The Honorable James V. Hansen
United States House of Representatives

Dear Senator and Congressman:

On behalf of our millions of public health officials and professionals, health care providers and volunteer members of ENACT, the coalition for Effective National Action to Control Tobacco, we applaud the introduction of the Public Health and Education Resource (PHAER) Act.

We particularly want to thank you for your leadership in reaffirming what the members of the coalition have said in the ENACT consensus statement regarding increases in the cost of tobacco products. Experts in the area of tobacco control agree that significant increases in the cost per pack deter children and others from taking up the use of tobacco. The ENACT coalition believes strongly that such an increase in the federal excise tax is essential.

In addition to providing for a \$1.50 excise tax per pack, indexed to inflation, and the nondeductibility of those new taxes, you have addressed many essential public health programs. Adequate funding of these programs is integral to comprehensive, sustainable, effective, well-funded tobacco control legislation. We look forward to working with you and the supporters of your legislation to get action on tobacco now.

Dear Senator Lautenberg:

The American Lung Association commends you on the introduction of the Public Health and Education Resource Act (PHAER). As you know, the American Lung Association has pursued a significant price increase in the federal cigarette excise tax for many years.

Tobacco use is the nation's leading preventable cause of death and disability. Each year an estimated 419,000 people die from diseases directly caused from smoking. Three thousand children start smoking each day in this country. One thousand of them will eventually die from a smoking-related disease. Smoking costs this nation at least \$97.2 billion annually. Of that total cost, \$22 billion is paid by the Federal government. Over the next 20 years, Medicare alone will spend an estimated \$800 billion to care for people with smoking related illnesses.

Reducing tobacco consumption among our nation's youth has long been a goal of the American Lung Association. The bulk of academic research indicates that a sharp and sudden increase in the price of tobacco products has the effect of lowering smoking rates among teens. Raising the price per pack by at least \$1.50 or more would help achieve that desired outcome.

The American Lung Association applauds your continued efforts and leadership in reducing tobacco consumption, especially among our youth, and we look forward to working with you as this tobacco-related legislation progresses through Congress.

Sincerely,

Dear Senator Lautenberg:

The National Association of Counties (NACo) is pleased to support your bill, the Public Health and Education Resource (PHAER) Act. The legislation is a strong step forward for public health activities related to tobacco and helps focus the congressional debate on legislative language rather than broad concepts.

We particularly support your recognition of the role of counties and other local governments in the provision of health services. Counties, in collaboration with states, will be key to the success of the public health programs outlined in the PHAER trust fund, including tobacco education and prevention, smoking cessation, and counter advertising. NACo appreciates your work to ensure a local government role in the planning and implementation of the trust fund's health activities.

Thank you again for your leadership on this issue. Dan Katz of your staff has been very responsive to our concerns. NACo looks forward to working with you and your staff as tobacco legislation moves forward.

Very Truly Yours,

CQ BILLWATCH BRIEF:

By Pherabe Kolb, CQ Staff Writer

HR2740 would limit the amount of money that attorneys could receive for working on the legal settlement between the states' attorneys general and the tobacco industry.

Bill sponsor Scott McInnis, R-Colo., said although tobacco companies are expected to pay as much as \$368.5 billion to states for the Medicaid costs of treating individuals with smoking-related illnesses, nearly \$111 billion of those funds likely will be used to cover the legal fees of hundreds of lawyers who worked on the deal.

"While attorneys are entitled to be paid for their time and effort," the bill states, "the maximum possible amount of moneys from any tobacco settlement should go directly to benefit public health."

The bill would limit attorneys' fees to \$150 per hour and reimbursement of out-of-pocket expenses.

Before any lawyers could receive their payments, they would have to submit a detailed billing statement to Congress and the public to account for the time they worked.

105TH CONGRESS
1ST SESSION

H. R. 2740

To limit attorneys' fees in the tobacco settlement.

=====

IN THE HOUSE OF REPRESENTATIVES

October 24, 1997

Mr. MCINNIS (for himself, Mr. COX of California, and Mr. MCHALE)
introduced the following bill; which was referred to the Committee
on the Judiciary

=====

A BILL

To limit attorneys' fees in the tobacco settlement.

//Be it enacted by the Senate and House of Representatives of
the United States of America in Congress assembled,\\

!!SECTION 1. FINDINGS.!!

Congress makes the following findings:

(1) Under the proposed settlement between the tobacco
industry and the various State Attorneys General, the attorneys
involved in negotiating the settlement are entitled to
reasonable fees.

(2) Under the proposed settlement, the tobacco companies
would pay \$368,500,000,000 to be allocated among various public

health programs.

(3) It is expected that of the total tobacco settlement of \$368,500,000,000 as much as \$111,000,000,000 could be taken away from public health programs for attorneys' "contingency fees".

(4) Since no national settlement can take effect without Congressional action to change existing law, the approval of Congress is necessary for the terms of the settlement, including the part relating to attorneys' fees, to take effect.

(5) While the average annual gross receipts for the 100 top-grossing law firms in America last year was \$18,000,000, a 30 percent contingency fee would yield an average of approximately \$925,000,000 per law firm involved in the litigation pending prior to the settlement.

(6) A casual decision at a young age to use tobacco products often leads to addiction, serious disease, and premature death as an adult. Nearly 90 percent of adult smokers began smoking at or before the age of 18. Smoking rates among youngsters are at their highest levels in 16 years. Every day another 3,000 children and adolescents become regular smokers. Therefore, the epidemic of youth addiction has enormous public health consequences.

(7) While attorneys are entitled to be paid for their time and effort, the maximum possible amount of moneys from any tobacco settlement should go directly to benefit public health, with the highest priority being given to efforts focused on persuading children not to smoke rather than to awards leading to unreasonable attorneys' fees.

!!SEC. 2. LIMIT ON DIVERSION OF PUBLIC HEALTH FUNDS TO ATTORNEYS.!!

(a) GENERAL LIMITATION.--Notwithstanding any other provision of law, any attorneys' fees paid in connection with the settlement of an action maintained by a State against 1 or more tobacco companies to recover tobacco-related medicaid expenditures or for other causes of action involved in the settlement agreement dated June 20, 1997, shall not exceed \$150 per hour, together with reimbursement of actual out-of-pocket expenses as approved by the court in such action.

(b) FEE ARRANGEMENTS.--Subsection (a) shall apply to attorneys' fees provided for or in connection with an action of the type described in such subsection under any--

- (1) court order;
- (2) settlement agreement;
- (3) contingency fee arrangement;
- (4) arbitration procedure;
- (5) alternative dispute resolution procedure (including mediation); or
- (6) other arrangement providing for the payment of attorneys' fees.

(c) REQUIREMENTS.--No award of attorneys' fees shall be made under any national tobacco settlement until the attorneys involved have--

- (1) provided to the Congress a detailed time accounting

with respect to the work performed in relation to any legal action which is the subject of the settlement or with regard to the settlement itself; and

(2) made public disclosure of the time accounting under paragraph (1) and any fee arrangements entered into, or fee arrangements made, with respect to any legal action that is the subject of the settlement.

(d) EFFECTIVE DATE.--The limitation on the payment of attorneys' fees contained in this section shall become effective on the date of enactment of any Act enacted in connection with the national tobacco settlement.

(e) REPORT.--Each attorney whose fees are subject to this section shall, within 30 days of the date of the enactment of this Act, submit to Committees on the Judiciary of the House of Representatives and the Senate a comprehensive record of the time and expenses for which the fees are to be paid. Such record shall be subject to section 1001(a) of title 18, United States Code.

MEASURE: HConRes140

SPONSOR: McInnis (R-CO)

OFFICIAL TITLE: Concurrent resolution expressing the sense of Congress that before the consideration of any legislation regarding the comprehensive tobacco settlement each plaintiff attorney shall fully disclose the attorney's anticipated fees as a result of such settlement agreement.

QUICK REFERENCE: Express sense of Congress that legal fees for tobacco settlement be disclosed

INTRODUCED: 07/31/97

COSPONSORS: 0 (Dems: 0 Reps: 0 Ind: 0)

COMMITTEES: House Judiciary

CQ BILLWATCH BRIEF:

By Emily Pierce, CQ Staff Writer

HCONRES140 would ask that lawyers representing the states in the recent tobacco settlement disclose their fees.

On June 20, 1997, the tobacco industry reached a \$368.5 billion agreement with 40 states that sued to recover Medicaid funds for the costs of treating smoking-related illnesses. Tobacco companies agreed to make payments to the states over 25 years, and to Food and Drug Administration (FDA) regulation in exchange for immunity from future lawsuits. The agreement requires congressional approval for such issues as FDA regulation and advertising restrictions.

The resolution would express the sense of Congress that before any legislation codifying the settlement is enacted, the lawyers that represent the states should disclose their anticipated fees. Most of the states retained private attorneys to represent them in the tobacco lawsuits, and 25 of the 40 are using the same legal firm -- Scruggs, Millette of Mississippi.

Under the settlement, the tobacco companies agreed to pay the states' attorneys' fees separately from the \$368.5 billion. Anticipated fees could be as much as 25 percent of the amount recovered -- almost \$92 billion. Conservative estimates hover between \$7 billion and \$14 billion.

CQ BILLWATCH INSIGHT:

No action has been scheduled on HCONRES140, which was referred to the House Judiciary Committee.

Comments: Info on our tobacco tax bill. Remember - these projections are based on minimum indexing of 3% (and JCT-CBO consumption curve). We use Medical CPI as a factor, which will mean larger revenues. In addition, our bill would index the entire tobacco excise tax in the fifth year, with the additional revenue going towards our fund. (We get \$494 billion over 25 years.)

We will likely drop it tomorrow. I will call Sander in to our meeting on Thursday to discuss the revenue projections. See you then...

Note: inflation indexing begins in 2003.

The Public Health and Education Resource (PHAER) Act

Introduced in the Senate by Sen. Frank R. Lautenberg (D-NJ)
and in the House by Rep. James V. Hansen (R-UT)

PHAER would raise the price of cigarettes to a level that would decrease youth smoking by half.

- ◆ PHAER would place a \$1.50 Public Health and Education Resource (PHAER) per-pack fee on cigarettes and a comparable fee on other tobacco products.
- ◆ The PHAER fee would be phased in by 50-cent increments over three years.
- ◆ In the fourth year, the PHAER fee would be indexed for inflation to ensure that youth smoking does not rise again due to inflationary effects. This index will be based on the CPI, the Medical CPI or an increase of 3%, whichever is greater.
- ◆ The PHAER fee will raise approximately \$494 billion over 25 years (using the tobacco consumption projections of the Joint Committee on Taxation), an average of almost \$20 billion per year. Of these funds:

75% (an average of \$15 billion per year) will be distributed at the *State* level for:

- ▶ Smoking cessation programs and services
- ▶ School and community-based tobacco education and prevention programs
- ▶ State-level counter-advertising campaigns
- ▶ ASSIST and similar community-based tobacco control programs
- ▶ Expansion of the Children's Health Insurance Program created in the 1997 Budget Reconciliation Act
- ▶ Early childhood development programs through the Maternal Child Health Block Grant and WIC
- ▶ Other appropriate public health uses

25% (an average of \$5 billion per year) will be distributed at the *Federal* level for:

- ▶ Research and prevention programs at NIH and CDC
- ▶ FDA jurisdiction over tobacco products
- ▶ USDA programs to assist tobacco farmers, their families and their communities
- ▶ A national counter-advertising campaign
- ▶ Medicare prevention programs and premium and cost-sharing assistance for low-income Medicare beneficiaries
- ▶ International Programs to decrease worldwide tobacco-related illness
- ▶ The Drug Czar to conduct tobacco education and prevention programs
- ▶ The VA to conduct tobacco education, intervention and outreach programs.
