Subject: White House History

Ted,

We've decided that it would be best for us to start with our existing environmental profile (written for Earth Day 2000) and update and expand existing material. Given the time constraint and the fact that we are quite a small staff - don't think that we can offer much more. Below is our outline. If you'd like more detailed information please let me know and I can provide that for you. Our existing report is only 51 pages long. I would expect that we'll grow the report and try to add the philosophical prospective but can't imagine that we'll hit your 1000 page limit.

Please give me a call if you have any additional questions 5-3113.

- Forward - Overview from CEQ Chair, George T. Frampton, Jr.
- Preserving America's Natural Treasures
- Clean Air, Safe Water, Healthy Communities
- Meeting the Challenge of Global Warming
