Democrats - Climate Strategy

March 15, 1998

1. Evan Bayh

- Staff meeting scheduled
- Bayh announced his opposition to protocol during the campaign
- Bayh has been approached by Hagel regarding his bill
- Need high level White House message ASAP

2. Blanche Lincoln

- Some staff outreach done, formal staff meeting getting scheduled
- No position on issue yet
- Richardson outreach? She is on the Energy Committee and knows the Secretary from her days working on the Energy & Commerce Comm.
- High level White House message appropriate

3. Mary Landrieu

- Staff outreach underway
- Oil and gas sensitive. Gas angle?

4. John Edwards

- Staff outreach underway; totally new to issue
- No reason to think he'd be a problem

5. Robert Byrd

- On-going outreach at the staff level
- Working with Byrd staff to address the Senator's concerns about coal

6. Others

- **Breaux** (always a concern on energy issues; staff outreach underway)
- **Conrad** (blank slate; likely coal concerns; need staff meeting)
- **Dorgan** (big problem; concerns re: coal. DOE follow up immediately, followed by

WH staff follow up to assess)

- **Graham** (always worth watching; need staff-level assessment)
- **Hollings** (blank slate; unpredictable)
- **Johnson** (maybe coal problem; unpredictable; work through Daschle?)
- **Levin** (worth keeping an eye on; do staff-level follow up with current and former staff)
- **Robb** (coal; running scared; immediate staff-level contact)
- **Schumer** (should be fine, but should be touched at staff level soon)
- **Torricelli** (DSCC chair; unpredictable; check at staff level)

7. Other Ideas

1. Do a very short presentation at the weekly Democratic LD meeting
2. Do some type of presentation (science, international, innovative technologies?) At the weekly Democratic Caucus lunch.
3. Work with NSF to get a few identified Senators on trip to Antarctica this fall.
