Subject: CBS Morning NEWS very interested in NEw markets

Barry Toiv called me and he said that the new morning show on CBS (Bryant Gumble's show) is very interested doing a piece on the President's New markets trip. They are looking to find out (when the information is available) where we will be going and what types of things we'll be doing.

Barry asked if we were doing Hartford on the 18th and if the trip was definite for the 1st week of November. I told him nothing has been finalized or announced as of yet and we're still working on the site selection for the trip, but we've narrowed things down. He understands that it's still early but just asked that he is kept in the loop so he can give the best info to CBS when the time comes. I told him I'd be happy to. Just wanted to keep you informed as well. thanks.
