Dear Ms. Gebbie:

As a recent attendee at the Nurse in Washington Internship program sponsored by the National Federation of Specialty Nursing Organizations, I wish to extend my gratitude to you for your time and expertise shared with our audience.

As a member of the Board, serving as Director for WOCN, I am deeply committed to the value of nurses who contribute to the care of patients with wounds, ostomies, and incontinence. I am both encouraged and energized by the credibility that you and so many of our colleagues lend to the health care arena.

Certainly our voice is significant and, again, I thank you for sharing such valuable insights with us. I remain interested and available to lend any expertise I might offer to further the goal of quality, cost-effective, and available health care for all in our great nation.

With highest regards,

Lynn Leuszler, MN, RN, CETN
Director, WOCN

Dear Ms. Gebbie:

As a participant in the National Federation of Specialty Nursing Organization's sponsored Nurse in Washington Internship Program, March 13-16, let me express my gratitude for your presentation. With the national focus on the health care reform proposal, there is a tendency to overlook the individual components and the impact of their respective roles. To listen to an active participant in proposed and pending legislation was a privilege.

Upon completion of the program, I felt energized and will pursue my own channels at a local level to ensure the role of the nurse in the health care plans of the future. One person can make a significant impact on the lives of others, and who better to realize this than a nurse, who incorporates it into her work daily.

Thank you again for your dedication and the contribution of your time.

Sincerely,

A handwritten signature in cursive script that reads "Jayne A. Crescimbeni".

Dear Mr. Gurrola:

I am writing to request that Ms. Gebbie conduct a briefing at the White House for the Nurse in Washington Internship on March 15 from 11 am until noon. The Internship is held once a year and is sponsored by the National Federation for Specialty Nursing Organizations. We expect a maximum of 150 nurses from various specialty areas of practice from all over the country to be attending the four-day program.

I appreciate the effort you put forth to have Ms. Gebbie address a similar group last September. Her presentation was extremely well received and I believe her message needs to be heard and taken home to the "grass roots" by the nurse interns.

I look forward to hearing from you and thank you for your attention to this request. Happy New Year!

Sincerely,

Kathleen Smith, RN, BS, CNN
