DECLASSIFIED
PER E.O. 13526

OFFICE OF THE VICE PRESIDENT
WASHINGTON

February 17, 1995

MEMORANDUM FOR TONY LAKE

FROM:

LEON FUERTH

SUBJECT:

Controlling Release of FRY Frozen Assets
under Plan B

One of the most important implementation issues underlying the Contact Group's Plan B offer to Milosevic is how to manage release of frozen assets. If the international community fails to handle this issue properly, Milosevic could get a massive infusion of cash that he can use to rectify his economy's most pressing problems or -- if the worst happens in Croatia or Bosnia -- finance a Serbian spring offensive. In the longer term, a maladroitness release of assets will also give Milosevic significant advantage over the other Yugoslav successor states by helping him increase his creditworthiness while saddling others with a disproportionate share of outstanding Yugoslav debt.

Blocked assets include bank deposits, credits, debts, real estate and tangible property. We have a good idea of what is frozen in the U.S., but it is less clear how much is held by other governments as many were not as rigorous as we were in seizing assets in the first place and some have since allowed the Serbs to draw on frozen accounts to buy humanitarian goods.

Issues to address in releasing blocked assets include

- determining ownership (successor state issues are not yet settled)
- paying depositors, creditors, and other claimants (the Yugoslav institutions and firms whose assets were frozen owed a lot of money to a lot of people -- including numerous U.S. citizens and firms; those creditors have valid claims for payment if assets are unfrozen)
- payment of war reparations and other penalties

~~SECRET~~

Declassify on: OADR

The U.S. Government should seek a thorough international inventory of frozen assets as a first step to their orderly distribution. Then, there should be a meeting of financial and banking experts to discuss how to unblock assets with due provision for the rights of successor states and creditors. We should continue to insist on resolution language mandating that assets not be released until ownership is resolved and legal rights of successor states, creditors, and other claimants are protected.

Remember that Milosevic is a banker. He will find it hard to object to such a process, while he certainly will be quick to take advantage of any openings we give him. So long as our approach requires that claims of others be adjudicated, the time frame for releasing frozen assets is relatively long, which tends to deny Milosevic short-term access for purposes we might find objectionable and preserves some leverage for settling other issues.
