Dear Senator Pell:

Thank you for your letter regarding the
Health Care Task Force.

I agree that we must commit ourselves to
disease prevention and health promotion in
order to effect health care reform. The
National Wellness Coalition that you
described may help us better understand how
to create a viable program of preventative
medicine. Be assured that your comments will
receive every consideration.

Sincerely,

Dear Senator Pell:

Thank you for your letter regarding inclusion of naturopathic physicians as eligible primary health care providers in the President's comprehensive reform proposal.

The President's Task Force on National Health Care Reform, which has concluded its work, reviewed the information sent by Dr. McLanahan and Dr. Werness about naturopathic medicine. The President has asked his advisors to consider many options in order to create the best health care reform package possible.

Again, thank you for your suggestion. I look forward to our continued work together to ensure that every American family has access to quality, affordable health care.

Sincerely,

Hillary Rodham Clinton

Dear Mrs. Clinton,

Enclosed please find a letter addressed to you from Senator Claiborne Pell. I'm very sorry that this letter was inadvertently opened by our secretarial staff. As you can imagine, none of us could believe that we had really come into possession of your mail here in a university department in Belgium. The natural conclusion was that someone was playing a prank so we were very embarrassed indeed to find that the letter is genuine. I hope you will forgive our mistake and the long detour that the letter has made. It seems that some of our publicity material was returned to us from a bureau or agency in Washington D. C. and this letter was accidentally included in the envelope.

With our greatest respect and most humble apologies I am,

Sincerely yours,

Dr. Christine Horton
