Honorable Barbara F. Vucanovich
United States House of Representatives
Washington, D.C. 20515

Dear Representative Vucanovich:

Thank you for your letter providing recommendations for health care reform. The statistics you present regarding the availability of health care providers in rural Nevada are indeed disturbing. The President is, of course, aware of the special situation faced by rural states: too few doctors and hospitals, and too high costs of providing health care. When the President's proposal is made final, you will see that it addresses these critical issues.

I appreciate your taking the time to contact me, and look forward to our continued work together to ensure that all Americans enjoy the security of quality, affordable health care.

Sincerely,

Hillary Rodham Clinton
