DEPARTMENT OF AGRICULTURE  
OFFICE OF THE SECRETARY  
WASHINGTON, D.C. 20250

August 2, 1993

TO: Interagency Representatives - 1993 Midwest Flood

FROM: Oleta Garrett Fitzgerald for Secretary Mike Espy 

SUBJECT: Tuesday, August 3, 1993, 4:30 P.M. Meeting  
at USDA in Room 221A

Secretary Espy would like to reconvene the original group of representatives from all federal agencies. As the situation worsens in flood impacted states, there are overriding issues beyond regular programmatic aid that must be discussed. A representative from the White House Domestic Policy Council will be in attendance to talk with you about things that some are already meeting to get direction on, i.e.:

- rebuilding levees, should we and who's responsible
- environmental policy issues necessary for immediate abatement of health hazards, soil renewal, etc.
- wetlands issues
- crop and flood insurance issues
- status of waiver requests

Questions also remain regarding the level of resources available for this impact aid. The Office of Management and Budget (OMB) will have a representative present to briefly report on what's in the overall disaster bill and what must be absorbed by current program budgets. Additionally, in a recent meeting with staff of the National Governor's Association we discussed how resources we apply must be in concert with what the state and local governments can do. Consequently, the coordinated effort becomes even more encompassing.

We are certain everyone understands how drastic the need is in the Midwest. Secretary Espy and FEMA Director James Lee Witt feel that continued, regular meetings of policy level persons from your agencies are necessary until things level off. This is open for discussion as well.

See you on Tuesday and thanks for your help.
