Dear Ms. Gebbie:

Following up on our early August meeting in your office, I am writing this letter to invite your participation in the next meeting of the CSIS Working Group on Global HIV/AIDS. This session, which focuses on "The Role of the Scientific Community", will be held on Capitol Hill (room to be confirmed) on Wednesday, September 15, from 9:00 to 11:30 a.m.

Dr. Anthony Fauci's leadoff remarks will assess the overall prospects, in the United States and elsewhere, for productive research in the near and long term. Colonel Donald Burke from the Walter Reed Army Institute of Medical Research will focus specifically on international vaccine development. Linda Distlerath from Merck, the third opening speaker, is scheduled to report on the status of "Inter-Company Collaboration for AIDS Drug Development". Dr. Alvin Friedman-Kien of New York University Medical Center, will be the moderator.

We very much hope that you will be able to make time in your busy schedule to join us for this exchange on an increasingly important topic. If it is not possible for you to attend, we would welcome the participation of a member of your staff on your behalf.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Helen Kitchen", is written over a horizontal line.

Helen Kitchen
