Dear Ms. Gebbie:

Thank you so much for your vibrant presentation of February 16, 1994 and your discussion with Catholic leaders in health care delivery and education of February 17, 1994. Your willingness to speak lent great credibility to and enabled us to elicit administrative support for our efforts to display selected panels from the National NAMES Project AIDS Memorial Quilt. As a result of our AIDS Awareness Week programming, and particularly because you have given us the words to use, discussion of HIV/AIDS, sexuality and related issues has become more open on this campus.

The clarity that you brought to the on-going discussion of HIV/AIDS prevention and the excitement that you generated continue to resonate. We are optimistic that Villanova University can lead the discussion among Catholic leaders in this region on how best to address our collective responsibility and make use of our influence in developing effective HIV/AIDS prevention programs and in making this community more supportive of those already infected.

It was a great pleasure to come to know the person behind the title. Your insight and energy is a great service to all of us.

Again, thank you for coming to Villanova University.

Sincerely,

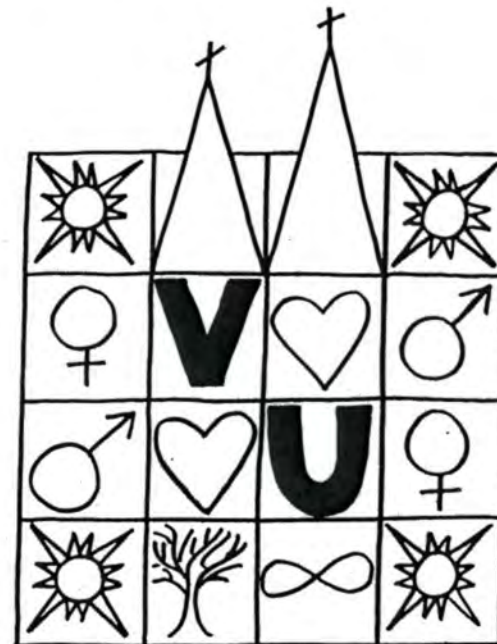

Nancy C. Sharts-Hopko, PhD, RN, FAAN
