MEMORANDUM FOR DISTRIBUTION

FROM: Mike Lux, Debbie Fine

SUBJECT: District Activities

Attached is this week's summary of allied group activities in selected districts around the country. The activities listed date back through May.

We would note some of the highlights from Memorial Day Recess:

- Health Care Reform Project launched its new ad campaign on June 2 which includes \$500,000 in paid radio and newspaper advertisements in ten districts and states; 300,000 pieces of direct mail and extensive phone banking. The message conveyed focuses on the coverage Members of Congress have, and on the importance of benefits through the workplace.
- Campaign for Health Security launched its new ad campaign on June 3 in New York, Oregon, Connecticut, Pennsylvania, Maine and Kansas. These radio ads will run for nine days with a message personalized to Members of Congress demanding that they be held accountable for sponsoring health care legislation that will give constituents less than they have.
- Campaign for Health Security, Citizen Action and Jobs With Justice sponsored over 65 health care events in thirty five states on June 2nd with the message to Members of Congress, "Give Us The Health Care We Give You."
- Many supportive organizations sent out action alerts and mailings asking their members to call, visit and write Congress. Many also included kits with samples of op eds, letters to the editor and letters to Congress. The organizations include AFL-CIO and its affiliates, American Psychiatric Association, American Academy of Family Physicians, American Medical Women's Association, National Association of Community Health Centers, Children's Defense Fund, Alzheimer's Association, the ARC, Catholic Health Association, Epilepsy Foundation, American Occupational Therapy Association, American Academy of Pediatrics, American College of Preventive Medicine, National Council of Senior Citizens and AIDS Action Council.

- The Small Business Coalition for Health Care Reform worked with Members of Congress in approximately 12 districts to focus local press and constituents on the existing support in the small business community for health care reform.
- Supportive groups continued and increased the level of activity throughout the recess with press conferences, leafletting, building crowds for town hall meetings, and other traditional grass roots activities.
