Dear Hillary,

Only in the Clinton White House could you bring together in agreement on kid vid the dashing duo of Fitts and Charren! It just goes to show that children's television can,

DETERMINED TO BE AN  
ADMINISTRATIVE MARKING  
INITIALS: LAB DATE: 11/15/13

indeed be entertaining as well as educational!

Thanks so much for all of your support on this issue. Once my two colleagues finally "get with the program" we will have an order that works for families, works for b'casters, and works for the FCC.

I miss you!

Warmest regards,  
Susan

**THE NEW YORK HOSPITAL-CORNELL MEDICAL CENTER**

OFFICE OF THE CHAIRMAN  
DEPARTMENT OF PEDIATRICS  
ROOM N-237

October 29, 1996

Mrs. Hillary Clinton  
c/o Ms. Pam Cicetti  
Office of the First Lady  
Washington, DC 20500

Dear Mrs. Clinton:

As I am a devoted supporter of you and President Clinton, it was a pleasure to meet you last night at the River Club in New York, and to hear your comments.

As I mentioned last night, I am very willing to devote time and energy to help you develop more and better programs to benefit children. I am enclosing for your reference my curriculum vitae in which you will note that I have long been an advocate of children; and, as Chairman of Pediatrics at The New York Hospital-Cornell Medical Center, I have the requisite experience and expertise in research to be of help to you.

Specifically, I am willing to help you and the Administration in the following problems:

- a. **Promotion of children's health through research.** Very few NIH grants are awarded to pediatricians. This results from the training requirements in Pediatrics which emphasize primary care and clinical pediatrics. Yet, the NIH grants are awarded for excellence in research in which pediatricians receive little or no training. Also the study sections that review research grants consist mainly of basic scientists with no clinical experience. Unless a reviewer has worked with pediatric patients and realizes how difficult clinical research can be, it is unlikely that a grant to do clinical research will receive a high score.
- b. **Increasing the opportunities for pediatric clinical research.** I applaud the Federal government's support of the Clinical Research Centers Program at the NIH. Although strides are being made to

promote clinical research as distinguished from basic research, very little clinical research is being funded in pediatrics. The small number of Childrens Clinical Research Centers is emblematic of this. This stems from the training problem listed in "a." We can change this. Research is the hope for the future--and our children are our future.

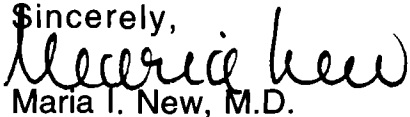

c. **Alter the system for testing drugs intended for children.**

The FDA tests drugs in ways that are suitable for adults, then the dose is scaled down for children based on weight or surface area. Drugs are not tested in young animals in preparation for treating children. This is the wrong approach. Children are not small adults--they have a different metabolism. Indeed, a dose may have to be larger for children than for adults if the children metabolize the drug faster. The FDA has recognized this problem--the system for drug evaluation should be changed.

I very much look forward to hearing from you in the near future. I am happy to help you by not only sharing my ideas with you but working on execution of ideas that you consider worthy.

At this writing I am looking forward to President Clinton's re-election.

Sincerely,

Maria I. New, M.D.

Professor and Chairman

Department of Pediatrics

Chief, Pediatric Endocrinology

Harold and Percy Uris Professor of Endocrinology and Metabolism

Drug Advisory Committee  
1994-2000 Panel Member, Board of Appeals/Pediatric Endocrinology, ACGME  
1993 Member, The New York Academy of Sciences  
1993 Member, Glucocorticoid-Remediable Aldosteronism Registry.  
1992 Elected Member, American Clinical and Climatologic Association  
1992 Member, Century Club  
1991-1997 Member, Research Advisory Committee of the Population Council  
Center for Biomedical Research  
1991 Member, Cosmopolitan Club  
1991 Program Committee, International Endocrine Society  
1990 Member, Association of American Physicians  
1990 Member, The American Fertility Society  
1990-1995 Elected member, US Pharmacopeial Convention  
1989- Board of Directors, The Laurentian Hormone Conference  
1989- Member, Career and Opportunities Committee, Am Acad of Pediatrics  
1988-1992 Member, National Institutes of Health Reviewers Reserve  
1988-1992 Member, Matilda Cuomo's Task Force on Child Abuse and Neglect  
1988-1995 Member, The Mayor's Task Force on Child Abuse and Neglect  
1985- Panel Member, Governor's Task Force on Life and Law  
1985 Panel Member, Consensus Conference on Obesity, NIH  
1985 Panel Member, NIH, NIEHS Symposium on Estrogens in the  
Environment  
1985 Panel Member, Committee to Assess Premature Thelarche in Puerto  
Rico, USPHS Centers for Disease Control, USPHS  
1983- National Advisory Committee, Robert Wood Johnson Minority Medical  
Faculty Development Program  
1983- Committee on Medicine in Society, New York Academy of Medicine  
1981- Board of Directors, Robert Wood Johnson Clinical Scholars Program  
1980- Board of Directors, National Genetics Foundation  
1976- Member, Women's Caucus, The Endocrine Society  
1975- Senior Medical Consultant, Department of Health, City of New  
York, Bureau of Handicapped Children  
1961- Fellow, Clinical Society, New York Diabetes Association  
1987-1988 Chairperson, General Clinical Research Centers Advisory  
Committee, Division of Research Resources, USPHS, NIH  
1985-1986 Public Affairs Committee, The Endocrine Society  
1985-1986 Member, Physician Advisory Panel, Burson-Marsteller Public  
Relations  
1984-1988 Member, General Clinical Research Centers Advisory Committee,  
Division of Research Resources, USPHS, NIH  
1981-1984 Council Member, The Endocrine Society  
1981-1982 Referee, Macy Faculty Scholar Award Program  
1980-1986 Board of Directors, The Harkness Ballet Foundation  
1980-1982 Prenatal Committee of the Governor's Conference on the Prevention  
of Developmental Disabilities and Infant Mortality, New York  
State

Memberships and Other Appointments (continued):

1978-1979 Chairman, Awards Committee, The Endocrine Society  
1977 Organizing Chairperson, Kroc Foundation, "Estrogen Treatment of the Young"  
1977-1988 Association of Program Directors, General Clinical Research Centers  
1977-1980 Endocrinology Study Section, National Institutes of Health  
1976-1979 Program Committee, The Lawson Wilkins Pediatric Endocrine Society (Chairman, 1979)  
1976-1979 Ad Hoc Committee on Estrogen and Cancer, The Lawson Wilkins Pediatric Endocrine Society (Chairman, 1979)  
1976-1979 Committee on Drugs, American Academy of Pediatrics  
1976-1979 Chairperson, Juvenile Hypertension Subgroup of the Hypertension Task Force, National Institutes of Health  
1976-1978 Member, Awards Committee, The Endocrine Society  
1975-1983 The New York State Health Research Council  
1975-1986 Scientific Advisory Committee, The Irma T. Hirsch Trust  
1973-1976 Membership Committee, The Lawson Wilkins Pediatric Endocrine Society  
1973-1974 Clinical Society Council, New York Diabetes Association  
1973-1974 Clinical Standards Committee, New York Diabetes Association  
1972-1980 Program and Symposium Committee, New York Diabetes Association  
1970-1978 Medical Administration Committee of Camp NYDA, New York Diabetes Association  
1966-1975 Career Scientist, New York City Health Research Council  
1962-1974 Trustee, Foundation for International Child Health  
1958-1962 Coordinator, Speech and Hearing Program, Bureau of Handicapped Children, City of New York

The New York Hospital-Cornell Medical Center Committees:

1992-1994 Member, Executive Faculty Council Appeal Board  
1991-1993 Secretary, Medical Board, The New York Hospital  
1982- Charles H. Revson Fellowships in Biomedical Research, and Norman and Rosita Winston Fellowships in Biomedical Research Review Committee  
1981- Interinstitutional M.D.-Ph.D. Committee  
1980- Executive Faculty Council  
1980- Co-Chairperson, Clinical Services Task Force  
1980- Executive Committee of the Medical Board  
1979- Wage and Salary Policy Committee  
1978- Chairman, Liaison Committee on Medical Education  
1977- Committee of Review  
1977-1980 Biomedical Research Support Grant Review Committee  
1975- Committee on Laboratories  
1975-1979 Personnel Advisory Committee  
Joint Administrative Board, Fund-Raising Committee  
1973- Ex officio Member, Scientific Advisory Committee

### Awards and Honors:

|      |                                                                                                   |
|------|---------------------------------------------------------------------------------------------------|
| 1996 | Basic Science Award, The Soc for the Advancement of Women's Health Research                       |
| 1996 | Elected Member, National Academy of Science                                                       |
| 1995 | Rhône-Poulenc Rorer Clinical Investigator Lecture Award                                           |
| 1995 | 1996 British Endocrine Society for Endocrinology Dale Medal                                       |
| 1994 | 1994 Humanitarian Award, Juvenile Diabetes Foundation                                             |
| 1994 | Recipient: Maurice R. Greenberg Distinguished Service Award                                       |
| 1994 | Honoree, National Organization of Italian-American Women.                                         |
| 1992 | Elected Fellow, The American Academy of Arts and Sciences                                         |
| 1992 | President, The Endocrine Society                                                                  |
| 1991 | Recipient: Society of the Optimate Recognition Award                                              |
| 1991 | Recipient: The New York Academy of Medicine Medal of Award                                        |
| 1991 | Recipient: University of Pennsylvania School of Medicine Distinguished Graduate Award             |
| 1990 | President Elect, The Endocrine Society                                                            |
| 1990 | Member, President's Council of Cornell Women                                                      |
| 1990 | Recipient: Cardiovascular Reviews and Reports Master Teacher Classic Award                        |
| 1990 | The C.D. Christian Distinguished Guest Lecturer, Society Gynecologic Investigation Annual Meeting |
| 1990 | Recipient: Certificate of Appreciation, The Swedish Soc. of Medicine                              |

#### Awards and Honors: (continued)

- 1990 Due Casé Award, International Partnership Program, Office of the Governor of New York State
- 1989 Recipient: Barnard Centennial Award: "100 Outstanding New York Women"
- 1988 Robert H. Williams Distinguished Leadership Award in Endocrinology
- 1988 Albion O. Bernstein Award of the Medical Society of the State of New York
- 1988 Outstanding Woman, Ladies' Home Journal
- 1988 Alpha Omega Alpha, Univ. Pennsylvania Sch. of Medicine
- 1986 Outstanding Woman Scientist, Metropolitan New York Chapter of American Women in Science (AWIS)
- 1986 Honorary Fellow of the Italian Society of Endocrinology
- 1985-86 President, The Lawson Wilkins Pediatric Endocrine Society
- 1982 Close Encounters with Great Biomedical Scientists Series, Medical Student Research Training Prgr, Univ. Arizona, Col of Medicine
- 1981 Katharine D. McCormick Distinguished Lectureship, Stanford University School of Medicine
- 1981 John Fitzgerald Kennedy Memorial Lectureship of Georgetown University
- 1977 Mary Jane Kugel Award, Juvenile Diabetes Foundation, New York
- 1972 AMITA Achievement Award for Medicine

#### Editorial Positions:

- 1994-99 Editor-in-Chief, Journal of Clinical Endocrinology and Metabolism
- 1995- Editorial Advisory Council, Journal of Endocrinological Investigation
- 1993 Editorial Board, Journal of Women's Health
- 1984- Corresponding Editor, Journal of Steroid Biochemistry
- 1981- Advisory Board, Pediatric Annals
- Associate Editor, Metabolism
- 1973-80 Editorial Board, The Journal of Clinical Endocrinology and Metabolism

THE WHITE HOUSE

Feb. 1 '96

Bill, Hillary and Chelsea,

We want to thank you for opening up  
your home to us. It was a wonderful visit.

We think about you often and are praying  
for you.

Lore,  
The Nelson Family  
Nan Ellen, Billy, Grace and Bill

DEAR Hilary,

45

THE MEMBERS OF OUR FAW  
CLUB WOULD LIKE TO PRESENT  
YOU WITH THIS SHIRT AND  
STAR. THE SHIRT SIGNIFIES  
THE WOMEN'S CLUBS THAT  
MAKE UP THE COUNTY  
COUNCIL. THE STAR IS  
A SYMBOL OF THE  
SHINING STAR WE FEEL  
YOU ARE. IT IS HANDMADE  
OF STAINED GLASS BY ONE  
OF OUR MEMBERS - RUTH STINE.  
HOPE YOU ENJOY BOTH,  
AND THAT YOU HAVE A  
WONDERFUL CHRISTMAS.

Here's wishing you  
an old-time Christmas,  
One that still embraces  
everything that's near  
and dear to you.

Dear Hillary,

It has been 24 years, but you still remember, the kid in the monkey-suit, the clerk with the strained muscle, the young staffer in the McGovern office in Dallas with advice: send fruit and flowers to Virginia? The President watched you thank me so graciously! You were the future First Lady, he the President, I "The angel with the time machine"?

You are, he is, and Ann is, was, will be, with Marybeth her Chief of Staff and ... that other guy, too. That other kid I hung around with, who loved you? (I had to knock him a couple of times to keep him away from you.) That kid is Steven Spielberg, now.

**You** are Princess Leah Organa of Alderon.

Remember my report. Steve drove off 20 hoodlums while we were canvassing? Ann rescued us? You objected to the rescue and plan to return? Hear your own words as the imprisoned Star Wars princess objecting to her rescue. She walks your walk. She talks your talk. My Princess!

Hillary. You ain't the Princess for nuthin'! Everything in you is good. Please don't be your cynical self for a few seconds. You are a wonderful woman, an inspiration to generations. Trust your instincts, Princess. Listen to the Force!

Your friend in time,

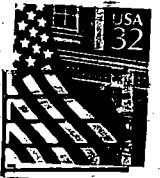

Ross C. "Bubba" Nicholson

ps Write. Or are you still mad about getting dragged into this? Forgive and remember.

pps This time I figured out a medical treatment for criminal behavior. Seems to work, too! no pubs. but see Brit. J. Derm. 111:623 (1984). Oh and I'm a medical student, 3rd year.

Dear Mrs. Clinton,

Susan and I would like to thank you very much for the beautiful and very elegantly framed lithography of the Blue Room that you have sent to us.

Your personal letter was the most wonderful and superb gift! We admire all your outstanding accomplishments. You're really are the best first Lady we ever had!

Your friendshipness is highly appreciated. Thank you for your kind invitation to the Christmas party that we greatly enjoyed. Please give my/our best regards to the President and to dear Chelsea. God bless you!

Sincerely,

Talal and Susan Nsouli

Dear President Clinton,

My wife Susan and I would like to express our extreme thanks for the nice gift you have sent to us! Your friendship is highly appreciated

I would like to congratulate you on your outstanding and most eloquent State of the Union address that you delivered Jan. 1996. Your voice, your tone, and your content were all sensational, superb, magnificent and most outstanding!!!

I would greatly appreciate to receive an autographed booklet of your historic speech.

We are very proud of you and your superb accomplishments. If you need anything please let me know. I am looking forward to seeing you soon prior to the fall season. God bless you!.

Sincerely

Talal Nsouli

Madison, Wisconsin 53719

Dear Mike:

Thank you for your very thoughtful expression of support. Wherever I went on my recent book tour, I was encouraged by the many people I met who care about a better future for our children and our country and whose attention will not be diverted from these goals. I will continue to draw strength and optimism from them and from your friendship.

With gratitude and warm regards, I remain

Sincerely yours,

Hillary Rodham Clinton

The White House  
1600 Pennsylvania Avenue, NW  
Washington, DC 20500

Dear Mrs. Clinton:

My warmest thanks for your participation in the dedication ceremony for the Journalists Memorial.

Your remarks were perfectly in tune with the intent and symbolism of the memorial -- comparing the strengths of the steel and the clarity of the glass to the work of journalists. Your comments struck the right cord with all and many of the family members commented after the ceremony how deeply moved they were by your attendance and your remarks.

Thanks for working this into a crowded schedule.

Admiringly,

Allen H. Neuharth
