Subject: French Proposal Re: Cloning for Denver Summit

Here's France's proposed language before our edits.

Subject: French Proposal Re: Cloning for Denver Summit

Dan Tarullo asked that, in his absence, I forward a copy of the proposal tabled by France over this past week-end for a paragraph on human cloning to be incorporated in the Denver Summit Communique. He wanted me to check with you whether it is "affirmatively desirable" or harmful for us to include a reference such as this in the communique. It is assumed that we will have to work on the language in any case.

Human cloning:

We have taken note with great concern of recent scientific experiments which could open the way to reproductive human cloning. We agree that the prohibition of any form of reproductive human cloning needs both strict domestic legislation and close international cooperation to adapt current international law. We are encouraged by the reflections underway within national ethics committees as well as in various regional and international fora. We are determined to give a strong impetus to their work with a view to arriving as soon as possible at a universal ban on reproductive human cloning.

(I sent this language to Elizabeth Drye and Rachel Levinson yesterday.)
