Dear Mrs Mc Ginty

My name is.... Amanda Sandoval I
am $11\frac{1}{2}$ years old. How are you? I'm fine. I
always wondered why do you let people kill
the whales? they have a family. You should
stop people from killing whales don't underestimate.
How can you study whales when they die
dead. They didn't do anything to us.
We don't need them for food, we don't
need them for oil. You can get your
food at the store and oil from the
ground.

there are only 119,000 left. Whale

are livingbeans I think it is wrong

to kill whales because we don't need

any part of the whales. You're making

a bad choice. There are only

1 Million whales left How would

you feel if you were a whale?

I wouldn't like to be killed

for nothing. I think whale are

important to sea life What would

we do without whales? I hope

you change your mind. We adopted

Dear Ms. Mc Ginty

My name is Josh I am 9 years old and I am in the 4th grade at Fairview Elementary school. I want you to stop killing the whales because they are Mammals just like us. Whales are living creatures too and we do not want the whale to get extinct. It hurts when someone kills the whale. The whale has feelings just like you. And I have been studying whales. I will like you to stop killing whales. Some of the whales are endangered and it is fun to study the live whales.

Jeremiah A. Wambert and I are studying
the orca in our class. I don't
think whales should be killed because
they didn't do any thing to us. I
think whales should have time to have
babies and let the calves grow up.

How can we study them if they're dead?

People can study them if they are a live.

If whaling continues, we'll have more
extinct animals. I would like the whales
to live with their families. I wouldn't
like being taken from my family.

Dear President Clinton,

My name is Lanae Savu. I am 11 years old. I love animals and do not agree with commercial whaling. I think it is wrong. Whales are already becoming extinct and if you and Congress allow commercial whaling, the whole whale population will be completely wiped out within a few years. This is just what I believe.

I live in a regular four bedroom house. What is it like living in such a big place as the White House? What is your favorite room? Do you have any pets? I have a golden retriever named Maggie.

President Clinton, after you read this, could you write me back? I know you are very busy, but could you please try?

Sincerely yours,

Dear Ms. McGinty,

I am writing in regard to the absolutely shocking announcement that the U.S. now supports the implementation of science-based commercial whaling! This pro-whaling position constitutes a complete reversal of the strong US stand taken at last year's meeting of the International Whaling Commission. This is APALING!

Being a concerned and humane citizen, I urge & insist that you work towards an anti-whaling stance for the US once again. This is an incredibly urgent matter which needs

to be attended to! Thank you for
your time.

I am deeply concerned about President Clinton's position for the resumption of commercial whaling. It makes me really angry and shocked that you're supporting commercial whaling once more. Dear Ms. Kathleen McGinty,

I am writing this letter to express my extreme disappointment in the reversal of the strong anti-whaling stand, that the U.S. took last year at the meeting of the International Whaling Commission.

It is obvious that if President Clinton doesn't change his stand on this issue, it is certain that the moratorium against commercial whaling will be overturned at the upcoming Whaling Commission meeting in Mexico.

I strongly urge you to help me and many others change the United States' current position on commercial whaling and I thank you in advance!

Dear Ms. McQuinty,

I wish to express to you my horror, anger and bewilderment over the news that the Clinton Administration has made a complete reversal of its stand on commercial whaling. Last year I was delighted to see the strong stand taken by the U.S. at the meeting of the International Whaling Commission against ending the moratorium on commercial whaling.

I did believe that the Administration especially the Vice-President had a strong commitment to environmental issues and concerns. If this is the case why this sudden change in policy?

The moratorium on commercial whaling must be maintained, and strengthened further, to stop all senseless slaughter of whales by such nations as Japan and Norway.

The U.S. Administration is an influential voice in the International Whaling Commission. It must reverse this ludicrous decision and support the moratorium.

Yours sincerely,

Karen Hayes (Mrs)
