TEXT:

I think we should be prepared for press inquiries on the family planning announcement today (let's hope someone cares about policy today). If Neera could clean up the two pager to be in releaseable form, I think that would do it. Do you think we need q and a's as well? The speech is around 1:00 pm so we should get this ready this morning and get it to WH press folks as well as OVP press folks. thanks.

As of last night, the plan was to bring the bill up and read it  
through the family planning section so the CATS can have their drama  
on parental notification for abortion. Then they would pull the bill.

That is good, in that they can't get to the end of the bill and  
therefore can't do limiting amendments. But it does include reading  
the HRSA section, which means they could do an amendment on baby  
testing (although Ackerman's people did not think they could).

i don't know yet what the latest is on Labor H. But DC Approps. still  
has bad language in it on needles and adoption!!
