MEMORANDUM FOR ELI SEGAL

FROM: ANNE ELLIOTT

SUBJECT: DEPARTMENT OF ENERGY SERVICE ACTIVITIES

In response to your note to Christine Varney regarding service programs currently underway in the Departments and agencies, I am sending the attached list. This is not a comprehensive list, but does demonstrate the range of activities at the Department of Energy.

The Department of Energy and its National Laboratories are involved in a number of service activities including partnerships with schools, internships, teacher training, provision of computers and laboratory equipment to schools, classroom volunteers, stay-in-school employment programs, the National Science Bowl, scholarships and fellowships.

Some of these activities have the potential to tie into a national service program. As we develop more information, we will forward it to you.
