FRANK HURT
INTERNATIONAL PRESIDENT

July 14, 1995

The President
The White House
Washington, DC 20500

Dear Mr. President:

Recent news reports indicate that Food & Drug Administration Director David Kessler is moving to circumvent the legislative and regulatory processes and is submitting proposed regulations on tobacco products directly to you. The FDA does not have and has never had the authority to regulate tobacco products.

As the president of the Bakery, Confectionery & Tobacco Workers International Union, I write to urge you to block this totally inappropriate action, which would have a devastating economic impact on the tobacco industry and its workers. Tobacco is a legal product produced in the United States and should continue to be treated as such.

The BC&T International Union represents nearly 15,000 men and women working in the domestic tobacco industry. The industry and our members who work in it are an integral part of the economy of the southeast United States. Because of the high wages and benefits these workers earn, a major loss of jobs in the domestic tobacco industry would harm the economy of the region and have its greatest effect in communities such as Richmond, Virginia; Macon, Georgia; Louisville, Kentucky; Concord and other North Carolina cities.

Regarding curbing minor's use of tobacco products, the companies already have in place extensive advertising and educational programs, and are currently undertaking significant new additional steps to guard against minor's having access to these products.

In addition, in 1992 Congress passed ADAMHA, which required states to pass legislation setting minimum purchase age for tobacco products, as well as instituting other restrictions, which would limit access of tobacco products to minors. Further, states would lose federal funding if they did not comply with the act and to date, states are vigorously complying. The tobacco industry supports these efforts. Our union also supports these efforts to control tobacco sales to minors.

I urge you to reject any efforts by the FDA to change current regulatory policy towards tobacco. Thank you for your consideration of our position on this issue.

Sincerely yours,

Frank Hurt
International President
