MANAGEMENT AND BUDGET

FROM: THE VICE PRESIDENT
CAROL RASCO

SUBJECT: THE PRESIDENT'S PREVENTION COUNCIL AND
THE COMMUNITY ENTERPRISE BOARD

As you know, when the President signed into law the Violent Crime Control and Law Enforcement Act of 1994 on September 13, 1994, he designated us as Chair and Vice Chair of the Ounce of Prevention Council. In these roles, our mandate is to oversee and coordinate the Administration's crime prevention programs and to integrate the work of the Prevention Council with the work of the Community Enterprise Board (which includes the entire membership of the Prevention Council). A copy of the President's memorandum is attached.

We are honored to accept this responsibility. And, we are anxious for the Council to begin its task of coordinating, integrating, and streamlining the various crime prevention programs throughout the Executive branch as well as to further the development of additional effective approaches to crime prevention.

Before the Council can actually begin work, however, we need certain information from each of you. First, we request that each member of the Council designate a deputy or other senior official from your agency/department to represent your agency/department on a staff-level Prevention Council working group. Second, we request that each member of the Board identify all existing crime prevention programs within your agency's/department's jurisdiction -- including (1) summer and after-school educational and recreational programs; (2) mentoring and tutoring programs; (3) programs designed to assist and promote employability and job placement; and (4) programs designed to prevent or treat substance abuse, child abuse, and teenage pregnancy.

Please provide this information to Kumiki Gibson (Office of the Vice President - OEOB #268) no later than October 19, 1994. Soon after we receive this information, we will convene the working group and, then, a meeting of the Prevention Council itself to discuss how we will proceed further. Please feel free to call Kumiki (202/456-7022) if you have any questions regarding this matter.

Thank you for all of your cooperation on this matter; we very much appreciate it.

SUBJECT: The Ounce of Prevention Council

The Federal Government must administer its programs and deliver services to the American people in the most efficient, effective, and economical ways possible. To that end, this Administration is committed to streamlining, coordinating, and integrating the related responsibilities, programs, and functions of our various executive branch departments and agencies and to designing solutions to traditionally local problems in a manner that provides greater flexibility to those who implement these solutions -- our State and local governments.

It gives me great pleasure to sign into law today the Violent Crime Control and Law Enforcement Act of 1994 ("Act"), which attacks this country's crime and violence problems through a comprehensive, responsible, and bottom-up approach. This Act establishes, among other things, new programs designed to address some of the root causes of criminal and violent behavior. All of these prevention programs are being fully funded through the reduction of the Federal bureaucracy -- which was accomplished under the Vice President's National Performance Review. (Specifically, these reductions were effectuated by Executive Order No. 12839 of February 10, 1993, my memorandum of September 11, 1993, and the Federal Workforce Restructuring Act, approved March 30, 1994, which together directed executive branch departments and agencies to reduce the Federal workforce by 272,900 positions.)

The Act also empowers States and localities by providing these governmental entities with maximum flexibility in administering the Act's prevention programs. But, unlike similar programs established in the past and in the true meaning of "reinventing government," this law sets strict guidelines that ensure that these programs are administered in a manner that is consistent with the Act and fulfills the goals of the programs. Finally, the Act creates the Ounce of Prevention Council (the "Prevention Council" or "Council") to, among other things, oversee and coordinate the various crime prevention programs governed by the Act.

In order to continue our efforts to streamline, coordinate, and integrate the work and activities of the Federal Government, I hereby order the following:

- (i) The Vice President, who leads the National Performance Review and chairs the President's Community Enterprise Board (the "Board"); the Assistant to the President for Domestic Policy, who is responsible for overseeing the implementation of the Crime Bill; and the Director of the Office of Management and Budget shall be members of the Prevention Council;
- (ii) The Vice President shall serve as the Chair of the Council and shall appoint a staff to support the work of the Council, and the Assistant to the President for Domestic Policy shall serve as the Council's Vice Chair;
- (iii) The Vice President, to the extent appropriate and permitted by law, shall coordinate and integrate the work of the Prevention Council with the work of the President's Community Enterprise Board, which is responsible for coordinating across agencies various Federal programs available to distressed communities;
- (iv) The Prevention Council shall report to the Board on its activities, which shall include assisting communities in developing bottom-up crime prevention strategies that are sufficiently tailored and flexible to meet the security needs of the communities and evaluating the effectiveness of the programs governed by the Act;
- (v) To the extent permitted by law, Prevention Council members shall cooperate with the Vice President in coordinating all of the Administration's crime prevention programs and in integrating the work of the Council and the Board; and

- (vi) Each executive branch department and agency represented on the Council shall dedicate the personnel and administrative support necessary for the Council to fulfill its missions and responsibilities.

With this structure, I am confident that we will be able to provide communities in distress with a single Federal forum dedicated to helping them address their economic and security needs.
