THE WHITE HOUSE

June 22, 1993

Oscar Tullos, Jr.
5505 Cavazos Road
Brownsville, Texas 78521

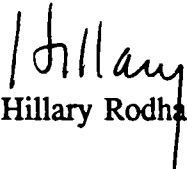

Dear Mr. Tullos:

Congressman Ortiz recently forwarded your letter to me concerning the expansion of health care facilities to veterans in rural areas.

Your concerns and suggestions have been reviewed by the President's Task Force on National Health Care Reform, which has sent its recommendations to the President. As the final elements of the national health care reform package are discussed, please be assured that the President and his advisors will pay close attention to the needs of veterans in rural areas.

Thank you for expressing your interest in making health care accessible to all veterans. The President's plan will ensure that every American enjoys the security of access to quality and affordable health care.

Sincerely,

Hillary Rodham Clinton
