SUBJECT: The Americans with Disabilities Act and the Disability Community

● INTRODUCTION

- As the result of a consultation with Jan Piercy, Jan felt that you should be aware of these issues affecting the disability community. I tried to meet with Mike Lux from Public Liaison who had been working on these issues, to apprise him, but he was not available today.
- I fear that there is about to be a major crisis with the disability community if a Presidential event it is not arranged around the Americans with Disabilities Act on July 26, 1993. I am willing and able to take on responsibility for these issues to assist with any staff shortages. I will follow up with Carol Rasco on these issues.

● ISSUES

- July 26th is the anniversary of the enactment of the Americans with Disabilities Act (ADA), the civil rights act for persons with disabilities.
- July 26th also marks the start of the ADA requirement for a national TTD system enabling hearing persons to communicate with Deaf persons.
- *NO EVENT* has been scheduled with the President and the Disability Community to mark the occasion.
- President is traveling to Chicago to attend a reinventing the workplace conference with Secretaries Reich and Brown, thus the President's schedule is

July 16, 1993

Page 2

tight. (Plans are underway to insert some comments about disability issues into his remarks at the conference, but such remarks will be lost on the disability community.)

- There is a desire to keep the President's "message of the day" focused on the President's economic plan.
- OPPORTUNITY:
 - Have an event that allows the President to acknowledge and celebrate the anniversary of the ADA and frame the mission of the White House Office of Consumer Affairs in a way in which it has been conceived without interfering with his travel schedule and "economic message of the day".
- SOLUTION:
 - President should appear on a morning news show, (*i.e.*, Good Morning America or the Today Show) in which he:
 - Places a TTD call to Deaf person (*i.e.* Senator Tom Harkin's brother in Iowa) demonstrating the new TTD system. The call can be placed from the Oval Office while he is surrounded by members of the disability community and Senators Harkin and McCain. Hamp and Carol Rasco are also involved.
 - President announces the White House Office of Consumer Affairs appointments, including the role of that office will play in coordinating disability policy throughout the government. The President identifies a disabled individual as Special Assistant to the President in the White House who will be focusing on disability issues. (Currently there is no disabled person in the White House focusing on disability policy issues.)
 - President signs Executive Order redirecting funds within the Department of Justice for ADA enforcement. (*Carol Rasco is presently reviewing a proposal drafted by Harkin's office.*) *Alternative* -- Janet Reno announces the redirection of Department of Justice funds at a Department of Justice event.
- Goals Achieved

July 16, 1993

Page 3

- Directly acknowledges and celebrates the disability community and the ADA without conflicting with the President's schedule or message. Acknowledges the national Deaf relay system.
- Frames and establishes the concept of the White House Office of Consumer Affairs and establishes a person in the White House who is responsible for disability policy.^{1/}
- Averts snubbing and alienating the disability community and Senator Tom Harkin by recognizing disability issues.
- Responds to the fact that George Bush will be hosting a July meeting with disability community leaders in Maine to discuss ADA issues.

^{1/} Presently, there is no disabled person in White House focusing on disability issues for the President. Bush had Special Assistant to the Vice-President for Disability Issues. I have received calls from the Vice-President's Office asking me what to do with all of the phone calls that come in for that office. The Public Liaison staffer in charge of the disability community recently informed me that he will no longer have the disability community as part of his portfolio.

NATIONAL COUNCIL ON DISABILITY

file

An independent federal agency working with the President and the Congress to increase the inclusion, independence, and empowerment of all Americans with disabilities.

March 31, 1994

Dear Friend:

In accordance with Section 401(a)(9) of the Rehabilitation Act of 1973, as amended, we are pleased to provide you with the National Council on Disability's Fiscal Year 1993 Annual Report.

Fiscal Year 1993 was a very busy and productive year for the National Council. In addition to conducting hearings, forums and conferences on issues of interest to people with disabilities, the Council published six major reports dealing with the implementation of the Americans with Disabilities Act; the unique needs of minorities with disabilities; financing assistive technology; access to health insurance; the impact of elementary and secondary education programs and special education for children with disabilities; and, wilderness accessibility. For easier reference, we have included the recommendations from these six reports into this document.

The Council will continue to focus on important current and emerging public policy issues affecting people with disabilities and their families. Also in the coming months, the Council will be providing you with a copy of a new Congressionally mandated annual report entitled *National Disability Policy: A Progress Report*. This report will discuss the status of disability in this country and provide policy advice regarding health, education, housing, employment, transportation, recreation, and training issues as they affect Americans with disabilities.

We truly appreciate being in a position to serve the President, the Congress, and people with disabilities. We look forward to working with you in the years ahead.

Sincerely,

**John A. Gannon
Acting Chairperson**

JOHN A. GANNON
INTERNATIONAL PRESIDENT
INTERNATIONAL ASSOCIATION OF FIRE FIGHTERS, AFL-CIO, CLC

John A. Gannon was elected president of the International Association of Fire Fighters in 1980, and he has been re-elected at each of the biennial conventions of the 170,000 member union since that year. In 1987, he was honored with election to the powerful Executive Council of the AFL-CIO.

Born in Cleveland in 1923, Gannon -- after service in the Navy during World War II and studies at several colleges -- joined the Cleveland Fire Department in 1949. As a member of the IAFF Local 93, Gannon moved steadily up the ladder of elective officers, and was its president for 10 years. In addition, Gannon was a vice president of the Cleveland Federation of Labor and of the Ohio AFL-CIO, and he was the vice president and legislative spokesman for the state's fire fighters for nearly 15 years. He served two terms as a vice president of the international union before his election as its president.

As head of the IAFF, Gannon has worked hard for greater safety and health protection for fire fighters. He takes particular pride in the union's growing effectiveness in developing programs for occupational safety and health and in pushing a variety of legislative bills of concern to fire fighters to successful passage by the United States Congress. He has been a determined opponent of moves to consolidate municipal fire and police departments on grounds that, in the name of economy, citizens will be deprived of fully skilled and adequate fire protection.

John Gannon's leadership qualities have been widely recognized. He is a member of the board, and for a year served as chairman, of the Joint Council of Fire Service Organizations. He is a vice president of the AFL-CIO's Department of Public Employees. He is a member of several important committees of the AFL-CIO Executive Council. Throughout the fire service in the United States and Canada, he is a recognized spokesman for the interests and aspirations of fire fighters.

Dear Janet:

I am writing on behalf of my constituent, Margot Imdieke from Minneapolis, Minnesota. She is very interested in serving on the National Council on Disability.

Ms. Imdieke is well known in Minnesota as Accessibility Advocate for the Minnesota State Council on Disability. She is one of our state's leading experts on the Americans with Disabilities Act. Very active politically, she has dedicated her career on behalf of the disabled as their spokesperson and has touched the lives of many as an advocate.

Let me say that Margot would be a fine asset to the National Council on Disability. She knows first hand what it is like to be a disabled person and has worked tirelessly on behalf of the rights of the disabled.

I have attached Margot's resume and credentials for your information. She would contribute immensely in this capacity and would serve with dedication and distinction. Your consideration of Margot for an appointment to the Council would be appreciated.

Sincerely,

Paul Wellstone
