AN HISTORIC INVESTMENT IN INFRASTRUCTURE WHILE MAINTAINING FISCAL DISCIPLINE AND PROTECTING OTHER CRITICAL INVESTMENTS

June 9, 1998

Today, President Clinton will sign an ISTEA Reauthorization Bill That Includes An Historic Investment in Infrastructure While Maintaining Fiscal Discipline and Protecting Critical Investments, Such As Education, the Environment, and Health Care. While providing an historic investment in our infrastructure, the agreement maintains President Clinton's priorities of reserving the surplus until Social Security is reformed and investing in critical areas such as education, the environment, and health care. In response to the concerns the Administration raised, Congress improved the bill and the agreement now represents a solid compromise that is consistent with President Clinton's core principles:

- ✓**Strengthens Our Infrastructure.** The agreement guarantees nearly \$200 billion to continue rebuilding America's transportation system -- an approximately 30-percent increase over the 1991 ISTEA reauthorization. This agreement will help communities modernize and build the roads, bridges, transit systems, and railways that link the people of our great and vast country together, that keep our economy strong and vibrant.
- ✓**Maintains Fiscal Discipline.** The agreement reduces the amount of additional transportation funding by \$17 billion from the spending levels that were included in the original Congressional bills even though those bills had passed the House and Senate by large majorities.
- ✓**Preserves Surplus Until Social Security Is Reformed.** Unlike the original Congressional bills, the compromise is fully paid for with real offsets. And because the agreement does not touch the surplus, it is fully consistent with the President's call to "Save Social Security First."
- ✓**Protects Critical Investments in Our Future.** Unlike the original Congressional bills, the transportation agreement does not squeeze other critical investments in our future, such as education, health care, research and development, and the environment, because it is not financed by lowering the discretionary caps.

THIS HIGHWAY-TRANSIT BILL AGREEMENT ALSO REFLECTS PRESIDENT CLINTON'S PRIORITIES BY:

- ✓**EXPANDING TRANSIT FUNDING**
- ✓**PROTECTING THE ENVIRONMENT**
- ✓**HELPING MOVE PEOPLE FROM WELFARE TO WORK**
- ✓**HELPING DISADVANTAGED BUSINESSES**
- ✓**EXTENDING THE ETHANOL TAX CREDIT**
- ✓**STRENGTHENING BORDER INFRASTRUCTURE**

- ✓**Expands Transit Funding Within A Smaller Bill.** While the agreement has less overall spending than the original Congressional bills, it increases the share of transit funding from 17 percent of total surface transportation spending to 20 percent of total spending by 2002.

✓**Protects the Environment.** The highway-transit agreement strengthens proven strategies to protect public health and the environment by increasing funding for the Congestion Mitigation and Air Quality Improvement program by 40 percent above prior ISTEA levels.

✓**Helps Move People from Welfare to Work.** One of the biggest barriers facing people who move from welfare to work -- in cities and in rural areas -- is finding transportation to get to jobs, training programs and child care centers. To help those on welfare get to their jobs, the highway-transit agreement authorizes \$900 million over the next six years for President Clinton's welfare-to-work transportation plan. Of the \$150 million per year, \$50 million is guaranteed in FY99, rising to the full \$150 million per year guaranteed in FY2003.

✓**Helps Disadvantaged Businesses.** The highway-transit agreement provides opportunities to disadvantaged businesses by retaining the Department of Transportation's Disadvantaged Business Enterprise (DBE) program.

✓**Extends the Ethanol Tax Credit.** In order to provide incentives to use ethanol in gasoline and protect the environment, the highway-transit agreement extends the Ethanol Tax Credit through FY2007.

✓**Strengthens Border Infrastructure.** The highway-transit agreement authorizes the Administration's program to target resources to border crossings to improve traffic flow and reduce illicit trade. The agreement allows highway funding to be used for Customs and INS equipment that speeds border crossings.

While the Agreement Provides Funding For Increased Safety, It Does Not Include A National Drunk Driving Standard of .08 BAC. The agreement includes a number of measures to increase safety, including incentive grants to increase seat-belt use and a strong program to make highway-rail grade crossings safer. Congress has also agreed to new provisions to target repeat drunk drivers and to ban open alcohol containers in cars. However, the President is disappointed that Congress refused to lower the national drunk driving standard to .08 percent blood alcohol content (BAC). The President will continue to work to make sure that .08 is the law in every state of the country.

Letter to the Editor:

As the (*mayor of city name or county official for county name*), I am writing to applaud President Clinton and his Administration for getting a transportation bill passed by Congress that will increase the funding cities and states receive for the improvement of their transportation systems. This legislation is historic because it provides the largest budget for transportation spending by the federal government--nearly \$200 billion to be spent over six years.

ISTEA will help communities like (*city name or county name*) to modernize and build the roads, bridges, railways that link us together across cities, states and the nation. The improvement of our thoroughfares by ISTEA will create new employment opportunities for the citizens of (*city name or county name*) and (*state name*), which will keep our economy strong and vibrant.

(*City name or county name*) will receive a portion of the (\$ amount) to be received by (*state name*). This funding will finance (list local projects that will receive ISTEA funding).

In addition to the economic benefits ISTEA will provide our (*city or county*), the transportation legislation helps local communities protect the environment and public health by increasing funding to the Congestion Mitigation and Air Quality Improvement program and by providing incentives to use ethanol instead of gasoline. ISTEA also helps distressed local businesses to survive by providing them with opportunities and assists in moving people from welfare to work by providing transportation to jobs, training programs and child care centers.

While our (*city or county*) flourishes from the funding provided by ISTEA, our country will not suffer from the spending required by this reauthorization bill. President Clinton was committed to the passage of a transportation bill that would allow us to maintain our fiscal discipline, preserve our surplus until Social Security is reformed, and protect our critical investments in the future of education, health care and the environment.

Mayor or County Official's Name
City, State

Letter to the Editor:

President Clinton will sign historic legislation today for a nearly \$200 billion budget for transportation spending. The Intermodal Surface Transportation Efficiency Act (ISTEA) will provide states like (*state name*) with federal funding over the next six years.

ISTEA will fund projects to modernize our nation's highways, roads and bridges. ISTEA will also fund ground transportation projects and mass transit programs. (*State Name*) will receive (*\$ amount*) in federal funding to (list local projects for city or county) for (*city or county name*).

In addition to rebuilding our nation's transportation system, ISTEA protects our environment by ensuring that federal air quality standards are met by cities, counties and states receiving funding. ISTEA also creates partnerships between the federal government and local communities by expanding opportunities for distressed local businesses and by moving more Americans from welfare to work with transportation assistance to jobs, training programs and child care centers.

President Clinton was committed to the passage of a highway and mass transit bill that would not only fulfill the transportation priorities that were set forth in his balanced budget but would also reflect the needs of local communities. Additionally, the President wanted to guarantee the American people that this legislation would be fully paid for and would protect the surplus to save Social Security first and critical investments in education, health and law enforcement.

The ISTEA legislation is an important step toward preserving and expanding (*city name or county name*)'s prosperity in the 21st century by improving and fortifying our transportation infrastructure.

Mayor or County Official's Name
City, State

Letter to the Editor

Today, President Clinton will sign legislation that will include an historic investment to strengthen the transportation infrastructure. The Intermodal Surface Transportation Efficiency Act (ISTEA) will provide nearly \$200 billion to rebuild America's transportation system.

ISTEA will provide (*cities or counties*) and states like ours with money to modernize highways, bridges, roads and mass transit systems. This highway-transit legislation provides (*state name*) with (*\$ amount*) of federal funding to (list local projects that will receive ISTEA funding) in (city or county name).

Consistent with President Clinton's priorities, the ISTEA funding to rebuild America's transportation system is fully paid for and preserves the surplus to save Social Security. This legislation also protects other critical investments in our future like health care, education and law enforcement.

ISTEA also reflects President Clinton's effort to address the transportation needs of local communities such as (*city or county name*). The federal funding provides opportunities to local disadvantaged businesses as well as protects public health and the environment through the Congestion Mitigation and Air Quality Improvement program. In an effort to move welfare recipients to the workforce, ISTEA will help people to get transportation to their jobs, training programs and child care centers. [ISTEA will also authorize the targeting of resources to border crossings to improve traffic flow and reduce illicit trade.]

ISTEA provides funding for increased safety by including measures to increase seat-belt use, to target repeat drunk drivers, to ban open alcohol containers in cars, and to make highway-rail grade crossings safer. However, Congress refused to lower the national drunk driving standard to .08 percent blood alcohol content (BAC). President Clinton, on the other hand, is committed to continuing to work to make sure that .08 becomes the law in every state of our country. (State name) must help President Clinton in this endeavor.
