**The Republican Budget Resolution Conference Agreement:
County by County Analysis of Medicare Cuts**

Republicans are proposing to cut more than \$270 billion from Medicare between 1996 and 2002. Most of the \$270 billion in Medicare cuts would not be necessary without the Republicans' \$245 billion tax cut for well-off Americans. **A new study by the Department of Health and Human Services illustrates how these cuts would affect every county in the nation and the Medicare beneficiaries living in each county. The Republican Medicare cuts will specifically harm beneficiaries, hospitals and health care professionals in every county.**

County by County Analysis

If the Republican proposal was enacted, every county in the nation would face a dramatic loss of Medicare dollars. The new analysis provides the following detailed information:

- **Column 1: Name of county listed alphabetically**
- **Column 2: Number of beneficiaries in each county in 1994**
- **Column 3: Reduction of Medicare dollars in 2002**
- **Column 4: Reduction of Medicare dollars over 7 years (1996-2002); and**
- **Column 5: Increased out-of-pocket costs over 7 years for single beneficiaries and couples.**

For example, Mobile county, Alabama would lose \$555 million in Medicare funding, over seven years and \$156 million in 2002 alone. Each of the 53,600 Medicare beneficiaries in the county who wanted to stay in their current fee-for-service plan would face over 7 years, on average, \$3,850 in additional out-of-pocket costs and ~~\$7,700~~ per couple.

County-by-County Estimates of the Effects of the Medicare Cuts

This analysis assesses the effects of the Medicare savings in the Congressional majority's Budget Resolution Conference Agreement on counties and their Medicare beneficiaries. In the Conference Agreement, Medicare spending would be reduced by approximately \$270 billion between 1996 and 2002, \$71 billion in 2002 alone.

Number of Beneficiaries '94:

The number of Medicare beneficiaries in each state is from the Health Care Financing Administration data. The number of Medicare beneficiaries in each county is estimated by multiplying the 1994 state number of beneficiaries by the proportion of the state's beneficiaries in each county in 1992 (the actual number of beneficiaries in each county was not available).

Reduction in 2002:

The reduction in Medicare spending per state and county is based on the total reduction of \$71 billion in 2002. It is assumed that the cuts will be distributed across states and counties in proportion to the Medicare spending in states and counties. In other words, the more a county's health care providers receive from Medicare, the more the county will be affected by the cuts.

Reduction between 1996 - 2002:

The reduction in the Medicare spending per state and county for the seven year period is based on the total reduction of \$270 billion. Similarly, it is assumed that the cuts will be distributed across states and counties in proportion to the Medicare spending in states and counties.

Increased Out-of-Pocket Costs, 1996-2002:

The county-level analysis of the increase in average out-of-pocket costs for beneficiaries is related to two previous analysis: the aggregate effect of the Congressional majority's cuts on beneficiaries (\$625 in 2002, \$2,825 over the period), and the state-by-state estimates released on July 28. Both analyses assumes that half of the total cuts could affect beneficiaries.

To reflect local conditions that affect health care costs, an adjustment was made to the state estimates. Half of the state estimate is assumed to remain constant across counties, since policies like premium increases affect all beneficiaries equally. However, half is adjusted to reflect local Medicare cost variation, as reflected in HCFA's Adjusted Average Per Capita Costs (AAPCC), which are county-based rates used to pay Medicare HMOs.

NOTES

Number of beneficiaries: 1994 state beneficiaries, county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

NOTES:

Number of beneficiaries: 1994 state beneficiaries, county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

SOURCE: US DHHS

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

NOTES:

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

NOTES:

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

SOURCE: US DHHS

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment.

trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state, and (4) differences in the supply of health care providers.

NOTES:

SOURCE: US DHHHS

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences.

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

Reduction in 2002 & 1996-2002 based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

NOTES.

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county
Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.
Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment,
trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.
The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.
Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;
(3) differences in health status and the number of very old persons in a state, and (4) differences in the supply of health care providers

NOTES:

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

SULLIVAN	6,200	10	37	\$2,125	\$4,250

NOTES:

SOURCE: US DHEHS

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state, and (4) differences in the supply of health care providers.

YANCEY	3,300	5	19	\$2,225	\$4,450

NOTES

Number of beneficiaries: 1994 state beneficiaries, county number of beneficiaries estimated using 1992 distribution of beneficiaries by county. SOURCE: US DHHS

Reduction in 2002 & 1996-2002 based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures

Increase in out-of-pocket costs assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences; (3) differences in health status and the number of very old persons in a state, and (4) differences in the supply of health care providers.

NOTES:

SOURCE: US DHHS

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

NOTES:

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

SOURCE: US DHHS

Revised: 8/23/95

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

* Less than 500,000

NOTES:

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

ZAVALA	1,500	3	11	\$2,900	\$5,800

NOTES:

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county.

Reduction in 2002 & 1996-2002: based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures

Increase in out-of-pocket costs: assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

* For beneficiaries less than 100; for reduction in dollars, less than \$500,000.

NOTES:

SOURCE: US D+HS

Number of beneficiaries: 1994 state beneficiaries; county number of beneficiaries estimated using 1992 distribution of beneficiaries by county

Reduction in 2002 & 1996-2002 based on total savings in the Conference Agreement, allocated to the state and county by the historical distribution of expenditures.

Increase in out-of-pocket costs assumes that 50% of total cuts affect beneficiaries. Based on historical state share of Medicare outlays & enrollment, trended forward with growth in the states' share of outlays & enrollment. Based on Medicare outlays by location of service delivery.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state, and (4) differences in the supply of health care providers.

The county estimates are based on the state estimates partially adjusted for local variation using the AAPCC.

Variation in the costs per beneficiary reflects factors such as: (1) practice pattern differences; (2) cost differences;

(3) differences in health status and the number of very old persons in a state; and (4) differences in the supply of health care providers.

Impact of Proposed Republican Budget Cuts on:

- **Older and Disabled
Americans**
- **Students**
- **Working Families**

A State-By-State Analysis

August 3, 1995

IMPACT OF REPUBLICAN BUDGET CUTS ON OLDER AMERICANS, STUDENTS, AND WORKING FAMILIES IN ALABAMA

Impact on Older and Disabled Americans in Alabama

- **Increases Medicare Premiums:** Each of Alabama's over 630,000 Medicare beneficiaries would pay at least \$3,775 more in premiums and copayments over the 7 years; couples would pay at least \$7,550 more.
- **Reduces Medicare and Medicaid Funding:** Over the seven-year period, the combined Medicare and Medicaid cuts would reduce Federal health care dollars to Alabama by \$8 billion.

Cuts Coverage for Elderly, Children, and Disabled: Loss in Medicaid funding to the state would have a devastating impact on the state's current 544,000 recipients. Alabama would be forced to eliminate coverage for as many as 102,000 recipients in 2002, many of whom may be elderly, nursing home residents, or home care recipients.

Impact on Students in Alabama

Cuts Head Start: Denies Head Start to 180,000 children nationwide and 3,525 children in Alabama in 2002 compared to 1995.

Cuts Funding for Basic and Advanced Skills: Cuts funding by \$1.1 billion in 1996, denying this crucial assistance to 1.1 million students nationwide and 23,200 students in Alabama.

Halts Progress on GOALS 2000: Eliminates Goals 2000 and denies Alabama funding for as many as 298 schools.

Eliminates Safe and Drug Free Schools: Republicans want to gut the program, which 128 out of 130 school districts in Alabama use to keep crime, violence, and drugs away from students and out of schools.

Denies Access to College: Raises costs for student loans by \$10 billion over 7 years. This could raise the cost of college education by as much as \$2,111 for 63,700 college students and as much as \$9,424 for 9,100 graduate students in Alabama. Denies Pell Grants to 7,400 students in Alabama in 1996 alone, possibly forcing them to drop out of college.

Ends National Service: Eliminates AmeriCorps and denies 692 young people in Alabama the chance to serve in 1996.

Slashes Summer Jobs: Eliminates summer jobs, denying meaningful employment to 9,518 Alabama youths in 1996 and 66,626 Alabama youths over 7 years. Also drastically cuts the President's school-to-work initiative.

Impact on Working Families in Alabama

- **Increases Taxes For Working Families:** Cuts the EITC program, increasing taxes for 365,109 working families in Alabama by an average of \$256 in 1996. For 197,083 families with two or more children, the average tax increase in 1996 would be \$332.

Denies Job Training: Cuts funding by \$14.6 million and denies training opportunities to 6,159 dislocated workers in Alabama in 1996.

IMPACT OF REPUBLICAN BUDGET CUTS ON OLDER AMERICANS, STUDENTS, AND WORKING FAMILIES IN ALASKA

Impact on Older and Disabled Americans in Alaska

Increases Medicare Premiums: Each of Alaska's over 32,000 Medicare beneficiaries would pay at least \$1,350 more in premiums and copayments over the 7 years; couples would pay at least \$2,700 more.

Reduces Medicare and Medicaid Funding: Over the seven-year period, the combined Medicare and Medicaid cuts would reduce Federal health care dollars to Alaska by \$595 million.

Cuts Coverage for Elderly, Children, and Disabled: Loss in Medicaid funding to the state would have a devastating impact on the state's current 69,000 recipients. Alaska would be forced to eliminate coverage for as many as 22,000 recipients in 2002, many of whom may be elderly, nursing home residents, or home care recipients.

Impact on Students in Alaska

Cuts Head Start: Denies Head Start to 180,000 children nationwide and 294 children in Alaska in 2002 compared to 1995.

Cuts Funding for Basic and Advanced Skills: Cuts funding by \$1.1 billion in 1996, denying this crucial assistance to 1.1 million students nationwide and 1,300 students in Alaska.

Halts Progress on GOALS 2000: Eliminates Goals 2000 and denies Alaska funding for as many as 81 schools.

Eliminates Safe and Drug Free Schools: Republicans want to gut the program, which 52 out of 56 school districts in Alaska use to keep crime, violence, and drugs away from students and out of schools.

Denies Access to College: Raises costs for student loans by \$10 billion over 7 years. This could raise the cost of college education by as much as \$2,111 for 3,900 college students and as much as \$9,424 for 600 graduate students in Alaska. Denies Pell Grants to 500 students in Alaska in 1996 alone, possibly forcing them to drop out of college.

Ends National Service: Eliminates AmeriCorps and denies 364 young people in Alaska the chance to serve in 1996.

Slashes Summer Jobs: Eliminates summer jobs, denying meaningful employment to 1,471 Alaska youths in 1996 and 10,297 Alaska youths over 7 years. Also drastically cuts the President's school-to-work initiative.

Impact on Working Families in Alaska

Increases Taxes For Working Families: Cuts the EITC program, increasing taxes for 18,350 working families in Alaska by an average of \$203 in 1996. For 9,905 families with two or more children, the average tax increase in 1996 would be \$246.

Denies Job Training: Cuts funding by \$3.0 million and denies training opportunities to 1,290 dislocated workers in Alaska in 1996.

IMPACT OF REPUBLICAN BUDGET CUTS ON OLDER AMERICANS, STUDENTS, AND WORKING FAMILIES IN ARIZONA

Impact on Older and Disabled Americans in Arizona

- **Increases Medicare Premiums:** Each of Arizona's over 577,000 Medicare beneficiaries would pay at least \$2,775 more in premiums and copayments over the 7 years; couples would pay at least \$5,550 more.
- **Reduces Medicare and Medicaid Funding:** Over the seven-year period, the combined Medicare and Medicaid cuts would reduce Federal health care dollars to Arizona by \$7 billion.

Cuts Coverage for Elderly, Children, and Disabled: Loss in Medicaid funding to the state would have a devastating impact on the state's current 510,000 recipients. Arizona would be forced to eliminate coverage for as many as 110,000 recipients in 2002, many of whom may be elderly, nursing home residents, or home care recipients.

Impact on Students in Arizona

Cuts Head Start: Denies Head Start to 180,000 children nationwide and 2,400 children in Arizona in 2002 compared to 1995.

Cuts Funding for Basic and Advanced Skills: Cuts funding by \$1.1 billion in 1996, denying this crucial assistance to 1.1 million students nationwide and 17,300 students in Arizona.

Halts Progress on GOALS 2000: Eliminates Goals 2000 and denies Arizona funding for as many as 264 schools.

Eliminates Safe and Drug Free Schools: Republicans want to gut the program, which 198 out of 222 school districts in Arizona use to keep crime, violence, and drugs away from students and out of schools.

Denies Access to College: Raises costs for student loans by \$10 billion over 7 years. This could raise the cost of college education by as much as \$2,111 for 91,600 college students and as much as \$9,424 for 13,100 graduate students in Arizona. Denies Pell Grants to 6,600 students in Arizona in 1996 alone, possibly forcing them to drop out of college.

Ends National Service: Eliminates AmeriCorps and denies 696 young people in Arizona the chance to serve in 1996.

Slashes Summer Jobs: Eliminates summer jobs, denying meaningful employment to 7,411 Arizona youths in 1996 and 51,877 Arizona youths over 7 years. Also drastically cuts the President's school-to-work initiative.

Impact on Working Families in Arizona

• **Increases Taxes For Working Families:** Cuts the EITC program, increasing taxes for 253,967 working families in Arizona by an average of \$242 in 1996. For 137,089 families with two or more children, the average tax increase in 1996 would be \$310.

Denies Job Training: Cuts funding by \$10.9 million and denies training opportunities to 4,594 dislocated workers in Arizona in 1996.

IMPACT OF REPUBLICAN BUDGET CUTS ON OLDER AMERICANS, STUDENTS, AND WORKING FAMILIES IN ARKANSAS

Impact on Older and Disabled Americans in Arkansas

- **Increases Medicare Premiums:** Each of Arkansas's over 416,000 Medicare beneficiaries would pay at least \$1,875 more in premiums and copayments over the 7 years; couples would pay at least \$3,750 more.
- **Reduces Medicare and Medicaid Funding:** Over the seven-year period, the combined Medicare and Medicaid cuts would reduce Federal health care dollars to Arkansas by \$5 billion.

Cuts Coverage for Elderly, Children, and Disabled: Loss in Medicaid funding to the state would have a devastating impact on the state's current 340,000 recipients. Arkansas would be forced to eliminate coverage for as many as 122,000 recipients in 2002, many of whom may be elderly, nursing home residents, or home care recipients.

Impact on Students in Arkansas

Cuts Head Start: Denies Head Start to 180,000 children nationwide and 2,201 children in Arkansas in 2002 compared to 1995.

Cuts Funding for Basic and Advanced Skills: Cuts funding by \$1.1 billion in 1996, denying this crucial assistance to 1.1 million students nationwide and 15,000 students in Arkansas.

Halts Progress on GOALS 2000: Eliminates Goals 2000 and denies Arkansas funding for as many as 181 schools.

Eliminates Safe and Drug Free Schools: Republicans want to gut the program, which 318 out of 319 school districts in Arkansas use to keep crime, violence, and drugs away from students and out of schools.

Denies Access to College: Raises costs for student loans by \$10 billion over 7 years. This could raise the cost of college education by as much as \$2,111 for 38,400 college students and as much as \$9,424 for 5,500 graduate students in Arkansas. Denies Pell Grants to 3,600 students in Arkansas in 1996 alone, possibly forcing them to drop out of college.

Ends National Service: Eliminates AmeriCorps and denies 368 young people in Arkansas the chance to serve in 1996.

Slashes Summer Jobs: Eliminates summer jobs, denying meaningful employment to 4,892 Arkansas youths in 1996 and 34,244 Arkansas youths over 7 years. Also drastically cuts the President's school-to-work initiative.

Impact on Working Families in Arkansas

• **Increases Taxes For Working Families:** Cuts the EITC program, increasing taxes for 192,736 working families in Arkansas by an average of \$244 in 1996. For 104,037 families with two or more children, the average tax increase in 1996 would be \$313.

• **Denies Job Training:** Cuts funding by \$6.0 million and denies training opportunities to 2,521 dislocated workers in Arkansas in 1996.

IMPACT OF REPUBLICAN BUDGET CUTS ON OLDER AMERICANS, STUDENTS, AND WORKING FAMILIES IN CALIFORNIA

Impact on Older and Disabled Americans in California

- **Increases Medicare Premiums:** Each of California's over 3.6 million Medicare beneficiaries would pay at least \$4,100 more in premiums and copayments over the 7 years; couples would pay at least \$8,200 more.
- **Reduces Medicare and Medicaid Funding:** Over the seven-year period, the combined Medicare and Medicaid cuts would reduce Federal health care dollars to California by \$54 billion.

Cuts Coverage for Elderly, Children, and Disabled: Loss in Medicaid funding to the state would have a devastating impact on the state's current 5.0 million recipients. California would be forced to eliminate coverage for as many as 1.2 million recipients in 2002, many of whom may be elderly, nursing home residents, or home care recipients.

Impact on Students in California

Cuts Head Start: Denies Head Start to 180,000 children nationwide and 17,233 children in California in 2002 compared to 1995.

Cuts Funding for Basic and Advanced Skills: Cuts funding by \$1.1 billion in 1996, denying this crucial assistance to 1.1 million students nationwide and 236,100 students in California.

Halts Progress on GOALS 2000: Eliminates Goals 2000 and denies California funding for as many as 2,061 schools.

Eliminates Safe and Drug Free Schools: Republicans want to gut the program, which 1,049 out of 1,064 school districts in California use to keep crime, violence, and drugs away from students and out of schools.

Denies Access to College: Raises costs for student loans by \$10 billion over 7 years. This could raise the cost of college education by as much as \$2,111 for 430,800 college students and as much as \$9,424 for 61,500 graduate students in California. Denies Pell Grants to 34,500 students in California in 1996 alone, possibly forcing them to drop out of college.

Ends National Service: Eliminates AmeriCorps and denies 5,883 young people in California the chance to serve in 1996.

Slashes Summer Jobs: Eliminates summer jobs, denying meaningful employment to 93,584 California youths in 1996 and 655,088 California youths over 7 years. Also drastically cuts the President's school-to-work initiative.

Impact on Working Families in California

• **Increases Taxes For Working Families:** Cuts the EITC program, increasing taxes for 2,045,255 working families in California by an average of \$245 in 1996. For 1,104,012 families with two or more children, the average tax increase in 1996 would be \$315.

• **Denies Job Training:** Cuts funding by \$194.5 million and denies training opportunities to 81,631 dislocated workers in California in 1996.

IMPACT OF REPUBLICAN BUDGET CUTS ON OLDER AMERICANS, STUDENTS, AND WORKING FAMILIES IN COLORADO

Impact on Older and Disabled Americans in Colorado

Increases Medicare Premiums: Each of Colorado's over 409,000 Medicare beneficiaries would pay at least \$3,000 more in premiums and copayments over the 7 years; couples would pay at least \$6,000 more.

Reduces Medicare and Medicaid Funding: Over the seven-year period, the combined Medicare and Medicaid cuts would reduce Federal health care dollars to Colorado by \$5 billion.

Cuts Coverage for Elderly, Children, and Disabled: Loss in Medicaid funding to the state would have a devastating impact on the state's current 289,000 recipients. Colorado would be forced to eliminate coverage for as many as 97,000 recipients in 2002, many of whom may be elderly, nursing home residents, or home care recipients.

Impact on Students in Colorado

Cuts Head Start: Denies Head Start to 180,000 children nationwide and 1,972 children in Colorado in 2002 compared to 1995.

Cuts Funding for Basic and Advanced Skills: Cuts funding by \$1.1 billion in 1996, denying this crucial assistance to 1.1 million students nationwide and 6,900 students in Colorado.

Halts Progress on GOALS 2000: Eliminates Goals 2000 and denies Colorado funding for as many as 205 schools.

Eliminates Safe and Drug Free Schools: Republicans want to gut the program, which 176 out of 176 school districts in Colorado use to keep crime, violence, and drugs away from students and out of schools.

Denies Access to College: Raises costs for student loans by \$10 billion over 7 years. This could raise the cost of college education by as much as \$2,111 for 90,500 college students and as much as \$9,424 for 12,900 graduate students in Colorado. Denies Pell Grants to 5,100 students in Colorado in 1996 alone, possibly forcing them to drop out of college.

Ends National Service: Eliminates AmeriCorps and denies 1,112 young people in Colorado the chance to serve in 1996.

Slashes Summer Jobs: Eliminates summer jobs, denying meaningful employment to 5,092 Colorado youths in 1996 and 35,644 Colorado youths over 7 years. Also drastically cuts the President's school-to-work initiative.

Impact on Working Families in Colorado

Increases Taxes For Working Families: Cuts the EITC program, increasing taxes for 165,022 working families in Colorado by an average of \$233 in 1996. For 89,077 families with two or more children, the average tax increase in 1996 would be \$294.

Denies Job Training: Cuts funding by \$7.9 million and denies training opportunities to 3,356 dislocated workers in Colorado in 1996.

IMPACT OF REPUBLICAN BUDGET CUTS ON OLDER AMERICANS, STUDENTS, AND WORKING FAMILIES IN CONNECTICUT

Impact on Older and Disabled Americans in Connecticut

Increases Medicare Premiums: Each of Connecticut's over 497,000 Medicare beneficiaries would pay at least \$3,250 more in premiums and copayments over the 7 years; couples would pay at least \$6,500 more.

Reduces Medicare and Medicaid Funding: Over the seven-year period, the combined Medicare and Medicaid cuts would reduce Federal health care dollars to Connecticut by \$5 billion.

Cuts Coverage for Elderly, Children, and Disabled: Loss in Medicaid funding to the state would have a devastating impact on the state's current 354,000 recipients. Connecticut would be forced to eliminate coverage for as many as 74,000 recipients in 2002, many of whom may be elderly, nursing home residents, or home care recipients.

Impact on Students in Connecticut

Cuts Head Start: Denies Head Start to 180,000 children nationwide and 1,374 children in Connecticut in 2002 compared to 1995.
