December 11, 2000

United States Senate
Washington, D.C.

Dear Senators:

The National Sheriff's Association joins with Fight Crime: Invest In Kids in seeking your support for the Labor, Health and Human Services, and Education Appropriations Bill.

The Bill contains important funding for crime prevention strategies that are well founded in sound research.

We support the agreed upon funding level of an additional increase of \$1.1 billion for Head Start;

We support the agreed upon funding level for the Child Care and Development Block Grant (CCDBG) of \$817 million;

We support the agreed upon funding level for the 21st Century Learning Centers of \$550 million.

The agreement was worthy of our support, considering the longtime evidence of the value of early childhood education, the craziness of sending welfare moms to work without asking who's minding the kids, and the growing body of evidence on the merits of after-school programming. (One study found high school freshman boys from poor families who participated in an after-school effort were six times less likely to be convicted of a crime during high school and twice as
