Dear Mr. Ickes:

SEIU is conducting an evaluation of our work on healthcare reform. One part of this process is a headquarters/field staff evaluation on Monday, December 5, and Tuesday, December 6, 1994. We would very much appreciate your participation in this process on Tuesday, December 6, from 3 p.m. - 4:30 p.m.

We would like to set-up a discussion among yourself, Lane Bailey and Senator Rockefeller's Chief of Staff, and our field staff. We don't expect prepared remarks but rather a dialogue with you about your insights on the campaign.

I have attached a draft agenda for your review. Please let me know if you or someone from your staff will be available to participate.

Very truly yours,

John J. Sweeney

Re: Ninth Circuit Court of Appeals Appointment
for Marsha Berzon

Dear Harold:

During our conversation in Bal Harbour last week, I mentioned the candidacy of a prominent union-side labor lawyer, Marsha Berzon, for a seat on the Ninth Circuit Court of Appeals and promised to follow up our discussion with this letter. I believe that John Sweeney has previously spoken with you about Marsha, and we would greatly appreciate anything you could do to assist with her proposed nomination.

By way of brief background, Marsha is a graduate of Radcliffe College and was elected to the Order of the Coif at the University of California, Berkeley, Boalt Hall School of Law. After law school, she was a law clerk for Judge James R. Browning of the United States Court of Appeals for the Ninth Circuit and then for United States Supreme Court Justice William J. Brennan.

Marsha is currently a partner in the San Francisco law firm of Altshuler, Berzon, Nussbaum, Berzon & Rubin. She provides legal advice to SEIU and many of our union affiliates in California. In addition to representing the Service Employees International Union, she represents several other local and national labor organizations and is Associate General Counsel for the AFL-CIO.

Marsha has litigated numerous groundbreaking cases in the areas of women's rights, First Amendment, labor, employment discrimination, environmental regulation, occupational safety and health, and constitutional law in state and federal appellate courts, federal agencies, and the California and United States Supreme Courts. She is also a highly regarded member of various professional and community associations and presently serves on the Board of Directors of the San Francisco Legal Aid Society.

Though Marsha is an extremely talented union-side advocate, she is highly respected among the management labor community as well; I am informed that she has the support of a number of influential management law firms for her candidacy for this position.

If you would like additional information about Marsha Berzon, please let me know.

In any event, I'd love to take you up on your invitation to have lunch or dinner one of these days; I suspect your schedule is the more hectic one, so let me know what would work for you. In the meantime, thanks for your help.

Sincerely,

Dear Harold:

Recently I had the occasion to speak with you about SEIU's support for the candidacy of labor attorney Marsha S. Berzon to fill one of the vacancies on the Ninth Circuit Court of Appeals. I am enclosing a copy of her resume, as well as a letter which I have previously submitted on her behalf. Anything you could do to ensure that she receives appropriate consideration would be much appreciated.

Thank you for your assistance.

Re: U.S. Court of Appeals for the Ninth Circuit Appointment
For Marsha S. Berzon

Dear President Clinton:

On behalf of the Service Employees International Union, I am writing to urge you to support Marsha S. Berzon as a judicial candidate for the United States Court of Appeals for the Ninth Circuit. SEIU has had a long and much appreciated relationship with Marsha for many years. She is an exceptionally intelligent and well-respected attorney.

Ms. Berzon is a cum laude graduate of Radcliffe College and was elected to the Order of the Coif at the University of California, Berkeley, Boalt Hall School of Law. After law school, she was a law clerk for Judge James R. Browning of the United States Court of Appeals for the Ninth Circuit and then for United States Supreme Court Justice William J. Brennan.

Ms. Berzon is currently a partner in the San Francisco law firm of Altshuler, Berzon, Nussbaum, Berzon & Rubin. She provides legal advice to SEIU and many of our union affiliates in California. In addition to representing the Service Employees International Union, Ms. Berzon represents several other local and national labor organizations and is Associate General Counsel for the AFL-CIO.

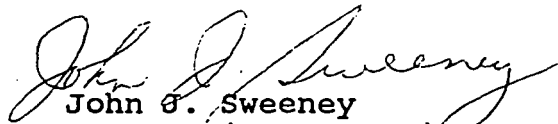

Ms. Berzon has litigated numerous groundbreaking cases in the areas of women's rights, First Amendment, labor, employment discrimination, environmental regulation, occupational safety and

health, and constitutional law in state and federal appellate courts, federal agencies, and the California and United States Supreme Courts. She has appeared as counsel for parties or amici curiae in more than 100 reported cases, including 60 in the United States Supreme Court. Ms. Berzon has also argued numerous cases in the United States Supreme Court, various circuit courts of appeals, and district courts.

Ms. Berzon is also a highly regarded member of various professional and community associations. She is currently a member of the Board of Directors of the San Francisco Legal Aid Society, and has been a member of the Board of Directors, Vice President, and Chair of the Legal Committee of the American Civil Liberties Union of Northern California. Ms. Berzon has served as a delegate to the Ninth Circuit Judicial Conference. In addition, she has been appointed by the United States District Court for the Northern District of California to serve as an early neutral evaluator.

The Service Employees International Union believes that Marsha Berzon is a well rounded individual who, because of her intelligence, good judgment, and ability to be fair-minded, would be an asset to the United States Court of Appeals for the Ninth Circuit. We would greatly appreciate any actions you might take to ensure her nomination.

Sincerely,

John G. Sweeney

Dear President Clinton,

On behalf of the 1.1 million members of the Service Employees International Union, I am writing to bring your attention to an important concern we have with the Continuing Resolution and Labor-HHS appropriations bills that are currently under negotiation. Both the CR and the Labor-HHS bill contain language that interferes with OSHA's ability to address a known and serious hazard by prohibiting OSHA from using any funds to promulgate or issue any proposed or final standard or guideline regarding ergonomic protection. Similar language was included in the rescission bill passed earlier this year, and remains in force.

We are strongly opposed to this language because we believe that musculoskeletal disorders--which the ergonomic standard would address--are one of the most significant health and safety problems faced by American workers today. Many SEIU members, particularly those employed in the nursing home industry, work in jobs where they face a high risk of developing such a disorder.

Figures from the Bureau of Labor Statistics show that in 1993, the injury and illness incidence rate for nursing homes was an alarming 17.3 per 100 full-time workers, greater than coal-mining (10.3), blast furnaces and steel mills (14.0), warehousing and trucking (11.9), and paper mills (8.7). These injuries are not minor. In a majority of cases, workers must take time away from work to recuperate. Over the last decade, the number of lost workdays per 100 full-time workers has almost doubled, rising from 98.2 in 1983 to 186.9 in 1991.

Despite this epidemic of injuries, nursing home operators have generally failed to address the problem of unsafe working conditions. While there has been a dramatic increase in the acuity level of nursing home patients over the past several years, staffing levels have not been increased to compensate. When working in an understaffed facility, the pressure to pull one's own weight is enormous, even when workers are not up to the task because of injury or fatigue. Workers are often forced to lift and turn patients by themselves because no help is available.

Page 2

The Honorable William J. Clinton

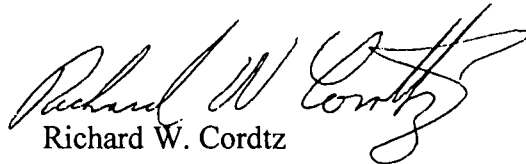

December 21, 1995

Because public programs, such as Medicaid and Medicare, pay for most nursing home care, it is taxpayers who ultimately bear the financial burden of unsafe working conditions in the nursing home industry. The nursing home industry paid close to one billion dollars in workers' compensation insurance payments in 1994, as well as spending billions to treat preventable patient conditions, such as decubitus ulcers (bedsores) and incontinence. Additional staffing and the introduction of lifting equipment would help reduce the number of injuries and ensure that all residents receive the high quality of care they need and deserve.

The attack on the ergonomics standard is only part of a much broader Republican attack on OSHA. The House and the Senate are holding hearings on OSHA "reform" legislation that would make it harder for OSHA to enforce our nation's workplace health and safety laws. The legislation would sharply limit the agency's ability to issue citations for unsafe working conditions, slash the agency's enforcement budget, and require the agency to jump through multiple hoops of red tape before it could issue a new standard. Since the Republicans do not believe you will sign this legislation, they are hoping to use the budget process to force you accept some of its provisions, like the elimination of work on an ergonomics standard.

For these reasons, I strongly urge you to veto the Labor-HHS Appropriations bill unless the language relating to the ergonomics standard is removed. Newt Gingrich should not be allowed to use the appropriations process to prevent OSHA from intervening to prevent injuries to hundreds of thousands of nursing home workers.

Very truly yours,

Family values?

*Hard to find at
Bridgestone/Firestone*

Rogue Japanese-owned company Bridgestone/Firestone comes up short on "family values." This RENEGADE company permanently replaced more than 2,000 U.S. workers, causing unnecessary pain and grave suffering to families after a year-long unfair labor practices strike. What about the families? What about the broken dreams, the lost homes, the illness and emotional turmoil? What about the financial hardship? Support the UNION families of Bridgestone/Firestone workers under siege!

*Standing up for
American working families*

Dreams were shattered in Decatur, Des Moines, Oklahoma City, Noblesville and Akron when employees struck union-busting Bridgestone/Firestone after working without a contract from April to July 1994. Bridgestone/Firestone sought to gut contracts, take away American National Holidays, committed unfair labor practices and "permanently replaced" union members. A worldwide boycott is under way.

We are appealing only to the public -- the consumer. We are not asking or seeking to induce any employee of any employer to strike or cease work or refuse to use or handle Bridgestone/Firestone products in the course of his or her employment or refuse to pick up or make deliveries or transport goods. This is a message from American consumers just like you -- members of The United Steelworkers of America.

Barbara Silby,

The information requested by the White House on GSA Buildings in the National Capital Region is attached. The list has been annotated with the information on janitorial contracts and collective bargaining agreements with unions.

Please let me know if you need anything else.

Legend

CFM means Commercial Facility Manager. Building operations (cleaning and building operation and maintenance service) are provided by a commercial property manager by contract.

Delegated means that GSA has delegated operational authority to the main or sole occupying agency. The delegated agency is responsible for operating the facility.

Leased means GSA leases the space and provides recurring labor (including principal cleaning and /or building operation and maintenance services by GSA contract) to operate the space.

LOS means Leased-owner serviced. GSA leases the facility and the owner furnishes the labor and services to operate the space. GSA has no recurring labor costs but may have separate contracts for utilities or other services no included in the lease terms.

Operated means Government-owned and operated.
