----- Message Contents -----

I spoke with Mike Lux from Public Liaison to get an update on the AMA position. He reports the following:

1. They remain in the middle ground on HCR, not attacking, but not supporting.
2. AMA has expressed concerns about the managed care aspects and loss of physician control.
3. Ira Magaziner has been the primary liaison with them, and there has not been much activity.
4. In other words, Mike's advise, if HCR comes up, is to talk about how important it is to HIV/AIDS; and the role of the essential provider as treating MD and case manager.
