Re: Draft Changes to the Declarations of the Paris AIDS Summit

Below please find suggested changes to the draft Summit Declaration circulated by WHO GPA. I have no changes to suggest to sections I or II. I have included sections III and VI below, with my suggested changes typed in ALL CAPS AND UNDERLINE. These changes are based on a declaration prepared by 40 representatives of non governmental organizations from numerous countries, that participated in the Summit Declaration Policy Work groups in Paris and Geneva and subsequently met in Paris on October 8 & 9 to debrief.

I am also faxing the declaration prepared at this Paris meeting that summarizes the position of the NGOs involved for your information. I will be in Sydney from October 19-26, returning to NYC on October 28, although I am considering rerouting through Paris for the 26th. I can be reached in Sydney @ 61 2 269 0645, fax: 61 2 267 6107. You can obtain copies of the summaries reports from the Strategic Work groups through the French NGO the Cellule @ 33 1 44 52 33 90 or WHO.

I. Mindful

No Changes Suggested

II. Solemnly declare

No Changes Suggested

III. We undertake in our national policies to

protect and promote the rights of individuals, in particular those living with HIV/AIDS through the legal and social environment BY REFORMING ALL LAWS OR POLICIES THAT DISCRIMINATE AGAINST THEM, INCLUDING AFFECTED COMMUNITIES OF MEN WHO HAVE SEX WITH MEN, SEX WORKERS, AND INJECTION DRUG USERS

fully involve non governmental organizations, community-based organizations, and people living with HIV/AIDS, in ALL ACTIONS undertaken by the government and safeguard their freedom of the later to travel SEEK ASYLUM AND REFUGE, AND SAFEGUARD AGAINST ARBITRARY ISOLATION OR QUARANTINE

apply a range of essential approaches for the prevention of HIV/AIDS, so as to ensure :

- promotion of and access to various prevention methods and products, including condoms AND NEEDLES
- inclusion of prevention education in school curricula
- improvement of women's status and living conditions
- specific risk-reduction activities for the most vulnerable populations
- blood safety

implement a set of essential measures which will ensure equitable access to ALL LEVELS OF CARE

2

October 17, 1994

make available new resources to better combat the pandemic.

IV. We are also resolved to step up international cooperation in particular through the following initiatives:

Expand the involvement of people living with HIV/AIDS in the fight against AIDS at all levels by promoting, SUPPORTING AND FINANCING the establishment of an interactive mechanism for coordination and cooperation among existing and expanding networks.

Launch a "global coalition for research on HIV/AIDS prevention AND TREATMENTS" by setting up a partnership between the public and private sectors, this coalition will help to speed up development of new prevention technologies, especially vaccines and microbicides, ALSO SUPPORT RESEARCH ON THE TREATMENT OF OPPORTUNISTIC INFECTIONS and to guarantee their accessibility.

Launch a "world alliance" for blood safety which will coordinate the provision of technical information, propose standards for traceability and quality control of all blood products, PROMOTE RESEARCH ON SUBSTITUTION (SYNTHETIC) PRODUCTS and foster a the establishment of cooperative partnerships in ensuring blood safety.

Create a "global care initiative" so as to build the capability of countries in the greatest need to ensure EQUAL access to ALL essential PROPHYLAXIS AND THERAPEUTIC drugs and care packages, FOR ALL HIV/AIDS. FINANCED BY THE DEVELOPMENT ASSISTANCE OF DONOR COUNTRIES AND PRICE CONCESSIONS OF DRUG COMPANIES.

Launch a "movement for the world's children" to support the action undertaken by local and international organizations assisting YOUTH, children and orphans affected by AIDS.

Launch an initiative to reduce the vulnerability of women by entrusting a liaison group with the responsibility for monitoring trends in the economic, social and cultural factors that make women vulnerable, REFORMING ALL LAWS AND PRACTICES THAT INHIBIT THE EMANCIPATION OR EMPOWERMENT OF WOMEN and ensuring the participation of women in the various decision-making and policy-implementing bodies that concern them.

Establish a monitoring body on THE LAW, HUMAN RIGHTS, ETHICS AND HIV/AIDS by creating an independent ADVISORY COUNCIL THAT WILL CONNECT WITH EXISTING HUMAN RIGHTS PROTECTION FUNCTIONS TO SERVE AS A REPOSITORY OF HUMAN RIGHTS ABUSES AND OVERSEE RESOLUTION OF SAME. THIS BODY WOULD ALSO SERVE AS ADVISORS TO THE NEW JOINT AND COSPONSORED PROGRAMME.

We call on all countries concerned to make available the new resources required for these initiatives. WE COMMIT TO FUNDING THE \$2.5 BILLION AIDS Prevention Program proposed by WHO/GPA; and to commit an equal amount of additional funding to the areas of cooperative research and global care.

We call upon the World Health Organization and the future joint and cosponsored United Nations programme on HIV/AIDS to ensure the implementation and follow-up of the above Declaration in coordination with bilateral aid programs and non governmental organizations.

**MEETING OF PERSONS WITH HIV/AIDS AND COMMUNITY GROUPS IN
PARIS ON OCTOBER 8/9, 1994 PRESENT THE FOLLOWING DECLARATION
FOR THE SUMMIT OF HEADS OF GOVERNMENT**

PREAMBLE:

PEOPLE WITH HIV/AIDS AND FROM COMMUNITY BASED ORGANIZATIONS FROM
AROUND THE WORLD MET IN PARIS TO BRING THEIR VOICES TO THE ISSUES THAT
THEY SUBMITTED TO THE TECHNICAL WORKING GROUPS IN PREPARATION FOR THE
SUMMIT.

THEY AFFIRMED THAT THE FOLLOWING PRINCIPLES AND ACTIONS ARE OF CRITICAL
IMPORTANCE FOR PEOPLE WORKING ON THE FRONT LINE AND LIVING WITH
HIV/AIDS ON A DAILY BASIS:

PRINCIPLES:

- 1 THE FULL PARTICIPATION OF PEOPLE LIVING WITH HIV/AIDS AND
REPRESENTATIVES OF COMMUNITY BASED ORGANIZATIONS IN POLICY FORMATION,
DEVELOPMENT, AND IMPLEMENTATION IN RESEARCH, PREVENTION, CARE,
TREATMENT, AND SOCIAL SUPPORT ON A LOCAL, NATIONAL, AND INTERNATIONAL
LEVEL.
- 2 PEOPLE LIVING WITH HIV/AIDS MUST BE ENTITLED TO EQUAL PROTECTION
UNDER THE LAW AND TO THE SAME RIGHTS AS ALL OTHER MEMBERS OF SOCIETY;
THEY MUST BE PROTECTED AGAINST DISCRIMINATION IN ALL SPHERES OF LIFE,
INCLUDING ACCESS TO HEALTH CARE, EMPLOYMENT, EDUCATION, TRAVEL HOUSING,
AND SOCIAL WELFARE/PROTECTION.
- 3 PREVENTION AND CARE MUST BE LINKED AND INTEGRATED.
- 4 CARE FOR PEOPLE LIVING WITH HIV/AIDS GOES BEYOND MEDICAL CARE. IT
MUST INCLUDE AND INTEGRATE SOCIAL AND PSYCHOSOCIAL ASPECTS.
- 5 RESEARCH ON VACCINES SHOULD NOT PRECLUDE RESEARCH ON TREATMENT.
- 6 RESEARCH ON SUBSTITUTION PRODUCTS AND SAFETY OF THE BLOOD SUPPLY
MUST BE SUPPORTED.
- 7 INDIVIDUALS AND GROUPS WHO ARE LEGALLY, SOCIALLY OR ECONOMICALLY
DISADVANTAGED AND/OR DISCRIMINATED AGAINST ARE AT A HIGHER RISK OF HIV
INFECTION AND OF ITS PERSONAL, SOCIAL AND ECONOMIC CONSEQUENCES. BY
PROTECTING THE DIGNITY AND HUMAN RIGHTS OF ALL INDIVIDUALS SUCH AS MEN
WHO HAVE SEX WITH MEN, YOUTH, SEX WORKERS, WOMEN, AND INJECTING DRUG
USERS, WE HELP REDUCE THE SPREAD AND IMPACT OF THE EPIDEMIC.
- 8 CONDOMS ARE THE ONLY PROVEN, EFFECTIVE MEANS OF PREVENTING THE
SEXUAL TRANSMISSION OF HIV.
- 9 ALTHOUGH MANY INDIVIDUAL MEMBERS OF RELIGIOUS ORGANIZATIONS
HAVE DONE IMPORTANT WORK IN CARE AND SUPPORT, THE OFFICIAL POSITION
REGARDING PREVENTION, CONDOMS, AND PEOPLE LIVING WITH HIV/AIDS OF MOST
RELIGIONS CONTINUE TO IMPEDE EFFECTIVE RESPONSES TO THE EPIDEMIC.

10 PEOPLE LIVING WITH HIV/AIDS AND MEMBERS OF COMMUNITIES ARE VITAL TO HIV/AIDS PREVENTION, CARE, AND SUPPORT. COMMUNITY GROUPS AND THEIR NETWORKS, ESPECIALLY THOSE WORKING WITH PEOPLE MOST VULNERABLE TO HIV, MUST BE STRENGTHENED AND FINANCIALLY SUPPORTED SO THAT THEIR EFFORTS CAN BE EFFECTIVE.

11 ALL FOREIGN AID OF DONOR NATIONS TO DEVELOPING COUNTRIES SHOULD INCLUDE CARE AS WELL AS PREVENTION IN THEIR FUNDING STRATEGIES.

PRIORITIES FOR NATIONAL ACTION:

1. NATIONAL GOVERNMENTS COMMIT TO THE INCLUSION AND FULL PARTICIPATION OF PEOPLE LIVING WITH HIV/AIDS AND MEMBERS OF COMMUNITY BASED ORGANIZATIONS IN HIV/AIDS POLICY PLANNING, DEVELOPMENT, AND IMPLEMENTATION.

2 NATIONAL GOVERNMENTS COMMIT TO REVIEW AND REFORM ALL LAWS AND POLICIES WHICH DISCRIMINATE AGAINST PEOPLE LIVING WITH HIV/AIDS.

3 NATIONAL GOVERNMENTS COMMIT TO INTEGRATE PREVENTION AND CARE IN THEIR NATIONAL STRATEGIES.

4 NATIONAL GOVERNMENTS COMMIT TO INCLUDING SOCIAL AND PSYCHOSOCIAL ASPECTS IN CARE FOR PEOPLE LIVING WITH AND THOSE DIRECTLY AFFECTED BY HIV/AIDS.

5 NATIONAL GOVERNMENTS COMMIT TO CONTINUE SUPPORT TREATMENT RESEARCH.

6 NATIONAL GOVERNMENTS COMMIT TO SUPPORTING RESEARCH OF SUBSTITUTION PRODUCTS IN THEIR STRATEGY FOR BLOOD SAFETY.

7 NATIONAL GOVERNMENTS COMMIT TO ENSURING THAT ALL LAWS AND POLICIES DIRECTLY OR INDIRECTLY AFFECTING HIV/AIDS PREVENTION, CARE, AND SUPPORT BY REVIEWING AND REFORMING THOSE LAWS AND POLICIES WHICH:
COULD INHIBIT THE LEGAL EMANCIPATION OR EMPOWERMENT OF WOMEN, YOUTH, AND VULNERABLE POPULATIONS

CRIMINALIZE OR DISCRIMINATE AGAINST INJECTING DRUG USERS, SEX WORKERS, AND MEN WHO HAVE SEX WITH MEN

HINDER THE ACCESS OF POPULATIONS WITH HIGHER VULNERABILITY TO HIV TO PREVENTION INFORMATION AND SERVICES, OR HAMPER THEIR ABILITY TO TAKE PREVENTIVE ACTION AGAINST TRANSMISSION

8 NATIONAL GOVERNMENTS COMMIT TO PROMOTING THE USE OF CONDOMS AS AN EFFECTIVE WAY OF PREVENTING THE SEXUAL TRANSMISSION OF HIV/AIDS

9 NATIONAL GOVERNMENTS COMMIT TO PROMOTING AN OPEN DIALOGUE BETWEEN RELIGIOUS AND NATIONAL LEADERS TO REFORM AND IMPROVE RELIGIOUS RESPONSES TO HIV/AIDS PREVENTION, CARE, AND SUPPORT.

10 NATIONAL GOVERNMENTS COMMIT TO FINANCIALLY SUPPORTING PEOPLE LIVING WITH HIV/AIDS AND MEMBERS OF COMMUNITIES AS VITAL PLAYERS IN HIV/AIDS PREVENTION, CARE, AND SUPPORT.

11 NATIONAL GOVERNMENTS COMMIT TO DIRECT RESOURCES OF THEIR FOREIGN AID TO DEVELOPING COUNTRIES TO CARE AND SUPPORT AS WELL AS PREVENTION.

12 NATIONAL GOVERNMENTS COMMIT TO SUPPORTING MECHANISMS FOR THE MONITORING AND EVALUATION OF THE PRINCIPLES AND ACTIONS SIGNED ABOVE.

REMARKS:

November 21, 1994

TO: Eric Goosby, Director, NAPO
FROM: Sean Donohue, ASL 
SUBJECT: Paris AIDS Summit--Sex Education Prohibitions--
INFORMATION

During our meeting on the provisions contained in the Declaration stemming from the preparatory meeting for the Paris AIDS Summit we briefly discussed the potential impact of recent federal legislation that could affect our pursuit of the objective outlined at the second "bullet" of roman numeral III of the Declaration:

- "• promotion of appropriate prevention education, including sex and gender education, for youth in school and out of school,"

The question was asked whether federal law prohibits the funding of sexual education activities that promote either homosexual and/or heterosexual activities and whether the prohibition was part of the Department's FY 1994 Appropriations bill. I could not find a reference to these prohibitions in the Appropriations bill, but federal funding prohibitions do exist.

Attached is a copy of the legislative language pertaining to the issue as it is contained in the conference report to H.R. 6, the Elementary and Secondary Education Act of 1994 (P.L. 103-382). Also attached is a brief Congressional Quarterly description of the three key amendments to the ESEA bill. My read of the language is that bill would prohibit these activities only with funds authorized by the Act, i.e., Department of Education activities.

Harriet asked that her office have an opportunity to review and comment on the attached language. Before you include it in the briefing for the Secretary please discuss the issue with either Dick Riseberg or Gene Matthews.

DECLARATION

Text decided on at Preparatory meeting in
Paris on 26 and 27 October 1994

We, the Heads of Government or Representatives of the 42 States assembled in
Paris on 1 December 1994:

I. Mindful

that the AIDS pandemic, by virtue of its magnitude, constitutes a threat to
humanity,

that its spread is affecting all societies,

that it is hindering social and economic development, in particular of the
worst affected countries, and increasing the disparities within and between
countries,

that poverty and discrimination are contributing factors in the spread of
the pandemic,

that HIV/AIDS inflicts irreparable damage on families and communities,

that the pandemic concerns all people without distinction but that women,
children and youth are becoming infected at an increasing rate,

that it not only causes physical and emotional suffering but is often used as
justification for grave violations of human rights,

Mindful also

that obstacles of all kinds - cultural, legal, economic and political - are
hampering information, prevention, care and support efforts,

that HIV/AIDS prevention and care and support strategies are inseparable, and hence must be an integral component of an effective and comprehensive approach to combating the pandemic,

that new local, national and international forms of solidarity are emerging, involving in particular people living with HIV/AIDS and community-based organizations,

II. Solemnly declare

our obligation as political leaders to make the fight against HIV/AIDS a priority,

our obligation to act with compassion for and in solidarity with those with HIV or at risk of becoming infected, both within our societies and internationally,

our determination to ensure that all persons living with HIV/AIDS are able to realize the full and equal enjoyment of their fundamental rights and freedoms without distinction and under all circumstances,

our determination to fight against poverty, stigmatization and discrimination,

our determination to mobilize all of society - the public and private sectors, community-based organizations and people living with HIV/AIDS - in a spirit of true partnership,

our appreciation and support for the activities and work carried out by multilateral, intergovernmental, nongovernmental and community-based organizations, and our recognition of their important role in combating the pandemic,

our conviction that only more vigorous and better coordinated action worldwide, sustained over the long term - such as that to be undertaken by the joint and co-sponsored United Nations programme on HIV/AIDS - can halt the pandemic,

III. Undertake in our national policies to

protect and promote the rights of individuals, in particular those living with or most vulnerable to HIV/AIDS, through the legal and social environment,

fully involve nongovernmental and community-based organizations as well as people living with HIV/AIDS in the formulation and implementation of public policies,

ensure equal protection under the law for persons living with HIV/AIDS with regard to access to health care, employment, education, travel, housing and social welfare,

intensify the following range of essential approaches for the prevention of HIV/AIDS:

- promotion of and access to various culturally acceptable prevention strategies and products, including condoms and treatment of sexually transmitted diseases,
- promotion of appropriate prevention education, including sex and gender education, for youth in school and out of school,
- improvement of women's status, education and living conditions,
- specific risk-reduction activities for and in collaboration with the most vulnerable populations, such as groups at high risk of sexual transmission and migrant populations,
- the safety of blood and blood products,

strengthen primary health care systems as a basis for prevention and care, and integrate HIV/AIDS activities into these systems, so as to ensure equitable access to comprehensive care,

make available necessary resources to better combat the pandemic, including adequate support for people infected with HIV/AIDS, nongovernmental organizations and community-based organizations working with vulnerable populations,

(STAT)

IV. Are resolved to step up international cooperation through the following measures and initiatives. We shall do so by providing our commitment and support to the development of the joint and co-sponsored United Nations programme on HIV/AIDS, as the appropriate framework to reinforce partnerships between all involved and give guidance and worldwide leadership in the fight against HIV/AIDS. The scope of each initiative should be further defined and developed in the context of the joint and co-sponsored programme and other appropriate fora:

1. Support a greater involvement of people living with HIV/AIDS through an initiative to strengthen the capacity and coordination of networks of people living with HIV/AIDS and community-based organizations. By ensuring their full involvement in our common response to the pandemic at all - national, regional and global - levels, this initiative will, in particular, stimulate the creation of supportive political, legal and social environments.
2. Promote global collaboration for HIV/AIDS research by supporting national and international partnerships between the public and private sectors, in order to accelerate the development of prevention and treatment technologies, including vaccines and microbicides, and to provide for the measures needed to help ensure their accessibility in developing countries. This collaborative effort should include...

developing countries. This collaborative effort should include...

3. Strengthen international collaboration for blood safety with a view to coordinating technical information, proposing standards for good manufacturing practices for all blood products, and fostering the establishment and implementation of cooperative partnerships to ensure blood safety in all countries.
4. Encourage a global care initiative so as to reinforce the national capability of countries, especially those in greatest need, to ensure access to comprehensive care and social support services, essential drugs and existing preventive methods.
5. Mobilize local, national and international organizations assisting as part of their regular activities children and youth, including orphans, at risk of infection or affected by HIV/AIDS, in order to encourage a global partnership to reduce the impact of the HIV/AIDS pandemic upon the world's children and youth.
6. Support initiatives to reduce the vulnerability of women to HIV/AIDS by encouraging national and international efforts, aimed at the empowerment of women: by raising their status and eliminating adverse social, economic and cultural factors; by ensuring their participation in all the decision-making and implementation processes which concern them; and by establishing linkages and strengthening the networks that promote women's rights.
7. Strengthen national and international mechanisms that are concerned with HIV/AIDS related human rights and ethics, including the use of an advisory council and national and regional networks to provide leadership, advocacy and guidance in order to ensure that non-discrimination, human rights and ethical principles form an integral part of the response to the pandemic.

We urge all countries and the international community to provide the resources necessary for the measures and initiatives mentioned above.

We call upon all countries, the future joint and co-sponsored United Nations programme on HIV/AIDS and its six member organizations and programmes to take all steps possible to implement this Declaration in coordination with multilateral and bilateral aid programmes and intergovernmental and nongovernmental organizations.

SUBJECT: Paris AIDS Summit: Revisions on Declaration

1. Department received 11/3/94 through the French embassy the text of the Paris AIDS Declaration (in French) as well as an advance copy of the English text through the World Health Organization. Both versions contain several minor discrepancies and two major discrepancies with the language that was accepted by the 42 governments at the October 26-27 Paris preparatory meeting.

2. Patricia Fleming, Head of the US delegation at the October 26-27 meeting and Interim National AIDS Policy Coordinator, has raised the following points with Dr. Bernard Debre, Scientific and Technical Advisor for the Summit and Chairperson of the October 26-27 meeting.

-- Section IV, Initiative 2. Language calling for the global collaboration "... to provide for the measures need to ensure their accessibility..." should be corrected to reflect the language that was accepted by the 42 governments: "... to take appropriate measures to help ensure their accessibility...."

- Section III, last paragraph. A phrase has been added which was not part of the language accepted by the 42 governments. What now reads "Make available necessary resources.... including adequate support for people infected with HIV/AIDS, community-based organizations and nongovernmental organizations working with vulnerable populations" should read "make available necessary resources... including adequate support for community-based and nongovernmental organizations working with vulnerable populations." Addition of the new phrase detracts from the main idea of the need to support non-governmental groups and adds ambiguity into the paragraph.

3. In addition, Ms. Fleming drew from the following talking points:

- The USG is still in the process of translating the text and making a careful comparison with the text that was agreed on October 26-27. While we do not expect other discrepancies to become evident, we may return sometime next week with further comments.
- We hope that our speedy review thus far will assist the Secretariat in the final preparatory phase.
- We look forward to seeing a corrected version of the Declaration as soon as possible, certainly well before the US delegation leaves for Paris.

DECLARATION

Text decided on at Preparatory meeting in
Paris on 26 and 27 October 1994

PARIS AIDS SUMMIT
1 December 1994

We, the Heads of Government or Representatives of the 42 States assembled in
Paris on 1 December 1994:

I. Mindful

that the AIDS pandemic, by virtue of its magnitude, constitutes a threat to
humanity,

that its spread is affecting all societies,

that it is hindering social and economic development, in particular of the
worst affected countries, and increasing the disparities within and between
countries,

that poverty and discrimination are contributing factors in the spread of
the pandemic,

that HIV/AIDS inflicts irreparable damage on families and communities,

that the pandemic concerns all people without distinction but that women,
children and youth are becoming infected at an increasing rate,

that it not only causes physical and emotional suffering but is often used as
justification for grave violations of human rights,

Mindful also

that obstacles of all kinds - cultural, legal, economic and political - are
hampering information, prevention, care and support efforts,

(1)

(3)

that HIV/AIDS prevention and care and support strategies are inseparable,

and hence must be an integral component of an effective and comprehensive approach to combating the pandemic, ^{that they are}

that new local, national and international forms of solidarity are emerging, involving in particular people living with HIV/AIDS and community-based organizations,

II. Solemnly declare

our obligation as political leaders to make HIV/AIDS a priority,

our obligation to act with compassion for and in solidarity with those with HIV or at risk of becoming infected, both within our societies and internationally,

our determination to ensure that all persons living with HIV/AIDS are able to realize the full and equal enjoyment of their fundamental rights and freedoms without distinction and under all circumstances,

our determination to fight against poverty, stigmatization and discrimination,

our determination to mobilize all of society - the public and private sectors, community-based organizations and people living with HIV/AIDS - in a spirit of true partnership,

our appreciation and support for the activities and work carried out by multilateral, intergovernmental, nongovernmental and community-based organizations, and our recognition of their important role in combating the pandemic,

our conviction that only more vigorous and better coordinated action worldwide, sustained over the long term - such as that to be undertaken by the joint and co-sponsored United Nations programme on HIV/AIDS - can halt the pandemic and lead to a world free from AIDS,

III. Undertake in our national policies to

protect and promote the rights of individuals, in particular those living with or most vulnerable to HIV/AIDS, through the legal and social environment,

fully involve nongovernmental and community-based organizations as well as people living with HIV/AIDS in the formulation and implementation of public policies,

ensure equal protection under the law for persons living with HIV/AIDS with regard to access to health care, employment, education, travel, housing and social welfare,

IV. Are resolved to step up international cooperation through the following measures and initiatives. We shall do so by providing our commitment and support to the development of the joint and co-sponsored United Nations programme on HIV/AIDS, as the appropriate framework to reinforce partnerships between all involved and give guidance and worldwide leadership in the fight against HIV/AIDS. The scope of each initiative should be further defined and developed in the context of the joint and co-sponsored programme and other appropriate fora:

1. Support a greater involvement of people living with HIV/AIDS through an initiative to strengthen the capacity and coordination of networks of people living with HIV/AIDS and community-based organizations. By ensuring their full involvement in our common response to HIV/AIDS at all - national, regional and global - levels, this initiative will, in particular, stimulate the creation of supportive political, legal and social environments.
2. Promote global collaboration for HIV/AIDS research by supporting national and international partnerships between the public and private sectors, in order to accelerate the development of prevention and treatment technologies, including vaccines and microbicides, and to provide for the measures *to help* needed to ensure their accessibility in developing countries. This collaborative effort should include related social and behavioural research.

3. Strengthen international collaboration for blood safety with a view to coordinating technical information, proposing standards for good manufacturing practices for all blood products, and fostering the establishment and implementation of cooperative partnerships to ensure blood safety in all countries.
4. Encourage a global care initiative so as to reinforce the national capability of countries, especially those in greatest need, to ensure access to comprehensive care and social support services including essential drugs and preventive methods.
5. Mobilize local, national and international organizations assisting as part of their regular activities children and youth, including orphans, at risk of infection or affected by HIV/AIDS, in order to encourage a global partnership to reduce the impact of the HIV/AIDS pandemic upon the world's children and youth.
6. Support initiatives to reduce the vulnerability of women to HIV/AIDS by encouraging national and international efforts, aimed at the empowerment of women: by raising their status and eliminating adverse social, economic and cultural factors; by ensuring their participation in all the decision-making and implementation processes which concern them; and by establishing linkages and strengthening the networks that promote women's rights.
7. Strengthen national and international mechanisms that are concerned with HIV/AIDS related human rights and ethics, including the use of an advisory council and national and regional networks to provide leadership, advocacy and guidance in order to ensure that non-discrimination, human rights and ethical principles form an integral part of the response to the pandemic.

(6)

We urge all countries and the international community to provide the resources necessary for the measures and initiatives mentioned above.

We call upon all countries, the future joint and co-sponsored United Nations programme on HIV/AIDS and its six member organizations and programmes to take all steps possible to implement this Declaration in coordination with other multilateral and bilateral agencies and programmes and intergovernmental and nongovernmental organizations.

aid programme

List of major and minor discrepancies from WHO-provided English version of Declaration and accepted language at the 10/26-27 meeting (taken from yellow "Revisions" plus Hrynkow notes from the final session)

I. Mindful

- the last bullet which discusses "grave" violations of human rights was not in the revised version.

Mindful also

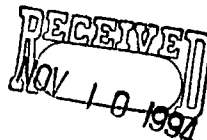

- that HIV/AIDS prevention and care and support strategies are inseparable, and "hence must be an" integral component... was accepted in the revision as -- that HIV/AIDS prevention and care and support strategies are inseparable and "that they are" integral components.....

III. Undertake in our national policies to

- "ensure" equal protection under the law may give INS heartburn since their agreed language is "safeguard" equal protection under the law....
- "intensify" the following range of essential approaches.... was agreed to as "strengthen" the following range....
- strengthen primary health care (systems - not in accepted but ok) as a basis for prevention and care, "and integrate HIV/AIDS activities into these systems so as to" ensure equitable access to comprehensive care.... the phrase about integrating activities into systems was not in the accepted text. Also "so as to ensure" was simply "and" in the accepted text.
- make available necessary resources to better combat the pandemic, including adequate support "for people with HIV/AIDS," community-based organizations, and NGOs working with vulnerable populations. Phrase about PWAs was not in accepted text.

IV. Initiatives section

2. " and to provide for the measures needed to ensure their accessibility..." was "to take appropriate measures to help ensure their accessibility...." in the accepted text.

Mrs P. FLEMING
Interim National Aids policy
Coordinator
Department of Health and
Human Services
WASHINGTON DC

Dear Mrs Fleming,

I would like to confirm you the arrangement we had yesterday.

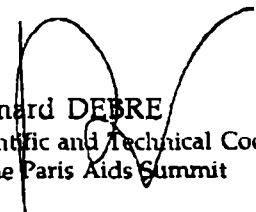

In reference to our phone conversation 1994 november the 10, I would like to inform you that your request to incorporate, in the English version of the final declaration, the words " help ensure" has been taken into account.

We have informed WHO of this change.

As you mentioned, the second point concerning PWA is a minor one. Therefore, it is not necessary to introduce any change and to consult the 40 others countries.

Looking forward to meeting you again in Paris,

Yours sincerely
