Dear 2~:

I wanted to take this opportunity to thank you for all your help in developing the Climate Change Action Plan. I believe that the Action Plan represents a bold new way of addressing today's difficult and pressing global environmental challenges.

As you know, the United States is the first nation to develop a specific proposal to reduce greenhouse gas emissions as called for under the Montreal Protocol. This initiative reinforces our nation's leadership role in addressing global environmental issues. I certainly appreciate all of your hard work that went into the development and announcement of the Action Plan.

Again, thanks for your dedication to this initiative. I ^{look} ~~took~~ forward to ~~working with you as we move toward the implementation~~ of the Action Plan. ^{work to}

Sincerely,

Continued progress on this front

1-

Dear 2-:

I wanted to take this opportunity to thank you for all your help in developing the Climate Change Action Plan. I believe that the Action Plan represents a bold new way of addressing today's difficult and pressing global environmental challenges. *your efforts were invaluable to our success* *and I know that*

As you know, the United States is the first nation to develop a specific proposal to reduce greenhouse gas emissions as called for under the Montreal Protocol. This initiative reinforces our nation's leadership role in addressing global environmental issues. I certainly appreciate all of your hard work that went into the development and announcement of the Action Plan.

Again, thanks for your dedication to this initiative. I look forward to working with you as we move toward the implementation of the Action Plan.

Sincerely,

BC / KM
