The Honorable Lionel S. Johns
Associate Director for Technology
Office of Science and Technology Policy
423 OEOB
Washington, D.C. 20500

Dear Skip:

Jot Carpenter of the Telecommunications Industry Association (TIA), Helen Sanders, and I appreciated talking with Jack Gibbons and you last week. You should know that we had a very good meeting with Mike Nelson. He was most helpful, and we are looking forward to working with him on telecommunications and information issues in 1994. TIA will be very helpful in political consensus building on the legislative front. Per Jack and your suggestion, I will also contact Kitty Gillman concerning defense conversion issues.

I want to take this opportunity to thank you, Skip, for all your kindness and consideration over the past year. It has been a pleasure to work with you and the rest of the excellent staff at OSTP. I hope you will let me know how I can be of help to you in the new year.

Thanks also to Barbara Bernstein who has been wonderful and whom we enjoyed meeting as well. She is a real asset.

Again, thanks.

With best wishes for the holidays,

Wayne Valis

The Honorable John H. Gibbons
Assistant to the President for Science
and Technology
424 OEOB
Washington, D.C. 20500

Dear Mr. Gibbons:

Jot Carpenter of the Telecommunications Industry Association (TIA), Helen Sanders, and I appreciated talking with you and Skip Johns last week. You should know that we had a very good meeting with Mike Nelson. He was most helpful, and we are looking forward to working with him on telecommunications and information issues in 1994. TIA will be very helpful in political consensus building on the legislative front. Per your suggestion, I will also contact Kitty Gillman concerning defense conversion issues.

I want to take this opportunity to let you know how much I have enjoyed working this year with your excellent OSTP staff, especially Skip Johns and Mark Schaefer. Both Skip and Mark are true professionals, and I have very much appreciated their consideration and first rate work on many important and exciting science issues.

Again, thanks, and best of wishes for the holidays. I hope to see you again soon in the new year.

Sincerely,

Wayne Valis
