FROM JOHN
TO FILE
CASE TRIMBACH
RE LIFE INSURANCE
DATE October 25, 1993

*Send letters
of representation*

Cindy provided me with the following information on the two life insurance policies which are being held up by the criminal investigation. Both policies are in the name of her deceased husband, William Trimbach.

Kansas City Life
\$300,000.00 Policy Amount
Agent - Peggy Smith of the Peggy Smith Agency

Peggy Smith Agency
P.O. Box 2509
Sterling, Colorado 80751

Cindy is named as the primary beneficiary and her brother Robert Bock is named as the secondary beneficiary.

Cindy told me she has the telephone number of Peggy Smith and will call back with that.

Cindy stated that Peggy Smith is the wife of an attorney she had hired in Colorado.

U.S. Life
\$100,000.00 Policy Amount
Purchased through Amway Distributing Insurance Trust Fund
Policy No. V-129832
Claim No. V-129832-90

Director of Investigation: John Hyland
3040 Charlevoix Drive S.E., Suite 101
Grand Rapids, Michigan 49546-7042
Telephone No.: 1-800-528-5748

OR
ADI Plan Administration
P.O. Box 488
Concord, NC 28026-C

Cindy indicated that her former husband purchased the U.S. Life policy because he had been exposed to HIV and it did not require a physical.

I told Cindy that I would contact the companies and find out the status of the investigation.

Cindy indicated ^{that} in May ~~that~~ the Colorado ^{police} ~~police~~ had subpoenaed her for fingerprints and blood tests, probably for use in DNA testing. She has not heard from them since that time and she has never been charged for any crime.

M E M O

FROM JOHN
TO FILE
CASE TRIMBACH
RE INITIAL INTERVIEW
DATE September 14, 1993

Cindy Trimbach came in today for an initial interview concerning her possible HIV case. The following is a timeline of events.

1973: Cindy marries Robert Osmanson. During her 17 years of marriage she did not have sexual relations with anyone else. Robert currently lives at 1300 Phyllis Lane, Butte, Montana. 494-6084.

Prior
to

1988: Ex-husband Robert was denied life insurance prior to Cindy's surgery. He told her that it was because he failed to pass a drug screen. She suspects that he may have been HIV positive at that time.

1988:

Cindy has Surgery
~~_____~~ Surgery was performed at Children's Orthopedic Hospital in Los Angeles. Cindy signed releases but does not recall any release concerning blood. She was surprised after surgery to be informed that she had received five units of blood. She does not know if it was whole blood or components nor does she know why the five units were required.

June
1991:

Last sexual relations with ex-husband Robert. After 17 years of marriage they were divorced because he was abusive and very critical of her. She initiated the divorce proceedings. They apparently have two children.

February
1991:

Cindy marries Tom McGuire. Last sexual relationships were on March 1991 when the marriage apparently broke up. She states that they used protection 90% of the time. She does not know his whereabouts but believes that he may be in Fort Worth, Texas. She is going to attempt to contact him to find out if he is HIV positive and to let him know that she is.

Summer
1991:

Cindy has one time sexual contact with a John Smith in Elko, Nevada. They used a condom. He did not have an address at that time. His whereabouts are currently unknown.

February
1992:

Cindy marries Bill Trimbach.

April
1992:

Cindy discovers that she is HIV positive. She had been suffering from some immune problems and the test was done to rule out HIV infection.

May
1992:

Bill Timmerman tests negative for HIV infection.

February
1993:

Bill Timmerman shot to death. Autopsy shows HIV negative.

July or
August
1993:

Robert Osmanson diagnosed as HIV positive. He was apparently suffering from some brain lesions and an autopsy of one of the lesions indicated HIV infection.

Our first priority in this case is to check into the physical that Bob Osmanson had prior to being turned down for life insurance. The life insurance policy was with Allstate in Butte. The agents are Bob and Kathy Bock.

Cindy is currently checking with Bob to see if he will provide medical and record releases for this information. Thus far, he has denied that he was turned down for HIV infection. Instead, he claims that it was because he failed to pass a drug screening test.

At that time Bob had been traveling a great deal and was often on the road for two weeks at a time. She has no direct evidence that he was promiscuous and does not believe that he had any homosexual experiences. She is quite sure that he never used intervenous drugs. He maintains that he got the disease from her. She states that he will probably be cooperative in providing the releases and probably a sworn statement. It appears that Bob is very close to expiring.

BRAD NEWMAN
DEPUTY COUNTY ATTORNEY
Butte-Silver Bow Courthouse
155 West Granite Street
Butte, MT 59701
(406) 723-8262, ext. 208
Attorney for Plaintiff

FILED

MAY 4 1993

LORI MALONEY, CLERK

By I. FOWERS

DEPUTY CLERK

MONTANA SECOND JUDICIAL DISTRICT, SILVER BOW COUNTY

IN THE MATTER OF THE INVESTIGATION
OF CINDY BOCK OSMANSON TRIMBACH

93-M-9

AFFIDAVIT IN SUPPORT OF INVESTIGATIVE SUBPOENA

STATE OF MONTANA)
 : ss.
County of Silver Bow)

BRAD NEWMAN, after being first duly sworn upon oath, deposes
and states:

(1) That I am a duly appointed and acting Deputy County
Attorney for Butte-Silver Bow, Montana;

(2) That I have a duty to investigate all criminal activity
occurring in Silver Bow County;

(3) That pursuant to Section 45-4-301, MCA and Section 2-16-
303, MCA, I am a person authorized to apply for an investigative
subpoena;

(4) That this Court has jurisdiction and authorization to
issue an investigative subpoena pursuant to Section 46-4-301, MCA
1991 and Article VII, Section Four of the Montana Constitution;

(5) That the administration of justice will be served by the
issuance of the requested investigative subpoena.

The specific facts that support the issuance of the requested
AFFIDAVIT

1 investigative subpoena are as follows:

2 (a) Undersheriff Joe Lee of the Butte-Silver Bow Law
3 Enforcement Agency is assisting Colorado law enforcement
4 authorities in the investigation of the shooting death of William
5 Trimbach in Morgan County, Colorado on or about February 14, 1993.
6 Such investigation is continuing.

7 (b) Investigator Donald Wood of the Morgan County Sheriff's
8 Department has advised Undersheriff Lee that the victim's spouse,
9 CINDY BOCK OSMANSON TRIMBACH, is a suspect in this case. Inspector
10 Wood indicated that William Trimbach and CINDY BOCK OSMANSON
11 TRIMBACH resided together at 73501 Highway 14, Stoneham, Colorado
12 in February 1993. Investigator Wood indicated that he has obtained
13 information that CINDY BOCK OSMANSON TRIMBACH presently resides in
14 Silver Bow County, Montana (at 1104 West Mercury, Butte, Montana or
15 3314 Busch Street, Butte, Montana).

16 (c) On April 28, 1993, Investigator Wood filed an affidavit
17 and petition in the District Court of Morgan County, Colorado for
18 an order requiring CINDY BOCK OSMANSON TRIMBACH to produce non-
19 testimonial identification samples for use in the investigation of
20 the death of William Trimbach. (A copy of Investigator Wood's
21 affidavit is attached to this affidavit as Exhibit "A" and
22 incorporated by reference.)

23 (d) On April 28, 1993, District Judge Douglas R. Vannoy,
24 Morgan County, Colorado, determined that probable cause existed to
25 believe that William Trimbach had been murdered and that the
26 production of the requested non-testimonial identification samples

1 of CINDY BOCK OSMANSON TRIMBACH would materially aid the
2 investigation into William Trimbach's death. Judge Vannoy issued
3 an order requiring CINDY BOCK OSMANSON TRIMBACH to produce such
4 non-testimonial identification. (A copy of Judge Vannoy's order is
5 attached to this affidavit as Exhibit "B" and incorporated by
6 reference.)

7 (e) Montana law provides for disclosure by defendants of non-
8 testimonial identification at the request of the prosecution and
9 upon approval by the district court. Accordingly, an order
10 requiring non-testimonial identification in this matter would be
11 consistent with the public policy of the state of Montana.

12 (f) CINDY BOCK OSMANSON TRIMBACH presently is in Silver Bow
13 County, Montana, within the jurisdiction of the Second Judicial
14 District Court and the Butte-Silver Bow Law Enforcement Agency.

15 (g) Investigator Woods' efforts to get voluntary production
16 of the requested non-testimonial identification have been
17 unsuccessful.

18 (h) That the non-testimonial identification samples sought
19 herein are available by compulsory process because the State's
20 compelling interest in enforcing the criminal law outweighs any
21 privacy interest CINDY BOCK OSMANSON TRIMBACH may possess.

22 (i) WHEREFORE, in order to properly investigate the facts and
23 circumstances surrounding the death of William Trimbach in Morgan
24 County, Colorado on or about February 14, 1993, your affiant hereby
25 requests the issuance of an investigative subpoena to CINDY BOCK
26 OSMANSON TRIMBACH, 1104 West Mercury, Butte, Montana or 3314 Busch,

Butte, Montana.

(j) The specific information sought from CINDY BOCK OSMANSON TRIMBACH will be related to and limited to samples of her hair, blood, handwriting, fingerprints, palm prints and photographs of her person.

(k) Information in this affidavit includes confidential information known only to law enforcement officers and representatives of the Butte-Silver Bow County Attorney's Office. Request is hereby made that this affidavit, after being reviewed by this Court, be sealed until further order and approval for unsealing by this Court.

(l) All of the information contained above is true and accurate to the best of my knowledge and belief.

RESPECTFULLY submitted this 4th day of May, 1993.

ROBERT M. MCCARTHY
COUNTY ATTORNEY

W. Gale Davey
Sheriff of Morgan County
Fort Morgan, CO 80701

RE: Cindy Trimbach

Dear Sheriff Davey:

It has become apparent that Cindy Trimbach has become the focus of your investigation in the murder of her husband. Her family has retained me to represent her. In light of your investigation, I am instructing my client not to speak with your investigators. All future contact will be made through me.

Further, if you procure an arrest warrant you may contact me and I will make my client available for voluntary appearance in Colorado. She has indicated she will appear despite her terminal health problems and limited financial resources.

Sincerely,

Patrick D. McGee
Attorney At Law

RE: Policy No. 2544039
William E. Trimbach,
Deceased
Your client: Cindy Trimbach

This will acknowledge receipt of your request for information concerning the above named deceased and his Life Insurance Policy with our Company.

As requested, we have enclosed a copy of the Policy Contract for your review.

I am sure you are aware our Insured died as a result of a gunshot wound. We have been in contact with the Morgan County Sheriff's Department and have been advised there is still an ongoing, active investigation of our Insured's death. To date we have been unable to complete settlement because the circumstances of death do not preclude the involvement of the beneficiary, Cindy Trimbach.

We will maintain contact with the Sheriffs Department directly and through a local representative. If the investigation is discontinued or if at some point the prosecutors office advises the beneficiary is not a suspect we will consider settlement.

RECEIVED NOV 10 1993

If you have any questions or wish to submit any information for our consideration please feel free to call on our toll free number 1-800-821-6164 or submit any information you feel may have a bearing on our decision to my attention in care of: Kansas City Life Insurance Company, P.O. Box 419139, Kansas City, Missouri, 64141-6139.

Cordially,

Re: Our Client: Cindy Trimbach
Policy No.: 2544039
Deceased: William Trimbach

Dear Mr. Stetzler:

Thank you very much for your letter of November 10, 1993 and the copy of the insurance policy. I have reviewed the policy and I do not understand why Kansas City Life has not paid out the proceeds to the named beneficiary, Cindy Trimbach. As you stated in your letter, I understand that there is an ongoing sheriff's investigation into the death of Mr. William Trimbach. As you know, that investigation has taken an excessively long time and there is no indication that the sheriff's department will ever close their file.

Regardless of that investigation, I see absolutely nothing in the insurance policy which prevents payment to Ms. Trimbach. Ms. Trimbach is the named beneficiary and Paragraph 7.4 specifically provides, "Death proceeds will be paid to the beneficiary except as provided in this Section." There is nothing in the section concerning criminal investigations. From my reading of the insurance contract, Kansas City Life has a right to refuse payment only in the case of suicide or failure to make premium payments. My question is, therefore, under what authority do you continue to refuse to make payment to the named beneficiary?

Mr. William A. Stetzler
November 18, 1993
Page 2

I also noticed that the insurance policy provides for interest from the date of death until the date of payment at a rate determined by Colorado law. Would you please let me know the current rate applicable to Mr. Trimbach's policy?

Thank you very much for your help in this matter.

Sincerely,

John J. Richardson, Esq.

RE: Your Client, Cindy Trimbach
KCL Policy No. 2 544 039
William Trimbach, Insured

Dear Mr. Richardson:

We acknowledge receipt of and thank you for your November 18th letter regarding the above. Bill Stetzler forwarded it to me for my response. You acknowledge in your letter that there is an ongoing investigation into the death of our insured, and while it is true this investigation has continued for many months, our most recent information is that this is an active investigation and has not been closed.

While you are correct that there is nothing in the policy that addresses this situation, it is generally accepted as a matter of public policy case law and statute that a primary beneficiary of a life policy is disqualified from receiving proceeds if the beneficiary is implicated in the death of the insured. Colorado Revised Statutes §15-11-803(3) would preclude Cindy Trimbach from collecting the proceeds of this policy if she is convicted of, pleads guilty to, or enters a plea of nolo contendere to the crime of murder in the first or second degree or manslaughter, as said crimes are defined by Colorado law. Nothing herein is to suggest or infer that Mrs. Trimbach is implicated in our insured's death. However, where we have been specifically notified by criminal authorities that an investigation of Mr. Trimbach's death and Mrs. Trimbach's possible participation in Mr. Trimbach's death is still continuing, we are obligated to

RECEIVED DEC - 2 1993

Mr. John J. Richardson, Esq.
November 30, 1993
Page Two

delay immediate settlement of Mrs. Trimbach's claim for benefits under this policy.

Finally, any proceeds due and payable under the policy will bear interest at the rate of 8% from the date of the insured's death.

Sincerely,

James F. Aldrich, CLU, CPCU

Re: Our Client: Cindy Trimbach

Dear Ms. Gross:

Our office now represents Cindy Trimbach. As you know, Ms. Trimbach's husband, William Trimbach, held a life insurance policy with the John Alden Company at the time of his death in February 1993.

Please provide our office with a copy of the insurance policy, a statement of the policy limits, and a statement of the current status of the claim. Please find enclosed a records authorization form signed by Cindy Trimbach.

If you have any questions, please do not hesitate to call.

Sincerely yours,

John J. Richardson, Esq.

JJR\hj

Enclosure

March 14, 1994

Mr. Jack Ehnes
Colorado Insurance Commissioner
1560 Broadway, Suite 850
Denver, Colorado 80202

Dear Mr. Ehnes:

Our office represents Cindy Trimbach whose husband, William Trimbach, held the following life insurance policies at the time of his death by homicide in February 1993:

1. John Alden Life Insurance Company
Policy Number: 712101-1-I00
Policy Amount: \$15,000.00
2. United States Life Insurance Company
Policy Number: G-129832, Cert. 82673
Claim Number: G-129832-0090
Policy Amount: \$110,000.00
3. Kansas City Life Insurance Company
Policy Number: 2 544 039
Policy Amount: \$300,000.00

Ms. Trimbach has repeatedly demanded that each of these companies tender the insurance proceeds. Ms. Trimbach has great need of the insurance proceeds at this time. She has several children, suffers from a life threatening illness, is unable to work on a sustained basis, and has great difficulty paying for her medical care and supporting herself..

Even though it has been more than one year since Mr. Trimbach's death, all three companies have refused to pay Ms. Trimbach any proceeds because there is a criminal investigation into her husband's death. That investigation, however, may remain open indefinitely if the police do not find the person responsible for Mr. Trimbach's death. According to the insurance company they can, therefore, indefinitely refuse to pay Ms. Trimbach the benefits for which they willingly received premium payments. Colorado law, however, provides only a reasonable time for an insurance company to properly investigate and pay insurance proceeds. More than a reasonable amount of time has passed.

Mr. Jack Ehnes
March 14, 1994
Page 2

We are, therefore, requesting that the Colorado Insurance Commissioner begin an investigation of these companies' refusal to pay. Please provide me with a copy of any forms necessary to institute such an investigation or complaint proceedings.

Enclosed you will find copies of the correspondence supporting Ms. Trimbach's complaint. Please do not heistate to contact me if you have any questions.

Sincerely,

John J. Richardson, Esq.

Re: William Trimbach's Life Insurance Policy
Life Insurance Policy No.: 2544039

Dear Mr. Stetzler:

As you know, our office represents Cindy Trimbach in her claim for life insurance proceeds against your insurance company. Ms. Trimbach's husband, William Trimbach, held life insurance, Policy No. 2544039 with Kansas City Life Insurance Company at the time of his death by homicide in February 1993. Even though it has been one year since Mr. Trimbach's death, your company has not paid over the proceeds of his insurance policy.

The delay is apparently based on the fact that the Sheriff's Department is still investigating Mr. Trimbach's death. As you well know, such investigations can stay open virtually forever if the sheriff does not find the person responsible for Mr. Trimbach's death. The sheriff, however, has now had one year to thoroughly investigate the case. No charges have been brought against Ms. Trimbach and there is no indication that she will be indicted. It is, therefore, time to pay the insurance proceeds.

Your company may not deny benefits indefinitely. Colorado statutes govern unfair claim settlement practices, and provides that insurance companies have an obligation to affirm or deny coverage within a reasonable time after proof of loss. Your company also has an obligation to attempt in good faith to effectuate a prompt, fair, and equitable settlement of claims when liability is reasonably clear. Please see Colo. Rev. Stat. § 10-3-1104(1)(h).

Ms. Trimbach cannot wait indefinitely for your company to produce the insurance proceeds of her husband's policy. She is currently suffering from a serious illness which causes her to incur medical expenses. It also significantly shortens her life expectancy. She is unable to work on a regular basis and has children to support. The delay of payment is causing extreme emotional distress upon the family.

Mr. William A. Stetzler
March 1, 1994
Page 2

We, therefore, demand that you tender the proceeds of Mr. Trimbach's insurance policy within thirty (30) days of the date of this letter. After that time Ms. Trimbach will have little option except to institute litigation.

I await your early response.

Sincerely,

Monte D. Beck

This policy does not have cash values

Section 3: Definition of Certain Terms

The following are key words used in the policy and are important in describing both your rights and ours. As you read this policy, refer back to these definitions.

3.1 The Insured

The person whose life is insured under this policy.

3.2 You, Your

The owner of this policy. The owner may be someone other than the Insured.

3.3 We, Our, Us

Kansas City Life Insurance Company.

3.4 Proceeds

The total amount we are obligated to pay under the terms of this policy.

3.5 Policy Date

The date from which policy months, years and anniversaries are computed. The incontestability and suicide periods are measured from this date.

Section 4: Policy Proceeds

4.1 Payment of Proceeds

We will pay the proceeds due under this policy to the beneficiary upon receiving proof of the Insured's death on or before the expiration date and while this policy is in force. When the proceeds are paid, this policy must be returned to us.

To the extent permitted by law, proceeds will not be subject to any claims of a beneficiary's creditors.

4.2 Amount of Proceeds

Proceeds payable at the death of the Insured will be the face amount shown on page 3 increased by:

- (1) any insurance on the Insured's life provided by riders in force at the Insured's death; and
- (2) any premium refund at death.

Death proceeds will be decreased by the portion of any premium due and unpaid which applies to a period prior to the date of the Insured's death.

4.3 Interest on Death Proceeds

We will pay interest on single sum death proceeds from the date of the Insured's death until the date of payment. Interest will be at an annual rate determined by us, but never less than the rate required by the state in which this policy is delivered.

Section 5: General Provisions

5.1 Contract

This policy and application are the entire contract. This contract is issued in consideration of the application and payment of the premiums. A copy of the application is attached when the policy is issued. In the absence of fraud, all statements made in the application either by you or by the Insured will be considered representations and not warranties. Statements may be used to contest a claim or the validity of this policy only if they are contained in the application.

5.2 Authority to Change or Modify

No change or waiver of any provisions of this policy will be valid unless made in writing by us and signed by our President, Vice President, Secretary or Assistant Secretary. No agent or other person has authority to change or waive any provision of your policy.

5.3 Incontestability

After this policy has been in force during the Insured's lifetime for two years from the policy date, we cannot contest this policy except for the nonpayment of premiums.

5.4 Suicide

If the Insured dies by suicide, while sane or insane, within one year of the policy date, the amount payable by us will be equal to the total premiums paid on the Insured's policy.

5.5 Age and Sex

This policy is issued at the age shown on page 3 which is the Insured's age last birthday on the policy date. If the policy date falls on the birthday of the Insured, the age will be the age attained by the Insured on the policy date.

If the Insured's age or sex has been incorrectly stated, the benefits under this policy will be those the premium paid would have purchased for the correct age and sex.

5.6 Reserve

The reserve on this policy is based on the 1980 Commissioners Standard Ordinary Mortality Table. Our calculations are based on the interest rate shown on page 3, using continuous functions on an age last birthday basis.

5.7 Guaranteed Cost

The values in your policy are guaranteed. The premiums for this policy may change as provided in Section 6.2, but may never exceed the guaranteed maximum annual premiums shown on page 4. This

Section 5: General Provisions (continued)

policy will not participate in any of our profits, losses or surplus earnings.

Section 6: Premium and Reinstatement Provisions

6.1 Payment

Your first premium must be paid when the policy is delivered. All premiums after the first are payable at the Home Office or to a representative authorized to receive premiums. Each premium must be paid on or before its due date. A receipt signed by us will be furnished on request.

6.2 Amount and Frequency

The amount of your premium each year is the current annual premium. The current annual premium is based on our expected future experience as to:

- (1) investment earnings;
- (2) mortality;
- (3) policy terminations; and
- (4) expenses and taxes.

Any change in the current annual premium will be for all policies in the same class. The class of this policy is determined according to:

- (1) the calendar year of issue;
- (2) the plan of insurance;
- (3) the amount of insurance; and
- (4) the sex, age and mortality classification of the Insured.

The current annual premium will never be increased to recover losses incurred, or decreased so as to distribute gains realized, by us prior to the change. The current annual premium will not exceed the guaranteed maximum annual premium for the applicable policy year shown on page 4.

Premiums may be paid at twelve, six or three month intervals, or, with our consent, monthly. The premium amounts for the first policy year are shown on page 4. After a change in premium as provided above, the premium amounts for intervals of six, three or one-month intervals will be computed from the current annual premium on a basis consistent with that used to arrive at the premiums on page 4. You may request a change in the frequency of premium payments. Your request must be in writing and must be approved by us.

6.3 Default

Any premium after the first which is not paid on or before the date it becomes due is in default. Your

policy will then terminate, except as provided in the Grace Period provision.

6.4 Grace Period

A grace period of 31 days will be allowed for payment of a premium in default. Your policy will continue in force during this period. If the Insured dies during the grace period, we will deduct any past due premium from the proceeds of your policy.

6.5 Premium Refund at Death

The beneficiary will receive, as part of the proceeds, any premium paid for the period beyond the date of the Insured's death.

6.6 Renewal of Policy

This policy may be renewed for additional term periods by paying the current annual premium for the applicable policy years. You will have a grace period of 31 days from the beginning of each new term period in which to pay the renewal premiums. Your policy will continue in force during this grace period. The new term period will begin on the premium due date shown on page 4. Renewal premiums will be payable on premium due dates measured from the date the new term period begins.

Renewal of this policy will establish a new term period which will be the lesser of:

- (1) the initial term period shown on page 3; or
- (2) the number of years remaining to the expiration date shown on page 3.

Each renewal must occur during the Insured's lifetime. This policy will terminate on the expiration date.

6.7 Reinstatement

Your policy may be reinstated within five years after the date of any past due premium but not beyond the expiration date of the policy. Reinstatement is subject to:

- (1) receipt of evidence of insurability of the Insured satisfactory to us; and
- (2) payment of all past due premiums with interest from the due date of each premium.

Interest at the rate of 6% per year compounded annually on past due premiums will be payable to the date of reinstatement.

If the policy lapses and it is reinstated, we cannot contest statements made in a reinstatement application after the policy has been in force during the Insured's lifetime for two years from the date of the reinstatement application.

Section 7: Ownership, Assignment and Beneficiary Provisions

7.1 Ownership

The Insured is the owner unless otherwise provided in the application. As owner, you may exercise every right provided by your policy. These rights and privileges end at the Insured's death.

The consent of the beneficiary is required to exercise these rights if:

- (1) you have not reserved the right to change the beneficiary; or
- (2) you have named a creditor beneficiary.

7.2 Change of Ownership

You may change the ownership of this policy by giving written notice to us at our Home Office. The change will be effective on the date your request was signed but will have no effect on any payment made or other action taken by us before we receive it. We may require that the policy be submitted for endorsement to show the change.

7.3 Assignment

An assignment is a transfer of some or all of your rights under this policy. No assignment will be binding on us unless made in writing and filed at our Home Office. We assume no responsibility for the validity or effect of any assignment.

7.4 Beneficiary

The beneficiary is shown on the application or in the last beneficiary designation filed with us. Death proceeds will be paid to the beneficiary except as provided in this Section.

If any beneficiary dies before the Insured, that beneficiary's interest will pass to any other beneficiaries according to their respective interests. If all beneficiaries die before the Insured, we will pay the death proceeds to you, if living, otherwise to your estate or legal successors.

Unless you have waived the right to do so, you may change the beneficiary by filing a written request in a form satisfactory to us. In order to be effective, the written request for change of beneficiary must be signed while your policy is in force and the Insured is living. The change will be effective on the date your request was signed but will have no effect on any payment made or other action taken by us before we receive it.

The interest of any beneficiary will be subject to:

- (1) any assignment of this policy which is binding on us; and

- (2) any optional settlement agreement in effect at the Insured's death.

7.5 Simultaneous Death of Beneficiary and Insured

Death proceeds will be paid as though the beneficiary died before the Insured if:

- (1) the beneficiary dies at the same time as or within 15-days of the Insured's death; and
- (2) we have not paid the proceeds to the beneficiary within this 15 day period.

Section 8: Conversion Privilege

8.1 Conversion of Term Policy

You have the right to convert this policy to a new policy without evidence of insurability upon written request to us provided:

- (1) this policy is in force and no premium is in default;
- (2) your request is made before the final conversion date shown on page 3; and
- (3) we are not waiving premiums on this policy under a waiver of premium disability rider.

Conversion of this policy will be on an attained age basis. The policy date of the new policy will be the date to which you have paid premiums on this policy. The premium for the new policy will be based on the Insured's age on the policy date of the new policy. The first premium for the new policy must be paid before it will take effect.

The term policy must be returned to us at the time a conversion is made.

8.2 New Policy

The new policy may be on any permanent life policy then being issued by us. You will not be allowed to convert to another term policy.

The amount of insurance of the new policy may not be more than the insurance provided by this policy at the time of conversion. You cannot convert to a policy which is less than the minimum amount we issue.

Any insurance under this policy which is converted to a new policy will terminate at the time the new policy takes effect. If only part of the insurance provided by this policy is converted, the remaining insurance may be continued if it meets our requirements. Otherwise, the remaining insurance will terminate when the new policy takes effect.

Section 8: Conversion Privilege (continued)

The time period in the suicide and incontestability provisions of any new policy will begin on the policy date of the original policy.

The new policy will be issued on the same risk classification as this policy.

8.3 Conversion Credit

We will allow a conversion credit when this policy is converted. The conversion credit will be applied to reduce the annual premium payable for the first policy year of the new policy. If you do not pay an annual premium for the new policy, each premium due will be reduced by a percentage equal to the total credit allowed divided by the annual premium for the new policy.

The conversion credit will equal the conversion credit percentage shown on page 3 times the current annual premium for the amount of term insurance being converted for the policy year in which conversion is made. If less than one full year's premium has been paid on this policy, the conversion credit will be reduced proportionately.

8.4 Availability of Riders

If this policy includes an accidental death rider or a waiver of premium disability rider, the new policy may include the same benefit or benefits if the insured meets our age requirements. The new policy will not cover any disability commencing before the date of conversion.

8.5 Disability Conversion Benefit

If premiums are being waived under this policy, we will automatically convert this policy in full at the insured's attained age to a new policy on the disability conversion date shown on page 3. Your new policy will be a nonparticipating permanent life policy including a waiver of premium disability rider. We will continue to waive premiums on the new policy according to the terms of the waiver of premium disability rider.

Section 9: Settlement Options

9.1 Payment Options

You may apply proceeds of \$2,000 or more which are payable under this policy to any of the following options:

Option 1. Interest Payments

We will make interest payments to the payee annually or monthly as elected. Interest on the proceeds will be paid at the guaranteed rate of 3.5% per year and may be increased by additional interest. The proceeds and any unpaid interest may be withdrawn in full at any time.

Option 2. Installments of a Specified Amount

We will make annual or monthly payments until the proceeds plus interest are fully paid. Interest on the proceeds will be paid at the guaranteed rate of 3.5% per year and may be increased by additional interest. The present value of any unpaid installments may be withdrawn at any time.

Option 3. Installments for a Specified Period

Payment of the proceeds may be made in equal annual or monthly payments for a specified number of years. Interest on the proceeds will be paid at the guaranteed rate of 3.5% per year and may be increased by additional interest. The present value of any unpaid installments may be withdrawn at any time. The amount of each payment is shown in Table A.

Option 4. Life Income

We will pay an income during the payee's lifetime. A minimum guaranteed payment period may be chosen. Payments received under the Installment Refund Option will continue until the total income payments received equal the proceeds applied. The amount of each payment is shown in Table B.

Option 5. Joint and Survivor Income

We will pay an income during the lifetime of two persons and will continue to pay the same income as long as either person is living. The minimum guaranteed payment period will be ten years. The amount of each payment is shown in Table C.

If the payout rates in use by us at the time proceeds become payable are more favorable than those shown in Options 4 and 5, we will provide a life income using the more favorable rates.

9.2 Payee

The payee is the person receiving proceeds under a settlement option. The payee can be you, the insured or a beneficiary. We will require satisfactory proof of the payee's age and sex under Options 4 and 5.

The contingent payee is the person named to receive proceeds if the payee is not alive.

9.3 Minimum Payments

The payment under any settlement option must be at least \$25. We may make payments less frequently so that each payment is at least \$25.

Section 9: Settlement Options (continued)

9.4 Choice of Options

You may choose an option by written notice during the Insured's lifetime. If a settlement option is not in effect at the Insured's death, a choice may be made by the beneficiary.

9.5 Availability of Options

These options are only available with our consent if proceeds are payable to an executor, administrator, trustee, corporation, partnership or association.

9.6 Operative Date

The first payment under Option 1 will be payable at the end of the first interest period. The first payment under Options 2 through 5 will be made on the date proceeds become payable.

9.7 Death of Payee

At the death of the payee, any payments remaining will be paid according to the terms of the settlement option chosen, unless the contingent payee elects

in writing to receive the present value of any remaining guaranteed payments in a single sum.

If a contingent payee has not been named or does not survive the payee, the following amounts will be paid in one sum to the estate of the payee:

- (1) any amount left on deposit under Option 1; and
- (2) the present value of any remaining guaranteed payments under Options 2 through 5.

If you have not named a contingent payee, or if every contingent payee named by you dies before the payee, you may, by written notice to us, name a new contingent payee. The new contingent payee will receive any amount that would otherwise have been payable to the payee's estate.

9.8 Claims of Creditors

To the extent permitted by law, proceeds will not be subject to any claims of a payee's creditors.

KANSAS CITY LIFE INSURANCE COMPANY

Since 1895

Waiver of Premium Disability Rider

The Benefit

Kansas City Life Insurance Company will waive the payment of all premiums during the total disability of the Insured.

Definition of Total Disability

Total disability means disability which prevents the Insured from engaging in any gainful business or occupation for which the Insured is, or could reasonably become, qualified by reason of education, training or experience.

To engage in a gainful business or occupation, either prior to or during any period of total disability, also includes attending school on a full-time basis or performing daily household tasks as a homemaker.

Total Disability Requirements

Total disability of the Insured requires:

- (1) the regular attendance by a licensed physician other than the Insured;
- (2) that disability is the result of sickness which first manifests itself, or bodily injury which occurs, while this rider is in force;
- (3) that disability has continued for six consecutive months; and
- (4) that disability began prior to the policy anniversary when the Insured's age is 60.

Loss of Sight or Limbs

Loss of sight or limbs means the permanent and total loss of:

- (1) the sight of both eyes;
- (2) the use of both hands;
- (3) the use of both feet; or
- (4) the use of one hand and one foot.

Loss of sight or limbs will be considered a total disability even if the Insured returns to work. However, loss of sight or limbs must occur or first manifest itself after the effective date of this rider and while this rider is in force in order for benefits to be paid under this provision.

Risks Not Covered

We will not waive premiums if total disability results from:

- (1) intentionally self-inflicted injury; or
- (2) war, or any act of war, whether declared or undeclared.

Proof of Disability

We must receive satisfactory written proof of total disability at our Home Office before we waive premiums. Proof must be given to us:

- (1) during the lifetime and continued total disability of the Insured;
- (2) within one year after total disability begins and
- (3) no later than one year after the policy anniversary when the Insured's age is 60.

We will waive premiums although proof was not given within the time provided above if it is shown that it was given as soon as was reasonably possible.

Proof of Continued Disability

After initial proof of total disability, we may require at reasonable intervals, proof that the Insured is still totally disabled. However, after two years, we will not require proof more often than once a year. As part of proof, we may require the Insured to be examined by a medical examiner of our choice and at our expense.

Notice of Recovery

You should give immediate notice to us when the Insured recovers from total disability or returns to work.

Premiums

Premiums due before we approve a total disability claim should be paid prior to the expiration of the grace period. If the claim is approved, any premium paid which is eligible to be waived will be refunded. If the premium is not paid, it will be waived if total disability began before the end of the grace period.

General Provisions

The following provisions apply to this rider:

- (1) this rider is made a part of the policy to which it is attached;
- (2) this benefit is subject to all the provisions of this rider and the applicable policy provisions;
- (3) the effective date of this rider is the same as that of the policy unless this rider is added at a later date. The effective date of this rider will then be specified in the rider description on page 4 of the policy. The time period of the Incontestability provision of the policy will apply to this rider from the effective date of this rider;
- (4) the premium for this rider is shown on page 4 of the policy; and
- (5) any premium waived under this rider will not reduce the amount payable under the policy.

Cancellation

This rider may be cancelled by you at any time. The cancellation will be effective on the day of the

month, following receipt of your request, which coincides with the policy anniversary date. Your request must be in writing and filed with us prior to this date. We may require that the policy be submitted for endorsement to show the cancellation. If this rider is cancelled, the premium for the policy will be reduced in the amount of the premium charged for this rider.

Termination of Rider

This rider terminates on the earliest of:

- (1) the date the policy terminates for any reason;
- (2) the date this rider is cancelled by you;
- (3) the date any premium for this rider or the policy is in default beyond the end of its grace period;
- (4) the date on which any guaranteed value option in the policy becomes effective; or
- (5) the policy anniversary on which the Insured's age is 60; however, such termination will not affect an eligible claim for disability occurring before age 60.

Signed for Kansas City Life Insurance Company, a stock company, at its Home Office, 3520 Broadway, Post Office Box 419139, Kansas City, Missouri 64141-6139.

DUPLICATE CERTIFICATE
11/30/93

CERTIFICATE OF INSURANCE

The term "sticker" refers to the sticker coded G-19002-S which appears to the left of this page.

United States Life certifies that the person named on the sticker is insured for the benefits described in this certificate. This insurance is subject to the eligibility and effective date requirements of the group policy.

DATE YOUR INSURANCE TAKES EFFECT

Your insurance will take effect on the date shown on the sticker. You might be hospitalized on this date. If so, your insurance will take effect on the day after you are discharged.

CANCELLATION DURING FIRST 30 DAYS

You may cancel the insurance described in this certificate at any time during the 30 day period after you receive this certificate. Mail this certificate with your written request for cancellation to United States Life. United States Life will promptly refund the premium paid, including any fees.

IMPORTANT NOTICE

This certificate is a summary of the group policy provisions which affect **your** insurance. It is merely evidence of the insurance provided by such policy.

The group policy is a contract between United States Life and the Policyholder. It may be changed or ended without notice to or consent of any insured person.

This certificate replaces any certificate previously issued by United States Life to you under the group policy.

The benefits described in this certificate are provided by the group policy shown on the sticker.

The maximum coverage that can be
in force at any one time, under
this plan, is \$300,000.

Each page in this certificate has a 2 line code at the bottom left of the page. The code "G-19001" means that the page belongs to the certificate series. The letter or letters below the certificate code represents a phonetic description of the particular section (FP = Face page E = Eligibility)

This index refers you to the phonetic codes.

LIFE INSURANCE AMOUNT FOR MEMBER

see sticker

LIFE INSURANCE AMOUNT FOR SPOUSE

see sticker

Your life insurance will end at age 70

Increase In Amount of Your Insurance

You might be hospitalized on the date an increase in your insurance is to take effect. If so, such increase will take effect on the day after you are discharged.

DEFINITIONS

MEMBER means a person who is an AMWAY distributor

SPOUSE means the lawful spouse of a member

YOU, YOUR means a member and/or spouse

ELIGIBILITY

DATE INSURANCE ENDS

A person's insurance will end at the earliest of:

1. the date the group policy ends;
2. the date insurance ends for the person's class;
3. for a spouse, the date his marriage ends by divorce or annulment;
4. the end of the period for which the last premium has been paid for the person; or
5. the date the person attains age 70.

If you die, due proof of your death must be sent to United States Life. When such proof is received, United States Life will pay to the beneficiary the amount of insurance shown in the Schedule of Benefits.

PAYMENT OPTIONS

Benefits will be paid either in one sum or under an option chosen by you. If you have not chosen an option which is in force at your death, your beneficiary may do so. Such choice must be filed with United States Life in writing. Any agreement will be subject to United States Life's rules at the time of the choice.

CONVERSION OPTION

If your insurance ends, you may buy an individual policy of life insurance from United States Life during the conversion period. Evidence of insurability will not be required.

CONVERSION PERIOD means the 31 days after insurance ends.

This option is subject to these conditions:

1. you must apply for the new policy in writing and pay the first premium during the conversion period;
2. the premium rates for the new policy will be based on:
 - United States Life's rates then in use
 - the plan and amount of insurance
 - your class of risk, and
 - your age nearest birthday when insurance ends;
3. the new policy may be any form then being issued by United States Life which does not provide term insurance or pay dividends;
4. the new policy will be issued without term, disability or other extra benefits; and
5. the new policy will take effect at the end of the conversion period.

Amount of the new policy

The amount of your new policy may be any amount up to the amount which ends under the group policy.

Death benefit during conversion period

If you die during the conversion period, United States Life will pay the amount which you were entitled to convert.

Effect of previous conversion

You may have previously used this conversion option. You may have done so under the group policy or any policy issued by United States Life which the group policy replaces. If so, United States Life will reduce your amount of insurance which ends under the group policy by the amount so converted. United States Life *will not do this* if you:

1. return the converted policy, or
2. submit evidence of insurability satisfactory to United States Life for the converted amount.

END OF INSURANCE PROVIDED BY THE GROUP POLICY

IF PREMIUM IS NOT PAID - GRACE PERIOD

Each premium after the first, may be paid up to 31 days after its due date. This period is the grace period. The insurance provided by the group policy will stay in effect during this period. If the premium is not paid by the end of this period, such insurance will end at that time.

United States Life may extend the grace period by written notice. Such notice will state the date insurance will end if the premium remains unpaid.

Premiums must be paid for a grace period and any extension of such period.

GENERAL PROVISIONS

INCONTESTABILITY

United States Life will not use a person's statements relating to his insurability to contest life insurance after it has been in force for 2 years during his life. United States Life will also not use such statement to contest an increase or benefit addition to such insurance after the increase or benefit has been in force for 2 years during his life. These statements must be in a written application signed by the person. A copy of this application will be given to the person or his beneficiary.

SUICIDE

If a person commits suicide, while sane or insane, within 2 years from the date his insurance takes effect, United States Life's liability will be limited to the premiums paid.

BENEFICIARY

The beneficiary is named by you in your application, unless changed. You may change the beneficiary, unless irrevocable, at any time. To do so, a written request on a form satisfactory to United States Life must be made to its home office. When United States Life records the change, it will take effect as of the date you signed it. The change will not apply to any payment made by United States Life before the request was recorded.

If 2 or more beneficiaries are named and their shares are not specified, they will share the proceeds equally.

When an insured person dies, there may be no living named beneficiary to receive any part of the proceeds. If so, United States Life may pay such proceeds to the estate or, at United States Life's option, to the:

- spouse, if living
- surviving children, equally, if the spouse is dead, or
- surviving parents, equally, if all children are dead.

United States Life will not be liable for such payment after it is made.

MISSTATEMENTS

A person's age, sex or any other data may be misstated. If so, the correct data will be used to determine if insurance is in force. If insurance is in force, the premium and or benefits will be adjusted according to the facts.

PAYMENT FOR EXPENSES INCURRED AT YOUR DEATH

If there is no living named beneficiary, United States Life has the option to pay part of the benefits to anyone who has incurred expenses for your last sickness or death.

This payment will not exceed the amount of such expenses, up to the maximum for such payment set forth by law in the state where the group policy is issued.

United States Life will not be liable for such payment after it is made.

PAYMENT TO A MINOR OR INCOMPETENT

If any beneficiary or payee is a minor or is incompetent to receive payment, United States Life will pay his guardian. United States Life will not be liable for such payment after it is made.

AUTOPSY

United States Life, at its expense, has the right to order an autopsy. This will only be done where allowed by law.

ASSIGNMENT

United States Life will not be bound by any assignment unless it is in writing and is recorded at its home office. United States Life is not responsible for the validity of an assignment.

COMPLIANCE WITH LAW

On the date the group policy takes effect, some of its provisions may conflict with an applicable law. If so, any such provision is changed to comply with the minimums required by such law.

GENDER

Male pronouns will be read as female where it applies. Female pronouns will be read as male where it applies.

THE UNITED STATES LIFE
Insurance Company in the City of New York

G19001

Tues 3/2/94 Called Gorn (Gorn) He said he had written letters to the 3 insurance companies and the CO insurance Commissioner. He said the law is written that the insurance company can withhold the money for a reasonable period of time, and what is considered reasonable depends on the case. There is no case law regarding a criminal investigation in this.

After these letters, if the insurance companies don't pay, Gorn will try to have the insurance Commissioner press for payment. And as a last resort threaten litigation.

Insurance Commissioner says there is
no claim at this time,

Hair samples have been sent for
DNA test results, to FBI.

Regardless of what those results
show, police plan to indict me.

Commissioner will act as a mediator.
Use contingent beneficiaries. I have to
waive my rights.

An autopsy Monday determined that a Stoneham man whose body was found near Wiggins Sunday morning was shot three times, one time each to the head, midsection and arm.

William "Billy" E. Trimbach's body was found by a Wiggins woman returning from church along the north Interstate 76 service road about 1 1/2 miles northwest of Wiggins.

The 27-year-old was killed elsewhere and his body dumped behind a snowdrift in a clump of weeds sometime Saturday or Sunday, according to authorities.

Morgan County Sheriff Gale Davey said it is hard to determine the time of death because the weather conditions had frozen the body.

He noted that additional tests being conducted in Loveland might reveal something about the time of death. It is also unknown for sure where Trimbach was killed.

Morgan County Coroner Pat Jolliffe said evidence indicates that Trimbach was slain sometime Saturday afternoon, on his wedding anniversary. The cause of death was the head wound, he added.

It is also believed that Trimbach was killed at close range.

"It probably was not a contact wound, but was at close range," Davey said.

Thirteenth Judicial District Attorney Chris Hefty, who witnessed the autopsy, said there "were no

William E. Trimbach

obvious signs of a struggle."

"There were three (bullet) wounds, and we can't tell for sure what happened," Hefty said.

Jolliffe said it is believed that a nine-millimeter weapon was used. Authorities cannot be certain because no bullets were recovered.

"They went through," Jolliffe said.

Despite the lack of information, Davey said he is confident a suspect will be found.

"Someone had to see something," he said. "The killer was with him for quite a while."

Trimbach was last seen leaving his house in Stoneham between 9 and 11 a.m. Saturday in a sporty, white car driven by a man described as a bearded male with short, brown hair. Trimbach was found dead Sunday at 11:25 a.m.

Anyone who saw Trimbach after Saturday morning or observed the driver of the car is urged to call the Morgan County Sheriff's Department at 867-3300.

No suspects yet in man's murder

By JOEL KLEG
Times Staff Writer

Deputies have no suspects in the
murder of a 27-year-old Stoneham
man whose bullet-torn body was
found Sunday near Wiggins.

William "Billy" E. Trimbach's
body was found 1 1/2 miles north-
east of Wiggins by a woman re-
turning from church.

However, according to Morgan
County Coroner Pat Jolliffe, Trim-
bach was killed somewhere else
Saturday afternoon, and his body
was dumped at the Wiggins scene
along an Interstate 76 service road.

Morgan County Sheriff Gale
Davey said this morning that al-
though no suspects have been iden-
tified, he is optimistic the case will
be solved.

"We are getting a number of
calls, and I am real confident some-
one is going to give us some infor-
mation that is going to help us
come up with a reliable suspect,"
Davey said. "We are very hopeful."

Also, a Morgan County Rural
Electric Association official clarified
a statement made in a Times story
Monday that an MCREA driver
spotted Trimbach's body Sunday
morning but thought it was a man-
nequin.

Larry Ortman, REA office man-
ager, said those who had seen it
were contracted meter readers with
an REA decal on their truck. "We
have an intense safety program be-

cause of all the situations we could
run into in rural areas, and our
people are trained in CPR" and to
stop and help someone in trouble,
Ortman said.

Although Davey said he is fairly
certain what type of weapon was
used in the slaying, he would only
verify comments by Jolliffe that it
was a nine-millimeter weapon used
at close range.

Trimbach was shot three times,
once each to the head, midsection
and left arm. Jolliffe said the head
shot was the fatal shot.

According to Greeley Tribune
reports, police sources said Trim-
bach's wife's ex-husband in Reno
might be a suspect. Davey said he
has not been contacted but proba-
bly will be.

Davey added that the ex-hus-
band was called Sunday afternoon
by his 9-year-old son who lived
with Trimbach. The sheriff added
that the ex-husband would have
had time to commit the crime Sat-
urday and return to Nevada by
Sunday.

Authorities are also checking into
the possibility that Trimbach had
accumulated debts, including gam-
bling debts, while in Nevada, ac-
cording to Davey.

However, the sheriff said there
was no proof the victim was in debt
trouble. He added that inquiring
into such matters is standard in
homicide investigations.

Bea Romer slates local visit on Head Start plan

Colorado First Lady Bea Romer
will visit Fort Morgan in March as
part of a four-month series of visits
to promote a closer alliance among
Colorado Head Start programs, the
communities they serve and the
state.

Romer kicked off the visits Tues-
day in Fort Collins. She plans to
visit Akron, Fort Morgan and Iliff
March 8-9.

The visits will help introduce the
Head Start-State Collaboration
Grant Colorado received from the
U.S. Department of Health and
Human Services. The grant will
provide \$100,000 annually over a
five-year period beginning this

year to promote Head Start's in-
volvement in state policy develop-
ment for families and children.
Colorado is one of 22 states to re-
ceive the grant.

Romer said, "Head Start pro-
vides critical services to low-in-
come children and their families.
This grant will allow us to explore
ways we can form partnerships be-
tween Head Start and state pro-
grams and agencies so we can
bring the best possible services to
Colorado children and families. We
must combine our efforts to ensure
that Colorado's children get the
best start possible."

Man found murdered near Wiggins

By JOEL KLEG
Times Staff Writer

A 27-year-old Stoneham man was murdered over the weekend and his body dumped in a clump of weeds behind a snow drift between County Roads 2 and 3 on the north Interstate 76 service road about 1 1/2 miles northwest of Wiggins.

William "Billy" E. Trimbach's body, with bullet wounds to the head and midsection, was found by a Wiggins area woman who drove by the area Sunday at 11:25 a.m. on her way home from church.

The woman, who is not being identified at the request of Morgan County Sheriff Gale Davey, said she thought the body was a large

bird, but as she looked closer, she realized it was not.

"Oh my God, that is a person," she remembered thinking to herself. "I saw blood coming from the head and thought he might be alive."

The woman, however, did not approach the body and called authorities instead.

"I was too upset," she recalled. But the woman was not the first person to see the body. A Morgan County Rural Electric Association (REA) driver spotted it Sunday about 10:30 a.m. but thought it was a mannequin.

Davey said law enforcement officials are baffled by the murder, and there are no suspects or motives

"The kid (Trimbach) had a super reputation," the sheriff said. "We can't come up with any reason to kill him."

But motive and suspects are not the only things law enforcement officials are unsure of as the location of the slaying has yet to be determined.

Davey said police are fairly certain the killing did not occur where the body was found.

"Our investigation indicated that the victim was killed elsewhere and was just deposited there in the field," Davey said. He pointed to drag marks and the lack of substantial blood quantities at the scene.

Trimbach was reported missing

to the Weld County Sheriff's Department at 6 a.m. Sunday, according to Weld County Sheriff's Deputy Tom Johnson. By 6:30 a.m. Trimbach's description had been entered into the computer on statewide and national law enforcement networks.

He was last seen by his 9-year-old son leaving his garage in a white, sporty car with a passenger sometime between 9 and 11 a.m. Saturday, according to Johnson.

The occupant, whom Davey described as a bearded male with brown, short hair, is being sought for questioning.

However, Davey said he did not know if the passenger would be a

suspect because "we do not know what happened from that point on."

It is believed the passenger came to the garage on the pretense of a service call, Johnson said. Apparently, it was common for people to come to seek assistance from Trimbach, who was married with two children and moved to the area within the last year from Nevada.

While police kept an eye out for Trimbach, the family had contacted several friends, and area pilots, including one from Brush, took to the skies searching for the victim. The search was called off after Brush insurance agent Mike Boehm and Tim Frasco, a Morgan County de-

tention sergeant, identified the body.

An autopsy on the body was to be performed today in Loveland, where the body was transported this morning.

Morgan County Coroner Pat Jolliffe said it was impossible to determine the time of death or stage of rigor mortis the body was found in because it was frozen by the time authorities began their investigation.

"It is hard to say what stage of rigor mortis it was in or if there was any at all," Jolliffe said. "It was too hard to tell."

Chemical tests to be conducted during the autopsy should be more revealing, according to Jolliffe.

Don Laster/Fort Morgan Times

A body of evidence

Investigators gather evidence around the body of William "Billy" E. Trimbach, 27, Stoneham, discovered by a motorist near Interstate 76 service road and County Road 3 in Wiggins Sunday morning. From left, Brett Snelson and Larry Dodge of

Jolliffe Mortuary and Morgan County Sheriff's Investigators Don Wood, Jim Crone and Marlon Robertson search through the snow for clues to the murder.

Energetic educator an integral part of Morgan's museum

(Editor's note: This is part of a continuing series entitled Morgan County Accents which will focus on the different individuals in our community who accent the Morgan County personality. A story will appear in The Times every Monday. If you have someone you would like to suggest as a subject of this weekly Times feature, call Jared Fiel at 867-5651.)

By JARED FIEL
Times Staff Writer

Maggie Stephens brings a lot of life to local history.

The energetic transplanted Southlander has been an integral part of the Fort Morgan Museum since

ment for the museum educator's position, Stephens has been learning all the local history and listens to many of the older citizens who tell her stories of the way life was back then.

ANATOMIC DIAGNOSES

- I. CAUSE OF DEATH: CLOSE RANGE GUNSHOT WOUND TO RIGHT CHEEK.
- II. DIRECTLY RELATED TO (I) ABOVE:
 - A) CEREBELLAR, PONTINE, AND BRAIN STEM LACERATIONS AND CONTUSIONS;
 - B) BASILAR SKULL FRACTURES WITH UPWARD DISPLACEMENT, CAUSING INJURIES (II A) ABOVE;
 - C) FACIAL BONE FRACTURES;
 - D) ASPIRATION OF BLOOD INTO LUNGS, AGONAL.
- III. SIGNIFICANT OTHER FINDINGS:
 - A) GUNSHOT WOUND TO LEFT UPPER QUADRANT OF ANTERIOR ABDOMEN;
 - 1) LACERATED LEFT LOBE OF LIVER;
 - 2) LACERATED STOMACH;
 - 3) LACERATED SMALL BOWEL AND SMALL BOWEL MESENTERY;
 - 4) LACERATED LEFT KIDNEY;
 - 5) HEMOTHORAX - 1,000 ml.
 - B) GUNSHOT WOUND TO VENTRAL SURFACE OF LEFT FOREARM.
- IV. OTHER FINDINGS:
 - A) ATHEROSCLEROSIS, MILD, GENERALIZED;
 - B) GASTRITIS, CHRONIC, DIFFUSE, MILD, WITH REACTIVE GLANDULAR ATYPICIA;
 - C) MICROFOCUS OF RENAL PAPILLAR SCARRING, ETIOLOGY UNKNOWN.
- V. TOXICOLOGY:
 - A) BLOOD ETHANOL - NEGATIVE;
 - B) VITREOUS ETHANOL - NEGATIVE;
 - C) URINE DRUG SCREEN - NEGATIVE FOR ALL SUBSTANCES ANALYZED FOR;
 - D) HIV - NEGATIVE.

SUMMARY: The decedent sustained three gunshot wounds, the result of either two or three shots. The fatal gunshot wound was to the right cheek, which actually traversed beneath

Autopsy No. AP93-06

Autopsy Report - SUMMARY, continued

the skull causing upward fractures of calvarial bones which lacerated the brain. Another gunshot wound caused serious injuries to the liver, left kidney, stomach, small bowel and mesentery. This wound could well have been fatal had it been the only wound sustained, depending on emergency services available to be performed. The third gunshot wound was a superficial soft tissue wound to the ventral surface of the left forearm and may be a co-incident wound caused by the same shot as the abdominal wound.

The manner of death is homicide.

TRIMBACH, BILLY
Morgan County Colorado
Autopsy No. AP93-06

GROSS EXAMINATION

GENERAL:

This autopsy was performed at the request of Pat Jolliffe, Morgan County Colorado Coroner. The autopsy was performed in the morgue at McKee Medical Center in Loveland, Colorado beginning at 12:30 p.m. on February 15, 1993 and ending at 2:00 p.m. on the same date. In attendance at the autopsy were David Martin and Jim Crone of the Morgan County Sheriff's Office, and Chris Hefty of the District Attorney's Office. I was also assisted by David Gilmour of the Larimer County Coroner's Office. All photography and video was supplied by the Morgan County Sheriff's Office. All trace evidence was turned over directly to the Morgan County Sheriff's Office. Following the autopsy, fingerprinting was performed by David Gilmour and the two members of the Morgan County Sheriff's Office.

EXTERNAL EXAMINATION:

The unembalmed body is that of a well-developed, well-nourished Caucasian male appearing the reported age of 26 years. The body has a measured length of 5'11" and an estimated weight of 170 pounds. At the time of autopsy the body is at room to somewhat warm refrigerator temperature, and there is posterior dependent lividity. Rigor mortis is complete in all joints.

The body is received in a clean, black zippered crash bag with the zipper covered with a piece of clear, wide evidence type tape. The body is clothed in the following: a light cotton, gray, short-sleeved casual pullover; a pair of pale blue denim pants with a drawcord waist; a pair of gray cotton briefs; a pair of gray and black cotton socks with black stripes at the top; and a pair of brown, rough-out leather boots. In the left front pocket of the jeans is a small square of glassine paper and a gold-colored pocket watch attached to a small, two-bladed folding pocket knife with a thin chain. In the right front pocket of the jeans are four one-dollar bills.

The head is normocephalic and is covered by abundant, medium brown, wavy hair which is of medium length and extends down into the lower part of the neck, and is styled off the forehead. The scalp is untraumatized. The eyes are directed straight ahead and pupils are dilated equally at 5 mm. The irides are dark brown, the sclerae are white, and show some dehydrational changes and shrinkage, and the conjunctivae are pink. The nose is midline and the nares contain some liquid blood. The prominent feature of the face is a very close-range gunshot entry wound present beneath the right eye. The wound measures 11x8 mm and is surrounded by an area of abrasion and stippling without identifiable powder measuring 35x27 mm. Immediately above the entry wound there is a laceration of the skin. This wound is located 4.5 inches from the top of the head and 1.9 inches to the right of anterior midline. The mouth is unoccluded and the dentition is good. There is a small amount of blood in the mouth. The face is otherwise covered by a several day beard growth. The external ears are symmetrical and are untraumatized. The neck is symmetrical. In the midline of the posterior neck, only slightly to the left of midline, is a stellate, 11x4 mm gunshot exit wound without a marginal abrasion. This wound is located 7.75 inches from the top of the head and slightly to the left of posterior midline.

The chest is symmetrical and the breasts are male in nature. The abdomen is symmetrical. In the left upper quadrant of the abdomen is a gunshot entry wound being somewhat oblong

Continued

Gross Examination - External Examination, continued

and measuring 14x8 mm and having a 1.5 mm marginal abrasion. The wound is surrounded by a horizontally-aligned, 81x42 mm area of bruising. The abdomen is otherwise without abnormalities and is without palpable masses. The genitalia are adult circumcised male in appearance and are untraumatized. The back and buttocks are symmetrical. In the left lower back is a 6x6 mm rounded, gunshot apparent exit wound showing no marginal abrasions but some slight lead deposition on the wound margins. This wound is 22.5 inches from the top of the head and 2.5 inches to the left of posterior midline.

The extremities are all symmetrical. On the left upper extremity, on the ventral surface of the forearm just above the wrist, are two gunshot wounds. The first is a 6x5 mm gunshot entry wound with a 1.5 mm marginal abrasion. This wound is located 10 inches from the tip of the left third digit. Immediately medial to this at a distance of 1.75 inches is a gunshot exit wound which is slightly stellate and measures 14x12 mm and does not have a marginal abrasion. This wound is located 10.5 inches from the tip of the left third digit. On the left wrist is a Citizen brand, rectangular-shaped gold-colored watch and band. The hands are slightly dirty with some black grit or grime, and also are partially coated with a small amount of blood. The fingernails are relatively short and are irregular but show no evidence of fresh tears. The lower extremities are symmetrical and are untraumatized.

CENTRAL NERVOUS SYSTEM:

The scalp is opened in the usual manner revealing no abnormalities. The calvarium is opened in the usual manner. The dura mater is grossly normal. The pia and arachnoid membranes are stained with blood around the cerebellum. The brain is removed and weighs 1350 gm. The blood vessels at the base of the brain and circle of Willis are grossly normal and are without congenital abnormalities. There is no evidence of pressure effect in the cerebrum or cerebellum. The prominent feature is moderate lacerations and contusions of the cerebellum, predominantly the right lobe. Serial sectioning of the brain reveals additional areas of punctate contusion present in the pons and brain stem. The dura is stripped from the calvarium and bones at the base of the brain, revealing a blow-out fracture of the wing of the right temporal bone with a large bone flap extending upward into the right cerebellar space, and an additional fracture line extending posteriorly from that point into the occipital bone. The entry gunshot wound to the face has been probed, revealing the bullet path to proceed through the facial bones on the right and just beneath the right temporal bone, causing an upward blow-out fracture with the track then extending posteriorly immediately beneath the occipital bone, where it exits the posterior neck.

The cervical spinal canal is explored from above and below by probing and palpation, revealing no evidence of fracture or dislocation.

INTERNAL EXAMINATION:

The thorax and abdomen are opened with the usual Y-shaped incision and all organs are noted to be in normal anatomical locations. Pleural and peritoneal cavities are smooth and are free of adhesions. Each hemithorax is free of abnormal fluid collections. The peritoneal cavity contains approximately 1000 ml of liquid blood.

Heart

The heart is normal in size and outline, weighing 300 gm. The pericardial sac contains a physiologic amount of clear yellow serous fluid. Epicardial surfaces are smooth and are free of

Gross Examination - Internal Examination (Heart), continued

adhesions and plaques. Epicardial fat is normal in amount and distribution. Coronary arteries run normal anatomical courses and are uninvolved with atherosclerosis. The myocardium is red-brown and firm, and without areas of old or recent infarction. The left ventricle ranges from 15 to 16 mm in thickness, and the right ventricle is 5 mm in thickness. Endocardial surfaces are smooth, thin, gray and without plaques. All valve leaflets are soft, thin, pliable, gray and translucent. Chordae tendineae are thin and delicate. All valve ring circumferences are within normal limits.

Blood Vessels

The aorta and its major branches are intermittently involved with minimal atherosclerotic plaques and fatty streaks, principally in the abdominal aortic region. Major systemic veins are free of thromboemboli.

Neck Organs

The hypopharynx and larynx are unoccluded, but the pink-tan mucosa is coated with liquid blood. Vocal cords are symmetrical and are untraumatized. The hyoid bone is not fractured. Cricoid and thyroid cartilages are grossly normal.

Trachea

The trachea and mainstem bronchi contain some blood and bloody mucus. The mucosa is light pink-tan. Tracheal hyaline cartilage rings are uniform, symmetrical, semilunar, and are untraumatized.

Thyroid

The thyroid gland weighs 8 gm. It is composed of moderately firm, glassy golden-brown tissue without gross abnormality.

Lungs

The left lung weighs 350 gm and the right lung weighs 390 gm. Pleural surfaces are without adhesions, as has already been mentioned. Subpleural lymphatics contain small amounts of anthracotic pigment. The parenchyma bilaterally is light pink-tan with normal crepitus alternating with a few segmental areas which are red to red-purple and are consistent with aspirated blood. Airways contain a small amount of liquid blood. The vasculature is free of thromboemboli.

Liver

The liver weighs 1840 gm. The main feature is a gunshot wound which proceeds through the mid to lateral aspect of the left lobe of the liver. Otherwise, the liver has a thin, gray capsule and moderately firm, friable, medium brown parenchyma without gross abnormality.

Biliary Tract

The gallbladder contains viscous, yellow-green bile which is able to be expressed into the duodenum. No gross abnormalities are identified.

Continued

TRIMBACH, BILLY
Morgan County Colorado
Autopsy No. AP93-06

Gross Examination - Internal Examination, continued

Pancreas

The pancreas weighs 140 gm. It is composed of moderately firm, pliable, light tan lobular tissue which is partially contused and hemorrhagic in the midportion of the tail. The main pancreatic duct is patent, and the ampulla of Vater is patent and normally formed.

Spleen

The spleen weighs 210 gm. The capsule is smooth, thin, and gray. The parenchyma is soft, friable, and deep purple with vague gray germinal centers.

Adrenal Glands

The adrenal glands have a combined weight of 7 gm. They consist of friable, yellow cortex and red-brown medulla without gross abnormality. The periadrenal adipose tissue on the left is hemorrhagic.

Kidneys

The main feature is a widespread laceration of the upper pole of the left kidney. Otherwise, each kidney weighs 150 gm. Capsules strip easily to reveal smooth, non-granular cortical surfaces. Cortical thicknesses are normal bilaterally and corticomedullary differentiation is good. Caliceal collecting systems and ureters are normal bilaterally with the exception of the gunshot wound on the left.

Bladder

The bladder is full and somewhat distended, containing approximately 150 ml of clear, light to medium yellow urine. The walls are of normal to decreased thickness, and the mucosa is soft and pink-tan with normal to somewhat flattened mucosal folds.

Prostate

Normal in size and consistency to palpation.

Gastrointestinal Tract

The esophagus is coated with liquid blood. The walls are of normal thickness. The mucosa consists of longitudinally-oriented gray-white furrows without abnormality. The gastroesophageal junction is normally formed. The stomach contains approximately 200 ml of purple, freshly clotted and liquid blood. Food is not identifiable. There are no unusual or suspicious odors, and pills and pill fragments are not seen. The stomach body is perforated both anteriorly and posteriorly by the gunshot wound. Gastric walls are of normal thickness and the mucosa is soft and red-purple with blood staining. Pills and pill fragments are not seen. The pylorus is patent and normally formed. The small bowel shows several contused and lacerated loops as well as a laceration of the small bowel mesentery on the left upper quadrant region. The vermiform appendix is present. The colon contains moderate amounts of medium brown fecal material and gas.

Lymphatics

Thoracic and abdominal lymphatics are identified and consist of well-encapsulated light pink-tan structures without gross abnormality.

Continued

TRIMBATH, BILLY
Morgan County Colorado
Autopsy No. AP93-06

Gross Examination - Internal Examination, continued

Musculoskeletal System

Muscular development is good. Aside from the facial and calvarial fractures from the gunshot wound to the face, no bony abnormalities are identified.

TOXICOLOGY:

The following specimens are retained for toxicology and placed in the general February lockbox tray in the morgue at McKee Medical Center: 1 gray-topped tube of blood expressed from the iliac vessels; 2 red-topped tubes of blood from blood pooled in the thoracic cavity; 2 red-topped tubes of vitreous fluid (one from each eye); 1 container of urine; and 1 container of stomach contents.

GUNSHOT SUMMARY:

The body has been involved with either two or three gunshot wounds. These are described below, and the sequence in which they are described does not imply order or sequence in actual firing.

Gunshot Wound designated No. 1 is a gunshot wound to the right face beneath the eye. This wound proceeds anterior to posterior, right to left at an angle of less than 5°, and superior to inferior at an angle of approximately 5° or less. The gunshot wound exits the left posterior neck just lateral to midline.

The second gunshot wound is an entry gunshot wound in the left upper quadrant of the abdomen. This wound proceeds anterior to posterior, right to left at an angle of less than 5°, and superior to inferior at an angle of less than 5°. The wound proceeds through the left lobe of the liver, the stomach, several loops of small bowel mesentery, and the upper pole of the left kidney, also contusing the midportion of the tail of the pancreas, and causing left periadrenal hemorrhage. The bullet exits the body in the left lower back.

A possible third gunshot wound which may actually be an entry and exit of the same bullet that entered the left upper quadrant of the abdomen, are the gunshot wounds on the left forearm. This gunshot wound proceeds only through soft tissues on the ventral surface of the forearm proceeding from its lateral side toward its medial side.

TRACE EVIDENCE:

The following items are turned over to the Morgan County Sheriff's Office: all clothing which is individually bagged; pulled head hair; pulled pubic hair; oral swabs; water-moistened penile swabs; anal swabs; water-moistened swabs of blood from each hand; fingernail scrapings from each hand; 1 lavender-topped tube of blood from blood pooled in the thorax; and gunshot residue swabs from each hand.

TRIMBACH, BILLY
Albany County Wyoming
Autopsy No. AP93-06

MICROSCOPIC EXAMINATION

Lungs

Alveoli are approximately normally expanded. Some alveoli are partially to completely filled with fresh blood. There is no evidence of an inflammatory infiltrate. Larger airways are unoccluded but do contain some erythrocytes and denuded epithelial cells. The vasculature is free of thromboemboli.

Trachea

There is diffuse incomplete and complete squamous metaplasia of the mucosa.

Aorta

There are minimal atherosclerotic changes in a few microfoci of the intima.

Thyroid

No pathologic diagnosis.

Spleen

No pathologic diagnosis.

Heart

There is no evidence of acute infarction or old scarring.

Liver

Hepatocytes are uniform and are histologically normal. Centrilobular regions are inconspicuous. Portal areas are also inconspicuous and show no evidence of fibrosis, inflammation, bile duct proliferation, or bilistasis.

Pancreas

Postmortem autolysis obscures most histologic detail. No antemortem abnormalities are, however, identified.

Kidneys

Glomeruli, tubules, interstitium and blood vessels are all histologically normal except for a portion of one papilla which shows fibrous scarring which contracts and obliterates scattered tubules.

Adrenal Glands

No pathologic diagnosis.

Stomach

The lamina propria contains a diffusely patchy, chronic inflammatory infiltrate of lymphocytes and plasma cells, with scattered lymphoid aggregates having follicle centers present in many areas. The gastric mucosa focally shows reactive nuclear enlargement and hyperchromatism.

Continued

TRIMBACH, BILLY
Albany County Wyoming
Autopsy No. AP93-06

Microscopic Examination, continued

Esophagus

No pathologic diagnosis.

Bladder

No pathologic diagnosis.

Central Nervous System

The slides show areas of contusion manifest as extravasation of erythrocytes into perivascular and perineuronal locations. The leptomeninges also are focally hemorrhagic. Oxygen-sensitive cells in both cerebrum and cerebellum show no evidence of acute hypoxic change.

HUMAN RIGHTS COMMISSION

MARC RACICOT, GOVERNOR

P.O. BOX 1728

STATE OF MONTANA

(406) 444-2884
FAX (406) 444-2798

HELENA, MONTANA 59624

April 4, 1994

Cindy Trimbach
633 West Quartz Street
Butte, MT 59701

SUBJECT: Your letter received on March 30, 1994

Dear Ms. Trimbach:

Enclosed is a brochure explaining the Montana Human Rights Act and the authority of the Montana Human Rights Commission. From the information you provided in your letter, it appears that the Commission does not have jurisdiction to investigate your complaint because the alleged violation took place outside of the state of Montana. Further, the facts you describe do not suggest unlawful discrimination under the laws administered by the Commission.

If you disagree with my conclusion that the Commission lacks jurisdiction you may file your own complaint with the Commission. A complaint must be written and must state the name and address of the party you are filing the complaint against, the date the alleged action occurred and a brief description of the particulars of the complaint. You must sign and date the complaint and include a statement that the complaint is true to the best of your knowledge and belief and your signature must be notarized.

If your written complaint is within the Human Rights Commission's jurisdiction, the Commission staff will docket and investigate the complaint. If your complaint is not within the Commission's jurisdiction, the Commission staff will docket the complaint and issue a "right-to-sue letter," pursuant to Section 49-2-509(3)(a), M.C.A., so that you may file the complaint in district court if you wish to pursue the matter.

Sincerely,

A handwritten signature in cursive script that reads "Anne L. MacIntyre".

Anne L. MacIntyre
Administrator
Human Rights Commission

OFFICE OF THE GOVERNOR
STATE OF MONTANA

MARC RACICOT
GOVERNOR

STATE CAPITOL
HELENA, MONTANA 59620-0801

April 15, 1994

Mr. Bob Flynn
Advocate for Cindy Trimbach
827 West Broadway
Butte, Montana 59601

Dear Mr. Flynn:

On March 31, 1994 I wrote a letter to Mr. Larry Presley, Unit Chief of the FBI Lab/DNA Analysis, in Washington D.C. The purpose of my letter was asking him to expedite evidence sent to the lab by the Morgan County Sheriff's Department at Fort Morgan, Colorado pertaining to the murder of William Trimbach.

Mr. Presley called my office on April 13, 1994. He stated that their computer records did not show any evidence being sent or received by the lab and that the lab did not have a protocol to do DNA testing on hair samples. He further stated that if he had been contacted regarding such testing he would have recommended the evidence be sent to labs that could analyze the samples. Since the murder took place in Colorado he felt that the Colorado Analytical Genetic Testing lab in Denver could have been recommended. Mr. Presley gave me the telephone number of the lab as being (303)-750-2023.

I hope this information will be beneficial and that authorized persons working in behalf of Mrs. Trimbach will be able to locate the missing evidence.

Sincerely,

A handwritten signature in cursive script, reading "Myrna Omholt-Mason".
