Africa, followed by a strategy conversation of how best to execute the task we have been given in the time frame allotted. The success of this working group depends heavily on your participation. While we realize that this meeting is being called on short notice, I hope you will be able to attend this important opening session. Please have a member of your staff contact Cheryl Bauerle in my office at (202) 456-2959 so that she can make sure we have appropriate clearance information.

Thank you very much for your time and attention.

Note: The Working Group includes representatives from the CIA, Commerce, DOD, HHS, NIC, NSC, OMB, OVP, Peace Corps, State, Treasury, USAID and USTR.

Increase U.S. Assistance to Fight AIDS in Africa

Peter D. Hart Research Associates surveyed 1,411 registered voters, including 310 African Americans, by telephone between February 20 and 26, 1999, for the Children's Research and Education Institute.

American voters view the spread of AIDS in Africa as a serious problem. Although many voters have not heard much about the issue, they nonetheless believe that it is likely to have an impact here at home. A majority of Americans have a favorable view of a proposal to increase U.S. government assistance for international AIDS programs in Africa.

- ♦ The spread of AIDS in Africa is viewed as a serious problem by two-thirds (67%) of American voters, with 45% saying that it is an extremely serious problem and an additional 22% describing it as a quite serious problem.
- ♦ The same proportion (67%) believe that it is false to say that the global AIDS crisis is coming under control.
- ♦ In addition, three-quarters (75%) of voters believe that the AIDS epidemic in Africa will affect people in the United States.
- ♦ Although the issue is important, only 19% of voters say that they have read or heard a lot about it. Nearly half (48%) say that they have heard little or nothing about it.
- ♦ A 54% majority are favorable to a proposal to increase government assistance for international efforts to fight the spread of AIDS in Africa. Only 29% are unfavorable.
 - An overwhelming 83% majority of African Americans are favorable (55% strongly favorable), and only 10% are unfavorable.
- ♦ Support for greater assistance increases when it is placed in the context of an international effort. Three-quarters (76%) of voters say that they would be more likely to support assistance to help Africa deal with the AIDS epidemic if they knew that it would be a part of a larger international effort with Europe, Japan, and other countries doing their share.

AIDS in Africa

I'm going to mention some different issues, and I'd like to find out how serious a problem you consider each one to be in our country today. For each one, please tell me whether you consider it to be an extremely serious problem, a quite serious problem, a somewhat serious problem, or not that serious a problem.
