THE WHITE HOUSE

June 16, 1993

Honorable Dean A. Gallo
United States House of Representatives
Washington D.C. 20515-3011

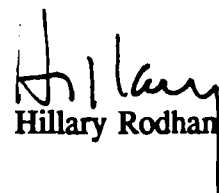

Dear Representative Gallo:

Thank you for sharing your concern that pharmaceutical companies may be adversely affected by the President's national health care reform plan. I have provided the pharmaceutical fact sheet to the President's health care advisors for their consideration.

The President's plan will take steps to reduce the skyrocketing costs of out-patient medicine, including prescription drugs. However, the plan will strike a balance that will ensure that the pharmaceutical industry retains adequate incentives for research and development.

Again, thank you for sending me this information. I look forward to our continued work together to see that every American family enjoys the security of quality, affordable health care.

Sincerely,

Hillary Rodham Clinton
