Dear Hillary,

Sam and I have been so concerned for you and your family since learning of your father's stroke. You are in our thoughts and prayers.

We want to thank you for your kindness in inviting us to accompany you on your trip to Tampa on March 12th. The entire day is one we will always remember as a very special one in our lives. We also want you and your staff to know how much we appreciated your providing the opportunity for our sons, Mark and Tim, and Tim's wife Morgan, and some of their good friends (including your special friend, Martha Barnett) to greet you at the airport before our departure.

The event sponsored by the Robert Wood Johnson Foundation was not only most successful for those of us who were present, but the media also covered it as favorably as it rightly deserved. Sam and I have since both had the opportunity to read a recent article about you in which your husband expressed his total confidence in your abilities. Having spent this special day with you, we totally concur! We know you will be successful in your health care reform plan.

We look forward to the next time we can be together.

Fondly,
