THE WHITE HOUSE

WASHINGTON

August 5, 1998

MEMORANDUM FOR PRESIDENTIAL ADVANCE OFFICE

FROM: 
BARRINGTON N. NASH, MD
WHITE HOUSE MEDICAL UNIT

SUBJECT: Medical Advisory for Russia & Ireland, 9/98

The following is the WHMU travel advisory for the President's trip to Russia and Ireland in September 1998. This information is applicable for travel in the Moscow area and throughout Ireland for a period of less than 30 days. If travel is anticipated into other areas, please contact the Medical Unit for additional information. Dr. Mariano, Dr. Nash, and MAJ McDaniel will travel on this trip.

Specific immunizations recommended for this trip (in addition to insuring your routine immunizations { polio, tetanus, measles/mumps/rubella, influenza } are up to date) are:

HAVRIX (Hepatitis A vaccine)
Typhoid

From August 10 to August 31, 1998 the Medical Unit Clinic will only be opened on 17-18 August, and 24-25 August to get these vaccines (due to short staffing). If you need these vaccines we recommend you come before August 10th. You must bring your shot record with you in order to get immunizations.

Some travellers to Moscow have reported being told that **Diphtheria** vaccination is required for entrance. According to the Russian Embassy this is not the case. Most Americans are fully immunized for diphtheria as part of their routine immunizations (DPT, Td).

As with most trips, the major health threat is Traveler's diarrhea. The best approach to this problem is prevention:

- Drink (and brush teeth with) only bottled water or beverages made from bottled water.**
- Do not use ice cubes!**
- Do not eat raw or poorly cooked meat or seafood (cooked food should be eaten while still hot).**
- Only eat fruit that you peel yourself.**
- Drink/eat only Pasteurized dairy products.**
- Avoid food from street vendors.**

General health issues common to all overseas travel include:

Ensure you bring a supply of any prescription medicines (bring twice what you expect to need).

Bring a small supply of over-the-counter cold remedies, Tylenol, Aspirin, and Band-aids.

Don't forget any personal needs such as an extra pair of glasses, contact lens supplies, hygiene products. Things that are easily replaceable in the States are not so easily found overseas.

Anyone with chronic medical problems should contact their personal physician before traveling to check on any specific recommendations they may have. Hospitals in the major cities we are traveling to are reasonably advanced, but they still may not be accessible or be up to the same standards/cleanliness that you are used to.

Jet lag is always a concern on a trip of this duration. Most authorities do NOT recommend "sleeping pills" for long distance travel as they tend to produce "less effective" sleep. There are some situations where such medication may be helpful, although we would prefer that you discuss this issue with your personal physician prior to departure. Some helpful techniques for minimizing jet lag include:

Avoid caffeine and alcohol while traveling.

Practice destination sleep-wake cycles as soon as possible.

Try to eat and exercise at regular intervals.

Many White House personnel have passports reflecting recent travel to areas of the world in which Yellow Fever is endemic (e.g. Africa). While Yellow Fever is not a problem on this trip, countries can require certification of vaccination against Yellow Fever if you have travelled to Yellow Fever endemic areas. This certification is part of your personal yellow shot record. Take your shot record with you if you travelled to Ghana, Rwanda, Senegal, or Uganda.

If you have further questions or need additional information please feel free to call the clinic at 7-2476, or stop by.
