W. Steve Lee
Executive Assistant and Scheduler to the
National AIDS Policy Coordinator
The White House
1600 Pennsylvania Avenue
Washington, D.C. 20500

Dear Mr. Lee:

Thank you for your letter of March 1st, in response to our invitation to Kristine M. Gebbie, National AIDS Policy Coordinator, to participate in our Summer Institute on Women's Health this July 20-29th. While we understand that Ms. Gebbie's schedule and other commitments will not permit her to attend the entire ten-day conference, we are still very much interested in having Ms. Gebbie participate, as her schedule allows.

Sunday, July 24th will be the day policy issues are highlighted at the Institute; this would be the day on which Ms. Gebbie's participation would most closely match the overall Institute agenda. Adriane Fugh-Berman of the National Women's Health Network, Anne Kasper, the Campaign for Women's Health, and Luz Alvarez Martinez of the National Latina Health Organization are some of the other confirmed speakers for this day. However, because we are eager to have Ms. Gebbie participate in the Institute whenever her schedule allows, we would gladly accommodate her on any day throughout the July 20-29 Institute. Generally, morning sessions are being scheduled for 9:30 - 11:30, and afternoon sessions from 1:30-3:30, on all days throughout the Institute. An evening session would also be possible, were this to be Ms. Gebbie's preferred time to speak. I understand that you will pass this request along to Ms. Gebbie, and if she is able to attend, you will confirm her attendance approximately 60 days prior to the Institute.

Should you have any other questions, please do not hesitate to contact me, or Zylphia Ford, our project coordinator for the Summer Institute, at (312) 413-1924. We look forward to hearing from you.

Sincerely,

Alice J. Dan, Ph.D.
Director

Richard Pollard, M.D.
Internal Medicine
University of Texas Medical Branch
301 University Boulevard
Galveston, Texas 77555-0765

Dear Richard:

This will be one letter, but I hope you will share it with all of the staff at the University of Texas Medical Branch and associated facilities. My visit to Galveston was such a treat! I learned a great deal about your specific services and research, about developing services outreach across the wide miles of Texas, and about your concerns for the future. I am impressed by the caring quality of all that is going on, and it was a pleasure participating in the opening of the new clinic area.

The University of Texas Medical Branch can be proud of its efforts to respond to the HIV epidemic, and to add to our knowledge base for action. I look forward to hearing more about your efforts in the future, and wish you and all of your colleagues the very best.

Sincerely,

Kristine M. Gebbie, R.N., M.N.
National AIDS Policy Coordinator

MEMO

DATE 1/27/94

TO Steve Lee
Executive Assistant to Kristine Gebbie,
National AIDS Office

FROM Darlene A. Martin, RN, PhD
Director, Center for Nursing Ethics
Co-chair, HIV/ AIDS Conference

RE Ms. Gebbie's visit

I am enclosing a proposed itinerary for Ms. Gebbie's visit to Houston and Galveston on March 2, 3, & 4. I apologize for the delay in sending this to you, but it took much longer to contact various groups and coordinate her visit than I originally anticipated. I have consulted extensively on the Houston schedule with Jim Halloran, who directs the AIDS Education and Training Center for Texas and Oklahoma, and who is also the co-chair of our conference. He is based in Houston and is extremely knowledgeable about AIDS services and professionals in Houston and the surrounding area. Mr. Halloran has helped us coordinate the itinerary and can also assist with publicity.

This itinerary is based on a Tuesday, March 1 evening arrival but we can restructure plans if she can not arrive on that date. We have also included some Friday activities since that is the best day for Ms. Gebbie to meet with the Director of the AIDS Clinical Trial Group, Dr. Pollard, and his staff. As I mentioned to you on the phone, Dr. Pollard and his staff have also decided to use the occasion of Ms. Gebbie's visit to officially dedicate the opening of the new HIV/AIDS Outpatient Clinic on campus. They would like to invite Ms. Gebbie to participate in the opening ceremonies on Friday afternoon at 3 PM if that is possible. They are planning to invite community leaders including the mayor and city council, etc. and felt Ms. Gebbie's participation would add a very special note to the ceremonies. We will certainly work with you to accommodate her interests and travel plans in any way possible. We are very pleased that she is interested in meeting community leaders in both Houston and Galveston and are pleased to help facilitate those activities. I look forward to meeting and working with Ms.

Gebbie. We believe that her participation in this conference and her involvement with the community will help call attention to both the needs of persons with HIV/AIDS in Texas as well as the types of services that are available in this area of the state.

I hope that this tentative schedule reflects the range of activities that will be of interest to Ms. Gebbie and the mission of the National Office, but understand that she may want to make changes based on her objectives. Thank you for your assistance in arranging both her participation in this conference, and her other activities. I look forward to hearing from you.

Dear Kristine M. Gebbie, FEB 17 1994

RE: Your letter to me, January 20, 1994. Quoteing you, "AIDS policy is, and will continue to be, based on sound science." I would like you to further explain just what you think "sound science" is...!

I have been informed that you were quoted by a reporter from the Associated Press on October 20, 1993 to have made this claim: " The United States needs to view human sexuality as an essentially important and pleasurable thing. Until it does so, we will continue to be a repressed Victorian society that misrepresents information, denies sexuality early, denies homosexual sexuality particularly in teens, and leaves people abandoned with no place to go. I can help just a little bit in my job, standing on the White House lawn talking about sex with no lightning bolts falling on my head."

The only repressed Victorian society that I know about is the one James R. Kincaid wrote about in his book (CHILD-LOVING, The Erotic Child and Victorian Culture. Kincaid was quoted by Walter Kendrick: " The Victorians would find our attitudes about sex and the erotic aspects of children humorless, rigid and utterly boring."

In light of the fact, William Byne and Bruce Parsons, "Human Sexual Orientation: The Biological Theories Reappraised," Archives of General Psychiatry, Vol. 50, March 1993, pp. 217-223. States there is NO biological of science to the claim only dissatisfaction with the present status of psychosocial explanations than from a substantiating body of experimental data. Surveys show

today as in 1973 that the MAJORITY of American Psychiatric Association regard homosexuality as an abnormality of deviant sexual behavior. But Master and Johnson report a 79.1 percent immediate success rate for their clients who attempt to discontinue their homosexual practices and a 71.6 percent success rate after five years. Some slip back into the homosexual acts - just as some recovering alcoholics fall off the wagon. One can not become a former balck but can become a former homosexual active individual.

The Victorian society should understand that there are sound science, sound Psychiatry, sound social culture, and backed by God why homosexual and pedophile have legal laws on this kind of practice. Alot can be found in the Penal Laws in the State of N.Y. under consensual, first, second, and third degree sodomy. The first a class B misdemeanor the others B, D, and E FELONY. All that the majority of people are willing to up-hold and demand that the State Seneat, Assembly, Governor and law understand.

In light of AIDS as sound science the act of sodomy should be stopped. The natural consequence of smoking is under practical wisdom, so for the act of sodomy, no one needs to engage in this behavior.

For the North American Man/boy Love??? Association to be making claims that society oppresses them and they want their freedom to love?? the little children and teen agers and wants the law on sodomy removed because of homophobia is absurd. Human sexuality you see is not a 'thing'. Had American society not seen the harm of 'sexual sense gratification' with out respect, responsibility and accountability before it will see it in NAMBLA. This sex has nothing to do with American Traditional love.

God Bless America

Bonnie Warboys

3-18-94

MAR 23 1994

Dear Kristine M. Gebbie,

Thank you for your letter of 3-10-94 and the transcript of your speech made to the Association of Reproductive Health Professionals on Oct. 20, 1993.

You stated in your letter ; " I am in no way supportive of any form of child abuse". Yet you state in your speech that you are supportive of not "denies sexuality early, denies homosexual sexuality, most particularly in teens," I am sending you this copy of the New York Times Book review on CHILD-LOVING, The Erotic Child and the VICTORIAN culture so that you will understand that James R. Kincaid in no way supports child abuse, but he does support the ideology of adults having sex with children as the individuals he speaks of do not abuse children, they are as he states are gentle and unaggressive...! And he thinks of himself as a repressed Victorian society looking for a playing field in America culture.

David Thorstad founding member of the North American Man/Boy Love Association and former president of New York's Gay Activities, interviewed by J. Gregg Jackson on ABC's talk show "The Last Word" was asked " if a boy as young as nine years old is in a position to give the consent to enter into a sexual relationship with a full grown man, He answered; " Of course. They do it all the time. Why Not?..."

NAMBLA Constitution and Position Papers, 1993, States their appeal to the American ideology point blank. Their "right" to love?? whom ever they please.

"The Overhauling of Straight America", the landmark playbook for homosexual strategy, makes that very clear. "The masses must not be repulsed by premature exposure to homosexual behavior itself. First let the camel get his nose inside the tent, and only later his unsightly derriere." Three years ago on "TV" two sets of parents and their girl and boy child of 10 and 12 years old. Their point ! to lower the age of consent to the sex act so their childrens same sex lovers of adult age would not be arrested!!!. And to date the N.Y.S. assembly refuses to pass a bill on the possession of child_pornography for the second year. This being done in the name of American's First Amendment freedom of speech but you know the very first part of the Amendment "freedom of religion and the free exercise" is either ignored and when it isn't it is taken so far out of contents it is desecration to the extent of slander.

Jonh Sandgren wrote of the Clergyman

The Clergymen! - Why should we, the workers, care whether the clergymen starve and worry? Have they not always been the contemptible tools of a criminal master class? Have they not always been trafficking in spiritual values in order to keep the workers meek and contented? Have they not always resisted us when we sought to lift ourselves and our fellows out of the mire of proverty, ignorance and oppression? Have not they nearly always, with very few exceptions, taken the rich man's part against the poor, all the while collecting the widow's mite for their own support?

We will not consent to class the clergymen as teachers. We class them with the other "stools" and the "finks" that the capitalist class employs in order to keep the workers down. By teaching SCIENCE and honest truth-seeking we hope to shame them out of existence some day.'

Samuel Schmalhausen wrote of American (Truth, Justice, Charity) by ending with: " Long live the revelution. Down with the CHRISTIAN Brotherhood of Sham!".

The homosexual movement v. Christianity and the American Legion and the United States Military. Not withstanding to the U.S. and my state Constitutions.

My state laws, my military, my God uphold the laws on sodomy. My George Washington proclaimed to the American people: " Whereas it is the duty of all Nations to acknowledge the providence of Almighty God to obey his will, to be grateful for his benifits, and humbly to implore his protection and favor, and whereas both HOUSES of CONGRESS have by their joint Committee requested me to recommend to the People of the United States a day of public thanks-giving and prayer to be observed by acknowledging with grateful hearts the many singal favors of Almighty God, especially by affording them an opportunity peaceably to establish a form of government for their safty and happiness."

This the first part of PRESIDENT WASHINGTON's proclamation of a day of thanks-giving "Nov.26" set aside to (OBSERVE THE ADOPTION of the UNITED STATES CONSTITUTION.) Under Almighty GOD. One Nation Under God...!

THE CONSTITUTION

(Preamble.) WE, THE PEOPLE of the State of New York, grateful to Almighty God for our Freedom, in order to secure its blessings, DO ESTABLISH THIS CONSTITUTION.

My United States and my New York State constitutions established under God. Our freedom from sodomy, prostitution, deviant sexual conduct, sexual misconduct, our youth to be free from sexual activity that does them harm in their peace of mind and health of body.

Now if your office can establish an AIDS policy based

on the sound teaching of human sexuality according to the Almighty God to obey his will for man kind then we can begin work on some of that social transformation for the citizens of this Nation.

This is no other country but America. And we do establish American tolerance to positive culture in an expression of perfectly legitimate and honorable relation between opposite minds. True tolerance preserves rather than destroys the culture of society. Tolerance is not moral laxity or easy deviation from established principles based on intellectual wisdom of sound science, sound psychology and sound teaching to the truth of Almighty God.

The "Federal Textbook on Citizenship", Our Constitution and Government, under the (United States Department of Justice, United States Government Printing Office Washington, page 18, paragraph three under Declaration of Independence: " The Declaration of Independence did four things. First: It stated some of the basic principles of our government. It said that GOD had given all persons the right to live, to be free, to work, and be happy"

Americans RIGHT Under God. Add the words: " We hold these Truths to be self-evident, that all men are created equeal, that they are endowed by their creator with certain unalienable Rights, that among these are Life," That in its self rules " Abortion Un-Constitutional in America" One has no Right to deny life to that whom is CREATED.

Democracy under God Almighty, of a republic by the democratic process.

Democracy under Anti-God, of a republic by the democratic process.

Democratic liberalism, Republican conservative I conceive Not to be an enemy of America as the move of

-5-

total immoderation against the traditions of my country.

thank you for your time
God bless America, God bless
the United States

Bonnie Waboy

PS. I have a list of God loving groups who are more than willing to extend love, compation, support to anyone who wants to put thir lives on a positive grass root to human sexuality and change their sexual behavior. I'd be more than happy to send it on honorable request.

We Have Met the Pedophiles and They Are Us

CHILD-LOVING

The Erotic Child and Victorian Culture.
By James R. Kincaid.

413 pp. New York: Routledge. \$35.

By Walter Kendrick

FROM April 1987 to January 1990, in Los Angeles, Raymond Buckey and his mother, Peggy McMartin Buckey, were defendants in the longest criminal trial in American history. The pair were charged with some 100 child molestations at their McMartin Pre-School in suburban Manhattan Beach. Five teachers had also been arrested, on more than 200 charges of child molestation, but the charges against them had been dismissed for lack of evidence. At the trial, only the two Buckeys remained, facing 65 charges.

On Jan. 18, 1990, they were acquitted of 52 of the charges; the jury remained deadlocked on the rest. The case might have ended there. But it did not. Raymond Buckey (who had spent five of the last seven years in jail) stood trial alone on the 13 leftover charges, later trimmed to eight. Finally — as James R. Kincaid reminds us in "Child-Loving: The Erotic Child and Victorian Culture" — on July 27, 1990, a mistrial rang down the curtain on "the Buckey matter," setting free both Raymond and "those of us who had become experts" on it.

Walter Kendrick is a professor of English at Fordham University. His books include "The Thrill of Fear: 250 Years of Scary Entertainment" and "The Secret Museum: Pornography in Modern Culture."

Mr. Kincaid was one of the experts. Day after day, along with a few other observers, he sat in the courtroom listening to repetitious claims and counterclaims, most of them horrific as well as mind-numbing. He was writing about the case; that was his excuse. But as he took notes, he thought: "Who asked me to attend and to write? Who put this event there for the watching and writing — and why?"

On June 25, 1990, one of the prosecutors, Pam Ferrero, referred the court to "the official transcript, page 55,000." Mr. Kincaid mused: "And after page 55,000, we have not 'The End' but page 55,001. We will never have 'The End.' We will never have 'The Truth' either. And that's what the trial is for, I have decided, which is why both the judge and I attend. We are both there to take our parts in a process whereby the end and the truth are centered and held in suspension by being textualized in a way so remarkably sophisticated that our interest will never be exhausted."

*The Victorians would find
our attitudes about sex
and the erotic aspects of
children humorless, rigid
and utterly boring.*

One might well ask why Mr. Kincaid, a professor of English at the University of Southern California and the author of scholarly works on Charles Dickens and Anthony Trollope, spent so many hours at a sensational child-molesting trial. What, indeed, is the Buckey matter doing as the climactic chapter in his "Child-Loving"? If this is "an academic book" (Mr. Kincaid says it is), it's a strange one. It focuses not on the dead, dry past but squarely on our present cultural malaise.

According to Mr. Kincaid, he attended the Buckey trial as the people's representative, the self-appointed stand-in for a nation of pedophiles. In his view only a tiny percentage of us actually seek sex with children, but all of us are trapped inside a vast cultural mechanism that keeps "the erotic child" constantly before our eyes. "In saying so loudly that pedophilia is monstrous, even impossible, aren't we building up a chorus that sings of how the sexual attractiveness of children is indubitable and pedophilia is inevitable? What could be more normal than this monstrousness?"

Mr. Kincaid does not, of course, deny the existence of child abuse, including sexual molestation. But he points out that the pathological condition called pedophilia is quite rare and leads to very few crimes; the statistics, he says, offer no justification for the nonstop "chatter" about pedophilia that comes at us from newspapers, television talk shows, even milk cartons with their plaintive pictures of missing children. He cites, "By Silence Betrayed: Sexual Abuse of Children in America," a 1988 book written by the investigative reporter John Crewdson, which reveals police files showing that 95 percent of missing children are "runaways or throwaways," while most others are being held by parents in custody disputes. But cultural myths

Continued on next page

THE NEW YORK TIMES BOOK REVIEW 5

The Pedophiles Are Us

Continued from preceding page

tell a more lurid story, the one about the pervert in a trench coat lurking at the playground's edge with a pocket full of candy and a car idling nearby.

This "public legend," as Mr. Kincaid calls it — in what he says is a "sweeping claim" designed to "counter the swoops on the other side" — is virtually the opposite of fact: "There is no evidence that any child abduction or prostitution rings exist; no commercial child erotica is now published, except by the F.B.I. for sting operations; pedophiles, such as may exist, are gentle and unaggressive." Yet this story "has no currency"; when inconvenient facts do get brought forward, we regard them "as never having been said."

We theoretical pedophiles — Mr. Kincaid speaks confidently of us throughout "Child-Loving" — prefer the "wretched cultural narrative" about the stranger with the candy and the constant peril in which he puts our children. Mr. Kincaid maintains that the terrible truth is that we like this story because it turns us on: "By creating Gothic melodramas, monster stories of child molesting, and playing them out periodically (often), we provide not just titillation but assurances of righteousness," he writes. "Demonizing the child molester... we can connect to a pedophile drama while pretending to shut down the theater. Most pointedly, we use our legal system to provide us with access to these guilt-free forms of scapegoating pornography."

These are outrageous charges, but "Child-Loving" makes them stick. Mr. Kincaid's main concern, however, is not merely to indict the present. He wants to show how we got this way, or at least that we got this way, that we have not always been snared in a deadly web of lewdness and hypocrisy. And he wants to mark some escape routes, to point out other ways of looking at our children and ourselves, to suggest better stories to tell.

The first aim is well served by the refreshingly open-minded survey of Victorian culture that takes up the bulk of "Child-Loving." Indeed, if Mr. Kincaid's assault on us were not so scathing and irrefutable, his treatment of our great-grandparents would raise eyebrows on its own. His broad thesis is that the child —

"not, in itself, anything" — has been gradually eroticized for some 200 years, ending in our present prison. For the Victorians, the process was incomplete and the walls still had gaps; unlike us, the Victorians could run outside to play.

Mr. Kincaid's Victorians are incorrigibly playful, bad boys and girls, all of them. Discussing scores of texts, from medical treatises to novels, he repeatedly points out where the fun begins. Few readers have chuckled over Richard von Krafft-Ebing's "Psychopathia Sexualis," that compendium of horrors, but Mr. Kincaid notes Krafft-Ebing's "elaborate play in and with his subject." Fewer still have romped with Havelock Ellis, but Mr. Kincaid finds "jokey buried metaphors" (as well as "comic timing and delivery") in Ellis's "Studies in the Psychology of Sex."

IN the Victorian worldview, the "erotic child" was a ramshackle structure, leaving room for exuberance, happy self-contradiction and plenty of what-the-hell shrugs. Some Victorians fretted about masturbation as the scourge of youth; the 20th century has enshrined them as typical. But Mr. Kincaid cites several Victorian experts on child rearing who ignored the scourge entirely — not, he surmises, because it was "terrifying" or "unspeakably indecent," but because they "did not think it worth mentioning."

"That a culture," Mr. Kincaid writes, "particularly the Victorian culture, could be more or less aware of sex without paying it a lot of attention seems to us impossible." But it is we, not the Victorians, for whom sex lurks everywhere and must be constantly tussled with. We are also unable to see sex (or children) except in terms of power relations. So we have emptied out the child and filled that enticing blankness with erotically charged fantasies of dominance and submission, meanwhile denying that we've done any such thing.

Mr. Kincaid borrows his notion of "power" from Michel Foucault, though he applies it more literally than Foucault did. For Mr. Kincaid, "power" is the enemy, the stultifying force that paralyzes our cultural imagination and harms children and adults alike. He proposes to elude power's ploys with what he calls "deconstruction," though his use of this borrowed term is far more rambunctious than that of its originators, Jacques Derrida and Paul de Man.

Mr. Kincaid finds one escape route in "deconstructive" or "lascivious" readings of an eclectic assortment of novels, from Dickens's "David Copperfield" to J. D. Salinger's "Catcher in the Rye." These brief treatments are shockingly perverse but quite plausible, especially that of "Catcher," which in Mr. Kincaid's hands becomes "pornography only, mere voyeuristic delight." If power cannot be evaded it can at least be mocked, and Mr. Kincaid has a high old time doing just that.

"Power," he says, "might be not so much replaced as tripped up, made the victim of a whoopee cushion. Deconstructed, in a word, de-centered by way of alternative centers." We can deconstruct the past by letting it show us its "unrelatedness," its "difference" from itself and from us, its "contradictory patterns, not so much competing with one another as bouncing along side by side in an incoherent game." If we let the Victorians have their "deconstructive fun," maybe we can have some ourselves.

"We are right now caught," Mr. Kincaid concludes, "in a terrible, playless power game no decent person would want to enter. I want to find a way into a game which plays." Play might seem the last thing the Victorians have to teach, but if Mr. Kincaid's Victorians could get a look at us, we would no doubt strike them as a bunch of hysterical hypocrites — leering at children while we shriek about their innocence, warping children horribly in the loudly avowed cause of protecting them. These Victorians would find us humorless, rigid and extremely boring.

We can learn a good deal from them, and from "Child-Loving." Despite his apparently grim subject, Mr. Kincaid has written a playful book, full of its own happy incongruities. He displays formidable erudition, but his style is rarely academic; he even dares to end a discussion with "But who knows?" Of course, chummy informality is a fad right now among academic writers, as is deep interest in outré sexual matters. "Child-Loving" is a highly trendy book.

But it's much more than that. Mr. Kincaid himself deserves the praise he bestows on the French historian Philippe Ariès: he has written "the rarest kind of history, a history of the present... exposing our own constructing apparatus, freeing us, at least a little, from the tyranny of our eccentric seeing."

PHOTOCOPY
PRESERVATION

§130.38 Consensual sodomy.

A person is guilty of consensual sodomy when he engages in deviate sexual intercourse with another person.

Consensual sodomy is a class B misdemeanor.

§130.40 Sodomy in the third degree.

A person is guilty of sodomy in the third degree when:

1. He engages in deviate sexual intercourse with a person who is incapable of consent by reason of some factor other than being less than seventeen years old; or

2. Being twenty-one years old or more, he engages in deviate sexual intercourse with a person less than seventeen years old.

Sodomy in the third degree is a class E felony.

§130.45 Sodomy in the second degree.

A person is guilty of sodomy in the second degree when, being eighteen years old or more, he engages in deviate sexual intercourse with another person less than fourteen years old.

Sodomy in the second degree is a class D felony.

§130.50 Sodomy in the first degree.

A person is guilty of sodomy in the first degree when he engages in deviate sexual intercourse with another person:

1. By forcible compulsion; or

2. Who is incapable of consent by reason of being physically helpless; or

3. Who is less than eleven years old.

Sodomy in the first degree is a class B felony.

§130.55 Sexual abuse in the third degree.

A person is guilty of sexual abuse in the third degree when he subjects another person to sexual contact without the latter's consent; except that in any prosecution under this section, it is an affirmative defense that (a) such other person's lack of consent was due solely to incapacity to consent by reason of being less than seventeen years old and (b) such other person was more than fourteen years old, and (c) the defendant was less than five years older than such other person.

Sexual abuse in the third degree is a class B misdemeanor.

§130.60 Sexual abuse in the second degree.

A person is guilty of sexual abuse in the second degree when he subjects another person to sexual contact and when such other person is:

Article 130—Sex Offenses**Section**

130.00. Sex offenses; definitions of terms.

130.05. Sex offenses; lack of consent.

130.10. Sex offenses; defense.

130.16. Sex offenses; corroboration.

130.20. Sexual misconduct.

130.25. Rape in the third degree.

130.30. Rape in the second degree.

130.35. Rape in the first degree.

130.38. Consensual sodomy.

130.40. Sodomy in the third degree.

130.45. Sodomy in the second degree.

130.50. Sodomy in the first degree.

130.55. Sexual abuse in the third degree.

130.60. Sexual abuse in the second degree.

130.65. Sexual abuse in the first degree.

130.67. Aggravated sexual abuse in the second degree.

130.70. Aggravated sexual abuse in the first degree.

§130.00. Sex offenses; definitions of terms.

The following definitions are applicable to this article:

1. "Sexual intercourse" has its ordinary meaning and occurs upon any penetration, however slight.

2. "Deviate sexual intercourse" means sexual conduct between persons not married to each other consisting of contact between the penis and the anus, the mouth and penis, or the mouth and the vulva.

3. "Sexual contact" means any touching of the sexual or other intimate parts of a person not married to the actor for the purpose of gratifying sexual desire of either party. It includes the touching of the actor by the victim, as well as the touching of the victim by the actor, whether directly or through clothing.

4. "Female" means any female person who is not married to the actor. For the purposes of this article "not married" means:

(a) the lack of an existing relationship of husband and wife between the female and the actor which is recognized by law, or

(b) the existence of the relationship of husband and wife between the actor and the female which is recognized by law at the time the actor commits an offense proscribed by this article by means of forcible compulsion against the female, and the female and actor are living apart at such time pursuant to a valid and effective:

(i) order issued by a court of competent jurisdiction which by its terms or in its effect requires such living apart, or

(ii) decree or judgment of separation, or

(iii) written agreement of separation subscribed by them and acknowledged in the form required to entitle a deed to be recorded which contains provisions specifically indicating that the actor may be guilty of the commission of a crime for engaging in conduct which constitutes an offense proscribed by this article against and without the consent of the female.

5. "Mentally defective" means that a person suffers from a mental disease or defect which renders him incapable of appraising the nature of his conduct.

The Law defines the legal difference between "child abuse" and the act of "sodomy" now tell me you are not supportive of sodomy!

*Sam Sheehan
fys*

Dear Mr. Donaldson:

Per our conversation on March 2, 1994, I am forwarding you the materials relative to the Boston Federal Executive Board, Regional AIDS Task Force. You will note from the documentation that the Task Force is a result of my commitment to combatting the HIV/AIDS epidemic. I saw a need to educate and train federal employees in an effort to promote a proactive rather than reactive approach to addressing this disease. As I explained, Dr. Joy Koenig and I were Co-Chairpersons from the inception of the Task Force in 1990 until she resigned in early 1992. I was Chairperson and Marvin Kabakoff was Co-Chairperson until my health forced me to resign in December 1992.

I am also enclosing a copy of the letter to our Regional Director in which we are requesting that the DHHS Regional Director's HIV/AIDS Advisory Committee be reactivated. I will keep you apprised of the progress in this area.

I am currently taking an HIV/AIDS and Substance Abuse Education Certificate course at the Boston University School of Public Health in the School of Medicine. Upon completion of this course I will be a Certified HIV/AIDS Substance Abuse Counselor. While I have presented HIV/AIDS education and training sessions for the FAA, HCFA and the various church groups, this will further qualify me to provide HIV/AIDS education and training.

Again, my sincere thanks to you, Lance Alworth and Michael Kinsella for taking the time from your busy schedules to meet with us during your visit here in the region.

Sent 3/21/94

THE WHITE HOUSE
WASHINGTON

March 11, 1994

The Honorable J. Jarrett Clinton, M.D.
Administrator
Agency for Health Care Policy and Research
Rockville, MD 20852

Dear Dr.  Clinton:

The Office of National AIDS Policy has established as a primary goal to maximize our nation's investment in the search for better treatments and better prevention methodologies for HIV/AIDS. As a part of this effort, I have directed my staff to prepare a "Compendium of Federal HIV/AIDS Research Programs." This Compendium will summarize all biomedical, behavioral and resource programs in HIV/AIDS research funded in whole or in part by the federal government.

We hope the completed Compendium can be cross-referenced in a way that will enable all agencies to take better advantage of opportunities for improved coordination. The Compendium could help fill gaps in our scientific knowledge, enhance efficiency of federal programs, and avoid unnecessary duplication. Your timely attention to this important endeavor will be greatly appreciated.

Please provide the following information for each agency within your Department:

1. A short summary of any on-going or planned HIV-related research programs, categorized by "area of emphasis," as in the "National Institutes of Health Five-Year Plan for HIV-Related Research" (enclosed). If no intramural or extramural research is funded by an agency in any category listed below, please so indicate.

Scientific:

- ♦ Natural History and Epidemiology
- ♦ Etiology and Pathogenesis
- ♦ Therapeutics
- ♦ Vaccines
- ♦ Behavioral Research

Resource:

- ♦ Training and Infrastructure
- ♦ Dissemination of Research Findings

2. Estimated annual HIV/AIDS research budget for each

agency for fiscal years 1993 through 1995. Please indicate percentages of intramural and extramural funding, and percentages of funding awarded to private nonprofits (universities), private industry, and foreign agencies. When possible, please provide budget information categorized by above areas of emphasis.

3. Current contact information for coordinators of HIV/AIDS research programs for each relevant area of emphasis in your agency.
4. A listing of existing or planned inter-agency and inter-departmental collaborations, and a description of current planning mechanisms for establishing inter-agency collaborations (note area of emphasis if applicable).
5. A complete listing of external advisory committees chartered in whole or in part to provide consultation on planning and evaluation of HIV/AIDS research programs, or to review grant or contract applications. Please include the name and telephone number of the executive secretary or other contact for each committee (note area of emphasis if applicable).

Use existing materials where possible. Please send this information by COB (April 25) to:

HIV/AIDS Research Program
Office of the National AIDS Policy Coordinator
Executive Office of the President
750 17th Street, N.W.
Suite 1060
Washington, D.C. 20503

The Compendium of Federal HIV/AIDS Research Programs should be helpful to all agencies in planning and evaluating related activities. Copies of the completed compendium will be provided to your agency. For additional information, please contact Mr. Terry Beswick at (202) 690-5560. Internet: TBESWICK@OASH.SSW.DHHS.GOV.

A similar letter is being sent to all relevant Federal departments and independent agencies.

Thank you for your cooperation.

Sincerely,

Kristine M. Gebbie, RN, MN
National AIDS Policy Coordinator

March 11, 1994

Mr. Norman C. Sweet
16 Coleman Avenue
Hudson Falls, New York 12839

Dear Mr. Sweet:

Thank you for sharing with me your thoughts on the need for HIV/AIDS education in schools. As you know, the President appointed me National AIDS Policy Coordinator to lead the Federal government and the Nation in the fight against HIV/AIDS. The President and I are committed to stopping the spread of HIV, to provide adequate care for those already infected and to finding a cure for AIDS as soon as possible.

I am encouraged to hear of your interest in obtaining HIV/AIDS prevention education in your school. As you may know, the curriculum of most schools in the country is decided at the state and local levels, where school boards decide what will be taught in specific school districts. As National AIDS Policy Coordinator, I support teaching of comprehensive health education, which includes comprehensive sex education, in schools. I believe that this comprehensive health education must be appropriate for the age of the student and must educate individuals on a positive self-perception of sexuality. I also believe the parents must be involved in encouraging the students to understand themselves and their own bodies.

The Education Department and the Department of Health and Human Services are working with school districts throughout the country on the delivery of comprehensive health education. However, this work will not be possible without individuals such as yourself becoming involved in the decision-making process at the local level. I would like to encourage you to discuss your concerns with your parents, teachers and others that are genuinely interested in your health.

On your request for information, the best sources of materials are the National AIDS Hotline, which you can call directly and confidentially at 1-800-342-2437. There is a toll-free line for young people called Teens TAP, run by teens for teens. They can be reached at 1-800-234-8336 between the hours of 4:00-8:00 Central Time. On having someone participate in one of

Page 2 - Mr. Norman C. Sweet

your classes, you can contact Carlos Velez of my office at (202) 690-6248 and he will be able to assist you in obtaining ideas.

Thank you again for sharing your concerns with me. Please continue to communicate your with me in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "Kristine Gebbie". The signature is fluid and cursive, with a large initial "K" and a long, sweeping underline.

Ms. Kristine Gebbe
4400 Massachusetts Ave. Northwest
203 Anderson, Washington D.C. 22016-8101

Dear Ms.

I was personally very excited to see A.I.D.S Awareness Day on Wednesday, December first. I feel it's very important to tell everyone about this hidden killer. Being the A.I.D.S. Czar, I'm turning to you for help. In a small village like Hudson Falls, many people seem to think they are invincible and that this "gay disease" can't hit home. On my local level I'm requesting information and materials so that I may support the fight. Marc Cerro is coming into my Participation in Government class, but I'm afraid they won't listen because they know him. Therefore, I ask if someone in addition also come.

I know people who have A.I.D.S. and a few more I worry about, so it has hit home for me and frankly I'm worried and scared. Ultimately I ask you to create or at least support any bills to make it mandatory to educate all schools throughout the nation. If we do this, I believe we can conquer this killer.

If there is anything I can do please contact me and I will be fully ready and willing to help out in any way I can. Thank you for your time and consideration.

Sincerely,

Norman C. Sweet

Miss Christine Gebbe
440 Mass. Ave. Northwest
203 Anderson
Washington, D.C. 20016-801

Dear Miss Gebbe:

I am writing to you because I feel every school throughout the United States should have a mandatory A.I.D.S. seminar every year.

I am a twelfth grade student at Hudson Falls High School in Hudson Falls, New York. I am very concerned about the growing rate of A.I.D.S. among teenagers today. I believe that the spread of disease occurs through finding a cure as well as by educating the population.

Last year my school sponsored a very thorough seminar on A.I.D.S. that will probably never again be held. The reason for this is that some parents were upset by the explicit content of the program. Many questions were raised by the students who were in attendance. If the seminar had not been held, who would have answered our questions properly and informed us so well of the dangers A.I.D.S. presents?

Public school Principals do not have enough power to promote such informational programs. They usually do what parents want and tend to stay away from opposition and controversial topics.

State governments may choose not to support a mandatory A.I.D.S. education program. Therefore, I feel it should be enacted on a Federal level.

Parents have the right to their opinions, but we teenagers have a right to a good education and, most importantly, a right to save our lives.

Sincerely,

Nancy E. Roberts

Dear Ms. Gebbie:

Thank you for accepting our invitation to be a speaker on the topic Economic and Social Consequences of the HIV Epidemic at the first Governor's Conference on Health - "Building Shared Visions" on June 8-10, 1994. The vision for this Conference is to provide national, state, and local experts to meet with others who share a common commitment to transform the health system and improve the quality of life. The Conference will be held at the Indiana Convention Center in downtown Indianapolis, Indiana. Your presentation is on Friday, June 10, 1994, between 10:30-12 noon.

The mission of the Conference is to provide an innovative forum that will challenge participants to transform traditional approaches into innovative ways of addressing disease prevention and health promotion. The Conference builds on the three functions of public health--as addressed in the Institute of Medicine Report, The Future of Public Health: assessment, policy development, and assurance.

We will convene approximately 1,000 to 1,200 public and private health care providers, private industry representatives, public health officials, and consumers from throughout Indiana and many other states. As a speaker, you will join Mrs. Tipper Gore, keynote (invited), and other outstanding individuals in the health and environmental arena.

We hope you share our excitement about the unique nature of this Conference and the opportunities it provides to discuss new ideas, and to challenge the participants to build shared visions and achieve health objectives. Should you need additional information, please contact Sue Percifield (317/633-0816) or Linda West (317/633-0109).

Regulatory Impact of Safe Drinking Water Act F3. New Approaches to Infectious Diseases F4. Injury Prevention for Special Populations	2:30-3:00pm Closing General Session: Weaving Assessment Policy and Assurance Together Speaker: <i>Carol Browner</i>

Conference on Health FACT SHEET

INDIANA STATE DEPARTMENT OF HEALTH

- Event:** Indiana Governor's Conference on Health
- Date:** June 8-10, 1994
- Location:** Indiana Government Center and Indiana Convention Center
- Title:** Building Shared Visions
- Mission:** Provide an unprecedented opportunity for national, state, and local experts to interface with a wide cross-section of individuals interested in the health of the public. Innovative approaches to transform the functions of assessment, policy development, and assurance will be shared. Emphasis will be placed on new ways of looking at old problems and emerging challenges.
- Audience:** 1000-1500 persons interested in health from a new perspective, especially in Indiana (e.g. regulated communities, health providers, third party payers, public health officials).
- Set-up:** Keynote speakers will set the stage for national, state and local experts to discuss innovative uses for data, contemporary policy challenges, and an array of methods for assuring quality in the arena of health. There will be six tracks that expound on the three functions of health.
- Six Tracks:** Data Analysis/Research
Evaluation/Outcomes
Contemporary Emerging Issues
Data Acquisition
Collaborative Partnerships
Treatment/Interventions

REQUEST FOR SPEAKER RESPONSE
1994 GOVERNOR'S CONFERENCE ON HEALTH

Please respond to the following:

"Why is the topic you have been invited to address at the 1994 Governor's Conference on Health important?" (one sentence please)

Response: _____

May we use your answer for promotional purposes?

☐ Yes ☐ No

Speaker _____

Please return by February ^{25th} 11, 1994, to:

Linda West
Indiana State Department of Health
Room 420S
1330 West Michigan Street
P.O. Box 1964
Indianapolis, IN 46206-1964

AUDIO/VISUAL REQUEST FORM

1994 GOVERNOR'S CONFERENCE ON HEALTH

- ☐ No Audio/Visual Equipment required. (If you require no equipment, please complete by placing ✓ in corresponding box and return.)

Please indicate which of the following audio/visual equipment you need for your presentation:

- ☐ Slide Projector
- ☐ Overhead Projector
- ☐ VCR Tape Format: ☐ 1/2" VHS ☐ 3/4" Umatic ☐ Other _____
(list format)
- ☐ Other, list item required _____
(You will be contacted by telephone verifying availability of other equipment)

HANDOUTS

Copies of handouts are the responsibility of the presenter. No copies will be made by the program committee.

Speaker: _____

Dear Ms. Gebbie:

I am writing to invite your participation in the National Alliance to End Homelessness's Second Membership Conference, Ending Homelessness: Putting The Pieces Together. The conference will be held May 19 - 21, 1994 at the Doubletree Hotel located at 300 Army Navy Drive, Arlington, VA. We expect 150 - 200 Alliance members, nonprofit and public affordable housing and service providers, from around the country to attend this conference which will feature workshops and panel discussions on SRO housing, transitional housing and service programs, Job training and readiness, legislative and federal policy updates, opportunities for members to network with one another, and more.

I am inviting you to give a Presentation on Friday, May 20th from 10:00 - 11:15 a.m. I would like you to discuss the National AIDS Policy Office's role in helping to end the tragedy of homelessness for persons living with AIDS/HIV. Also, a government-wide update on AIDS specific programs, including who can apply and their funding levels, would be helpful to our members. If this time does not fit your schedule, we can schedule you for another time; the conference will be in session from 9:00 a.m., Friday, May 20th through 12:30 p.m., Saturday, May 21st.

Ms. Gebbie, we hope you will be able to join us at this important Alliance conference. Jill Rathbun from the Alliance staff will be in touch with your office next week. Thank you for your consideration.

Sincerely,

Thomas L. Kenyon

FEB 16 1994

Dear Ms. Gebbie:

Please come to Portland, Maine to address a statewide HIV/AIDS conference designed for the general public and health professionals on June 8, 1994. Sponsored by the University of Southern Maine's Departments of Continuing Education for Health Professions and Community Programs, this unique conference will bring together the general public and health professionals for the purpose of discussing the sharing of the responsibility for preventing, educating, supporting and understanding HIV/AIDS.

As you will note from our enclosed catalog, we continue to educate nurses and other health professions about HIV/AIDS. This conference is unique in that people affected by or infected with HIV/AIDS, the business community, those in schools as well as health professionals will be joining together to learn more about preventing and understanding this disease.

The format of the conference is flexible to accommodate your schedule; therefore, you could present either the keynote address 8:45-9:45 a.m. or a general session from 1:30-2:30 p.m. or the closing session from 3:30-4:30 p.m. We are open to other time frames as well.

We are willing to pay your travel expenses and sincerely hope that you will be available to address our conference. We are very excited about the conference and look forward to hearing from you.

Cordially,

Mary Ann Rost

Rhetaugh G. Dumas, Dean
School of Nursing
University of Michigan
400 North Ingalls
Ann Arbor, Michigan 48109-0482

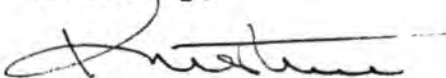

Dear Rhetaugh:

"Choosing the Venturesome Journey" is certainly an appropriate title for the celebration of your career contributions. I am honored to have travelled part of the way with you.

It was venturesome on your part to even include me, as we first met in the early 1970's, when you named me to the NIMH nursing education grant review process. I think I got in because your drive toward diversity required the inclusion of "younger voices." I was a brash young faculty member at St. Louis University, and thrilled to have a chance to participate in a national effort. The exposure to you and other leaders which this afforded me expanded my horizons, increased my confidence in making a difference, and taught me much about how to communicate difficult issues.

While we have had far less direct contact in the ensuing years, I have treasured our short visits, and hope that they will continue in the years to come. Wherever you go next on this journey, know that there are many of us who would join another segment, sure that there would be learning and laughter along the way! My very best wishes to you.

Sincerely,

Kristine M. Gebbie, R.N., M.N.

February 3, 1994

Steve Lee
Scheduler to Kristine Gebbie
National AIDS Policy Office
750 17th St. N.W. Suite 1060
Washington, D.C. 20006

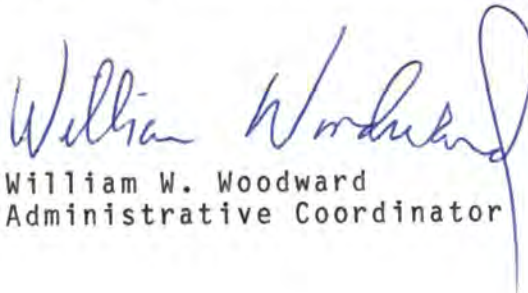

Dear Mr. Lee:

The Adirondack AIDS Task Force in association with The Adirondack Community College in Glens Falls, N.Y. annually sponsors a symposium on AIDS issues for the local Northern New York area. This is one of three yearly events designed to bring media attention and spark awareness in this very rural area. The number of HIV infected persons continues to increase in this area and the local citizens need continual enlightenment. The increase in rural HIV exposure is alarming and our area is a conservative one with little chance for media coverage unless the events and presenters are of national status. I feel that Kristine Gebbie could draw a great audience, that the media would get involved and that our message could be loudly heard.

The Symposium is being held on Monday April 25 from 7-9 pm. We are one hour from Albany Airport and accommodations could be easily arranged. Please let me know as soon as possible about availability, fees and special needs.

If this date is not available, could we look into doing something in the month of September.

Thank You For Your Consideration,

William W. Woodward
Administrative Coordinator

regrets.

Memorandum 2/24/1994

To: Steve Lee and Kristine Gebbie

From: Marc Cerro

Subject: Adirondack AIDS Task Force Request

I am writing this memo because I strongly believe that it would be worthwhile for our office to send a representative to the Adirondack AIDS Task Force event in Glens Falls, NY on April 25th. I realize that I am not in any position to recommend how this office should make its plans but I have a very special interest in this event. The site of this event is no more than ten minutes from my home. Because of my work in this office, I realize more and more that people, especially in my area, are not getting the message about AIDS and AIDS prevention. I live in a conservative, rural area that believes itself to be immune from this epidemic. This is very scary to me! I think it is very important to hit these areas, because it is in places like these that we can stop the spread of this epidemic before it gets out of hand.

I realize that this is an out-of-the-way location but I could make it worthwhile by planning other events. I could easily set up a speaking engagement at my former high school with an audience of approx. 1000 people. Glens Falls is also 45 minutes from Burlington, VT and 50 minutes from Albany, NY. If you consider going to this event, I know that other high schools and/or colleges would graciously invite someone from our office to speak. I would be glad to set these up as well. I would also attend this event, at my own expense, to help in any way.

Last, and certainly least, I would like to extend a bribe. If our office does this event or any other event in my area, there is a fantastic home-cooked waiting for who ever goes.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read "Marc A. Cerro".

200 Independence Avenue SW
Washington, DC 20201

Dear Ms. Gebbie:

Baptist Hospital has been awarded a special grant for a Distinguished Nursing Lecture Series. This year will be the inception of our program, during National Nurses Week. The overwhelming request for information is the current situation in health care, and the role of nurses in reform.

We are writing to request your consideration to be the keynote speaker for our program. We have tentatively chosen Tuesday, May 11, 1994 at 5:00 PM for the presentation, and anticipate having over 400 Baptist nurses in attendance.

Could you please notify me if you would be able to accept this speaking engagement, as well as your customary honorarium. In addition, compensation would be furnished for travel and other expenses.

We are looking forward to hearing from you in the near future, and continuing discussion for our program.

Sincerely,

regult

March 9, 1994

Kristine Gebbie
Executive Office of the President
750 17th Street, NW, Suite 1060
Washington, DC 20530

Dear Kristine Gebbie:

The D.C. Women's Council on AIDS would like to cordially invite you to be our special guest at a reception celebrating Women's History Month. The reception will be held to reflect on the history of women's health and to honor those women who have had a positive and significant impact on the current status of women's health issues.

The D.C. Women's Council on AIDS is a non-profit, community based organization with a mission to provide education, prevention, case management, and support services to women at risk for HIV infection, women infected with HIV/AIDS and their families. The Council is the only women's specific HIV/AIDS service organization in the Washington metropolitan area and, indeed one of the few such organizations in the country.

The reception will be held on Wednesday, March 30, 1994 from 5:30p.m. to 7:00p.m. at Galerie Letailleur, 201 Massachusetts Avenue, NE. Members of the HIV/AIDS policy and service communities in Washington will also be invited to attend this reception. As a special guest, we would like you to address a moment in the history of women's health and how you personally believe it has impacted women's health today. We apologize for this short notice and, in light of same, will only ask for informal and brief comments of three to four minutes.

Please contact me or Jennifer Chambers by Friday, March 11, 1994 to respond to the invitation. Your work on women's health issues, particularly in the realm of HIV and AIDS, has been monumental. We hope you will be able to attend the reception so that we might personally express our appreciation. Thank you very much for your time and support!

Sincerely,

Gayle Terry

RE: Dr. Randall Jacob Interview on AWARE: HIV TALK RADIO

Dear Ms. Gebbie:

Thanks for your lead to Dr. Randall Jacob. His interview on the radio program went quite well. For your review, I have enclosed a cassette copy of the program *Coping with The Death of A Love One*. I have also enclosed a second copy of the tape - in the event you would like to pass this along to Mr. Clinton.

Secondly, attached you will find a copy of a letter forwarded to your office (c/o Mr. Steve Lee) requesting a second interview with you and requesting you to be our keynote speaker at an upcoming benefit event to support Aware: HIV Talk Radio's continued national syndication.

I look forward to a second interview with you, and sincerely hope you will be able to address the gathering of Chicago political, corporate, civic and health care leaders attending the benefit event. Your presence will help make the benefit a successful and meaningful event. Most importantly, your support for the continued syndication of the radio program will be greatly appreciated and will help make a significant difference.

With best regards,

Christopher J. DeChant

Re: AWARE: HIV TALK RADIO

Dear Ms. Gebbie:

Per my last letter to your office, I am writing to follow-up on our conversation last fall regarding the taping of a second interview with you on Aware: HIV Talk Radio, and to begin the process inviting President Clinton to deliver a message to the nation on this same program regarding HIV disease prevention and care.

This edition of Aware: HIV Talk Radio will air on all affiliated Aware: HIV Talk Radio stations, as well as be broadcast over the National Public Radio Satellite System to approximately 485 radio stations across the United States.

Secondly, I am writing to invite you to be the honored guest speaker at Aware: HIV Talk Radio's second annual syndication fund raising event - Brunch and All That Jazz - on Sunday, May 15, 1993. Last year, Miss America 1993, Leanza Cornett, was our guest speaker for the brunch attended by more than 400 of Chicago's business, civic, political and health care leaders.

The purpose of this event is simple - to raise additional private funds to help continue the national syndication of Aware: HIV Talk Radio. While the program is now broadcasting in seven U.S. cities on nine radio stations - reaching approximately 180,000 people each week, the HIV Talk Radio Project's goal and the need for the information is much greater. By the end of 1994, we hope to be broadcasting in 15 - 20 cities to 500,000 - 600,000 listeners each week. (I have attached a few press clips on recent new stations of broadcast.)

While your work keeps you behind the scenes much of the time, I believe your contribution to this event would be of great value in forwarding our mutual causes of increased - and more effective - understanding of HIV disease, its prevention, its treatment and - hopefully - its management and abeyance.

For your review, I have enclosed a cassette copy of the interview with Miss America 1993 which broadcast nationally last year over the Public Radio Satellite System, as well as press clips and an invitation/program from last year's benefit. Also, I have included a cassette copy of the second part of your interview on Aware: HIV Talk Radio, broadcast nationally between January 9 and January 16.

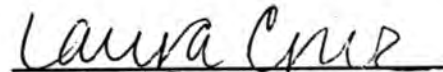

I will contact Steve Lee to follow-up on these requests, and to see if we may schedule a brief phone conversation to discuss the same.

Again, thank you for your participation as a guest on Aware: HIV Talk Radio. I believe your contribution on the radio program and your "mission" in Washington, D.C. of extraordinary value and I hope to have the opportunity to work together again.

AIDS Radio Show to Go National

By Roger Flaherty
Staff Writer

An unusual weekly radio show on AIDS begun here last summer is going into national syndication, it was announced Sunday at a benefit featuring Miss America, Leanza Cornett.

Cornett, who has made AIDS awareness the focus of her year-long reign as the beauty pageant queen, was keynote speaker at a benefit for "Aware: HIV Talk Radio," a 30-minute program that airs Sundays at 7 a.m. on station WNUA-FM (95.5). Program hosts Chris DeChant, who was diagnosed as HIV-positive in 1991, and Sondra Roberts offer news on legal, social and medical issues pertaining to AIDS. A call-in segment lets listeners ask questions about the disease.

Latest ratings indicated about 19,000 people a week tune in, DeChant said.

He said Philadelphia radio station WKDU, a full signal student-run station, will begin carrying the show May 19 in a program featuring an interview with Cornett. Stations in five other cities are negotiating to carry the show, DeChant said.

"I realized there was need for a really easy way to get out information in an understandable format," he said. "I found that a lot of what was out, people were intimidated by or confused."

Shows in the past year have focused on topics such as what college students are saying about AIDS and how churches in the black community are reacting to the epidemic.

Obviously, DeChant said, the program draws large numbers of

SUN-TIMES/Ellen Domke

Leanza Cornett, Miss America 1993, gets a look at a special AIDS exhibit Sunday at the Museum of Science and Industry with Barry Aprison, project director and senior scientist.

listeners who are HIV-positive or members of at-risk groups. However, he said, the audience is wide-ranging. For instance, the show about college students drew many parents.

"They wanted to know what was going on with their kids," he said.

More than 100 Chicago companies sought copies of a show devoted to AIDS in the workplace, he said.

In an interview before the luncheon, Cornett said she has made AIDS awareness a central topic in talks around the country. She will speak today to students at Drummond Elementary School, 1845 W. Cortland.

"Most of the reaction has been very, very positive," she said. "That's exciting because I wouldn't have expected that. The resistance that is out there is very minimal. I've gotten letters from

people saying we don't want Miss America talking about sex, and that's fine. But hopefully the perception of most people about Miss America is changing."

Celebs

By Bill Zwecker

Geres' House-Hunting Is Haunted

Rumors of a sham marriage continue to haunt **Cindy Crawford** and **Richard Gere**, and their current house-hunting in Beverly Hills isn't helping matters. The couple have put their own La-La town house on the market, and they're reportedly interested in buying producer **Barry Levinson's** mansion. They've been back to look at it three separate times, and *separate* is the operative word. The Geres have never looked at the place together.

Complicating matters: **Sharon Stone**, Gere's co-star in "Intersection," is also hot-to-trot to buy Levinson's digs. L.A. Realtors expect quite the bidding war.

SHAKE IT UP, JIMMY: Former Gov. **Jim Thompson's** love of antiques has led to a story in next month's GQ magazine. Martinis are back in vogue,

and GQ is showcasing Thompson's collection of cocktail shakers.

WILLIE WATCH: When the medical residents at the Rehabilitation Institute learned Dr. **William Kennedy Smith** was headed here for a two-month rotation, "everyone was prepared not to like him," said a Rehab insider, referring to Smith's highly publicized Palm Beach rape trial, in which he was acquitted. But aside from being the butt of a few jokes, Smith is "a real hit with everyone—including staff and patients," adds another source, remaining anonymous to save her job. Rehab Director Dr. **Henry Betts** says Smith is "seriously considering" rehabilitation medicine as a specialty once he begins practicing.

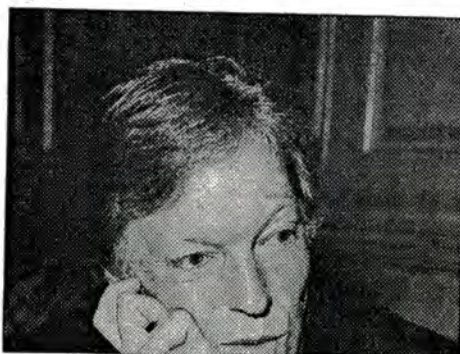

HERE SHE IS: Miss America

Leanza Cornett is whirling through town promoting her yearlong campaign boosting AIDS awareness. Cornett joins veteran retailer **Barbara Hammer** and your columnist to headline the brunch today at the Fairmont Hotel benefitting the not-for-profit "Aware: HIV Talk Radio" program, co-hosted by **Sondra Roberts** and **Chris DeChant**. The event, featuring jazz great **Diane Schuur**, will also kick off the national syndication of the show, which airs locally at 7 a.m. Sundays on WNUA-FM (95.5). ... Tomorrow, Cornett heads to Drummond School, 1845 W. Cortland, for a performance of HealthWorks Theatre's kids awareness show, "What's So Big About AIDS." Later that night, the Emerald Ball at Excalibur will raise funds for the theater company's programs.

OVERNIGHT

Miss America part of charm

By Michael Kilian

With Miss America 1993 Leanza Cornett at the beginning, knock-your-socks-off jazz vocalist/pianist Diane Schuur at the end and Grady Johnson's Jazz Quintet providing what sounded like a whole history of jazz in between, it was no wonder more than 400 people were willing to spend the better part of Sunday indoors at a Fairmont Hotel charity benefit when they could have been outdoors enjoying a picture-perfect spring day.

The occasion was the Aware: HIV Talk Radio Brunch and All That Jazz, which the sponsor intends to make an annual event, and it quickly proved to be a most enjoyable way to raise funds—an estimated \$25,000—for a serious cause.

This was Cornett's third stop in Chicago since winning her crown last September—a grinding road tour of some 20,000 miles a month.

Much of her zeal has to do with her personal cause of AIDS awareness, which she and brunch sponsor WNUA-FM were championing long before she entered the beauty pageant.

But her zest to get on with it may also have to do with her plans for the future that begins when the 5-foot-3 raven-haired Floridian turns in her crown this fall.

"I'm going to New York, and I'm going into show business!" she said, in an effervescent chat before the jazz brunch began. "I'm going to go to NYU and live in Greenwich Village, and I'm going to go on the stage—probably musicals. I'm going to start auditioning now. I hope it's Broad-

Tribune photo by Walter Kae

Miss America 1993 Leanza Cornett chats with John Phair (left) of North-

western Medical School and radio host Chris DeChant at Sunday's benefit.

Benefit

way, but whatever, that's what I'm going to do!"

Somehow, whatever the odds, one doesn't think she's going to end up waiting on tables.

Going to the lectern—"the only one I've had that's shorter than I am," she noted—she launched into the AIDS subject with a no-holds-barred frankness seldom heard on any public speaking circuit, prompting Hinsdale socialite and jazz buff Warren

Barr to pass a note around his table that said, simply, "Wow!"

"She's outstanding," said Chicagoan Carolyn Gray, herself a Miss Florida and runner-up to 1971 Miss America Phyllis George. "The best I've seen."

Only one act could possibly have followed Cornett's, and that was Schuur's.

The two-time Grammy winner did just three numbers, concluding with a "Louisiana Sunday Afternoon" as soulful, passionate and hot as all New Orleans.

She and Cornett then had to leave for other gigs, but this was one benefit that could happily have gone on all day, if not all week.

Dear Ms. Gebbie:

On behalf of the American Organization of Nurse Executives Board of Directors, I would like to cordially invite you to be AONE's guest at our upcoming 1994 Annual Meeting to be held on April 10 - 13th at the George R. Brown Convention Center in Houston, Texas.

Our theme for the meeting is *"Exploring the Changing Universe of Health Care."* We expect this year's conference to bring together 1,800 nurse executives and nurse managers in a comprehensive, energizing four days of networking, professional development, organizational business, and relaxation. Please find attached a copy of the registration form. The meeting brochure will be sent under separate cover.

If you will be able to accept our invitation, please complete the registration form and return it by fax directly to the AONE Office, attn: Debbie Campbell-Henderson at 312-280-5995. We would appreciate your response by Friday, March 25.

If you have any questions about the Annual Meeting, please feel free to call AONE's Meeting Director Joan Riebock at 312-280-4427.

Sincerely,

Rhonda Anderson, M.P.A., R.N., F.A.A.N.

Dear Ms. Gebbie:

I'm writing on behalf of Rhode Island State Nurses' Association and the Rhode Island Department of Health to inquire about your availability to speak at our Spring Program on HIV which we are planning on having in April or May 1994. This program is partially supported by funding from the Department of Health, with its primary audience being nurses and nursing students.

We are planning a late afternoon program and at this time have flexibility in our selection of a day. Perhaps if you are travelling in this area, it might be possible to plan around that. Your availability is important in our program planning so that we would appreciate knowing either way of your availability as soon as possible.

I look forward to hearing from you. Please call if you have any questions.

Rhetaugh G. Dumas, Dean
School of Nursing
University of Michigan
400 North Ingalls
Ann Arbor, Michigan 48109-0482

Dear Retaugh:

"Choosing the Venturesome Journey" is certainly an appropriate title for the celebration of your career contributions. I am honored to have travelled part of the way with you.

It was venturesome on your part to even include me, as we first met in the early 1970's, when you named me to the NIMH nursing education grant review process. I think I got in because your drive toward diversity required the inclusion of "younger voices." I was a brash young faculty member at St. Louis University, and thrilled to have a chance to participate in a national effort. The exposure to you and other leaders which this afforded me expanded my horizons, increased my confidence in making a difference, and taught me much about how to communicate difficult issues.

While we have had far less direct contact in the ensuing years, I have treasured our short visits, and hope that they will continue in the years to come. Wherever you go next on this journey, know that there are many of us who would join another segment, sure that there would be learning and laughter along the way! My very best wishes to you.

Office of Natinal AIDS Policy
750 17 Street, NW, Suite 1060
Washington, DC 20503

Dear Ms. Gebbie:

On May 10, 1994, the School of Nursing will hold a celebration honoring the leadership of Rhetaugh G. Dumas as she "steps out" of the Deanship. The celebration will commence with a symposium beginning at 2:30 pm followed by a reception that will be held in the Horace H. Rackham Building. We hope you will save the date and plan to attend. You will be receiving an invitation with the details.

We have chosen as a theme, "Choosing the Venturesome Journey," borrowing from a presentation given by Rhetaugh in 1986.* As her professional and personal journey continues, we hope to recognize her "stepping out" as a milemarker on her journey.

You have traveled with Rhetaugh on a portion of her journey. As a partner on the path, we are asking you to write two or three sentences reflecting upon your experience. Your tribute will be included in a printed program to be distributed at the event. Please fax your brief quote to us before March 18, 1994, so that we can meet our printing deadlines. We need to emphasize that space will allow a maximum of three sentences. Our fax number is (313)936-3644.

*Let them

March 14, 1994

Margaret Sullivan
32 Pearl Street
Hyannis, MA 02601

Dear Mrs. Sullivan:

This is in response to your letter to Carol Rasco regarding the gp160 vaccine.

Thank you for taking the time to write and share your thoughts on the development of the gp160 vaccine. It is valuable for those of us in this Administration to hear from individuals like yourself who have personal experiences to share. In dealing with the AIDS crisis, President Clinton has undertaken a new commitment to AIDS research and prevention and to the development of improved care and treatment for those living with AIDS.

The plan for the gp160 vaccine trial was closely followed by my office, the Office of the National AIDS Policy Coordinator. As you have known by now, the Department of Defense announced in January of its plan to drop the planned gp160 vaccine trial due to lack of scientific support.

As the National AIDS Policy Coordinator, I strongly support the development of HIV drugs and vaccine which has a sound scientific basis.

Thank you again for writing.

Sincerely,

Kristine Gebbie, RN, MN
National AIDS Policy Coordinator

WASHINGTON, D.C. 20500

DEAR MISS RASCO:

I HAVE JUST FINISHED READING "AND THE BAND PLAYED ON". MY SON TOLD ME TO READ THIS AND I WOULD UNDERSTAND WHAT'S HAPPENING TO HIM IS A NORMAL SITUATION.

THEREFORE I WAS NOT SHOCKED ABOUT THE RADIATION AND PLUTONIUM TESTING DONE ON AMERICAN PEOPLE. HOW COULD ANYONE BE SURPRISED.

PEOPLE WHO SPOKE UP AT THE TIME WERE SILENCED. LOOK HOW LONG IT TOOK SENATOR MARKEY TO BRING THE TRUTH TO THE SURFACE.

I FEEL WHAT I AM ABOUT TO TELL YOU MAYBE IS FOLLOWING THE SAME PATTERN. SOMETIME IN THE FUTURE MAYBE SOME OTHER SENATOR WILL WONDER WHY THIS WAS COVERED UP AND NOT MADE KNOWN TO THE PUBLIC. MY SON BELIEVES NO ONE WANTS TO HEAR THE TRUTH.

LET ME GO BACK TO AMSTERDAM WHEN DR. REDFIELD SPOKE ABOUT GP160. AFTER THAT AIDS CONFERENCE MY SON (DR. WILLIAM MCCARTHY) WAS ASKED TO ANALYZE REDFIELD'S RESULTS. BILL WORKED AT THE HENRY M. JACKSON FOUNDATION (FOR THE ADVANCEMENT OF MILITARY MEDICINE) AS DIRECTOR OF BIOSTATISTICS. HE COULD NOT GET THE SAME RESULTS (JULY-AUG. 92). AN INTERNAL MEMO HE WROTE ABOUT THIS WAS LEAKED TO THE PRESS, NOT BY HIM.

HE WAS TOLD TO MAKE NO COMMENTS TO THE PRESS AN INVESTIGATION WOULD BE HELD. THIS WAS OCT. 92.

FINALLY JULY OF 93 AFTER AN ARMY INVESTIGATION DR. REDFIELD WAS EXONERATED. AT THIS POINT BILL WAS FRUSTRATED AND I WAS CONCERNED. I WENT TO CONGRESSMAN GERRY E. STUDDS OFFICE IN HYANNIS. I SPOKE TO MARK FOREST AND TOLD HIM THE STORY, GAVE HIM PAPER WORK AND HE ASKED WHAT I WANTED. I SAID A CONGRESSIONAL INVESTIGATION. THIS INFORMATION WAS FORWARDED TO MARK AGRAST IN STUDDS WASHINGTON OFFICE. I EVEN CALLED CONGRESSMAN BARNEY FRANK.

MY FEAR FOR MY SONS WELL-BEING MADE ME ALSO GO TO THE LOCAL NEWSPAPER BECAUSE I WAS UNSURE WHO TO TRUST.

SO MUCH FOR GOING TO SOMEONE IN THE GOVERNMENT. STUDDS DID GET GP160 FOR AID SUFFERERS IN PROVINCETOWN. SENATOR TED KENNEDY HAD A BILL READY BUT HE BACKED OFF. CONGRESSMAN HENRY WAXMAN WAS FULLY APPRAISED OF THE PROBLEM. RESULTS NOTHING.

WHEN THE OFFICIALS OF GOVERNMENT KNOW SOMETHING IS WRONG AND DON'T FOLLOW THROUGH IT'S A SCARY SITUATION.

IN JULY AFTER THE ARMY INVESTIGATION JOHN LOWE (PRESIDENT AND CEO) OF THE JACKSON FOUNDATION CALLED MY SON INTO HIS OFFICE. POUNDING HIS FIST ON THE DESK AND STATING YOU WILL DO AS YOU ARE TOLD AND FOLLOW ORDERS. SINCE BILL WAS NOT IN THE MILITARY HE HAD A CHOICE. BILL IS HONEST AND ETHICAL AND AT THAT POINT RESIGNED JULY 15.

NUMEROUS PEOPLE WITHIN THE JACKSON FOUNDATION AND ARMY KNEW THE TRUTH. A FEW PEOPLE WERE WILLING TO BE HONEST AND OFFERED TO SUPPORT BILL. IN THE END ANOTHER PERSON RESIGNED, AND ANOTHER WAS ORDERED TO BE SILENT OR ELSE. THE REMAINING PEOPLE WOULD NOT JEOPARDIZE THEIR JOBS. HONESTY WAS COMPROMISED FOR MONEY AND BUSINESS AS USUAL.

THE JACKSON FOUNDATION BOARD OF DIRECTORS IS INBRED WITH PEOPLE IN CONGRESS TIED TO D.O.D., ARMY AND EX-ARMY PERSONNEL. THE ARMY CONTROLS THE FUNDING, AND MILLIONS OF DOLLARS ARE DIRECTED TO THE JACKSON FOUNDATION. WITH THAT MUCH POWER DO THEY REALLY CARE ABOUT LEGITIMATE RESEARCH.

MY FEELING IS NO ONE CARES IF SOMETHING IS FOUND TO CURE AIDS. THEY WILL GO ON PLAYING THIS GAME BECAUSE IT'S GRAVY TRAIN TIME.

IF THE POLIO EPIDEMIC WAS HANDLED LIKE THE AIDS PROBLEM WE WOULD ALL BE IN IRON LUNGS.

MY SON JEOPARDIZED HIS CAREER AND HAS NOW BEEN OUT OF WORK 6 MONTHS AND I FEEL HE HAS BEEN BLACKBALLED BECAUSE OF HIS HONESTY. HE HAD NOTHING TO GAIN BUT ONLY WANTED THE TRUTH KNOWN.

I AM MAD AND ANGRY AND ONLY WANT JUSTICE AND SOMEONE TO REALLY LOOK INTO THE SITUATION. IF SOMEONE SPEAKS UP HE IS REFERRED TO AS A "WHISTLE-BLOWER". WHAT A NEGATIVE TERM. IS COVER-UP A WAY OF LIFE AND THE NORMAL. I DON'T WANT TO BELIEVE THAT.

WE ARE 13 YEARS INTO THE AIDS PROBLEM. WITH NUMEROUS TASK FORCES, ALL WE CAN OFFER THE AMERICAN PUBLIC IS TV ADS FOR CONDOMS. OUR COUNTRY IS IN SERIOUS TROUBLE.

ONLY THE ARMY SIDE OF THE STORY IS BEING TOLD AND THEY MISLEAD CONGRESS BY NOT TELLING THE TRUTH. THE ISSUE IS NOT GP160.

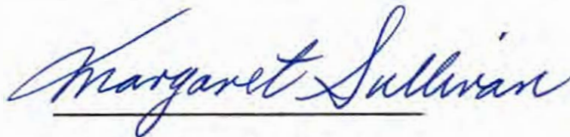

WHY WAS THE ARMY ALLOWED TO MISLEAD CONGRESS AND THE SCIENTIFIC COMMUNITY, AND GET AWAY WITH IT. ARE THEY ABOVE REPROACH AND NOT ACCOUNTABLE FOR THEIR BEHAVIOR? A DELIBERATE COVER-UP OF THE FACTS TOOK PLACE. A SERIOUS INJUSTICE HAS BEEN DONE TO THE AMERICAN PEOPLE, ESPECIALLY AIDS SUFFERERS. PRECIOUS TIME HAS BEEN LOST BY THIS UNETHICAL CONDUCT. COMMON SENSE DICTATES THIS BEHAVIOR IS UNACCEPTABLE. FROM WHAT HAS HAPPENED I DON'T THINK THE ARMY ACTED IN A RESPONSIBLE WAY. TIGHTER CONTROLS MUST BE PUT INTO PLACE TO INSURE THAT THE ARMY IS NOT ALLOWED TO FLOUT GOVERNMENT AUTHORITY.

I HAVE NEVER BEEN ONE TO WRITE THIS KIND OF LETTER BUT I'M FRUSTRATED AND I'LL KEEP WRITING UNTIL SOMEONE LISTENS.

THANKS FOR TAKING TIME TO READ MY LETTER. I AM ALSO WRITING SENATOR MARKEY AND SENATOR KENNEDY.

I AM ENCLOSING SOME MATERIAL YOU MIGHT BE INTERESTED IN.

VERY TRULY YOURS,

MARGARET SULLIVAN
