John,

Here are some potential questions for Ms. Gebbie's interview. What we're looking for is to create a positive impression on what the Clinton Administration has done AIDS Policy wise.

20% budget

1. Tell us what the Clinton Administration has done above the Bush Administration (ie Funding the Ryan White Care Act....).
2. Is there anything further in the newly proposed 95 Budget for funding of research, care, education, prevention...? What are your plans for the years ahead?
3. The President's Health Care Reform package does a great deal for those with pre-existing conditions. Is there anything else on the horizon to help people with HIV/AIDS pay for their treatments?
4. The AIDS task force was dissolved almost a year ago. Are there any plans to put another one together that may have more impact than the Bush Administrations'?
5. President Clinton met with members of Mothers' Voices a couple weeks ago. We understand the meeting was very positive. How much influence does a petition drive have on Congress and the Administration?
