Dear Ms. Weber:

Senator Herb Kohl shared with me a copy of your open letter to me concerning Carpal Tunnel Syndrome which appeared in the March issue of the *Wisconsin Broker*. I applaud your efforts to provide important information to the public about prevention of this often debilitating condition.

An important component of the President's health care plan will be prevention of a whole range of conditions. Organizations like yours will play a critical role in educating the public about how best to remain healthy and disease free. As you stress in your letter, these efforts are needed if we are to contain our nation's health care costs.

Again, thank you for sending your thoughtful and informative article. I wish you well in your continuing work.

Sincerely,

Hillary Rodham Clinton

Dear Ms. Williams:

Thank you for sending me information regarding the proposed Olive Enterprise National AIDS Education Campaign. I admire your commitment to addressing this most pressing problem and I appreciate your sharing your experience and research.

I agree with you that an aggressive and comprehensive approach to AIDS is needed. The AIDS crisis can't be left to the stricken to fight alone -- it is a fight we all must join if we are to guarantee health and freedom to all Americans. With Kristine Gebbie as the new AIDS Policy Coordinator, I am confident we have a good chance at making headway in this important area.

Thanks again for writing.

Sincerely yours,

Hillary Rodham Clinton

Marsha,

Recently, I prevailed on Larry O'Brien, a friend with vast experience in the field, to tell me what he would say to Hillary and the President about health care reform if he had the chance.

The enclosed two pages are his response to my challenge.

The response is simple, direct, succinct, and, in my limited experience, makes eminent good sense. I wish Hillary and the President had a chance to read it.

I'm glad you came to the swearing in ceremony for Richard Moose. He is a great Clinton appointment.

Peace,
Lee
